GENERAL DEPARTMENT—(EMIGRATION)

NOTIFICATION—No 780 I G

The 3rd November 1898 —In modification of the rules promulgated with Notification No 784, dated the 28th February 1894, the Lieutenant-Governor, with the sanction of the Government of India, is pleased, in exercise of the powers conferred by sections 143, 144 and 145 of the Assam Labour and Emigration Act, I of 1882, to direct the publication of the following revised rules, for general information

F A SLACK,
Offg Secy to the Govt of Bengal

RULES, FORMS AND SCHEDULES UNDER THE ASSAM LABOUR AND EMIGRATION ACT I OF 1882.

CHAPTER I

GENERAL RULES

Inclusion of schedules and forms in the rules.

1 The schedules and forms attached to these rules are prescribed for the several purposes specified in the heading of each, and shall be taken as part of the rules.

Fees payable under the Act.

2 The following shall be the amount of the several fees payable under the provisions of the Act —

(1) Under section 18 the fee for a contractor's license (form No 1) shall be Rs 100, and that for a sub contractor's license (form No 2) Rs 50

(2) Under section 24 the fee for a recruiter's license shall be Rs 16

(3) Under section 30 the fee payable to a medical officer for each labourer or dependent placed before him for examination under certificate (form No 8) shall be two annas from the Inland Labour Transport Fund

(4) Under sections 35 and 68 the fee for each person produced before a registering officer for the purpose of being registered as a labourer (forms Nos 9 and 26 respectively) shall be one rupee

(5) Under sections 42 (B) and 71 the fee payable to a medical officer for each labourer examined by him shall be 8 annas

(6) Under section 90 the fee payable on a license for a vessel to carry passengers for not more than one voyage shall be Rs 16, provided that the fee shall not exceed 4 annas per head of the total number of passengers which the vessel is capable of carrying, and that for the license of a vessel to carry passengers for any term not exceeding one year shall be Rs 50

Treatment, &c, of dependents of labourers

3 The same provision in every respect shall be made for the dependents of labourers as for the labourers themselves, and all rules regulating the treatment and transport of labourers shall be applicable to their dependents also

Subordination of emigration officers

4 Every Superintendent of Emigration, Embarkation Agent, and Medical Inspector appointed by the Lieutenant-Governor of Bengal under section 8 of the Act shall act under general instructions received through the Superintendent of Emigration, Calcutta, and all reports and returns shall be made through such Superintendent

Annual reports of emigration officers.

5 Every Superintendent of Emigration, Embarkation Agent, and Medical Inspector (appointed by the Lieutenant Governor of Bengal), shall forward, as early as possible, and not later than two months after the close of every calendar year an annual report reviewing all the operations of that year connected with the recruitment, accommodation in depôts, and transport of emigrants within the local limits of his jurisdiction to the Superintendent of Emigration, Calcutta, and such Superintendent shall, not later than two months thereafter, submit to the Government of Bengal his annual report for the same period Such report shall be based on the information available in his own office and on that furnished by the aforesaid officers in their respective reports, and shall treat of the following points, viz, the management and condition of the depots licensed under the Act, the conduct of recruitment, the sickness and mortality in depôts, the number of emigrants despatched to the tea districts, the results of the passage thereto with special reference to mortality, and such other subjects as may be prescribed by the Government of Bengal

CHAPTER II

CONTRACTORS SYSTEM OF RECRUITMENT

PART I —*Licenses*

Contractor's application for recruiter's license.

6. Every contractor or sub-contractor desiring to obtain a license (form No 5) for any intending recruiter shall submit an application on his behalf to the Superintendent of Emigration, Calcutta, and shall forward therewith a certificate of good character in the prescribed form (No 3), obtained from the Magistrate of the district of which such intending recruiter is a resident If the

renewal of a recruiting license, the term of which has expired, be desired, he shall forward with his application a certificate of identity of the recruiter concerned in the prescribed form (No 4) similarly obtained, or shall direct such recruiter to attend at the office of the Superintendent for identification, when application for renewal of his license is submitted The certificate to be given by a contractor to a recruiter under section 26 of the Act shall be in form No 6

PART II —*Depôts*

7 *Sites of depôts* —The site of every depôt shall be cleared, levelled and drained, and all exposed wells and tanks shall be properly fenced in and protected from surface drainage which, if necessary, may be required to be effected by the construction of masonry drains

No depots shall be licensed until the Medical Inspector has granted a certificate to the effect that he approves of the site, and that the requirements of the preceding portion of this rule have been complied with

Depôt sleeping sheds

8 Sleeping sheds shall be distinct from cooking sheds, and shall be provided with raised platforms or *machans*, high enough to admit of the ground below being readily cleaned, and mats shall be supplied in all cases where such platforms or *machans* are not boarded

The tops of the sleeping *machans* shall be so constructed that they can be easily detached and carried outside the house for purposes of disinfection

Sleeping shed accommodation according to depôt license

9 In each sleeping shed the number of emigrants to be accommodated shall be calculated at the uniform rate of not less than 14 superficial feet of space to each person, and shall never exceed that specified in the depot license (form No. 7) granted by the Superintendent of Emigration, a copy of which shall be posted in a conspicuous place for the information of visiting officers

Ventilation of depôt sleeping sheds.

10 Air and light shall be admitted freely into sleeping sheds through large openings for doors and windows, and through open spaces sheltered by the eaves, and movable *jhamps* shall be fitted to all openings intended for doors and windows

Depôt cooking sheds.

11 Cooking sheds, with fire-places or *chulas* arranged in a row, shall have mud-plastered walls, and, wherever possible, tiled roofs, and a proper receptacle for rice-water and other kitchen refuse shall be provided.

Depôt water supply

12 A plentiful supply of the purest water obtainable shall be always provided for drinking, cooking, and washing in clean iron tanks to be approved by the Medical Inspector Each tank shall be fitted with a padlocked cover, and with two or more large strong taps of simple construction, and in all cases, where any doubt exists in the opinion of the Medical Inspector as to the uniform purity of the water supplied, each such tank shall be fitted also with a suitable and sufficient filtering apparatus.

Depôt latrines

13 Latrines shall be separately provided for males and females, properly roofed, throughly well ventilated and lighted, and placed in an accessible position The plan of the latrines, and the system adopted for the daily removal of night-soil and other refuse matter, shall be subjected to the approval of the Medical Inspector

Depôt hospital

14 A hospital for ordinary cases, with separate wards for male and female patients, shall be provided The ward shall be dry, well raised, thoroughly ventilated, well lighted, and furnished with a separate platform or *machan* for each patient, which, when not boarded, shall be covered with matting

Depôt dispensary

15 A dispensary, with accommodation for the resident medical officer of the depôt, shall be placed in a convenient situation, and provided with such fittings and furniture as the Medical Inspector may deem necessary

PART III —*Places of accommodation*

Places of accommodation in recruiting districts.

16 The establishment in the several districts of recruitment of places for the temporary accommodation of emigrants, previous to their despatch to the depôts of contractors, shall be regulated generally by the rules relating to such depôts, subject to such modification as the Magistrate of the district may, with reference to the temporary nature of such accommodation, consider necessary

Inspection of places of accommodation by district officers

17 The Magistrate of every district of recruitment shall, in respect of all places for the accommodation of emigrants within such district, exercise the powers vested in the Superintendent for the supervision of depots All such places shall be regularly inspected by the Magistrate and by the officers authorized in that behalf by such Magistrate under the Act

Responsibility of persons in charge of places of accommodation

18 The sub contractors, or recruiters in charge of places for the accommodation of emigrants, shall be responsible for any irregularities that may be committed in connection with the management of such places, and they shall keep such registers and submit such reports and returns to the Magistrate having jurisdiction as he may require

PART IV —*Depôt management*

19 The Superintendent, or his assistant, shall regularly visit every depôt when accommodating emigrants, and shall see that the provisions of the Act are fully carried out in the case of all labourers and their dependents arriving at such depôt, and that the terms of their engagement to work in the labour districts are thoroughly understood by them

Supervision of depôts by Superintendent.

20 The sanitary state of the depôts shall be the special care of the Medical Inspector He shall visit the depôts regularly, and see that all necessary precautions are taken against communicable disease, that the hospital and other medical arrangements at the depots are sufficient, that all emigrants unprotected against small-pox are properly vaccinated, and that the depôt arrangements generally for the keep and health of emigrants are satisfactory from a medical point of view At the close of every month he shall submit a report of his inspections in the prescribed form (No 10) to the Superintendent

Supervision of depôts by Medical Inspector

21 At each depôt there shall be kept a visitors' book, in which the Superintendent and the Medical Inspector shall enter their orders or remarks and the dates of their visits During such visits the contractor or his agent shall, without fail, place the depôt and hospital registers before the Superintendent and the Medical Inspector respectively for inspection, and shall on no account alter or correct any entries made therein without their knowledge and sanction

Visitors book for inspecting officers.

He shall forward within 24 hours of any inspection a copy of the remarks on the inspection to the officer who made it Except in Calcutta, the inspecting officer shall send a copy of his remarks to the District Magistrate

22 Depot gates shall be in charge of a *darwan*, and shall be open from 6 A M to 6 P M Every facility shall be given by the contractor and his employés to the inspecting officers when visiting the depot at any time

Facilities for inspection of depôts.

23 All orders of the Superintendent and the Medical Inspector shall be carried out by the contractors and their employés on pain of cancellation of license, or loss of appointment respectively Should a contractor consider that any order given to him by the Superintendent or Medical Inspector is unreasonable, he shall be at liberty to appeal against such order, if passed by the Superintendent and Medical Inspector at Goalundo or Kushtia, to the Superintendent of Emigration, Calcutta, or, if passed by the Superintendent of Emigration, Calcutta, to the Government of Bengal. Until, however, the order shall have been reversed by a higher authority it must be carried out

Compliance with orders of emigration officers

24 If the contractor does not himself live in his depot premises, he shall appoint, subject to the approval of the Superintendent, a proper person as his agent, who shall reside there constantly, and conduct the business on the contractor's responsibility Every such agent shall be registered in the Superintendent's office

Appointment of depôt agent

25 Every contractor or local agent shall be responsible for any offence against the rules committed by his agent at any place in the same manner and to the same extent as though he himself had committed such offence

Infringement of rules by contractors and local agents.

26 The contractor, or his agent, shall keep depot registers in the prescribed forms (Nos 11, 14 and 21 respectively) and shall punctually and accurately make the required entries therein Monthly returns of accommodation and of sickness in depôt shall likewise be prepared in the prescribed forms (Nos. 12 and 13 respectively) and punctually forwarded to the office of the Superintendent by the 15th of the month following that for which they become due Any default in these respects, or in the submission of prescribed returns generally, when due, shall render the agent liable to loss of his appointment, and the contractor failing to adopt promptly the necessary remedial measures to cancellation of his license.

Depôt registers and returns

27 A resident medical officer to be licensed by the Medical Inspector shall be appointed by each contractor to his depôt, and his name shall be registered in the Superintendent's office He shall be paid by the contractor, but shall be directly responsible to the Medical Inspector, who shall give him written instructions for his guidance He shall not be dismissed without the consent of the Medical Inspector He shall keep a hospital register in the prescribed form (No 14), and shall, besides his other duties, assist in making out the monthly returns of sickness and mortality

Appointment of depôt medical officer.

Provided that the Medical Inspector shall have power to allow two or more depôts, on the application of the contractors or local agents to whom they belong, to entertain jointly a visiting medical officer The powers and duties of such visiting medical officer, with regard to each of the depôts in his charge, shall be the same as those of a resident medical officer, and he shall not be dismissed without the consent of the Medical Inspector

28 The contractor or local agent, either directly or through his agent, shall be responsible for the good treatment and care of the emigrants, none of whom shall be discharged from the depot without the permission of the Superintendent He shall, moreover, be responsible to the Medical Inspector specially for the sanitary state of the depot, and for the feeding, clothing and medical treatment of all the emigrants accommodated therein

Responsibility of contractors and local agents in caring for emigrants.

Quality of clothing according to approved sample

29 The clothing and blankets to be supplied to emigrants shall be according to scale, and of a quality equal to samples to be approved by the Superintendent and retained in his office

Repairs of depôt sheds

30 The sheds, hospitals, latrines, drains, &c, shall be constantly inspected, and any defects in them shall be immediately remedied Mud-plastered walls shall be white-washed once a month

Procedure on arrival of emigrants at the depôt

31 On arrival of emigrants at the depôt, they shall be inspected by the contractor or local agent, or his agent, and by the resident medical officer or the visiting medical officer, if one has been appointed under Rule 27, their names shall be entered in the depôt register, and their arrival reported, in the prescribed form (No 15) in the forenoon of the next day, to the Superintendent Any casualty occurring in depôt shall be reported in the prescribed form (No 16)

Irregularity of recruiter

32 The contractor or local agent shall ascertain that those sections of the Act, which provide for the registration and for the proper care and treatment of emigrants previous to their entering the depôt, have been complied with, and shall immediately thereafter submit a report regarding any recruiter, or other person in charge, who may be found to have infringed the law

Clean clothing for emigrants

33 Excepting those whose state of health may prevent it, all emigrants shall be compelled to bathe on their arrival in depôt, and shall thereafter be decently and cleanly clothed according to the scale laid down in schedule A appended to the rules Every article of clothing belonging to emigrants that is soiled, whether new or old, shall be thoroughly washed and dried before it is issued, and cast off ragged clothes shall be gathered up and destroyed at once

Daily muster roll of emigrants

34 A muster roll of the emigrants in depôt shall be called every morning, and the resident medical officer, after careful examination, shall enter the names of the sick in his diary, which shall be countersigned by the contractor or resident agent

Personal cleanliness of emigrants.

35 Emigrants shall wash their clothes at least twice a week when possible, and shall bathe daily A liberal supply of soap shall be provided for the purpose

Appliances for ablution purposes.

36 Emigrants shall not be permitted to wash their clothes and persons in the depot tank, but approved appliances for ablution purposes shall be specially provided on a suitable site so drained as to prevent the waste water from returning into the tank or other sources of water-supply The water for all purposes shall be frequently examined by the Medical Inspector, and the contractor or his agent shall be held responsible for any failure in providing good, wholesome water

Airing of emigrants clothing

37 Emigrants shall be compelled to dust out and air their clothes and blankets daily, and shall not be allowed to remain in damp clothes

Cooking and feeding arrangements

38 Regular hours shall be set apart for cooking and feeding, and no cooking shall be allowed at any other time except for invalids, nor in any place except the cooking sheds, where alone emigrants shall feed and smoke

Daily inspection of meals by depôt medical officer

39 The rations issued daily to each labourer and dependent in depôt shall be according to the scale laid down in schedule B, and the meals and drinking-water shall invariably be examined by the resident medical officer before being served out. When necessary, food suitable for infants and invalids (fresh milk, soup, sago, &c,) shall be freshly prepared and regularly supplied throughout the 24 hours Any neglect of infants or invalids on the part of the contractor, his agent, or resident medical officer, shall render such contractor liable to cancellation of license, or such agent or medical officer to the loss of appointment

Cleaning of cooking utensils

40 After meals the resident medical officer shall see that the cooking sheds are carefully swept out, that all cooking utensils are thoroughly cleaned, and that no stale food is secreted either by the cooks or emigrants

Employment of emigrants.

41 Excepting the hospital, latrines, drains, and receptacles for kitchen and other filth, which shall be kept constantly cleaned by the sweepers, the garden, sheds, and every part of the depôt shall be kept clean and in good order by the emigrants The emigrants, if they consent to work, shall be regularly employed, but without fatigue, and kept as much as possible in the open air

Cleanliness of depôt premises

42 The peons on duty shall be constantly about the depôt, and shall preserve order and cleanliness everywhere, especially during cooking and feeding and inspections They shall see that no jungle or rubbish is permitted to accumulate in the depot compound, that the spaces under and around the sleeping and other sheds are kept clean, and that the sweepers do their work regularly

Prevention of other use of sleeping sheds

43 No cooking, feeding, or smoking shall be permitted in the sleeping sheds, which shall be kept thoroughly clean, well ventilated, and water-tight

Prevention of overcrowding in sleeping sheds

44 The emigrants shall be properly distributed at night in their sleeping sheds, according to the number each shed is licensed to accommodate, and shall be prevented from crowding together

45 Excepting locked lanterns hung in the dispensary, hospital, and at the entrance of every sleeping shed, and a light in the durwan's room, all lights and fires shall be put out by 9 o clock at night

Extinguishing of lights at night

46. Excreta from the hospital or latrines, and filth of any description, shall not be buried within at least 1,000 feet of any source of drinking-water, nor be thrown into stagnant pools and *nalas*, which may happen to be near the depôts.

Disposal of excreta.

47 The contractor or his agent shall, under such arrangements as may be authorised, provide for the vaccination of every emigrant unprotected from small pox as soon as possible after admission into the depot

Vaccination of emigrants

48 Sick emigrants, excepting those suffering from cholera or other dangerously communicable disease, and otherwise provided for, shall not be sent to any other than the depôt hospital, nor be removed thence, nor from the depot, without the written permission of the Medical Inspector

Treatment of sick emigrants.

49 In the event of cholera or small-pox or other dangerously communicable disease appearing in the depot, every labourer or dependent attacked shall immediately be sent to the authorized hospital for treatment, and the relatives of the affected persons, if any, not accompanying the patient, shall at the same time be placed in the segregation shed situated in an isolated part of the depôt compound, and shall not be removed thence without the written permission of the Medical Inspector A report of the case shall within two hours, if the case occurs between 6 A M and 6 P M, and at or before 7 A M, if the case occurs between 6 P M and 6 A M, be submitted to the Medical Inspector, and within 24 hours the Superintendent shall be furnished with a descriptive statement, in the prescribed form (No 17), of every emigrant sent to the authorized hospital, together with the reason for such removal In the event of any emigrant sent to hospital dying or being permitted to return to the depôt, the death or re admission of such emigrant shall be similarly reported to the Superintendent in form No. 18

Procedure on outbreak of serious communicable disease

50 Clothing, blankets, and mats that have been in contact with persons suffering from dangerously communicable disease (*e g*, small-pox or cholera), hospital dressings, foul rags, and all combustible filth, shall be regularly and thoroughly burnt in a safe and suitable place, and in the presence of the resident medical officer The segregation shed, immediately it ceases to be occupied, shall be carefully cleaned out and disinfected by fumigation or other efficient means

Destruction of infected clothing

51 On the death of any intending emigrant, the contractor, or agent, or medical officer shall immediately make an inventory of the property of such emigrant in a register in the prescribed form (No 21), to be kept for the purpose, and shall forward such property as early as practicable to the office of the Superintendent for disposal The claims made by relatives in depôt, if any, shall duly be communicated to the Superintendent, who shall, after making enquiry as to the heirs, dispose of the estate as circumstances may render necessary

Disposal of property of deceased emigrants.

52 Every emigrant, whose labour contract is cancelled under the orders of Government in consequence of any irregularity that may have occurred in connection with his recruitment, shall, in the event of such contract being cancelled before the emigrant reaches the labour district, be returned to his native district together with his dependents, if any, at the expense of the contractor on whose behalf such emigrant was recruited The expense of providing an escort or of making any other arrangements that may be found necessary for ensuring the conveyance of any emigrant to his native district shall also be borne by the contractor concerned in the recruitment of such emigrant

In case of failure by the contractor concerned to pay the expenses ordered they will be paid by the officer ordering the same and recovered with interest thereon at the rate of 12 per centum from the date of payment

Disposal of irregularly recruited emigrants.

53 Emigrants who are not engaged within 30 days of their arrival at any depot shall be returned through the Superintendent's office to the districts where registered, at the expense of the contractor, except when such emigrants elect to continue in such depot in the hope of being ultimately engaged, or desire to be transferred to the depot of some other contractor, or prefer to be discharged from the depot, in which last case they shall, previous to discharge, be paid such compensation as may be ordered by the Superintendent At the close of every month the contractor or his agent shall forward to the Superintendent's office a statement in the prescribed form (No 22) of all the emigrants remaining in depot over 30 days without execution of contract

Procedure on contractors failing to provide contract.

54 All emigrants who are declared by the Medical Inspector to be unfit to emigrate or are finally rejected by the contractor or his agent, shall be returned through the Superintendent's office to the districts of registration at the expense of the contractor, unless they of their own accord insist on being discharged on the spot, when they shall be treated, save in respect of compensation, in the same manner as emigrants for whom contractors fail to find employment

Disposal of rejected emigrants

55 All rejected emigrants shall be examined by the Medical Inspector on the day that they are to be returned to their districts, and only those that are certified by him to be able to travel shall be forwarded to the Superintendent's office for disposal, while the rest shall be detained in depot under treatment until the Medical Inspector certifies to their being in a fit state to undertake the journey

Medical examination of rejected emigrants

Application for execution of labour contracts.

56 When the employer or his agent has selected in any depôt the labourers required by him, a written application for the placing of such labourers on contract shall be sent by the contractor concerned or his agent to the Superintendent of Emigration at least one day before the date fixed upon for execution of contract

Arrangements for examination of labourers.

57 Labourers intending to execute contracts, when placed before the Superintendent, shall have their copies of registration in their hands, and their blankets, clothing, and utensils, according to the scale prescribed in Schedule A, arranged beside them for inspection

Knowledge and acceptance of terms by labourers

58 The Superintendent, when placing labourers on contract, shall invariably satisfy himself that the employer or his agent has affixed his signature to all the contract papers, and that the labourers thoroughly understand and accept the terms and conditions of the contract they are executing An abstract of every such contract shall be entered in a register to be kept by the Superintendent in the prescribed form (No 19)

59 In addition to entering the descriptive marks in the form attached to the "Form of Labour Contract between Labourer and Employer," prescribed under section 9 of the Act, an impression shall be taken of each emigrant's left thumb as a further means of identification The impression shall be taken in printer's ink, off a flat piece of tin, properly prepared for the purpose, and transferred to both copies of the Contract and to the Register of Emigrants' Contracts (Form 19)

Medical inspection of contract labourers.

60 Labourers who have executed contracts shall be inspected by the Medical Inspector before despatch from the depot with reference to their fitness to travel, and to that end a written application for such final inspection shall be forwarded by the contractor concerned or his agent to the Medical Inspector at least one day previous to the date of the intended despatch of such labourers to the districts for which engaged.

CHAPTER III.

GARDEN SARDARS SYSTEM OF RECRUITMENT

Application for local agent's license

61 Every employer of labour, in charge of any estate in a labour district, desiring to obtain, under section 59 of the Act, a license (form No 24) for any person to be a local agent for the purpose of representing him in the recruiting districts, and supervising the collection of labourers by his garden sardars, shall apply to the Superintendent of Emigration authorized to grant such license, either directly or through his agent

Application for local agent's special license.

62 If any employer applies for a special license under section 62 (form No 25), on behalf of any local agent, in order to enable him to engage labourers without the intervention of a garden sardar, and such local agent is at the time representing other employers by virtue of a license under section 59, the written consent of all such other employers to the grant of such special license shall invariably be obtained and furnished with the application

Responsibility of local agent.

63 Every local agent shall be held responsible for the proper conduct of recruitment by garden sardars working under his supervision, and shall see that their recruiting operations are in all respects distinct and apart from those of contractors and their employes

Medical examination of labourers as to physical fitness.

64 In every case in which the physical fitness for labour of intending emigrants is required by any employer in his sardar's certificate (form No 23) to be determined previous to registration, the local agent, if any, or the sardar of such employer, shall ensure the necessary medical examination in form No 27, and be otherwise directly responsible for the class of labourers engaged to proceed to the labour district

Inspection of places of accommodation for sardari labourers

65 It shall be the duty of the District Magistrate either himself to inspect or to see that every place approved for the accommodation of intending emigrants recruited by garden sardars is regularly and thoroughly inspected by the officers charged with that duty

Disposal of irregularly recruited emigrants

66 Every emigrant, whose labour contract is cancelled under the orders of Government in consequence of any irregularity that may have occurred in connection with his recruitment shall, in the event of such contract being cancelled before the emigrant reaches the labour district, be returned to his native district together with his dependents, if any, at the expense of the employer on whose behalf such emigrant was recruited The expense of providing an escort or of making any other arrangements that may be found necessary for ensuring the conveyance of any emigrant to his native district shall also be borne by the employer concerned in the recruitment of such emigrant

In case of failure by the garden-sardar concerned to pay the expenses ordered, they will be paid by the officer ordering the same and recovered with interest thereon from the employer or his local agent at the rate of 12 per centum per annum from the date of payment

CHAPTER IV

TRANSPORT

PART I.—*General Rules*

Supervision of embarkation depôts.

67 The Medical Inspector at every place of embarkation shall see that the embarkation depôts are kept in proper order, and shall exercise the same powers in respect of them as are exercised in respect of depots by Medical Inspectors, reporting for the information of the Superintendent concerned any failure of contractors or their employés to attend to his orders Water and conservancy arrangements shall receive special attention

Measurement of deck space

68 Exclusive of hospital, gangways, ventilating hatches, and space for crew and attendants, and in respect of boats for rowing and baling out, properly sheltered deck space shall ordinarily be provided on board steamers, flats, or boats, throughout the year at the rate of twelve superficial feet to each emigrant proceeding to Assam, computed with reference to section 92 of the Act In steamers of the daily mail service, besides suitable and available space on main deck, fore and after cabins also may be measured for the accommodation of emigrants, at the rate per emigrant of 12 and 14 superficial feet respectively

The Emigration Agent may, however, at his discretion, permit a provision of ten superficial feet per emigrant at any time during the months of November, December and January, should he consider that amount of space sufficient

On the express steamers plying between Goalundo and Chandpur, deck space at the rate of 8 superficial feet for day travelling and 10 feet for night travelling, shall be allotted for every emigrant.

Measurement of hospital space

69 Hospital space shall be provided for five per cent of the total number of emigrants to be carried, computed with reference to section 92 of the Act, but such space shall be allotted at double the rate allowed for healthy adults, viz, twenty or twenty four superficial feet to each statute adult according to season, making reasonable allowance for space occupied by other requirements

PART II.—*Fittings of Steamers and Flats*

Shipwright's and Engineer-surveyor's certificates

70 It shall be ascertained that the term for which the Shipwright's and Engineer surveyors' certificates were granted to the vessels has not expired, or will not expire during the passage

Situation of fittings of emigrant vessels

71 All fittings shall be provided entirely on board that vessel which is to convey the emigrants to their destination, but, if necessary, and with the Medical Inspector's consent, the hospital may be provided on an upper deck of the adjoining flat or steamer, if it accompany for the entire journey

Roofs of emigrant vessels.

72 The roof of every vessel shall be strong, water-tight, and not less than five feet in height at its junction with the stanchions on either side If of corrugated-iron, the roof must not only be lined or thatched with matting, &c, as a protection against heat, but, on steamers, must also be fitted either with skylights or ridge-ventilators, which shall have a ventilating area of not less than ten superficial feet to every hundred emigrants, computed as in section 92 of the Act, accommodated on board, and shall be so constructed as to exclude rain and allow the free escape of heated air In steamers of the daily mail service, the ventilating area may be reduced to not less than six superficial feet to every hundred emigrants

Enclosure of deck space for emigrants.

73 The space measured off for emigrants shall be fitted along the sides of the vessel with a boarding three feet high, rising from the plankshear of the vessel, and with thick and sound canvas curtains hanging from roof to deck, with ventilating space under the eaves, and fastening closely to the deck below But from the months of October to March, both inclusive, the three feet boarding shall completely enclose the emigrants' deck space, and besides the side curtains, there shall be similar curtains hung, one at each end of the deck, so as to convert the entire space allotted to emigrants into a thoroughly sheltered compartment, with ventilating spaces near the roof for the exit of heated and unwholesome air This large compartment shall, moreover, be subdivided into three smaller compartments by a couple of intermediate curtains stretched right across the deck space, from one side of the vessel to the other, but these two curtains, instead of extending almost up to the roof, as those at the sides and ends must do, shall be raised to a height of six feet only, measuring from the deck upwards, the space above being left clear and open for the purposes of free ventilation In steamers of the daily mail service, the height of the boarding may be reduced to not less than two feet nine inches, such boarding shall not be continued round the stern of the vessel, but a suitable removable curtain following the iron rail may be substituted therefor

Protection of emigrants deck space against wet.

74 The space for emigrants shall be protected also against spray from the paddle-wheels, otherwise the space opposite the paddle-boxes on both sides of the steamer, and on one side of a flat, if it is to be lashed alongside during the voyage, shall not be measured for the accommodation of emigrant passengers

Casing of funnel.

75 In order to prevent the heat of the funnel from raising the temperature of the emigrants' deck, in all steamers, in which the space immediately over the engines is neither excluded and railed off nor ventilated above by skylights or other means, that portion of the funnel between such

passengers' deck and the roof shall be enclosed, at a distance of at least eighteen inches all round, by strong wooden air-shaft or casing, which shall be carried through the deck at the lower end, and through the roof at the upper, so as to afford free exit above the roof for the body of warm air immediately surrounding the funnel In steamers of the daily mail service, such wooden casing may be dispensed with, if the iron casing provided for exit of warm air is found to be sufficiently protective, but not otherwise

Situation of hospital

76 The space intended for hospital purposes shall be provided on the upper deck of the steamer or flat, and a canvas screen shall divide it off from the rest of the deck space

Compartment for dispensary

77 A suitable compartment, approved by the Medical Inspector, shall be set apart for a dispensary, and bamboos shall be fastened, fore and aft, along the central stanchions within the emigrants' deck space, in order to enable the emigrants to hang up their bundles and blankets for the day

Railing in of unprotected openings.

78 All dangerously exposed places near hatches, ladders, bathing places, latrines, communication, and landing stages, shall be securely railed-in against accidents

Embarkation and landing stages

79 Embarkation, landing, and all communicating stages likely to be used by emigrants shall be at least three feet wide, well fastened, and provided with hand-rails—a requirement that shall be strictly complied with whenever emigrants are to be embarked or landed In steamers of the daily mail service, the width of the stages shall not be less than two feet

Cabooses for emigrants

80 One or two fire-proof cabooses, fitted inside with brick and plaster, and sufficiently large to accommodate the full number of boilers, according to scale, shall be firmly secured in the after part of the vessel, and so placed as to prevent any risk of contamination from the hospital

Iron tanks for drinking water

81 Four iron water tanks, each capable of containing four hundred gallons of water, shall be provided on board, and each such tank shall be fitted with at least three moderate-sized taps, of simple construction, capable of being secured against use when desirable, and with a padlocked iron cover, besides a canvas over all to exclude dust, &c A ship's force-pump, with hose complete, shall also be provided for the exclusive purpose of supplying water to the tanks, and shall on no ground whatever, excepting an outbreak of fire on board, be otherwised used These tanks shall be conveniently placed, and filled before the arrival of the steamer at the place of embarkation, with the best water available, for the exclusive use of the emigrants The water of two of the tanks only shall be in use at the same time, the remaining two tanks being reserved as settling tanks In steamers of the daily mail service, the tanks may be reduced to two, each capable of containing 200 gallons of water, and be placed below, with a pump arrangement on deck, for the supply of water for drinking and cooking purposes through three moderate sized taps

Troughs for washing purposes.

82 Every vessel licensed to carry emigrants shall be provided with a covered trough, fitted with at least six large and simple taps, placed at such distances apart as to admit of six persons abreast washing their clothes at the same time, and connected with a fixed pump for the constant supply of water therein Two such troughs shall be provided when the number of emigrants to be carried exceeds three hundred, computed with reference to section 92 of the Act

Arrangements for bathing of emigrants

83 A sufficiently large and well protected space for bathing shall be set apart for the use of the emigrants, and shall be fitted with a suitable showerbath of simple construction, and capable of distributing the shower over a large area, with a movable canvas screen, to be invariably used when women are bathing, and with a suitable pump for supplying water thereto, which may be utilized also for filling the trough

Latrines for emigrants

84 Latrines with doors in front shall be securely fitted as far aft as possible, and at some distance from the deck space for emigrants, from their drinking water, and from the cooking places, &c., and in every compartment a metal vessel, secured by a chain, shall be provided for drawing river water for washing purposes The inside of every compartment, as well as the metal vessel and chain, shall be painted with coal-tar—a process that shall be repeated at the close of every trip after the compartment has been thoroughly cleaned In steamers of the daily mail service, three latrines may be provided in one of the sponson-deck houses, to be set apart exclusively for the purpose

Size and number of latrines.

85 There shall be two separate sets of latrines for males and females respectively, placed, if possible, on opposite sides of the deck, and each set shall consist of at least four compartments for the use of any number up to two hundred emigrants, and of one additional compartment for every hundred in excess of the first two hundred, reference in counting numbers being had to section 92 of the Act In steamers of the daily mail service, the deck-house set apart for the latrines shall have at least three compartments for males and three compartments for females

Lanterns

86 Lanterns shall be hung up in their places ready for use

Boats and life buoys

87 Two life buoys shall hang over or near the stern of every vessel, and the boats shall be in good working order, and fitted with requisites for immediate use, when necessary. In steamers of the daily mail service, the number of buckets may be reduced to ten.

88 All emigrant passenger vessels shall have on board a fire engine, with a sufficiently long flexible hose, that would be capable of discharging water over every part of the vessel, fire buckets, and all other appliances needful in case of fire The fire buckets shall be twenty in number, and they, as well as all other fittings, shall always be kept in a proper place, in good order, and be ready for use on the shortest notice

Provision of fire engine and appliances

PART III —*The Embarkation Agent*

89 Emigrants shall not be embarked unless everything is perfectly ready, and the vessel is prepared to start, of which timely notice shall be sent to the Embarkation Agent

Notice of readiness to embark emigrants

90 The Embarkation Agent, the Medical Inspector, the contractor concerned or his agent, the medical officer, and the peon or other person in charge of labourers shall be present at every embarkation of emigrants If the number to be embarked be small, a competent assistant may be deputed by the Embarkation Agent and the Medical Inspector to supervise the embarkation

Presence of emigration officers at embarkation

91 During embarkation, all traffic, unless carried on by means of a separate stage and gangway, and every kind of work interfering with embarkation, shall be stopped

Stoppage of traffic during embarkation

92 Two men shall be stationed at the gangway one to count and the other to keep a careful tally of the number of emigrants as they come on board, one by one, in answer to their names

Tally of emigrants at embarkation

93 The emigrants shall be mustered and examined under shelter on board, if the weather at the time of embarkation be unfavourable

Examination of emigrants on board in bad weather

94 The emigrants, divided into batches under their peons and sardars, shall be called on board by name, one at a time, and identified with those on the way bills of the batches to be embarked

Identification of emigrants with their way bills

95 Any emigrant taken ill and unfit to go shall be detained and sent to the hospital depot, and such of his relatives and dependents, if any, as desire to remain, or whom it is, for sufficient reason, deemed proper to retain, shall be detained

Detention of sick emigrants

96 When all are on board the embarkation stage shall be removed, and the establishment of peons, sardars, and topasses shall be mustered in order to see that they are present according to scale Then all embarkation papers shall be carefully corrected signed, and delivered, after which the vessel shall leave as speedily as possible, the Embarkation Agent or his assistant remaining at the ghât till she starts

Mustering establishment on board

97 As soon as possible after a vessel leaves, the Embarkation Agent shall forward duly completed up to date of embarkation, the copies of the way bills of the despatched batches to the labour district officer and to the Superintendent of Emigration respectively for information

Despatch of copies of way bills to officers concerned

PART IV —*Masters of vessels*

98 The master of any vessel intending to apply for a license to carry more than twenty emigrant passengers shall provide the permanent fittings as prescribed in the rules 70 to 88, and shall thereafter apply in writing to the Superintendent of Emigration, or other officer duly empowered by the local Government for an inspection of such fittings, and of the legal capacity of the deck space for the accommodation of such passengers

Provision of fitting in licensed vessel.

99 The Superintendent or other officer shall thereupon examine the fittings, and after satisfying himself that the requirements of the rules have been complied with shall grant a certificate of approval, in form No 29, specifying the number of emigrant passengers that the vessel may carry

Superintendent's certificate of approval of fittings

100 The master of any vessel intending to carry labourers as emigrant passengers under his license shall provide the following —

Provision by master against carrying labourers

(*a*) Stores, medicines, medical comforts, and cooking utensils in accordance with the requirements of Schedules B, C, and D

(*b*) A medical officer licensed by the Medical Inspector or other officer so empowered

(*c*) The establishment of attendants as prescribed in Schedule E

101 On arrival at Goalundo, the master desiring a license shall make a written application to the Embarkation Agent, or other officer duly empowered by the local Government, and shall in such application state the following particulars —

Master's application for license

(*a*) Whether the terms for which the Shipwright's and Engineer Surveyor's certificates were granted have expired, or will expire during the passage

(*b*) Whether any accident to the vessel for which license is desired, or epidemic among the passengers, occurred during the previous trip

(c) Whether the permanent fittings prescribed by the rules governing transport have been provided, and the requisite certificate of their approval obtained from the officer so authorized

(d) Whether it is intended to carry labourers, and if so, whether the medical officer, the establishment of attendants, and the stores as prescribed in the rules and schedules have been provided

(e) Whether the deck space intended for the accommodation of native passengers has been cleared of cargo, and the stores for labourers, if any, conveniently arranged for survey

He shall at the same time be prepared for survey by clearing the whole or such portion of the deck space as may be intended for the accommodation of emigrant passengers, and, if labourers are to be carried, by having the prescribed provisions and other stores arranged conveniently for examination

Survey of vessel's fittings and stores

102 The Emigration Agent or other officer as aforesaid, on receipt of the application for license, shall, in consultation with the Medical Inspector, hold the survey of the vessel's fittings and available space and, if labourers are to be carried, of the requisite stores at which both master and medical officer are to be present The certificate of approval granted under Rule 99 shall be produced by the master at such survey, and the Emigration Agent or other officer as aforesaid shall accept the permanent fittings as therein described, on satisfying himself that they have not since been altered or damaged He shall also, in the event of the entire deck space being reserved for emigrant passengers, accept and enter in the prescribed form of license (form No 30 or 31), which he may in his discretion grant to the master, the number such space is stated in the certificate to be capable of accommodating, but if only a part of such space be reserved, he shall, after ascertaining the number that may be accommodated therein specify in the license such number only

Special examination of unhealthy vessels

103 A special examination shall invariably be made by the Medical Inspector of any vessel in which much sickness has occurred on the voyage immediately preceding, and the license applied for by the master shall not be granted unless the master carries out such measures of cleaning, disinfecting, deck-caulking &c, as the Medical Inspector may think necessary If a vessel is found to be recurringly unhealthy for emigrants after material alterations and improvements have been made in her accommodation, a license shall be refused her

Grant of licenses on approval of arrangements

104 After everything has been examined and approved, the master and the medical officer shall sign the prescribed provision and medical stores lists and final landing statements (forms Nos 32 33, and 34 respectively), and when the Emigration Agent is satisfied that all is correct, and that the master of the steamer has a copy of the Act and Rules, he shall license the vessel

Location of all passengers on the same deck

105 Free emigrants and passengers other than labourers may be accommodated on board the same vessel with labourers, and on the same deck, provided that the total number under conveyance does not exceed the maximum number specified in the license, but such passengers shall on *no consideration* be permitted to locate themselves within the spaces specially allotted for the use of emigrant passengers proceeding under the Act

Exclusion of animals from the emigrants deck

106 Horses, pigs, and other animals shall not be allowed on the same deck with the emigrants Vicious animals shall not be allowed on the same vessel with the emigrants

Freedom of emigrants deck from cargo

107 Masters shall see that the deck space for emigrants is kept clear of cargo, &c, so long as emigrants are under conveyance, and that ladders, stages, &c, are safely secured and railed with a double railing

Joint responsibilities of master and medical officer

108 The master of an emigrant vessel and the medical officer in charge, who shall hold a diploma either of Licentiate in Medicine and Surgery or of an apothecary, shall conjointly be responsible for the care and good treatment of the emigrants during the passage The medical officer shall strictly carry out the special instructions contained in the form (No 35) delivered to him by the Emigration Agent for his guidance

Assistance of master to medical officer

109 The medical officer shall insist upon the establishment specially entertained for attendance on the emigrants discharging their duties punctually and properly, and the master shall render all the assistance in his power to the medical officer, in order that he may maintain discipline on board, and conform strictly with all the requirements of the rules regulating transport

Duties of establishment for emigrants

110 Peons, garden sardars, or other persons in charge of emigrants shall obey the instructions of the master and the medical officer, and shall immediately report to them any neglect of duty or occurrence of disease, or accidents or disagreements affecting the emigrants The master and the medical officer shall thoroughly investigate the matter under report as soon as possible thereafter.

Appointment of watchers for hospital

111 Peons and sardars shall have their day and night duties fairly divided and clearly defined When there are sick emigrants in hospital, peons, sardars, and topasses shall be deputed to hospital duty so that the sick may constantly be cared for, and the attendants

on duty shall be regularly relieved by others in rotation The careful night nursing of the sick by the attendants shall be strictly insisted on, and looked to by the medical officer

Destruction of objectionable articles found with emigrants.

112 As soon after the embarkation as possible the emigrants shall be comfortably berthed, and their bundles searched for any indigestible food, grain, or old rags they may have contrived to take with them, all of which shall be thrown overboard This precaution shall receive repeated attention throughout the passage

Protection of emigrants against interference by crew

113 The emigrants' deck space shall not be encroached upon in any way by either crew or passengers other than emigrants, nor shall they be permitted to interfere with the emigrants The topasses shall sweep the decks morning and evening and after every meal, and shall keep them always clean and dry

Cleaning of emigrants deck

114 The deck shall be cleaned by the emigrants daily, but shall be washed only when weather, time, and other circumstances permit the emigrants being landed or accommodated on another deck till their deck is thoroughly dry

Disinfection of latrines

115. The latrine shall be constantly cleaned and disinfected, and occasionally fumigated Attention shall also be paid to the cleanliness and disinfection of the bed pans when in use

Promotion of ventilation of emigrants deck

116 Whenever the weather permits, the side curtains shall be raised to admit of free perflation of air, and under all circumstances thorough ventilation shall be promoted by every available means

Disposal of emigrants blanket

117 The emigrants on rising in the morning shall, after well shaking them, fold and sling their blankets out of the way

Daily mustering of emigrants

118 The emigrants shall be mustered every morning, and examined by the medical officer Those who are well shall, weather permitting, bathe daily, and wash their clothes at least twice a week

Airing of emigrants clothing

119 Emigrants' clothes, mats, and blankets shall be aired and put in the sun as often as possible, especially after damp weather

Attention to emigrants food by medical officer

120 Rations shall be issued daily by the medical officer according to the scale prescribed in Schedule B, and sufficiently early to admit of the food being prepared for distribution punctually at 9 o'clock in the forenoon and 4 o'clock in the afternoon, and all such issues as well as those of medical comforts, shall immediately thereafter be entered by such officer in the prescribed provision and other lists, and certified by him and the master concerned Boiling rice in bad water shall not be permitted, and when the food is ready, the medical officer shall invariably satisfy himself as to its being properly cooked, and shall see that it is fairly distributed Stale food shall not be kept by either cooks or emigrants, and all utensils shall be cleaned out and shown to the medical officer after each meal Motherless infants and invalids shall have suitable and freshly prepared food (milk, soup, sago &c) ordered for them every three or four hours

Prosecution for theft of stores

121 In the event of any pilfering of stores being detected, immediate enquiry shall be made by the medical officer and master, and the offender prosecuted at the first convenient station arrived at thereafter

Drinking water for emigrants.

122 A constant supply of good drinking water shall be kept up in the tanks Thus shall be used alternately, the water in each being allowed to settle after the addition of alum in the proportion of six grains to the gallon, and every effort shall be made to prevent emigrants from drinking the river water fresh drawn from the side of the vessel The water shall be pumped directly into the tanks from the river in mid stream, and clear from all possible risk of pollution from the latrine, &c

Protection against emigrants drawing river water

123 Emigrants on board steamers and flats shall not be allowed to draw water from the river over the sides of the vessels, and thereby to incur the risk of accidents

Prevention of passengers from crossing over to another vessel

124 The master of every steamer towing a flat and the medical officer in charge shall strictly prohibit all emigrants or other native passengers from crossing over from one vessel to another and with this object in view, shall not permit communicating stages between the vessels to be placed where they favour ready intercourse Any communicating stages that may be absolutely necessary for the use of the officers and crew shall be constantly watched, in order to prevent accidents and the spread of disease

Engagement of labourers in work

125 Emigrant passengers as a rule shall not be required to labour during the passage but in exceptional cases of urgent necessity only such of them as are considered by the medical officer to be well fitted for work may be employed, provided that such work is free from extraordinary risk to life and that the master supplies those so employed with extra rations at the rate of two and a-half chitaks of rice and half a chitak of *dál* for each man *per diem* The emigrants should always be encouraged to occupy their time with reasonable amusements

Perambulation of emigrant at night

126 They shall be properly arranged at night, and prevented from crowding together and padlocked Interns shall burn all night in the dispensary and near latrines and gangways

Intimation of vessel's arrival at each station to Magistrate

127 The master of every licensed vessel on arrival at every place where a Magistrate is stationed shall report to such Magistrate the number of passengers and crew on board the general state of their health, and the number of deaths that occurred on the passage, and omission to do so shall entail prosecution or refusal of license to carry emigrants thereafter

Remarks in vessel's way bill by inspecting officer

128 The master or the medical officer shall place the way bill (Form No 38) of the vessel received from any Embarkation Agent before the inspecting officers at each station, in order that they may enter their remarks on the several points indicated in such way bill

Facilities for inspection of vessels

129 The master and the medical officer shall furnish to inspecting officers all necessary information and shall afford them every facility for the satisfactory discharge of their duties under the provisions of the Act and rules

Disposal of vessel's way bill after last inspection

130 After the last official inspection at the place of final debarkation, the master or medical officer shall forward the vessel's way-bill, in original, together with the medical diary, cholera register, and issue lists of provisions and medical comforts relating to the emigrants embarked at Goalundo to the Emigration Agent at that place for his remarks, and for transmission to the Superintendent of Emigration, Calcutta, for submission of the way-bill with his remarks to the Local Government as may be required In the case of emigrants proceeding to the Surma Valley from Goalundo or Dhubri, who are transhipped into feeder steamers, the original way-bill will be returned from the port of transhipment, and fresh way-bills in the same form will be prepared for each feeder steamer Such way bills will be dealt with on arrival at the place of final debarkation in the manner indicated in the case of the original way bills

Landing of emigrants as per vessel's way bill

131 Emigrants shall not be permitted by the master to land finally at any place excepting that named in the vessel's way bill as their destination, save under circumstances of necessity provided for in the Act and rules

Report of mortality by masters

132 The master of a licensed vessel at the close of every trip shall forward to the Emba kation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta a mortality return in the prescribed form (No 39), showing the deaths that occurred during the trip among the crew and passengers other than emigrants under the Act

PART V —*Medical Officers*

Keeping of medical diary and ordinary journal by medical officer

133 Every medical officer proceeding in charge of emigrants shall keep a medical diary in the prescribed form (No 37), as well as a journal of the principal events of the passage, and shall write them up daily and carefully He shall, moreover, on arrival at every inspection station, place the above documents before the inspecting officers for their initials against the latest entry Every death shall be reported immediately to the master of the steamer who, if there be no relatives on board entitled thereto, shall take over charge of any property or money left by the deceased, and shall deliver the same to the Magistrate at the next station or at the last place of debarkation for disposal to heirs

Liability of medical officers to dismissal

134 Every medical officer proceeding in charge of emigrants shall, in case of misconduct or neglect of his duties, or of the requirements of the rules regulating transport, be liable to dismissal on the requisition of any Medical Inspector or other officer so empowered

Regulation of change of diet by medical officer

135 All extra food and any change in diet shall be regulated by the medical officer only on his own responsibility

Utilization of deck of flat in case of epidemics

136 In the event of an epidemic of dangerously communicable disease occuring on the passage, the master, required by the medical officer, shall give up the upper deck of an available flat for the better distribution of the emigrant passengers

Treatment of sick emigrants

137 Emigrants suffering from slight illness may be attended in their berths, but all serious cases shall be treated in hospital Patients attacked by cholera or small pox, or other dangerously communicable disease, with all that belongs to them, shall be instantly and thoroughly isolated from the healthy, and the family or batch in which such disease occurred shall be kept on another deck, or as far apart as possible from the rest of the emigrants without exciting alarm

138 Places originally occupied by emigrants removed on account of communicable disease shall be instantly cleaned, and the deck shall be thoroughly scraped and scrubbed with hot sand and disinfecting powder, and, if circumstances admit, fumigation with burning sulphur shall also be carried out

Measures for the disinfection of the deck

139 Besides the immediate isolation and treatment of the first case of dangerously communicable disease, every precaution shall be taken to prevent an epidemic, strict attention being paid to premonitory symptoms, general and personal cleanliness, careful disinfection and disposal of excreta, disinfection and destruction of infected articles, free ventilation, and care of the healthy On the occurrence of cholera a register of the cases shall be kept in the prescribed form (No 36)

Measures for prevention of an epidemic

140 All clothes, blankets, mats, &c, that have been in any way in contact with those suffering from serious communicable disease, or have been soiled, or are suspected of infection or impurity, shall be burnt on shore in the presence of the Medical Officer, who should take special care to have them burnt invariably to leeward

Destruction of infected clothing

PART VI —*Country boats*

141 When emigrants are to be conveyed to any labour district in boats, an intelligent head manjhi shall be selected by common consent of the others, and appointed by the Embarkation Agent to exercise general control over them in keeping the boats together, preserving order, and assisting the Medical Officer or other persons in charge during the passage The appointment of a head manjhi, however, shall not lessen the responsibility of each individual manjhi Under the law each one shall be personally liable for every offence or neglect of duty

Appointment of head manjhi

142 If the number under conveyance in a fleet of boats exceeds 50 emigrants, the despatchers of such emigrants shall conjointly provide a medical officer—duly licensed by the Medical Inspector or other officer so empowered—to take charge of the boats, and to supply the medicines that may be required for the treatment of the sick during the passage

Appointment of medical officer when emigrants exceed 50 souls

143 A medical officer or other person proceeding in charge of emigrants in boats shall be guided by the rules relating to steamers so far as they are applicable to boats

Observance of rules for steamers when applicable to boats

144 In the case of boat despatches, the contractor or his agent shall place samples of the stores intended for the emigrants before the Emigration Agent in time to admit of his examining and approving of them prior to holding the final survey of stores on board

Samples of emigrants stores for examination

145 After everything required under the Act and rules has been approved, the manjhi and the medical officer or other person in charge shall sign the provision lists, and when the Emigration Agent is satisfied that every requirement has been met, and that the head manjhi in charge of the flotilla has a copy of the Act and rules, he shall license the boats

Grant of license after approval of arrangements

146 Boats for the conveyance of emigrants shall be of uniformly moderate size, and strong and water tight, and shall be provided with side windows having movable *jhampa* The *machan* or plank decks, masts sails, oars, rudders, and all other requisites for the efficient management of boats shall be in thoroughly serviceable order, and all bamboo *machan* decks shall be matted

Description of boats for emigrants.

147 No temporary addition to the size of the roof shall be allowed as a plea for carrying more persons than the boat was originally intended to accommodate, unless there be ample space, and the additional accommodation is in every respect satisfactory

Increase of roof for additional accommodation not ordinarily allowable

148 A moderate-sized boat shall be selected for a hospital, but if it be insufficient to provide the prescribed hospital space, two or more similar sized boats according to requirement shall be selected in preference to a large one for facility of movement They shall be particularly well ventilated, fitted with plank decks, and subject to the same general conditions as the rest of the boats. Emigrants' stores of whatever kind shall on no account be placed in any hospital boat, which shall be distinguished from the passenger boats by a red flag prominently placed

Hospital boat.

149 A small and swift boat shall be provided for the medical officer in charge and medical stores The medical officer shall always be near the hospital boat, and a call for him from any passenger boat shall be signalled by the waving of a white cloth The Emigration Agent shall see that simple means of rapid communication are understood by all before they start

Medical officer's boat.

Boats for emigrants stores

150 The strongest and driest boats, lined with dunnage, shall be selected for the conveyance of the stores for emigrants, and the manjhis of the boats shall be held responsible for the proper care of such stores

Marking of boats passed for emigrants

151 All boats approved for the transport of emigrants to the labour districts shall be marked and numbered (stencilled in paint) thus — 

on the bow, stern, or other prominent part, and the mark and number shall invariably be entered in each boat's license

Lanterns

152 Each boat shall be provided with a strong and serviceable lantern

Report of accidents to boats to nearest Magistrate

153 In the event of any of the boats being disabled by accident, the Medical Officer or other person in charge shall report such accident, or any other untoward circumstance, to the Magistrate at the nearest civil station, so that remedial measures may be taken and assistance rendered as soon as possible

Control of boats by Medical Officer

154 The Medical Officer shall endeavour to keep the boats forming the flotilla together, and shall keep the hospital boat following the fleet He shall take care that the boats are not changed, and that the hospital boat is used only for the purpose intended

Measures on outbreak of dangerously communicable disease

155 In the event of seriously communicable disease occurring on the passage, the sick shall be removed to the hospital boat, and the healthy shall be landed and made to bathe and wash their clothes while the boat including its bilge is being thoroughly cleaned and disinfected The emigrants shall not be allowed to re-enter their boat till everything is clean and dry about them

General supervision by Medical Officer

156 Besides constant attention to the sick, the Medical Officer shall see that the boats and their bilges are kept clean, that the emigrants are generally clean and well cared for, that foul or infected villages or places are avoided, and that at night the boats are not fastened to any defiled or unwholesome bank

Disposal of surplus stores

157 The surplus of emigrants' stores on board of boats shall, at the end of the passage, or after the emigrants for whom they were shipped have been landed, be made over under certificates of delivery to the agents appointed by the contractors to dispose of such surplus But this shall be done only after such stores have been examined by the inspecting officers, and checked by means of the provision issue statement filled in by the Medical Officer or other person in charge on the passage, and certificates to this effect shall be signed by the Medical Officer or other person in charge and the Debarkation Officer The Medical Officer, or other person in charge, shall not take part in the sale of surplus stores, nor have any interest whatever in the proceeds of such sales, or in the transmission of such proceeds to the contractors concerned Any infringement of this rule by the Medical Officer, or other person in charge, shall render him liable to dismissal and non-employment thereafter

---

CHAPTER V —PART I

TREATMENT OF EMIGRANTS ON A JOURNEY

Prescribed routes

158 The routes by which emigrants and their dependents shall travel on leaving a depôt, as prescribed by the Local Government, are shown below

The taking of emigrants and their dependents by any other than a prescribed route is prohibited, and every agent, local agent, garden sardar, or manager, responsible for emigrants being so taken shall be liable to a fine not exceeding Rs 20 for every emigrant so taken

(*a*) For emigrants and their dependents coming from the districts of Saran, Champaran, Muzaffarpur, and Darbhanga, and from all districts in Bengal, and the North-Western Provinces situate on the north of the Ganges or Gogra rivers,—by rail *viâ* Samastipur and Katihar to Jatrapur, and thence by steamer or country boat

(*b*) For all other emigrants and their dependents,—by rail *viâ* Naihati and Goalundo, and thence by steamer or country boat.

(*c*) For emigrants and their dependents proceeding to Cachar and Sylhet,—by rail *viâ* Naihati and Goalundo, and thence either by steamer or country boat to their destination, or by steamer or country boat to Chandpur, whence they will travel by rail

Provisions for emigrants on the journey

159 The contractor, or his agent, and in the case of sardari coolies the local agent or garden sardar, shall be responsible for the making of all necessary provision to ensure the health, safety, and comfort of emigrants during their transit to the place of embarkation, or to their final landing place when despatched in country boats He shall supply the clothing according to scale in all cases, and in the case of boat despatches he shall also supply the provisions, medical stores, medical officer, and attendants as prescribed in the schedules annexed to the rules.

160 In the case of coolies recruited by contractors, every batch prior to despatch from the depôt, shall be provided with a way-bill in the prescribed form (No 20), and the contractor, or his agent, shall caution the person in charge to take care of the document, to make it over to the Emb arkation Agent concerned on arrival at the place of embarkation, and if returned to him by that officer, to observe strictly the instructions therein laid down for his guidance

Provision of way bill for journey

In the case of sardari coolies, the way bill (Form No 28) required by section 76 to be provided for the journey, shall be carefully and correctly filled in with all the necessary particulars regarding the labourers forming the batch, by the sardar or other person appointed to accompany them to their destination, and local agents, if any, shall be held responsible for the garden sardar's fulfilment of the duty On the arrival of the batch of labourers at its destination or port of disembarkation, as the case may be, the sardar or other person in charge shall make over the way-bill of the batch to the employer of such labourers, who, after endorsing thereon his remarks shall forward it to the district or subdivisional magisterial officer for information and transmission to the Emb arkation Agent or the Superintendent of Emigration concerned in the despatch of the labourers.

161 In the case of boat despatches, provisions and the establishment of cooks and topasses shall either precede or accompany the emigrants on their way to the place of embarkation

Attendance of establishment

162 Any emigrant suddenly taken ill at the railway station shall be sent immediately to the depôt or other authorised hospital accompanied by his relatives and dependents

Return to hospital of sick emigrants.

163 When a medical officer has been appointed by Government to examine emigrants, no emigrants shall be put into the train without being inspected and passed as fit to undertake the journey by such officer

Medical examination of emigrants.

164 Every contractor, or his agent, or, in the case of sardari coolies, the sardar or person accompanying the coolies to their destination, shall provide two cooked meals every day for emigrants and their dependents travelling by road and a cooked meal for such emigrants and their dependents as are to be started on a railway journey after 9 A M , and for such emigrants and their dependents as are to be started at or before that hour, if a cooked meal cannot be provided, then a dry meal instead, consisting of (*a*) bread or biscuit and sugar in the proportion of one pound of bread or two large biscuits and one ounce of sugar to each emigrant of and above 10 years of age, and half the above quantities to each emigrant under the age of 10 years, or (*b*) *choora* and *suttoo* or similar food eaten by people of the class to which the emigrant belongs In the evening a cooked meal or, if that is impracticable, a dry meal as above, shall be provided Also, if the journey between two halting stations is likely to occupy more than six hours of daylight, a supply of food in the same proportion shall be given by the agent or person aforesaid for distribution to the emigrants and their dependents for consumption during the journey

Meals to be provided

165 When emigrants are about to be despatched by train, the purest drinking-water obtainable shall be supplied by the contractor, or his agent, or, in the case of sardari coolies, by the sardar or person accompanying the coolies to their destination, in a sufficient number of vessels conveniently placed with the emigrants in the carriage

Drinking water to be provided.

Such supply shall be at least one quart for each emigrant and dependent, and there shall be at least one vessel for each compartment of the carriage Emigrants and their dependents shall be afforded during the journey opportunities for leaving their carriages at suitable places, to be fixed from time to time by the Superintendent of Emigration

Neglect of the provisions of this rule shall render the contractor, or his agent or, in the case of sardari coolies, the sardar or person accompanying the coolies to their destination, liable to a penalty not exceeding Rs. 20 for every emigrant or dependent in respect of whom such neglect occurs.

166 Emigrants and dependents about to travel by train shall be accommodated, as far as possible, in third class carriages specially reserved for them, or in suitably constructed goods wagons, and the number in each carriage shall in no case exceed the regulation number

Railway accommodation.

167 If the journey be by train, the emigrants, accompanied by the contractor, agent, or, in the case of sardari coolies, by the local agent or garden sardar, concerned, shall be at the railway station fully half an hour earlier than the time fixed for departure, and shall be seated in their carriages at least five minutes before the train starts Every batch shall be accompanied by the peon or other competent and duly appointed person

Early arrival of emigrants at railway station.

Miscellaneous

168 Whoever commits a breach of any of the following rules under the Act shall be punishable with fine, which may extend to Rs 500 — Rules 18, 36, 48 to 51, 100, 105, 107, 152 and 153

Breach of rules.

CHAPTER V—PART II

Regulation of the transit of Emigrants by the Naihati-Goalundo route

169 (1) All emigrants and their dependents coming from places beyond Asansol by the Bengal-Nagpur Railway, whether from the Central Provinces, the Singbhum district, the Manbhum district or the Tributary States, and all emigrants and their dependents proceeding by road to Asansol and taking train at that place, shall halt at Asansol at least 24 hours, and shall there be provided with suitable depot accommodation and at least two full cooked meals

Halting at Asansol

(2) The contractors, sub contractors, recruiters, and local agents, who engage or assist such emigrants to emigrate, shall be held responsible that they and their dependents are halted at Asansol and provided with accommodation and meals as required by this rule

170 (1) All emigrants and their dependents coming from Hazaribagh *viâ* Giridih and Madhupur, or travelling by the East Indian Railway from any place other than places referred to in rule 169, except the subdivision of the Sonthal Parganas, the district of Birbhum, and stations on the East Indian Railway east of Madhupur, shall be halted at Madhupur and disentrained for not less than 12 hours, and shall there be provided with suitable depot accommodation and at least one full cooked meal

Halting at Madhupur and Naihati

(2) The contractors, sub-contractors, recruiters and local agents, who engage or assist emigrants travelling by this route, shall be responsible that they and their dependents are halted at Madhupur and provided with accommodation and meals as required by this rule

(3) All emigrants and their dependents shall likewise be halted at Naihati and disentrained for not less than eight hours, and shall there be provided with at least one full cooked meal

171 (1) When any batch of emigrants is to be forwarded from one depot or place of accommodation to another, the number forwarded at any one time shall in no case exceed the number for which, at the time in question, there is accommodation available in the receiving depot or place of accommodation to which they are despatched

Number of emigrants forwarded from one depot to another not to exceed available accommodation in the receiving depôt

(2) The local agent, contractor, sub contractor or agent in charge of the forwarding depot or place of accommodation shall be responsible for any breach of the provisions of this rule

172 (1) When any despatch of emigrants, such as that described in rule 171, is contemplated, the local agent, sub-contractor, or agent in charge (henceforth spoken of as the person in charge) of the depot or place of accommodation from which the emigrants are to be forwarded, shall first enquire from the person in charge of the receiving depot or place of accommodation whether any, and, if so, what, amount of accommodation is available in the latter

Procedure for ensuring sufficient accommodation

(2) Until a reply is received, clearly stating the exact number for whom accommodation is available, no emigrant shall be despatched

(3) When a definite reply in the terms indicated in clause (2) has been received, not more than the number of emigrants for whom accommodation has been in such reply declared available, shall be despatched

(4) The enquiries and replies referred to in this rule shall ordinarily be made by telegram

(5) When the person in charge of a depot or place of accommodation has replied, in answer to an enquiry made under clause (1), that certain accommodation is available, he shall be held responsible that such accommodation is provided in such depot or place of accommodation or in other premises directly under his own control and management

173 When a batch of emigrants is forwarded from one depot or place of accommodation to another, the person in charge of the former shall send advice by telegraph to the person in charge of the latter

Advice of despatch.

Such telegram must be despatched before the emigrants start on their journey to the receiving depot or place of accommodation, and shall state—

(*a*) the name of the person in charge of the depot or place of accommodation from which the emigrants are despatched,

(*b*) the number of emigrants despatched,

(*c*) the serial number of the chalan sent with the emigrants, and

(*d*) the serial number of the memorandum prescribed by rule 174

174 (1) When a batch of emigrants is forwarded from one depot or place of accommodation to another, the person in charge of the former shall give to the peon or other person travelling in charge of the emigrants a memorandum stating the particulars prescribed in rule 173

Memorandum to accompany emigrants.

(2) On the arrival of the emigrants at the receiving depot or place of accommodation, the person to whom the said memorandum was given shall deliver it to the person in charge

175 When a batch of emigrants is forwarded from one depot or place of accommodation to another, the person in charge of the receiving depot or place of accommodation shall immediately send by post an intimation of their arrival to the person in charge of the depôt or place of accommodation from which they were despatched, and, if the number of emigrants who have arrived is less than the number stated in the telegraphic advice sent under rule 172, the cause of the non-arrival of the deficient number shall, so far as it can be ascertained, be stated in such intimation

Intimation of arrivals at receiving depôt.

Despatch of emigrants to Goalundo

176 No emigrants shall be despatched to Goalundo unless they are sent to the care of the person in charge of a depôt or place of accommodation established there and maintained in conformity with these rules, and having sufficient accommodation for such emigrants

Advice of despatch to Goalundo

177 When emigrants are despatched from a depot or place of accommodation at Asansol, Madhupur or Naihati to Goalundo, the person in charge of the depôt or place of accommodation, and also the person travelling with the emigrants, shall send advice by telegram to the Emigration Agent

Provided that no advice need be sent from Naihati in any case in which advice has been telegraphed under this rule from Asansol or Madhupur

Forms

178 (1) The person in charge of every depot or place of accommodation shall provide for use therein books containing printed, or legibly lithographed, copies of Forms A 1, A 2, A-3 and A 4, set forth in schedule F to these rules

(2) Form A 1 shall be used for the enquiries and replies referred to in rule 172, Form A-2 for the telegraphic advices referred to in rule 173, Form A-3 for the memoranda referred to in rule 174, and Form A-4 for the telegraphic advices referred to in rule 177

(3) Whenever any of the said forms is used, the counterfoil, that is to say, the left hand half, must be duly entered up and numbered and carefully preserved

(4) When a communication is made in Form A 1 by telegraph, or in Form A 2 or Form A-4, the counterfoil number must be mentioned in the telegram

(5) When any person travelling with emigrants sends a telegram under rule 177, he shall enter the particulars contained in the telegram in the right hand half of Form A 4, and shall, on arrival at Goalundo, deliver that document to the person in charge of the receiving depot or place of accommodation, who shall, at the time the emigrants are embarked, deliver the same to the Embarkation Agent

(6) When a communication is made in Form A by post, the right-hand half of the form must be posted

Record of documents received under these rules

179 Subject to the provisions of clause (5) of rule 178, every document received under these rules by the person in charge of a depot or place of accommodation or by an Emoarkation Agent must be carefully preserved in his office

Duties of Emigration Officers

180 It shall be the duty of the Emigration Officers at Asansol, Madhupur and Naihati, respectively,—

(1) to ensure the due observance of rule 169 or rule 170, as the case may be,

(2) to see that sick emigrants and dependents, and especially any who are affected with an infectious disorder of a dangerous type, are weeded out,

(3) to arrange, when routes are likely to be overcrowded, for systematising despatch by rail and steamer, and

(4) generally to ensure the due observance of these rules

Reports of despatch of emigrants and stopping of despatch pending provision of sufficient railway accommodation

181 (1) Whenever any emigrants are despatched from a depôt or place of accommodation at Asansol, Madhupur or Naihati, the person in charge shall forthwith report the fact to the Emigration Officer at that place

(2) Such reports shall be recorded in the office of the Emigration Officer on the day of their receipt.

(3) If it appears to the Emigration Officer that the numbers of emigrants being despatched are such as to lead to overcrowding in the trains, he shall stop all despatch of emigrants until sufficient railway accommodation has been provided as far as Goalundo and shall arrange for such accommodation by telegraph in communication with the railway authorities

(4) Whenever an Emigration Officer stops the despatch of emigrants from any place in pursuance of clause (3), he shall cause a notice to that effect to be immediately served on the person in charge of every depot or place of accommodation at that place

(5) After receipt of such notice, no such person in charge shall despatch any emigrants or their dependents from his depot or place of accommodation unless and until he is informed by the Emigration Officer under rule 182 that emigrants are permitted to proceed

Resumption of despatches when sufficient railway accommodation provided

182 When arrangements for sufficient railway accommodation have been made in pursuance of clause (3) of rule 181, emigrants and their dependents may, with the permission of the Emigration Officer, be despatched in numbers not in excess of those for whom accommodation has been arranged, and it shall be the duty of the Emigration Officer to immediately inform the person in charge of each depot or place of accommodation at the place from which the despatch of emigrants was stopped that emigrants are permitted to proceed, and in what numbers they may proceed

Suspension of emigrant traffic on account of accident.

183 (1) Whenever, on account of any serious accident on the railway or on the river there is any serious interruption of normal traffic the Emigration Officers at Asansol, Madhupur, Naihati and Goalundo shall advise each other, and emigrant traffic shall, as far as may be necessary, be suspended under the orders of these officers

(2) The procedure prescribed in rules 181 and 182 shall, so far as it may be applicable, be followed in cases arising under clause (1) of this rule

Penalty

184 Whoever commits a breach of any of the rules in this chapter shall be punishable with fine, which may extend to five hundred rupees.

CHAPTER V —PART II (A)

Regulation of the transit of emigrants by the Samastipur-Katihar-Jaitapur route

Halting at Samastipur

185 (1) All emigrants and their dependents travelling by the Samastipur-Katihar route shall halt at Samastipur at least 24 hours, and shall there be provided with suitable depot accommodation and at least two full cooked meals

(2) The contractors, sub-contractors, recruiters, and local agents, who engage or assist such emigrants to emigrate, shall be held responsible that they and their dependents are halted at Samastipur and provided with accommodation and meals as required by this rule

Halting at Katihar

186 (1) All such emigrants and their dependents shall similarly be halted at Katihar and disentrained for not less than 12 hours, and shall there be provided with suitable depot accommodation and at least one full cooked meal

(2) The contractors, sub contractors, recruiters and local agents, who engage or assist emigrants travelling by this route shall similarly be responsible that they and their dependents are halted at Katihar and provided with accommodation and meals as required by this rule

Number of emigrants forwarded from one depot to another not to exceed available accommodation in the receiving depôt

187 (1) When any batch of emigrants is to be forwarded from one depot or place of accommodation to another the number forwarded at any one time shall in no case exceed the number for which, at the time in question there is accommodation available in the receiving depot or place of accommodation to which they are despatched

(2) The local agent, contractor, sub-contractor or agent in charge of the forwarding depot or place of accommodation shall be responsible for any breach of the provisions of this rule

Procedure for ensuring sufficient accommodation

188 (1) When any despatch of emigrants, such as that described in rule 187, is contemplated, the local agent, sub-contractor, or agent in charge (henceforth spoken of as the person in charge) of the depot or place of accommodation from which the emigrants are to be forwarded shall first enquire from the person in charge of the receiving depot or place of accommodation whether any, and, if so, what amount of accommodation is available in the latter

(2) Until a reply is received, clearly stating the exact number for whom accommodation is available, no emigrants shall be despatched

(3) When a definite reply in the terms indicated in clause (2) has been received, not more than the number of emigrants for whom accommodation has been in such reply declared available, shall be despatched

(4) The enquiries and replies referred to in this rule shall ordinarily be made by telegram

(5) When the person in charge of a depot or place of accommodation has replied, in answer to an enquiry made under clause (1), that certain accommodation is available, he shall be held responsible that such accommodation is provided in such depôt or place of accommodation or in other premises directly under his own control and management

Advice of despatch

189 When a batch of emigrants is forwarded from one depot or place of accommodation to another, the person in charge of the former shall send advice by telegram to the person in charge of the latter. Such telegram must be despatched before the emigrants start on their journey to the receiving depot or place of accommodation, and shall state

(*a*) the name of the person in charge of the depot or place of accommodation from which the emigrants are despatched,

(*b*) the number of emigrants despatched

(*c*) the serial number of the chalan sent with the emigrants and

(*d*) the serial number of the memorandum prescribed by rule 190.

Memorandum to accompany emigrants

190 (1) When a batch of emigrants is forwarded from one depot or place of accommodation to another, the person in charge of the former shall give to the peon or other person travelling in charge of the emigrants a memorandum stating the particulars prescribed in rule 189

(2) On the arrival of the emigrants at the receiving depot or place of accommodation, the person to whom the said memorandum was given shall deliver it to the person in charge

Intimation of arrivals at receiving depot

191 When a batch of emigrants is forwarded from one depot or place of accommodation to another the person in charge of the receiving depot or place of accommodation shall immediately send by post an intimation of their arrival to the person in charge of the depot or place of accommodation from which they were despatched, and, if the number of emigrants who have arrived is less than the number stated in the telegraphic advice sent

under rule 189, the cause of the non-arrival of the deficient number shall, so far as it can be ascertained, be stated in such intimation

Despatch of emigrants to Jatrapur

192 No emigrants shall be despatched to Jatrapur unless they are sent to the care of the person in charge of a depot or place of accommodation established there and maintained in conformity with these rules, and having sufficient accommodation for such emigrants

Advice of despatch to Jatrapur

193 When emigrants are despatched from a depot or place of accommodation at Samastipur or Katihar to Jatrapur, the person in charge of the depot or place of accommodation, and also the person travelling with the emigrants, shall send advice by telegram to the Embarkation Agent

Forms

194 (1) The person in charge of every depot or place of accommodation shall provide for use therein books containing printed, or legibly lithographed, copies of Forms A 1, A-2, A-3 and A 4 set forth in schedule F to these rules

(2) Form A-1 shall be used for the enquiries and replies referred to in rule 188, Form A 2 for the telegraphic advices referred to in rule 189, Form A-3 for the memoranda referred to in rule 190, and Form A-4 for the telegraphic advices referred to in rule 193

(3) Whenever any of the said forms is used, the counterfoil, that is to say, the left hand half, must be duly entered up and numbered and carefully preserved

(4) When a communication is made in Form A 1 by telegraph, or in Form A-2 or Form A-4, the counterfoil number must be mentioned in the telegram

(5) When any person travelling with emigrants sends a telegram under rule 193, he shall enter the particulars contained in the telegram in the right hand half of Form A 4, and shall, on arrival at Jatrapur, deliver that document to the person in charge of the receiving depot or place of accommodation, who shall, at the time the emigrants are embarked, deliver the same to the Embarkation Agent

(6) When a communication is made in Form A by post, the right-hand half of the form must be posted

Record of documents received under these rules

195 Subject to the provisions of clause (5) of rule 194, every document received under these rules by the person in charge of a depot or place of accommodation or by an Embarkation Agent must be carefully preserved in his Office

Duties of Emigration Officers

196 It shall be the duty of the Emigration officers at Samastipur and Katihar, respectively,—

(1) to ensure the due observance of rule 185 or rule 186, as the case may be

(2) to see that sick emigrants and dependants, and especially any who are affected with an infectious disorder of a dangerous type, are weeded out,

(3) to arrange, when routes are likely to be overcrowded, for systematising despatch by rail and steamer, and

(4) generally to ensure the due observance of these rules

Report of despatch of emigrants and stopping of despatch pending provision of sufficient railway accommodation

197 (1) Whenever any emigrants are despatched from a depot or place of accommodation at Samastipur or Katihar, the person in charge shall forthwith report the fact to the Emigration Officer at that place

(2) Such reports shall be recorded in the office of the Emigration Officer on the day of their receipt

(3) If it appears to the Emigration Officer that the numbers of emigrants being despatched are such as to lead to overcrowding in the trains, he shall stop all despatch of emigrants until sufficient railway accommodation has been provided as far as Jatrapur, and shall arrange for such accommodation by telegraph in communication with the railway authorities

(4) Whenever an Emigration Officer stops the despatch of emigrants from any place in pursuance of clause (3), he shall cause a notice to that effect to be immediately served on the person in charge of every depot or place of accommodation at that place

(5) After receipt of such notice, no such person in charge shall despatch any emigrants or their dependents from his depot or place of accommodation, unless and until he is informed by the Emigration Officer under rule 198 that emigrants are permitted to proceed

Resumption of despatches when sufficient railway accommodation provided

198 When arrangements for sufficient railway accommodation have been made in pursuance of clause (3) of rule 197 emigrants and their dependents may, with the permission of the Emigration Officer, be despatched in numbers not in excess of those for whom accommodation has been arranged, and it shall be the duty of the Emigration Officer to immediately inform the person in charge of each depot or place of accommodation at the place from which the despatch of emigrants was stopped that emigrants are permitted to proceed, and in what numbers they may proceed

Suspension of emigrant traffic on account of accident

199 (1) Whenever, on account of any serious accident on the railway or on the river, there is any serious interruption of normal traffic, the Emigration Officers at Samastipur, Katihar and Jatrapur shall advise each other and emigrant traffic shall, as far as may be necessary, be suspended under the orders of these officers

(2) The procedure prescribed in rules 197 and 198 shall, so far as it may be applicable, be followed in cases arising under clause (1) of this rule

200 Whoever commits a breach of any of the rules in this chapter shall be punishable with fine, which may extend to five hundred rupees.

Note.—(a) Columns under heads A to E excepting 15 and 16 and 20 of the latter head to be filled in by the Superintendent of Emigration and Medical Inspector respectively should be filled in by the contractor concerned in the despatch those under head F except ing column 26 to be filled in by the Medical Inspector by Embarkation Agent concerned those under head G, together with the health certificate and abstract by Medical Officer and Master of vessel, or by final Inspecting Officer concerned and those under head H by Debarkation or final Inspecting Officer concerned who should thereafter return the way bill to the peon or other person in charge of the batch to which it relates for delivery to the employer for perusal and return as indicated in the annexed instructions.

(b) Inspecting officers should write any special remarks they may wish to make in regard to the batch on the form provided on the reverse

(c) Particulars of any batch marching to destination from place of embarkation should be furnished by utilising columns 33 of F 33 to 35 of G and 37 to 39 of H which have been adapted to meet requirements.

INSTRUCTIONS

1 *Dhubri and Goalundo route to Assam.*—(*a*) When emigrants are to proceed *viâ* Dhubri, the person in charge must place them for inspection, together with their way-bill before the Embarkation Agent at Dhubri, who will endorse his remarks on the way bill, and then either make it over to the master of the steamer should the batch proceed to destination by water, or return it to the person in charge should the batch proceed to destination by land In the former case, the master must be careful, when emigrants are being finally landed, to make over the way-bill to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden the employer must forward the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta In the latter case, the person in charge must, on arrival in the district or subdivision in which the garden where the labourers are to work is situate, place the emigrants, with their way bill, before the Magistrate, who will, after endorsing his remarks on the way bill and filling in abstract, return it to the person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must return the way bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta

(*b*) When emigrants are to proceed *viâ* Goalundo, the person in charge must place them for inspection, together with their way-bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked The master, on the steamer's arrival at Dhubri, must place the way-bill before the Embarkation Agent at Dhubri for his endorsement after inspection of the emigrants, and on the completion of the voyage, or when any batch is about to be landed at its destination, make over the document to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must forward the way bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta

2 *Goalundo route to Cachar or Sylhet*—(*a*) When emigrants are to proceed by steamer, the person in charge must place them for inspection, together with their way bill, before the Embarkation Agent, or in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way-bill, and then make it over to the master of the steamer in which the batch is embarked The master, on the completion of the voyage, or when any batch is about to be landed at its destination, must make over the way bill to the Debarkation or final Inspecting Officer concerned for its return with his remarks endorsed thereon to the person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta

(*b*) When emigrants are to proceed by country boat, the person in charge must place them for inspection, together with their way bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, the officer in charge of the depot at the port of debarkation, or if there be no debarkation depot at the place of final landing, and the Magistrate of the district or subdivision in which the garden where the labourers are to work is situate who will, after endorsing his remarks on the way-bill and filling in abstract, return it to the person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent or Magistrate concerned in the embarkation for information and transmission to the Superintendent of Emigration at Calcutta

3 *Treatment of emigrants on the journey.*—The person in charge must take every care of the emigrants during the journey He must give them a cooked meal before they start, and if the journey is likely to occupy more than six hours, he must distribute biscuits and sugar in the proportion of two biscuits and one ounce of sugar to each emigrant of and above ten years of age, and one biscuit and half an ounce of sugar to each emigrant under the age of ten years, and if more than eight hours, dry provision must be supplied such as choora, suttoo, and the like, in such quantity as may be determined by the Superintendent of Emigration or other authorised officer It must be seen that the clothing provided is worn by the emigrants whenever the weather renders such a precaution necessary At the close of every day's march, or of a train journey, the emigrants must be properly housed and provided with a cooked meal and wholesome supply of water for drinking and ablution purposes

4 *Any special instructions*

5 *Obedience to instructions*—The instructions on the way-bill must be strictly complied with, and any failure to do so, or ill treatment of any emigrant, will render the person

in charge of the batch liable to punishment under the provisions of section 148 of Act I of 1882, or in case he is a licensed person, to cancellation and refusal of license thereafter

NOTE—*Columns 1 to 10 should be filled in by the registering officer and the following entries should be made in column 10 according to circumstance* —

Agent. (1) *When emigrants are to proceed to Assam* (*a*) *via* Dhubri Station Dhubri—Officer Embarkation Agent (*b*) *via* Goalundo station Goalundo—Officer Embarkation Agent or Magistrate station Dhubri Officer Embarkation

(2) *When emigrants are to proceed to Cachar or Sylhet* (*a*) by steamer station Goalundo—Officer Embarkation Agent or Magistrate (*b*) by country boat station Goalundo—Officer Embarkation Agent or Magistrate.

INSTRUCTIONS

1 *Dhubri and Goalundo route to Assam*—(*a*) When emigrants are to proceed via Dhubri the sardar or person in charge must place them for inspection, together with their way-bill, before the Embarkation Agent at Dhubri, who will endorse his remarks on the way bill, and then either make it over to the master of the steamer should the batch proceed to destination by water, or return it to the sardar or person in charge should the batch proceed to destination by land In the former case, the master must be careful, when emigrants are being finally landed, to make over the way-bill to the Debarkation or final Inspecting Officer concerned, for its return with his remarks endorsed thereon to the sardar or person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta In the latter case, the sardar or person in charge must, on arrival in the district or subdivision in which the garden where the labourers are to work is situate, place the emigrants, with their way bill, before the Magistrate, who will after endorsing his remarks on the way-bill and filling in abstract, return it to the sardar or person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or subdivision who in turn should forward it to the Embarkation Agent at Dhubri for information and transmission to the Superintendent of Emigration at Calcutta

(*b*) When emigrants are to proceed *viâ* Goalundo, the sardar or person in charge must place them for inspection together with their way-bill before the Embarkation Agent or, in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way bill and then make it over to the master of the steamer in which the batch is embarked The master, on the steamer's arrival at Dhubri, must place the way-bill before the Embarkation Agent at Dhubri for his endorsement after inspection of the emigrants, and on the completion of the voyage, or when any batch is about to be landed at its destination, make over the document to the Debarkation or final Inspecting Officer concerned, for its return with his remarks endorsed thereon to the sardar or person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must forward the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta

2 *Goalundo route to Cachar or Sylhet*—(*a*) When emigrants are to proceed by steamer, the sardar or person in charge must place them for inspection, together with their way-bill, before the Embarkation Agent, or in his absence, the Magistrate at Goalundo, who will endorse his remarks on the way bill, and then make it over to the master of the steamer in which the batch is embarked The master, on the completion of the voyage, or when any batch is about to be landed at its destination, must make over the way-bill to the Debarkation or final Inspecting Officer concerned, for its return with his remarks endorsed thereon to the sardar or person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must forward the way bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent at Goalundo for information and transmission to the Superintendent of Emigration at Calcutta

(*b*) When emigrants are to proceed by country boat, the sardar or person in charge must place them for inspection, together with their way bill, before the Embarkation Agent, or, in his absence, the Magistrate at Goalundo, and the Magistrate of the district or subdivision in which the garden where the labourers are to work is situate, who will, after endorsing his remarks on the way-bill and filling in abstract, return it to the sardar or person in charge of the batch for delivery to the employer After perusal and entry of casualties on the journey to garden, the employer must return the way-bill to the Magistrate of the district or subdivision, who in turn should forward it to the Embarkation Agent or Magistrate concerned in the embarkation for information and transmission to the Superintendent of Emigration at Calcutta

3 *Treatment of emigrants on the journey*—The sardar or person in charge must take every care of the emigrants during the journey He must give them a cooked meal before they start, and if the journey is likely to occupy more than six hours, he must distribute biscuits and sugar in the proportion of two biscuits and one ounce of sugar to each emigrant of and above ten years of age, and one biscuit and half an ounce of sugar to each emigrant under the age of ten years, and if more than eight hours dry provision must be supplied, such as choora, suttoo, and the like, in such quantity as may be determined by the Superintendent of Emigration or other authorized officer It must be seen that the clothing provided is worn by the emigrants whenever the weather renders such a precaution necessary At the close of every day's march, or of a train journey, the emigrants must be properly housed, and provided with a cooked meal and wholesome supply of water for drinking and ablution purposes

4 *Any special instructions*

5 *Obedience to instructions*—The instructions on the way bill must be strictly complied with; and any failure to do so, or ill-treatment of any emigrant, will render the sardar

or person in charge of the batch liable to punishment under the provisions of section 153 of Act I of 1882, or, in case he is a sardar, to refusal of recruiting certificate thereafter

FORM OF INSTRUCTIONS TO MEDICAL OFFICER

(See rule 108)

Instruction to Medical Officer proceeding in charge of labourers to labour districts.

, in view of his appointment by , to proceed in medical charge of emigrants under conveyance to , per , is requested to strictly carry out the instructions hereto subjoined for his guidance

DATED AT
The *189*

Emigration Agent.

INSTRUCTIONS.

The memorandum on the reverse should be accurately filled in for the information of the Emigration Department

2 All the noteworthy events, occurrences, and incidents of the voyage should be duly reported to the officers who may visit the vessel for the purposes of inspection

3 A journal recording accurately and briefly the daily occurrences of the voyage should be daily written up, and the initials of the Master obtained at the close of each day, and those of the inspecting officers on the dates of their inspections Such journal, together with the special cholera report, if any, a complete waybill of the Goalundo and Dhubri shipments and any other papers relating to the passage, should be posted under cover of a forwarding letter to the Embarkation Agent last concerned in the embarkation of the emigrants under conveyance for endorsement of any remarks he may desire to offer, and for transmission, through any other Embarkation Agent concerned, to the Superintendent of Emigration at Calcutta

4 The emigrants during the winter months should be made to wear their warm clothing, whenever the conditions of the weather render such a precaution necessary

5 The effects of the emigrants under conveyance to the labour districts should be searchingly examined under personal supervision after embarkation and at intervals during the voyage, and all improper articles of food and dirty rags found amongst them should be at once removed and destroyed

6 Every care should be taken to secure the serving out of properly cooked food to the emigrants, and special and continuous attention should be paid to the regular and proper feeding of infants and children and the sick with milk and other suitable and nourishing diet Strict attention should also be paid to the maintaining of a constant supply of good drinking water, as well as to the carrying out of the arrangements for the supply of water for bathing and washing purposes

7 At the close of the voyage the debarkation officer should be requested to examine the quality of the stores supplied on the passage, and to countersign the provision and medical stores lists, if satisfied that the stores have been issued according to scale

8 On the landing of emigrants at their destinations, the Medical Officer should see that disembarkations are not effected at any but authorized landing places, and should also carefully fill in health certificates and the abstract on the waybill of each batch

9 When cholera or any other disease in an epidemic form breaks out, a special report should be prepared showing, if possible, the probable cause of such an occurrence The prescribed register of cholera cases should be carefully filled in, and the medical diary should show the details of treatment of each case from day to day Every precaution should be taken to prevent the spread of the disease, and its occurrence should be reported to the Magistrate of the first station arrived at thereafter

10 Any emigrant attacked by small pox on the passage should be landed at the first opportunity, unless there are strong reasons to the contrary

additional agent or person appointed by him shall be required to accompany the emigrants during such river journey

Except as aforesaid, any agent who accompanies any number of emigrants more than twenty, without having with him an additional agent or another competent person for every twenty emigrants so in excess, or for any number of emigrants less than twenty in excess, shall be liable to a fine not exceeding Rs 100 An agent who, if he does not himself accompany the emigrants engaged or assisted by him, fails to appoint an additional competent person under the provisions of this rule to take charge of every twenty emigrants in excess of the first twenty, or for any number of emigrants less than twenty in such excess, shall be liable to a fine not exceeding Rs 100 Any such additional person appointed under the provisions of this rule, who fails to accompany any or all of the emigrants placed under his charge until they are put on board the steamer at Goalundo or Jatrapur, shall be liable to a fine not exceeding Rs 100 In this rule the word "emigrants," wherever it occurs, shall be deemed to include dependents wherever it occurs

Nothing in this rule shall be deemed to affect the provisions of Rule 10 with respect to the chalan, in which are to be entered particulars of the emigrants travelling, that is to say, the agent or the person appointed by him to have charge of the first twenty emigrants shall be responsible that a chalan is kept and is produced when called for by any officer authorised to inspect depots and rest houses showing particulars of all the emigrants who have been engaged or assisted by one agent, and are travelling together, however large their number may be

12 Each emigrant and dependent travelling to the labour districts shall be provided with clothing strictly according to the scale laid down in Schedule A to the rules under Act I of 1882 In case any emigrant or dependent is not so provided, the agent or person appointed to have charge of him under Rule 10 or Rule 11 shall be liable to a fine not exceeding Rs 50

13 Every agent or person appointed by him as aforesaid shall provide two cooked meals every day for emigrants and their dependents travelling by road, and a cooked meal for such emigrants and their dependents as are to be started on a railway journey after 9 A M, and for such emigrants and their dependents as are to be started at or before that hour, if a cooked meal cannot be provided, then a dry meal instead, consisting of (*a*) bread or biscuit and sugar in the proportion of one pound of bread or two large biscuits and one ounce of sugar to each emigrant of and above 10 years of age, and half the above quantities to each emigrant under the age of 10 years, or (*b*) *choora* and *suttoo* or similar food eaten by people of the class to which the emigrant belongs. In the evening a cooked meal or, if that is impracticable, a dry meal as above shall be provided Also, if the journey between two halting stations is likely to occupy more than six hours of daylight, a supply of food in the same proportion shall be given by the agent or person aforesaid for distribution to the emigrants and their dependents for consumption during the journey

The agent or manager in charge of a depot or rest-house shall also be responsible that all emigrants and their dependents are properly fed and cared for as required by the rules while under his charge

For every omission to comply with the provisions of this rule, the agent or person appointed by him as aforesaid, or the manager responsible, shall be liable to a fine not exceeding Rs 50 for each emigrant in respect of whom the rule is broken

14 When emigrants are about to be despatched by train, the purest drinking-water obtainable shall be supplied by the agent in a sufficient number of vessels conveniently placed with the emigrants in the carriage

Such supply shall be at least one quart for each emigrant and dependent, and there shall be at least one vessel for each compartment of the carriage Emigrants and their dependents shall be afforded during the journey opportunities for leaving their carriages at suitable places, to be fixed from time to time by the Superintendent of Emigration

Neglect of the provisions of this rule shall render the agent or person appointed by him as aforesaid liable to a penalty not exceeding Rs. 20 for every emigrant or dependent in respect of whom such neglect occurs

15 Emigrants and dependents about to travel by train shall be accommodated, as far as possible, in third class carriages specially reserved for them, or in suitably constructed goods waggons, and the number in each carriage shall in no case exceed the regulation number

Procedure in case of Death or Illness of Emigrants

16 Every agent or manager shall report to the police station, within the jurisdiction of which the depot or rest-house of which he is in charge is situated, the occurrence and the supposed cause of every death which takes place at such depôt or rest-house, or in the course of the journey to any depot or rest-house Such report shall be made within twenty-four hours of the occurrence of such death

In the case of emigrants or their dependents travelling by train, the agent or person appointed by him who accompanies them under the provisions of Rules 10 and 11 shall report the occurrence of any death among the emigrants or dependents in his charge to the station-master or police officer of highest rank at the station at which the death has taken place, or, if the death has taken place between two stations then to the station-master or police officer of highest rank at the first station at which the train by which the emigrants are travelling stops after the death has taken place

For every omission to comply with the provisions of this rule, the agent or manager responsible shall be liable to a fine not exceeding Rs 200

17 Every agent and every person appointed by him as aforesaid shall report to the nearest Magistrate or police station or Embarkation Agent or Assistant Superintendent of Emigration or to the Superintendent of Emigration in Calcutta, the case of any emigrant or dependent who, while under his charge, appears to be suffering from cholera, small pox or leprosy

In the case of emigrants or their dependents travelling by train, the agent or person appointed by him who accompanies them under the provisions of Rules 10 and 11 shall report the occurrence of any case of cholera, small pox or leprosy among the emigrants or dependents in his charge to the station master at which the case has been detected or if the case has been detected between two stations, then at the first station at which the train by which they are travelling stops after the detection of the case

A Magistrate or Embarkation Agent or Superintendent or Assistant Superintendent of Emigration on receipt of such report or on his own motion may, if himself a medical man, examine, or if not himself a medical man, send for examination to a medical man, any emigrant who appears to be suffering from cholera, small pox or leprosy

In case of failure to report, as directed in this rule, the agent or manager or person appointed under Rule 10 or Rule 11 who is responsible shall be liable to a fine not exceeding Rs 200

18 If any emigrant or dependent is found on report or examination, as provided in Rule 17, to be suffering from any of the diseases named in that rule or from any other serious ailment, the Magistrate or Embarkation Agent or the Superintendent or Assistant Superintendent of Emigration may order him to be detained at such place as he thinks fit, until the emigrant or dependent is in a fit state of health to undertake such journey, when he shall either be forwarded to the labour district, or sent back to the place from which he came, according as the agent or person appointed by him accompanying such emigrant or dependent may direct

While any emigrant or dependent is so detained, he shall be entitled to be fed, lodged clothed, and (if necessary) medically treated at the cost of the agent

19 When an order under Rule 18 has been made with reference to any emigrant any person dependent upon, and any other emigrant being the wife or husband of, such emigrant shall be entitled—

(*a*) until such emigrant is in a fit state of health to undertake such journey, to be fed lodged clothed, and (if necessary) medically treated at the place where such emigrant is detained, and at the cost of the agent

(*b*) if such emigrant is sent back to the place from which he came, to be sent back to such place at the cost of the agent

When any such order has been made with reference to any dependent, the emigrant to whom he is attached shall thereupon, until such dependent is in a fit state of health to undertake the journey to the labour district, be entitled, if the emigrant so wishes and if he or she be the husband, wife, son or daughter of such dependent, to be fed, lodged, clothed, and (if necessary) medically treated at the place where such dependent is detained, and at the cost of the agent, and if such dependent is sent back to the place from which he came, such emigrant shall, if he or she so wishes, and if he or she be the husband, wife, son or daughter of such dependent be sent back to such place

If such emigrant is entitled and claims to be fed, lodged, clothed and (if necessary) medically treated or to be sent back, his or her dependents, and any other emigrant being the wife or husband of such emigrant, shall be entitled as the case may be—

(*a*) to be fed, lodged, clothed, and (if necessary) medically treated at the place where such dependent is detained, and at the cost of such agent until such dependent is in a fit state of health to undertake the journey to the labour district, or

(*b*) to be sent back at the cost of the agent to the place from which he or she came

20 If the agent or person appointed by him accompanying any emigrant or dependent fails to provide such emigrant or dependent with food, lodging, clothing and medical treatment, or to send him back, as required by Rule 18 or 19, the Magistrate or Embarkation Agent or the Superintendent or Assistant Superintendent of Emigration may order such agent or person to pay such sum as is necessary to provide such food, lodging clothing, and medical treatment, or to defray the cost of the return journey of such emigrant or dependent, as the case may be, to the place from which he came, and on failure for twenty four hours of such agent or person to comply with such order, he may pay the sum specified in the order to or on behalf of such emigrant or dependent, and recover the amount from the agent

21 In the event of an emigrant or dependent dying on the journey by road to any railway station on the way to the labour district, the agent or his employé shall arrange promptly for the disposal of the dead body in a suitable manner If he fails to do so, the District Magistrate, or any one appointed by the District Magistrate in that behalf, or the Superintendent or Assistant Superintendent of Emigration, may dispose of the dead body and the cost shall be recoverable from the agent

22 If an emigrant or dependent is attacked by cholera or small pox, he shall on recovery be supplied with clothing by the agent on the scale provided in the case of contractors emigrants by the rules made under Act I of 1882. If he fails to do so, the District Magistrate

or any one appointed by him in that behalf, or the Superintendent of Emigration may supply such clothing, and the cost shall be recoverable from the agent

23 If an emigrant or dependent is attacked by cholera, small pox or leprosy on a railway journey, the agent or person appointed by him as aforesaid shall remove the patient as soon as possible to the nearest cholera hospital on the line, or other suitable place for medical treatment, or in default shall be subject to a fine not exceeding Rs. 200

Miscellaneous

24 In any case in which an emigrant suffers injury from a breach of these rules, it shall be competent to the Magistrate dealing with the offender, to award as compensation to the emigrant injured, the whole or any portion of the fine or fines inflicted and realised from the accused In any case in which the person injured dies subsequently at a depôt or rest-house or in the course of a journey to a depot or rest-house, such compensation may be awarded to the dependents of the deceased or, if the deceased was a dependent, to the emigrant to whom the dependent was attached

25 Any fine imposed upon a manager or other employé of an agent in consequence of any act done on behalf of the agent shall, in default of payment by the manager or employé, be recoverable from the agent

*26 The following of the rules issued by the Government of Bengal under Act I of 1882 shall apply to depôts and rest-houses as defined in Rule 1 of these rules, or to the treatment in transit of emigrants or dependents as defined in Act I (B C) of 1889, as the case may be, namely, Rules 7 to 15 inclusive, 26, 29, 30, 31, 33 to 51 inclusive, 53 and 159 to 168 inclusive For every breach of the provisions of any of these rules, the agent or manager or person appointed by the agent who may be responsible, shall be liable to a fine not exceeding Rs 200

Schedule of Routes

[See Rule 9]

For emigrants and their dependents coming from the districts of Saran, Champaran, Muzaffarpur, and Darbhanga, and from all districts in Bengal and the North-Western Provinces, situate on the north of the Ganges or Gogra rivers,—*viâ* Samastipur and Katihar to Jatrapur, and thence by steamer or country boat

2 For all other emigrants and their dependents by rail,—*viâ* Naihati and Goalundo, and thence by steamer or country boat

3 For emigrants and their dependents proceeding to Cachar and Sylhet by rail,—*viâ* Naihati and Goalundo, and thence either by steamer or country boat to their destination, or by steamer or country boat to Chandpur, whence they will travel by rail.

PART II

Regulation of the transit of emigrants by the Naihati-Goalundo route

27 (1) All emigrants and their dependents coming from places beyond Asansol by the Bengal-Nagpur Railway, whether from the Central Provinces, the Singhbhum district, the Manbhum district or the Tributary States, and all emigrants and their dependents proceeding by road to Asansol and taking train at that place, shall halt at Asansol at least 24 hours, and shall there be provided with suitable depot accommodation and at least two full cooked meals

Halting at Asansol

* The alterations in the rules under Act I of 1882 may necessitate some corresponding alterations in the wording of the rules here quoted.

(2) The agents who engage or assist such emigrants to emigrate shall be held responsible that they and their dependents are halted at Asansol and provided with accommodation and meals as required by this rule

Halting at Madhupur and Naihati

28 (1) All emigrants and their dependents coming from Hazaribagh and Giridih and Madhupur, or travelling by the East Indian Railway from any place other than places referred to in Rule 27, except the subdivision of the Sonthal Parganas, the district of Birbhum, and stations on the East Indian Railway east of Madhupur, shall be halted at Madhupur and disentrained for not less than 12 hours, and shall there be provided with suitable depot accommodation and at least one full cooked meal

(2) The agents who engage or assist emigrants travelling by this route shall be responsible that they and their dependents are halted at Madhupur and provided with accommodation and meals as required by this rule

(3) All emigrants and their dependents shall likewise be halted at Naihati and disentrained for not less than eight hours, and shall there be provided with at least one full cooked meal

Number of emigrants forwarded from one depôt to another not to exceed available accommodation in the receiving depôt

29 (1) When any batch of emigrants is to be forwarded from one depot or rest house to another, the number forwarded at any one time shall in no case exceed the number for which, at the time in question there is accommodation available in the receiving depot or rest-house to which they are despatched

(2) The agent or manager of the forwarding depot or rest-house shall be responsible for any breach of the provisions of this rule

Procedure for ensuring sufficient accommodation

30 (1) When any despatch of emigrants, such as that described in Rule 29, is contemplated, the agent or manager of the depot or rest house from which the emigrants are to be forwarded shall first enquire from the agent or manager of the receiving depot or rest house whether any, and if so what, amount of accommodation is available in the latter

(2) Until a reply is received clearly stating the exact number for whom accommodation is available, no emigrants shall be despatched

(3) When a definite reply in the terms indicated in clause (2) has been received, not more than the number of emigrants for whom accommodation has been in such reply declared available shall be despatched

(4) The enquiries and replies referred to in this rule shall ordinarily be made by telegram

(5) When the agent or manager of a depot or rest-house has replied, in answer to an enquiry made under clause (1), that certain accommodation is available, he shall be held responsible that such accommodation is provided in such depot or rest house or in other premises directly under his own control and management

Advice of despatch.

31 When a batch of emigrants is forwarded from one depot or rest house to another, the agent or manager of the former shall send advice by telegram to the agent or manager of the latter Such telegram must be despatched before the emigrants start on their journey to the receiving depôt or rest house, and shall state—

(*a*) the name of the agent or manager of the depot or rest house from which the emigrants are despatched,

(*b*) the number of emigrants despatched,

(*c*) the serial number of the chalan sent with the emigrants in accordance with Rule 10, Part I, of these rules, and

(*d*) the serial number of the memorandum prescribed by Rule 32

Memorandum to accompany emigrants

32 (1) When a batch of emigrants is forwarded from one depot or rest-house to another, the agent or manager of the former shall give to the peon or other person travelling in charge of the emigrants a memorandum stating the particulars prescribed in Rule 31

(2) On the arrival of the emigrants at the receiving depot or rest-house, the person to whom the said memorandum was given shall deliver it to the agent or manager of such depôt or rest-house

Intimation of arrivals at receiving depôts

33 When a batch of emigrants is forwarded from one depot or rest-house to another, the agent or manager of the receiving depot or rest house shall immediately send by post an intimation of their arrival to the agent or manager of the depot or rest house from which they were despatched, and, if the number of emigrants who have arrived is less than the number stated in the telegraphic advice sent under Rule 31, the cause of the non arrival of the deficient number shall, so far as it can be ascertained, be stated in such intimation

Despatch of emigrants to Goalundo.

34 No emigrants shall be despatched to Goalundo unless they are sent to the care of the agent or manager of a depot or rest house established there and maintained in comformity with Rules 3 and 5 of Part I of these rules and having sufficient accommodation for such emigrants

Advice of despatch to Goalundo

35 When emigrants are despatched from a depot or rest-house at Asansol, Madhupur or Naihati to Goalundo, the agent or manager of the depot or rest house, and also the agent or person appointed

under Rule 10 or Rule 11 of Part I who travels with the emigrants, shall send advice by telegram to the Embarkation Agent

Provided that no advice need be sent from Naihati in any case in which advice has been telegraphed under this rule from Asansol or Madhupur

Forms

36 (1) The agent or manager of every depot or rest house shall provide for use therein books containing printed or legibly lithographed copies of Forms A-1, A-2, A-3, and A-4 set forth in the schedule to these rules

(2) Form A 1 shall be used for the enquiries and replies referred to in Rule 30, Form A 2 for the telegraphic advices referred to in Rule 31, Form A 3 for the memoranda referred to in Rule 32, and Form A 4 for the telegraphic advices referred to in Rule 35

(3) Whenever any of the said forms is used, the counterfoil, that is to say, the left-hand half, must be duly entered up and numbered and carefully preserved

(4) When a communication is made in Form A-1 by telegraph, or in Form A 2 or Form A 4 the counterfoil number must be mentioned in the telegram

(5) When any person travelling with emigrants sends a telegram under Rule 35, he shall enter the particulars contained in the telegram in the right-hand half of Form A 4, and shall on arrival at Goalundo deliver that document to the agent or manager of the receiving depot or rest house, who shall, at the time the emigrants are embarked, deliver the same to the Embarkation Agent

(6) When a communication is made in Form A by post, the right-hand half of the form must be posted

Record of documents received under these rules

37 Subject to the provisions of clause (5) of Rule 36, every document received under these rules by the agent or manager of a depot or rest-house or by an Embarkation Agent must be carefully preserved in his office

Duties of Emigration Officers

38 It shall be the duty of the Emigration Officers at Asansol, Madhupur, and Naihati, respectively—

(1) to ensure the due observance of Rule 27 or Rule 28 as the case may be,

(2) to see that sick emigrants and dependents, and especially any who are affected with an infectious disorder of a dangerous type, are weeded out,

(3) to arrange, when routes are likely to be overcrowded, for systematising despatch by rail and steamer, and

(4) generally to ensure the due observance of these rules

Reports of despatch of emigrants and stopping of despatch pending provision of sufficient railway accommodation

39 (1) Whenever any emigrants are despatched from a depôt or rest house at Asansol, Madhupur or Naihati, the agent or manager shall forthwith report the fact to the Emigration Officer at that place

(2) Such reports shall be recorded in the office of the Emigration Officer on the day of their receipt.

(3) If it appears to the Emigration Officer that the numbers of emigrants being despatched are such as to lead to overcrowding in the trains, he shall stop all despatch of emigrants until sufficient railway accommodation has been provided as far as Goalundo, and shall arrange for such accommodation by telegraph in communication with the Railway authorities

(4) Whenever an Emigration Officer stops the despatch of emigrants from any place in pursuance of clause (3), he shall cause a notice to that effect to be immediately served on the agent or manager of every depot or rest-house at that place

(5) After receipt of such notice, no such agent or manager shall despatch any emigrants or their dependents from his depot or rest house unless and until he is informed by the Emigration Officer under Rule 14 that emigrants are permitted to proceed

Resumption of despatches when sufficient railway accommodation provided

40 When arrangements for sufficient railway accommodation have been made in pursuance of clause (3) of Rule 39, emigrants and their dependents may, with the permission of the Emigration Officer, be despatched in numbers not in excess of those for whom accommodation has been arranged, and it shall be the duty of the Emigration Officer to immediately inform the agent or manager of each depot or rest house at the place from which the despatch of emigrants was stopped that emigrants are permitted to proceed, and in what numbers they may proceed

Suspension of emigrant traffic on account of accident.

41 (1) Whenever, on account of any serious accident on the railway or on the river, there is any serious interruption of normal traffic, the Emigration Officers at Asansol, Madhupur, Naihati, and Goalundo shall advise each other, and emigrant traffic shall, as far as may be necessary, be suspended under the orders of these officers

(2) The procedure prescribed in Rules 39 and 40 shall, so far as it may be applicable, be followed in cases arising under clause (1) of this rule

Penalty

42 Any agent or manager, or any person accompanying emigrants under Rule 10 or Rule 11 of Part I who commits a breach of any of the rules in this Chapter, shall be punishable with fine which may extend to five hundred rupees

PART II(A)

Regulation of the transit of emigrants by the Samastipur Katihar-Jatrapur route

43 (1) All emigrants and their dependents travelling by the Samastipur Katihar route shall halt at Samastipur at least 24 hours, and shall there be provided with suitable depôt accommodation and at least two full cooked meals

Halting at Samastipur

(2) The agents who engage or assist such emigrants to emigrate shall be held responsible that they and their dependents are halted at Samastipur and provided with accommodation and meals as required by this rule

44 (1) All such emigrants and their dependents shall similarly be halted at Katihar and disentrained for not less than 12 hours, and shall there be provided with suitable depot accommodation and at least one full cooked meal

Halting at Katihar

(2) The agents who engage or assist emigrants travelling by this route shall similarly be responsible that they and their dependents are halted at Katihar and provided with accommodation and meals as required by this rule

45 (1) When any batch of emigrants is to be forwarded from one depot or rest house to another, the number forwarded at any one time shall in no case exceed the number for which, at the time in question, there is accommodation available in the receiving depot or rest-house to which they are despatched

Number of emigrants forwarded from one depôt to another not to exceed available accommodation in the receiving depôt

(2) The agent or manager of the forwarding depot or rest house shall be responsible for any breach of the provisions of this rule

46 (1) When any despatch of emigrants, such as that described in Rule 45, is contemplated, the agent or manager of depot or rest house from which the emigrants are to be forwarded shall first enquire from the agent or manager of the receiving depot or rest house whether any, and if so what, amount of accommodation is available in the latter

Procedure for ensuring sufficient accommodation

(2) Until a reply is received clearly stating the exact number for whom accommodation is available, no emigrants shall be despatched

(3) When a definite reply in the terms indicated in clause (2) has been received, not more than the number of emigrants for whom accommodation has been in such reply declared available shall be despatched

(4) The enquiries and replies referred to in this rule shall ordinarily be made by telegram

(5) When the agent or manager of a depot or rest house has replied, in answer to an enquiry made under clause (1), that certain accommodation is available, he shall be held responsible that such accommodation is provided in such depot or rest house or in other premises directly under his own control and management

47 When a batch of emigrants is forwarded from one depot or rest-house to another the agent or manager of the former shall send advice by telegram to the agent or manager of the latter. Such telegram must be despatched before the emigrants start on their journey to the receiving depot or rest-house, and shall state—

Advice of despatch

(*a*) the name of the agent or manager of the depôt or rest house from which the emigrants are despatched,

(*b*) the number of emigrants despatched,

(*c*) the serial number of the chalan sent with the emigrants in accordance with Rule 10, Part I, of these rules, and

(*d*) the serial number of the memorandum described by Rule 48

48 (1) When a batch of emigrants is forwarded from one depot or rest house to another, the agent or manager of the former shall give to the peon or other person travelling in charge of the emigrants a memorandum stating the particulars prescribed in rule 47

Memorandum to accompany emigrants.

(2) On the arrival of the emigrants at the receiving depot or rest house the person to whom the said memorandum was given shall deliver it to the agent or manager of such depot or rest-house

49 When a batch of emigrants is forwarded from one depot or rest house to another the agent or manager of the receiving depot or rest house shall immediately send by post an intimation of their arrival to the agent or manager of the depot or rest house from which they were despatched, and, if the number of emigrants who have arrived is less than the number stated in the telegraphic advice sent under Rule 47, the cause of the non arrival of the deficient number shall, so far as it can be ascertained, be stated in such intimation

Intimation of arrivals at receiving depots

50 No emigrants shall be despatched to Jatrapur, unless they are sent to the care of the agent or manager of a depot or rest-house established there and maintained in conformity with Rules 3 and 5 of Part I of these rules and having sufficient accommodation for such emigrants

Despatch of emigrants to Jatrapur

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL

NOTIFICATION

No 818T M—The 4th November 1898—It is hereby notified for general information that, under the provisions of clause (*d*) of section 9 of the Bengal Municipal Act 1884, as amended up to November 1896, and on the recommendation of the Commissioners of the Barnagore Municipality made at a meeting, the Lieutenant-Governor intends, unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the area affected by it, to subdivide the said Municipality into two Municipalities by a line from west to east passing along the Magazine road and the Dantia khal The two Municipalities will be called respectively the "Barnagore Municipality" and the "Kamarhati Municipality," and their boundaries will be as follows —

I—*Boundaries of the Barnagore Municipality*

On the North—A line commencing at the kutcha ghât on the river Hooghly just to the north of the Dakhineswar Powder Magazine, called the Magazine Ghât, thence eastward along the northern edge of the kutcha road leading from the ghât to the Magazine road, thence eastward along the northern edge of the northern drain of the Magazine road up to its junction with the Barrackpore Trunk road, thence northward along the western edge of the Trunk road to the Dantia khal, thence eastward along the southern side of the Dantia khal across the culvert of the Eastern Bengal State Railway up to a distance of about 1,330 feet from the culvert.

On the East—A line commencing at the point where the northern boundary ends at the north eastern corner of Nawapara, thence southward across the paddy-fields and over the trenching-ground of the Cossipore Chitpur Municipality along the eastern border of mauza Nawapara crossing the Nawapara District road at a distance of about 220 feet to the east of the culvert under that road; then runs over the paddy-fields till it reaches the southern border of Nawpara, thence turns westward and runs along the southern border of mauza Nawapara up to the eastern edge of the Eastern Bengal State Railway line, thence southward along the eastern edge of the Eastern Bengal State Railway line up to the railway bridge over the Sinti road

On the South—A line commencing from the eastern edge of the railway bridge over the Sinti road, thence westward along the northern edge of the drain to the north side of Sinti road, up to its junction with the Barrackpore Trunk road, thence across the Trunk road westward along the northern edge of the north side drain of the Dhenabagan road till it meets the Cossipore road and Gopal Lal Tagore road, thence southward along the western edge of the Cossipore road up to its junction with the Paramanick Ghât road, thence westward along the northern edge of the drain of Paramanick Ghât road up to the river Hooghly to the northern edge of Paramanick Ghât.

On the West—A line commencing from the northern edge of Paramanick Ghat and thence along the bank of the river Hooghly up to the Magazine Ghat road

II—Boundaries of the Kamarhati Municipality

On the North—A line commencing at the southern edge of the Malapara Ghât on the river Hooghly, thence eastward along the southern edge of the Malapara road up to the point where the road turns to the north at a distance of about 600 feet to the east from its junction with the Kumarpara road, thence turns south, and passes by the west of Atul Chandra Bhattacherjee's land, again turns east passing by the south of the land of the said Atul Chandra Bhattacherjee up to the corner of Kasari Bagan, thence passing on along the drain to the south of Kasaribagan, meets the western drain of kutcha road of the South Barrackpore Municipality, thence passes along that drain a little to the south, then crosses the kutcha road and runs eastward along the drain to the north of the garden of the late Babu Dwarka Nath Dutt till it meets the Barrackpore Trunk road, thence eastward across the Trunk road by the northern side of Babu Kanai Lal Neugi's garden land, and along the northern border of village Sener Arah, meets the Nilgunge road at a point about 630 feet to the north from its junction with the Basdebpore road, thence eastward along the northern border of mauza Basdebpore, crosses the Eastern Bengal State Railway line at a distance of about 870 feet from the point where the line is crossed by the Goalpara road, thence passes along the northern border of Basdebpore till it meets the Ghola road at its junction with the kutcha road to Natagarh

On the East—A line commencing at the junction of the Natagarh road with the Ghola road, thence runs in a south-westerly direction along the eastern edge of the Ghola road up to its junction with the Sener Arah—Nimta road, thence eastward along the northern edge of Sener Arah—Nimta road, up to a distance of about 440 feet from the junction, thence southward across the paddy-fields passing by the side of Sambhu Chandra Mukerjee's garden along the eastern border of mauza Belgharia across the Nimta District road at the south eastern corner of Haran Chandra Chatterjee's garden at a distance of about 1,200 feet from the junction of the Ghola road, thence southward across the paddy fields along the eastern border of mauza Belgharia till it meets the Dantia khal at the point where the northern and eastern boundary of the Barnagore Municipality meets

On the South—A line commencing at the eastern border of Belgharia at the above point, thence westward along the edge of the northern boundary of the Barnagore Municipality as defined above up to the northern edge of the Magazine Ghât on the river Hooghly

On the West—A line commencing at the Magazine Ghât, thence along the eastern bank of the river Hooghly up to the southern edge of the Kamarhati Malapara Ghât

Offg Secy to the Govt of Bengal

NOTIFICATION

No. 823T M—The 4th November 1898—It is hereby notified for general information that, under the provisions of clauses (*c*) and (*d*) of section 9 of the Bengal Municipal Act, 1884, as amended up to November 1896, and on the recommendation of the Commissioners of the Naihati Municipality made at a meeting, the Lieutenant-Governor intends, unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the area affected by it, (*i*) to include within that Municipality the local area contiguous to it and known as the village of Kankinara, the boundaries of which are defined below —

On the South—The village of Jagaddal and the northern portion of Thurpara,
On the East—Sundia, Fingapara, Kantadanga and Nasnupara,
On the North—The village of Bhatpara, and
On the West—The river Hooghly,

(*ii*) to subdivide the said Municipality, including the village of Kankinara, into two Municipalities by separating Wards Nos. I and II from that Municipality and constituting those wards a second Municipality. The two Municipalities will be called respectively the "Naihati Municipality" and the "Bhatpara Municipality," and their boundaries will be as follows —

(a)—Boundaries of the Naihati Municipality

On the South—The Muktearpur Khal,
On the East—The northern portion of the village of Madral, the village of Delpara, Kobe Mat, the villages of Mogra, Maluncha, Balvara, Bijun, Balisha, Jetha, Patty, Kumpa and Mathurali Bheel,
On the North—The Bager Khal, and
On the West—The river Hooghly

(b)—Boundaries of the Bhatpara Municipality

On the South—The Bhadreshur Railway line, locally known as the Shamnagar Railway station coal siding, and the first level crossing south of the Shamnagar Railway station and the Cowgachi road,

On the East—The Puddya Bheel, Nutun Gun Tarup, Sreerampore, Thurpara, Sundia, Fingapara, Naranpur and Madral,

On the North—The Muktearpur Khal, and

On the West—The river Hooghly

PART III

Acts of the Bengal Council

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 5th April, 1898, and, having been assented to by His Excellency the Viceroy and Governor General on the 3rd May, 1898, is hereby published for general information —

An Act to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885

CONTENTS

SECTION

1 Short title and commencement

2 Amendment of Act VIII, 1885, section 30

3 Amendment of Act VIII, 1885, section 31

4 Insertion of sections 31A and 31B in Act VIII, 1885

31A What may be taken in certain districts to be the "prevailing rate"

31B Limit to enhancement of prevailing rate

5 Amendment of Act VIII, 1885, section 39 (6)

Amendment of Act VIII, 1885, section 52

SECTION

7 New Chapter X for Act VIII, 1885

CHAPTER X.

RECORD-OF-RIGHTS AND SETTLEMENT OF RENTS.

Part I —Record-of-rights.

101 Power to order survey and preparation of record-of rights

102 Particulars to be recorded

103 Power for Revenue Officer to record particulars on application of proprietor, tenure-holder or large proportion of raiyats

103A. Preliminary publication, amendment, and final publication of record-of-rights

103B Presumption as to correctness of record-of-rights

Part II —Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made

104 Settlement of rents and preparation of Settlement Rent Roll when to be undertaken by Revenue Officer

104A Procedure for settlement of rents and preparation of Settlement Rent Roll under this Part

104B (*1*) Contents of Table of Rates.

(*2*) Local publication of Table

(*3*) Revenue Officer to deal with objections.

(*4*) Table to be submitted to superior Revenue authority

(*5*) Proceedings of confirming authority

(*6*) Effect of Table

104C Application of Table of Rates.

104D Rules and principles to be followed in framing Table of Rates and settling rents in accordance therewith

104E Preliminary publication and amendment of Settlement Rent Roll

104F Final revision of Settlement Rent Roll, and incorporation of the same in the record-of-rights

104G Appeal to and revision by superior Revenue authorities

SECTION

7—*contd*

104H Jurisdiction of Civil Courts in matters relating to rent

104J. Presumptions as to rents settled under sections 104A to 104G

Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made

105 Settlement of rents by Revenue Officer in cases where a settlement of land-revenue is not being or is not about to be made

106 Decision of disputes by Revenue Officer

107 Procedure to be adopted by Revenue Officer

108 Revision by Revenue Officer

109 Bar to jurisdiction of Civil Courts

109A Appeals from decisions of Revenue Officers.

Part IV—Supplemental Provisions

110. Date from which settled rent takes effect

111 Stay of proceedings in Civil Court during preparation of record-of-rights.

111A Limitation of jurisdiction of Civil Courts in matters, other than rent, relating to record-of rights

112. Power to authorize special settlement in special cases

113. Period for which rents as settled are to remain unaltered.

114. Expenses of proceedings under Chapter

115 Presumption as to fixity of rent not to apply where record-of-rights has been prepared.

8 Validation of publication of past records

9 Effect of settlements of rent and decisions by Revenue Officers made before the commencement of this Act

10 Amendment of Act VIII, 1885, section 119

11 Repeal of Bengal Act V, 1894

BENGAL ACT No III OF 1898.

An Act to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885 VIII of 1885

WHEREAS it is expedient to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885, in the manner hereinafter appearing,

And whereas, the said Act having been passed by the Governor General of India in Council, the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the requisite amendments being made by an Act of the Lieutenant Governor of Bengal in Council, 55 and 56 Vict., c 14

And whereas the sanction of the Governor General has similarly been obtained to the amendment of the Court-fees Act, 1870, which is proposed by section 7 (105) of this Act, VII of 1870

It is hereby enacted as follows :—

Short title and commencement.

1 (*1*) This Act may be called the Bengal Tenancy (Amendment) Act, 1898, and

(*2*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor General

Amendment of Act VIII 1885, section 30

2 For clause (*a*) of section 30 of the Bengal Tenancy Act, 1885, the following shall be substituted, namely — VIII of 1885

"(*a*) that the rate of rent paid by the raiyat is below the prevailing rate paid by occupancy raiyats for land of a similar description and with similar advantages in the same village or in neighbouring villages, and that there is no sufficient reason for his holding at so low a rate."

Amendment of Act VIII, 1885, section 31

3 After clause (*d*) of section 31 of the said Act the following shall be inserted, namely —

"(*e*) if a favourable rate has been determined under clause (*c*) for any description of raiyats, such rate may, if the Court thinks fit, be left out of consideration in ascertaining the prevailing rate,

"(*f*) if the holding is held at a lump rental, the determination of the rent to be paid may be made by ascertaining the different classes of land comprised within the holding, and applying to the area of each class the prevailing rate paid on that class within the village or neighbouring villages"

Insertion of sections 31A and 31B in Act VIII, 1885

4. After section 31 of the said Act the following shall be inserted, namely —

"31A (*1*) In any district or part of a district to which this sub-section is extended by the Local Government by notification in the Calcutta Gazette, whenever the prevailing rate for any class of land is to be ascertained under section 30, clause (*a*), by an examination of

What may be taken in certain districts to be the "prevailing rate

(*Sections 5-7 Chapter X —Part I —Record-of rights*)

the rates at which lands of a similar description and with similar advantages are held within any village or villages, the highest of such rates at which and at rates higher than which the larger portion of those lands is held may be taken to be the prevailing rate

Illustrations

"(*a*) The rates at which land of a similar description and with similar advantages is held in a village are as follow

Bighas.					Rs	A	P
100		...	..	at	1	0	0
200	...				1	8	0
150					1	12	0
100		..	..		2	0	0
150			... ..		2	4	0
Total .. 700							

Then Re 2-4 is not the prevailing rate because only 150 bighas or less than half are held at that rate Re is not the prevailing rate because 350 bighas or less than half are held at that or a higher rate Re 1 12 is the prevailing rate because 400 bighas or more than half are held either at this or a higher rate and this is the highest rate at which and at rates higher than which more than half the land is held

(*b*) The rates at which land of a similar description and with similar advantages is held in a village are as follows:—

Bighas.				Rs.	A	P
100			at	1	0	0
200				1	4	0
150				1	8	0
150		..		1	13	0
50	..	..		2	0	0
Total 700						

Then for the reasons given in Illustration (*a*) neither Re 2 nor Re 1 12 is the prevailing rate nor is Re 1 8 the prevailing rate because only 350 bighas (exactly half) are held at Re 1 8 or at rates higher than Re 1 8 In this case Re 1-4 is the prevailing rate because more than half the land are held at Re or higher rates and this is the highest rate at which and at rates higher than which more than half the land is held

"(*2*) The Local Government may, by a like notification, withdraw sub section (*1*) from any district or part of a district to which it has been extended as aforesaid

Limit to enhancement of prevailing rate

"31B When the prevailing rate has once been determined by a Revenue Officer under Chapter X or by a Civil Court in any suit under this Act, it shall not be liable to enhancement save on the ground and to the extent specified in section 30, clause (*b*), and section 32"

Amendment of Act VIII 1885 section 39 (*6*)

5 After the word "correct," in sub-section (*6*) of section 39 of the said Act, the words "and may presume that the prices shown in the lists prepared for any year prior to the passing of this Act are correct" shall be inserted

Amendment of Act VIII 1885 section 52

6 To section 52 of the said Act the following shall be added, namely —

"(*5*) When in a suit under this section the landlord or tenant is unable to indicate any particular land as held in excess, the rent to be added on account of the excess area may be calculated at the average rate of rent paid on all the lands of the holding exclusive of such excess area"

New Chapter X for Act VIII, 1885

7 For Chapter X of the said Act the following shall be substituted, namely —

"CHAPTER X

"RECORD-OF RIGHTS AND SETTLEMENT OF RENTS

"*Part I —Record-of rights*

Power to order survey and preparation of record of rights

"101 (*1*) The Local Government may, in any case with the previous sanction of the Governor General in Council, and may, if it thinks fit, without such sanction in any of the cases next hereinafter mentioned, make an order directing that a survey be made and a

Section 7 Chapter X —Part I —Record-of-rights)

record-of-rights be prepared, by a Revenue Officer, in respect of the lands in any local area, estate or tenure or part thereof

"(2) The cases in which an order may be made under this section without the previous sanction of the Governor General in Council are the following, namely —

"(a) where the landlords or tenants or a large proportion of the landlords or of the tenants apply for such an order and deposit, or give security for, such amount, for the payment of expenses, as the Local Government directs,

"(b) where the preparation of such a record is calculated to settle or avert a serious dispute existing or likely to arise between the tenants and their landlords generally,

"(c) where the local area, estate or tenure or the part thereof belongs to, or is managed by, the Government or the Court of Wards,

"(d) where a settlement of land revenue is being or is about to be made in respect of the local area, estate or tenure or of the part thereof

"Explanation 1 —The term 'settlement of land revenue' as used in clause (d) includes a settlement of rents in an estate or tenure which belongs to the Government

'Explanation 2 —A superior landlord may apply for an order under this section notwithstanding that his estate or part thereof is temporarily leased to a tenure holder

"(3) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made

"(4) The survey shall be made and the record-of-rights prepared in accordance with rules made in this behalf by the Local Government

"102 Where an order is made under section 101, the particulars to be recorded shall be specified in the order, and may include, either without or in addition to other particulars, some or all of the following, namely —

Particulars to be recorded

"(a) the name of each tenant or occupant,

"(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy-raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure,

"(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier,

"(d) the name of each tenant's landlord,

"(e) the rent payable at the time the record-of-rights is being prepared,

(Section 7 Chapter X —Part I —Record-of-rights)

"(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise,

"(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases,

"(*h*) the special conditions and incidents, if any, of the tenancy,

"(*i*) if the land is claimed to be held rent-free—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority

Power for Revenue Officer to record particulars on application of proprietor, tenure holder or large proportion of raiyats

"103 On the application of one or more of the proprietors or tenure-holders, or of a large proportion of the raiyats, of an estate or tenure, and on the applicant or applicants depositing or giving security for the required amount for expenses, a Revenue Officer may, subject to and in accordance with rules made in this behalf by the Local Government, ascertain and record all or any of the particulars specified in section 102 with respect to the estate or tenure or any part thereof

Preliminary publication amendment and final publication of record of rights

"103A (*1*) When a draft record of-rights has been prepared, the Revenue Officer shall publish the draft in the prescribed manner and for the prescribed period, and shall receive and consider any objections which may be made to any entry therein, or to any omission therefrom, during the period of publication.

"(*2*) When such objections have been considered and disposed of according to such rules as the Local Government may prescribe, and (if a settlement of land revenue is being or is about to be made) the Settlement Rent Roll has been incorporated with the record under section 104F, sub-section (*3*), the Revenue Officer shall finally frame the record, and shall cause it to be finally published in the prescribed manner and the publication shall be conclusive evidence that the record has been duly made under this Chapter

"(*3*) Separate draft or final records may be published under sub section (*1*) or sub section (*2*) for different local areas, estates, tenures or parts thereof

Presumption as to correctness of record of rights

"103B A certificate, signed by the Revenue Officer, stating that a record of rights has been finally published under this Chapter shall be conclusive evidence of such publication, and every entry in a record-of-rights so published shall be presumed to be correct until the contrary is proved

(*Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made*)

"PART II—*Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made*

Settlement of rents and preparation of Settlement Rent Roll when to be undertaken by Revenue Officer

"104 In every case in which a settlement of land-revenue is being or is about to be made, the Revenue Officer shall, after publication of the draft of the record of rights under section 103A, sub section (*1*),—

"(*a*) settle fair and equitable rents for tenants of every class,

"(*b*) notwithstanding anything contained in section 192, settle a fair and equitable rent for any land in respect of which he has recorded, in pursuance of clause (*c*) of section 102, that the occupant is not entitled to hold it without payment of rent, and

"(*c*) prepare a Settlement Rent Roll

Procedure for settlement of rents and preparation of Settlement Rent Roll under this Part

"104A (*1*) For the purposes of settling rents under this Part and preparing a Settlement Rent Roll, the Revenue Officer may proceed in any one or more of the following ways or partly in one of those ways and partly in another, that is to say,—

"(*a*) if in any case the landlord and tenant agree between themselves as to the amount of the rent fairly and equitably payable, the Revenue Officer shall satisfy himself that the rent so agreed upon is fair and equitable, and if he is so satisfied, but not otherwise, it may be settled and recorded as the fair and equitable rent,

"(*b*) the Revenue Officer may himself propose what he deems to be the fair and equitable rent, and if the amount so proposed is accepted, either orally or in writing, by the tenant, and if the landlord, after notice to attend, raises no objection, the rent so proposed may be settled and recorded as the fair and equitable rent,

"(*c*) if the circumstances are, in the opinion of the Revenue Officer, such as to make it practicable to prepare a Table of Rates showing for any local area, estate, tenure or village or part thereof, or for each class of land in any local area, estate, tenure or village or part thereof, the rate or rates of rent fairly and equitably payable by tenure-holders and raiyats and under raiyats of each class, he may frame a Table of Rates and settle and record all or any of the rents on the basis of such rates in the manner hereinafter described,

"(*d*) the Revenue Officer may settle all or any of the rents by maintaining the existing rentals recorded in the record of rights as published under section 103A, sub-section (*1*), or by

(*Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made*)

enhancing or reducing such rentals Provided that in making any such settlement regard shall be had to the principles laid down in sections 6 to 9 (both inclusive), 27 to 36 (both inclusive), 38, 39, 43, 50 to 52 (both inclusive), 180 and 191

"(*2*) The Settlement Rent Roll shall show the name of each landlord and of each tenant whose rent has been settled, and the amount of each such tenant's rent payable for the area shown against his name *

"104B (*1*) If a Table of rates is prepared, it shall specify— Contents of Table of Rates

"(*a*) the class or several classes of land for which, having regard to the nature of the soil, situation, means of irrigation, and other like considerations, it is in the opinion of the Revenue Officer necessary or practicable to fix a rate or different rates of rent, and

"(*b*) the rate or rates of rent fairly and equitably payable by tenants holding land of each such class whose rent is liable to alteration

"(*2*) When the Revenue Officer has prepared the Table of Rates he shall publish it in the local area, estate, tenure or village to which it relates, in the vernacular language prevailing in the district, and in the prescribed manner Local publication of Table.

"(*3*) Any person objecting to any entry in the Table of Rates may present a petition to the Revenue Officer within a period of one month after such publication, and the Revenue Officer shall consider any such objection and may alter or amend the Table Revenue Officer to deal with objections

"(*4*) If no objection is made within the said period of one month, or where objections are made, after they have been disposed of, the Revenue Officer shall submit his proceedings to the Revenue authority empowered by rule made by the Local Government to confirm the Tables and Rent Rolls prepared under this Part (hereinafter called the "confirming authority"), with a full statement of the grounds of his proposals and shall forward any petitions of objection which he may have received Table to be submitted to superior Revenue authority

"(*5*) The confirming authority may confirm a Table submitted under sub section (*4*), or may disallow the same, or may amend the same in any manner which appears to it proper, and may allow in whole or in part any objection forwarded therewith or subsequently made, or may return the case for further enquiry Proceedings of confirming authority

"(*6*) When a Table of Rates has been confirmed by the confirming authority, the order confirming it shall be conclusive evidence that the proceedings for the preparation of the Table have Effect of Table

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

been duly conducted in accordance with this Act and it may be presumed that the rates shown in the Table for tenants of each class, for each class of land, are the fair and equitable rates payable for land of that class within the area to which the Table applies

Application of Table of Rates

"104C When a Table of Rates has been confirmed under section 104B, sub section (5), the Revenue Officer may settle all or any of the rents and prepare the Settlement Rent Roll on the basis of the rates shown in the Table, by calculating the rental of each tenure or each holding of a raiyat or under-raiyat on the area of such tenure or holding at the said rates

"Provided that the Revenue Officer shall not be bound to apply the said rates in any particular case in which he may consider it unfair or inequitable to do so

Rules and principles to be followed in framing table of Rates and settling rents in accordance therewith

"104D In framing a table of rates under section 104B, and in settling rents under section 104C, the Revenue Officer shall be guided by such rules as the Local Government may make in this behalf, and shall, so far as may be, and subject to the proviso to the said section 104C, have regard to the general principles of this Act regulating the enhancement or reduction of rents

Preliminary publication and amendment of settlement Rent Roll

"104E (1) When a Settlement Rent Roll for a local area, estate, tenure, or village or part thereof has been prepared, the Revenue Officer shall cause a draft of it to be published in the prescribed manner and for the prescribed period, and shall receive and consider any objections made to any entry therein, or omission therefrom, during the period of publication, and shall dispose of such objections according to such rules as the Local Government may prescribe

"(2) The Revenue Officer may, of his own motion or on the application of any party aggrieved, at any time before a Settlement Rent Roll is submitted to the confirming authority under section 104F, revise any rent entered therein

"Provided that no such entry shall be revised until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Final revision of Settlement Rent Roll and incorporation of the same in the record-of-rights

"104F (1) When all objections have been disposed of under section 104E, the Revenue Officer shall submit the Settlement Rent Roll to the confirming authority, with a full statement of the grounds of his proposals and a summary of the objections (if any) which he has received

"(2) The confirming authority may sanction the Settlement Rent Roll, with or without amendment, or may return it for revision

"Provided that no entry shall be amended, or omission supplied, until reasonable notice has been given to the parties concerned to appear and be heard in the matter

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

"(3) After sanction by the confirming authority, the Revenue Officer shall finally frame the Settlement Rent Roll and shall incorporate it with the record-of rights published in draft under section 103A.

Appeal to and revision by superior Revenue authorities

"104G (1) An appeal, if presented within two months from the date of the order appealed against, shall lie from every order passed by a Revenue Officer prior to the final publication of the record of-rights on any objection made under section 104B, sub-section (3), or section 104E, and such appeal shall lie to such superior Revenue authority as the Local Government may by rule prescribe

"(2) The Board of Revenue may, in any case under this Part, on application or of its own motion, direct the revision of any record of-rights or any portion of a record of rights at any time within two years from the date of the certificate of final publication, but not so as to affect any order passed by a Civil Court under section 104H

"Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Jurisdiction of Civil Courts in matters relating to rent

"104H (1) Any person aggrieved by an entry of a rent settled in a Settlement Rent Roll prepared under sections 104A to 104F and incorporated in a record of-rights finally published under section 103A, or by an omission to settle a rent for entry in such Settlement Rent Roll, may institute a suit in the Civil Court which would have jurisdiction to entertain a suit for the possession of the land to which the entry relates or in respect of which the omission was made

"(2) Such suit must be instituted within six months from the date of the certificate of final publication of the record of rights, or, if an appeal has been presented to a Revenue authority under section 104G then within six months from the date of the disposal of such appeal

"(3) Such suit may be instituted on any of the following grounds, and on no others, namely

"(a) that the land is not liable to the payment of rent,

"(b) that the land, although entered in the record-of rights as being held rent free, is liable to the payment of rent

"(c) that the relation of landlord and tenant does not exist,

"(d) that land has been wrongly recorded as part of a particular estate or tenancy, or wrongly omitted from the lands of an estate or tenancy,

"(e) that the tenant belongs to a class different from that to which he is shown in the record of rights as belonging,

"(f) that the Revenue Officer has not postponed the operation of the settled rent under the provisions of section 110,

(*Section 7 Chapter X —Part II —Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made —Part III —Settlement of Rents and decision of disputes in cases where a settlement of land revenue is not being or is not about to be made*)

clause (*a*), or has wrongly fixed the date from which it is to take effect under that clause,

"(*g*) that the special conditions and incidents of the tenancy have not been recorded or have been wrongly recorded

"The Secretary of State for India in Council shall not be made a defendant in any such suit unless the Government is landlord or tenant of the land to which the aforesaid entry relates or in respect of which the aforesaid omission was made

"(*4*) If it appears to the Court that the entry of rent settled is incorrect, it shall, in case (*a*) or case (*c*) mentioned in sub section (*3*), declare that no rent is payable, and shall in any other case settle a fair rent,

and in any case referred to in clause (*f*) or clause (*g*) of the said sub section (*3*) the Court may declare the date from which the rent settled is to take effect, or pass such order relating to the entry as it may think fit

"(*5*) When the Court has declared under sub section (*4*) that no rent is payable, the entry to the contrary effect in the record of-rights shall be deemed to be cancelled

"(*6*) In settling a fair rent under sub section (*4*) the Court shall be guided by the rents of the other tenures or holdings of the same class comprised in the same Settlement Rent Roll, as settled under sections 104A to 104F

"(*7*) Any rent settled by the Court under sub-section (*4*) shall be deemed to have been duly settled in place of the rent entered in the Settlement Rent Roll

"(*8*) Save as provided in this section, no suit shall be brought in any Civil Court in respect of the settlement of any rent or the omission to settle any rent under sections 104A to 104F

"(*9*) When a Civil Court has passed final orders or a decree under this section, it shall notify the same to the Collector of the district

Presumptions as to rents settled under section 104A to 104G

"104J Subject to the provisions of section 104H, all rents settled under sections 104A to 104F, and entered in a record of-rights finally published under section 103A, or settled under section 104G, shall be deemed to have been correctly settled and to be fair and equitable rents within the meaning of this Act

---

"PART III —*Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made*

Settlement of rents by Revenue Officer in cases where a settlement of land revenue is not being or is not about to be made

"105 (*1*) When, in any case in which a settlement of land revenue is not being made or is not about to be made, either the landlord or the tenant applies, within two months from the date of the

(Section 7 Chapter X —Part III —Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made)

certificate of the final publication of the record of-rights under section 103A, sub section (2), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent in respect of the land held by the tenant

'Explanation —A superior landlord may apply for a settlement of rent notwithstanding that his estate or tenure or part thereof has been temporarily leased

"(2) When, in any case in which a settlement of land revenue is not being made or is not about to be made, the Revenue Officer has recorded, in pursuance of clause (i) of section 102, that the occupant of any land claimed to be held rent-free is not entitled to hold it without payment of rent, and either the landlord or the occupant applies, within two months from the date of the certificate of the final publication of the record-of rights under section 103A, sub section (2), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent for the land

"(3) Every application under sub section (1) or sub section (2) shall, notwithstanding anything contained in the Court fees Act, 1870, bear such stamp as the Government of India may from time to time prescribe by notification in the Gazette of India VII of 1870

"(4) In settling rents under this section, the Revenue Officer shall presume, until the contrary is proved, that the existing rent is fair and equitable, and shall have regard to the rules laid down in this Act for the guidance of the Civil Court in increasing or reducing rents, as the case may be

"(5) The Revenue Officer may in any case under this section propose to the parties such rents as he considers fair and equitable , and the rents so proposed, if accepted orally or in writing by the parties, may be recorded as the fair rents, and shall be deemed to have been duly settled under this Act

"(6) Where the parties agree among themselves, by compromise or otherwise, as to the amount of the fair rent, the Revenue Officer shall satisfy himself that the amount agreed upon is fair and equitable, and, if so satisfied, but not otherwise, he shall record the amount so agreed upon as the fair and equitable rent If not so satisfied, he shall himself settle a fair and equitable rent as provided in sub-sections (4) and (5)

Decision of disputes by Revenue Officer

"106 If, in any case under this Part a dispute arises at any time within two months from the date of the certificate of the final publication of the record of rights under section 103A, sub section (2), regarding any entry which the Revenue Officer has made in, or any omission made from, the record,

whether such dispute be between landlord and tenant, or between landlords of the same or of neighbouring estates, or between tenant and tenant, or as to whether the relationship of landlord and tenant exists, or as to whether land held rent free is properly so held, or as to any other matter,

a suit may be instituted before the Revenue Officer, by presenting a plaint on stamped paper, for the decision of the dispute, and the Revenue Officer shall then hear and decide the dispute

(*Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made*

"Provided that the Revenue Officer may, subject to such rules as the Local Government may prescribe in this behalf, transfer any particular case or class of cases to a competent Civil Court for trial

Procedure to be adopted by Revenue Officer

"107 (*1*) In all proceedings for the settlement of rents under this Part, and in all proceedings under section 106, the Revenue Officer shall, subject to rules made by the Local Government under this Act, adopt the procedure laid down in the Code of Civil Procedure for the trial of suits, and his decision in every such proceeding shall have the force and effect of a decree of a Civil Court in a suit between the parties, and, subject to the provisions of sections 108 and 109A, shall be final XIV of 1882

"(*2*) A note of all rents settled and of all decisions of disputes by the Revenue Officer under section 105 or section 106 shall be made by him in the record-of-rights finally published under section 103A, sub section (*2*), and such note shall be considered as part of the record

Revision by Revenue Officer

"108 Any Revenue Officer especially empowered by the Local Government in this behalf may, on application or of his own motion, within twelve months from the making of any order or decision under section 105, section 106 or section 107, revise the same, whether it was made by himself or by any other Revenue Officer, but not so as to affect any order passed or decree made under section 109A

"Provided that no such order or decision shall be so revised if an appeal from it is pending under setion 109A or until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Bar to jurisdiction of Civil Courts.

"109 Subject to the provisions of section 109A, a Civil Court shall not entertain any application or suit concerning any matter which is or has already been the subject of an application made or suit instituted under section 105, section 106, section 107 or section 108

Appeals from decisions of Revenue Officers

"109A (*1*) The Local Government shall appoint one or more persons to be a Special Judge or Special Judges for the purpose of hearing appeals from the decisions of Revenue Officers under sections 105 to 108 (both inclusive)

"(*2*) An appeal shall lie to the Special Judge from the decisions of a Revenue Officer under sections 105 to 108 (both inclusive), and the provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 1882.

"(*3*) Subject to the provisions of Chapter XLII of the Code of Civil Procedure, an appeal shall lie to the High Court from the decision of a Special Judge in any case under this section (not being a decision settling a rent) as if he were a Court subordinate to the High Court within the meaning of the first section of that chapter

(Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made—Part IV—Supplemental Provisions)

"Provided that, if in a second appeal the High Court alters the decision of the Special Judge in respect of any of the particulars with reference to which the rent of any tenure or holding has been settled, the Court may settle a new rent for the tenure or holding, but in so doing shall be guided by the rents of the other tenures or holdings of the same class comprised in the same record as ascertained under section 102 or settled under section 105 or section 108

"*Part IV—Supplemental Provisions*

Date from which settled rent takes effect.

"110 When a rent is settled by a Revenue Officer under this Chapter, it shall take effect from the beginning of the agricultural year next after the date of the decision fixing the rent or (if a settlement of land-revenue is being or is about to be made) the date of final publication of the Settlement Rent Roll

"Provided as follows —

"(*a*) if the land is comprised in an area, estate or tenure in respect of which a settlement of land-revenue is being or is about to be made, the rent settled shall, subject to the provisions of sections 191 and 192, take effect from the expiration of the period of the current settlement, or from such other date after the expiration of that period as may be fixed by the Revenue Officer,

"(*b*) if the land is not comprised in an area estate or tenure as aforesaid, and if the existing rent has been fixed by a contract binding between the parties for an unexpired term of years, the rent settled shall take effect from the expiration of that term, or from such other date after the expiration of that term as may be fixed by the Revenue Officer

Stay of proceedings in Civil Court during preparation of record-of-rights

"111 When an order has been made under section 101, directing the preparation of a record-of-rights, then subject to the provisions of section 104H, a Civil Court shall not,—

(*a*) where a settlement of land revenue is being or is about to be made—until after the final publication of the record of rights, and

(*b*) where a settlement of land revenue is not being made or is not about to be made—until three months after the final publication of the record-of-rights,

entertain any suit or application for the alteration of the rent or the determination of the status of any tenant in the area to which the record-of-rights applies

Limitation of jurisdiction of Civil Courts in matters, other than rent relating to record of rights

"111A No suit shall be brought in any Civil Court in respect of any order directing the preparation of a record of rights under this Chapter, or in respect of the framing, publication signing or attestation of such a record or of any part of it, or, save as provided

(Section 7 Chapter X —Part IV —Supplemental Provisions)

in section 104H, for the alteration of any entry in such a record of a rent settled under sections 104A to 104F

"Provided that any person who is dissatisfied with any entry in or omission from a record-of-rights framed in pursuance of an order made under section 101, sub section (*2*), clause (*d*), which concerns a right of which he is in possession, may institute a suit for declaration of his right under Chapter VI of the Specific Relief Act, 1877 I of 1877

Power to authorise special settlement in special cases

"112 (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, on being satisfied that the exercise of the powers hereinafter mentioned is necessary in the interests of public order or of the local welfare, invest a Revenue Officer acting under this Chapter with the following powers or either of them, namely —

"(*a*) power to settle all rents,

"(*b*) power, when settling rents, to reduce rents if, in the opinion of the officer, the maintenance of existing rents would on any ground, whether specified in this Act or not, be unfair or inequitable

"(*2*) The powers given under this section may be made exercisable within a specified area either generally or with reference to specified cases or classes of cases

"(*3*) When the Local Government takes any action under this section, the settlement-record prepared by the Revenue Officer shall not take effect until it has been finally confirmed by the Governor General in Council

Period for which rents as settled are to remain unaltered.

"113. (*1*) When the rent of a tenure or holding is settled under this Chapter, it shall not, except on the ground of a landlord's improvement or of a subsequent alteration in the area of the tenure or holding, be enhanced, in the case of a tenure or an occupancy-holding or the holding of an under-raiyat having occupancy rights, for fifteen years, and, in the case of a non occupancy holding or the holding of an under-raiyat not having occupancy rights, for five years, and no such rent shall be reduced within the periods aforesaid save on the ground of alteration in the area of the holding or on the ground specified in section 38, clause (*a*)

"(*2*) The said periods of fifteen years and five years shall be counted from the date on which the rent settled takes effect under this Chapter

Expences of proceedings under Chapter

"114 (*1*) When the preparation of a record of rights has been directed or undertaken under this Chapter, in any case except where a settlement of land-revenue is being or is about to be made, the expenses incurred by the Government in carrying out the provisions of this Chapter in any local area, estate, tenure or part thereof (including expenses that may be incurred from time to time in the maintenance of boundary marks and other survey marks erected for the purpose of carrying out the provisions of this Chapter), or such part of those expenses as the

(*Section 7 Chapter X—Part IV—Supplemental Provisions Sections 8, 9, 10, 11*)

Local Government may direct, shall be defrayed by the landlords, tenants and occupants of land in that local area, estate, tenure or part in such proportions as the Local Government, having regard to all the circumstances, may determine

"(2) The portion of the aforesaid expenses which any person is liable to pay shall be recoverable by the Government as if it were an arrear of land-revenue due in respect of the said local area, estate, tenure or part

Explanation.—The word 'tenure' in this section includes all revenue free and rent free tenures and holdings within a local area estate or tenure

Presumption as to fixity of rent not to apply where record of rights has been prepared

"115 When the particulars mentioned in section 102, clause (*b*), have been recorded under this Chapter in respect of any tenancy, the presumption under section 50 shall not thereafter apply to that tenancy"

Validation of publication of past records

8 All records published under section 105 of the Bengal Tenancy Act, 1885, before the commencement of this Act, whether in draft or final form, shall be deemed to have been duly published VIII 1885.

Effect of settlements of rent and decisions by Revenue Officers made before the commencement of this Act

9 (*1*) Every settlement of rent or decision of a dispute by a Revenue Officer under section 104 or section 106 of the Bengal Tenancy Act, 1885, before the commencement of this Act, in respect of which no appeal has, before the commencement of this Act, been preferred to the special Judge appointed under section 108 of that Act, shall have the force and effect of a decree of a Civil Court in a suit between the parties, and shall be final VIII of 1885.

Provided that an appeal shall lie to the District Judge from any such settlement or decision which was made or given within thirty days before the commencement of this Act, if the appeal be presented within thirty days from the date of such settlement or decision

(*2*) The provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 1882.

Amendment of Act VIII 1885 section 119

10 In section 119 of the Bengal Tenancy Act, 1885, the words and figures "sections 103A, 103B, 106, 107, 108, 109 and 109A" shall be substituted for the words and figures "sections 105 to 109, both inclusive" VIII 1885.

Repeal of Bengal Act V, 1894

11 Bengal Act V of 1894 (*an Act to remove doubts which have arisen in connection with the re-settlement of land revenue in temporarily-settled areas, and to amend the Bengal Tenancy Act, 1885*) is hereby repealed

AUSTRALIA—BRISBANE RIVER.

Leading marks and new red buoy for new cutting above Lytton

The Port Master, Brisbane, has given notice (No 17 of 1898) that the old pair of leading beacons and lights above Lytton have been removed, and that the new dredged cutting there is marked as follows —

A pair of white triangular beacons on the first mangrove islet above Lytton and a pair of post lights near Lytton Wharf mark the downstream portion of the cutting, and a pair of triangular beacons on the Lytton Flats, carrying lights at night, mark the upper portion, a red buoy being placed at the turn in the cutting

Directions —A vessel ascending the river must, after passing Lytton Wharf, bring in line a pair of triangular beacons bearing S 29° W in line ahead, or a pair of lights at night must be brought in line astern bearing N 29° E, and keep them so until another pair of beacons bearing N 58° E, carrying lights at night, come in line astern, passing a red buoy on the starboard hand

This last load passes 300 feet off the Queensland Meat Export Company's Wharf, and may be kept until the latter is neared, when proceed as hitherto

A plan of the locality may be seen at the Harbour Master's Office

AUSTRALIA, EAST COAST—Queensland

Hinchinbrook Channel—Alterations in buoyage

The British Admiralty has given notice (No 587 of 1898) of the undermentioned alterations in the buoyage of the South entrance to Hinchinbrook channel —

1 The Fairway buoy, which is now painted red, has, in consequence of the bar extending seaward, been moved to a position in 5 fathoms at low water, with Hillock point bearing N 22° W and Conspicuous tree on Lucinda point S 63° W, distant $3\frac{1}{10}$ miles
A small black buoy is moored in a depth of 9 feet in the former position of the Fairway buoy
2 The red buoy at the entrance to Enterprise channel has been withdrawn
3 A red buoy has been established in a depth of 10 feet to mark the northern end of a sandbank which has extended into the channel, from it the White leading mark on Hinchinbrook island bears N 39° W, distant $3\frac{3}{4}$ cables, and Oyster rock S 55° W
4 A small red beacon marks a sandbank, which dries 2 feet at low water, from it the White leading mark on Hinchinbrook island bears N 84° E, distant $1\frac{3}{4}$ miles, and mount Stralock N 23° E

Approximate position, Lucinda point (Conspicuous tree), lat 18° 31 30" S, long 146° 20 15" E

F A SLACK,

Offg Secretary to the Govt of Bengal

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of October 1898

	Inches	Date	Hour
The mean pressure of the month	29 843		
The average pressure of October from 24 years' registers	29 832		
The highest pressure in the month	30 013	28th	10
The lowest pressure in the month	29 672	14th	16
The range of pressure	0 341		
	Hours		
The total number of hours of bright sunshine during the month	226 1		
The maximum possible number of hours of sunshine	359 1		
	°		
The mean temperature of the month	78 9		
The average temperature of October from 24 years' registers	81 5		
The highest temperature in the month	91 2	3rd	
The lowest temperature in the month	63 1	29th	
The range of temperature during the month	28 1		
The mean daily range of temperature	12 8		
The greatest range of temperature in one day	19 4	29th	
	Per cent		
The mean humidity of the month	84		
The average humidity of October from 24 years' registers	79		
	Inches		
The mean vapour tension of the month	0 828		
The average vapour tension of October from 24 years' registers	0 834		
The mean cloud proportion of the month	3 14		
The average cloud proportion of October from 21 years' registers	3 85		
	Ins		
The total rain fall of the month	6 18		
The total rainfall indicated by a Beckley's self registering rain gauge (mouth of the gauge about 52 feet above the ground)	6 03		
The average fall of October from 48 years' registers	5 61		
The greatest fall in 24 hours	3 10	14th	
	Days		
The number of rainy days in the month	8		
The average number of rainy days in October from 24 years registers	10		
The mean maximum equilibrium temperature of solar radiation during the month	140 4		
The mean difference of sun and air temperatures	54 9		
The greatest sun temperature	154 4	6th	
The greatest excess of sun over air temperature	68 2	15th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	68 3		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	4 5		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8 2	29th	
	Miles		
The mean movement of the wind per day	428		
The greatest movement of the wind in one day	196 0	14th	
The greatest movement of the wind in one hour	15 0	14th, 1 to 2 P M	

The number of hours with winds from each of the 8 points—
N 123, N E 44, E 56, S E 38, S 76, S W 40, W 50, N W 71, Calm 291

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0 8 lower, and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0 6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory

G W KUCHLER,

METEOROLOGICAL OFFICE, GOVT OF INDIA, *Officiating Meteorological Reporter to the Govt of India*
Calcutta, the 7th November 1898.

	Inc
The total fall of rain from 30th October to 5th November 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0 38
The total fall from 1st January to 7th November 1898	59 5
The average fall of the corresponding period for 24 years, Surveyor-General's Office	64 73

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

a dew

ORDERS BY THE LIEUT-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL

NOTIFICATION

No 6397L S-G—The 9th November 1898—It is hereby notified for general information that, under section 6, clause (*b*) of the Bengal Ferries Act, I of 1885, the Lieutenant-Governor is pleased to take possession of the private ferry named in the margin, situated between the districts of Pabna and Nadia, and to declare it to be a public ferry

Baritpur ferry plying over the river Padma at the head of the road from Pabna to Baritpur between the districts of Pabna and Nadia

2 The Lieutenant-Governor is also pleased, in the exercise of the powers conferred on him by section 35 of the said Act, to direct that the ferry shall be managed by the District Board of Pabna, and that all the proceeds of this ferry, and all the fines levied and the compensation received under the Act in respect thereof, shall be paid into the District Fund with effect from the date of this notification

E N BAKER,
Offg Secy to the Govt of Bengal

NOTIFICATION

No 6441M—The 11th November 1898—Whereas a notification No 4964M, dated the 11th August 1898, declaring the intention of the Lieutenant-Governor to revise the boundaries of the Sasaram Municipality, in the district of Shahabad, was published at page 147, Part IB of the *Calcutta Gazette* of the 17th idem, and whereas no objection has been raised to the proposal, it is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Sasaram Municipality made at a meeting, and in exercise of the power vested in the Local Government by section 9A (*2*) of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to revise the boundaries of the said Municipality so as to include within its limits the following area —

A portion of the lands of the following villages as shown in the sketch which may be inspected in the Municipal Office —

Chunontha	Kasba Khas
Gajrarh	Rajokher
Kasulpur	Lakhmi Sera
Mohiuddinganj	Dhanku Dehra

2 The revised boundaries of the Municipality after the inclusion of the above area will be as follows —

North—A line drawn from the south-east corner of Salim Shah's tank to the Satti Kuchohutra, south-east of Mohiuddinganj village

South—Kudru river

East—A line drawn from Satti Kuchohutra passing the old distillery and meeting the Kudru river

West—A line drawn from the south-east corner of Salim Shah's tank west of Karballa to the Kudru river

E N Baker,
Offg Secy to the Govt of Bengal.

NOTIFICATION

No 6456M —The 11th November 1898 —Whereas a notification No 4814M, dated the 8th August 1898, was published at page 143, Part IB of the *Calcutta Gazette* of the 10th idem, declaring the intention of the Lieutenant-Governor to confirm the rules set forth below, which were framed by the Commissioners of the Jamalpur Municipality, in the district of Monghyr, under section 3 of Act XX of 1887, for the protection of wild birds and game, and whereas no objection has been made to the proposal within one month from the date of publication of the aforesaid notification within the Municipality, it is hereby notified that the said rules are confirmed by the Lieutenant-Governor under clause 4 of the said section of the Act, and are published for general information under clause 5 of section 6 of the General Clauses Act, I of 1887 —

Rules

1 "Wild birds," for the purposes of these rules, shall include jungle fowl, pea fowl, ortolans, pheasants, partridges, plover, jays, doves, egrets, golden oriel, green fly catchers, but does not include domesticated pea fowl

2 "Hare" also shall be included under the provisions of section 3, Act XX of 1887, and the following rules will apply to that animal as well as to wild birds

3 The "breeding season," for the purposes of these rules, shall extend from 15th March to 1st October

4 Whoever during the breeding season has in his possession, within the limits of the Municipality of Jamalpur, any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs 5 for each such bird or animal

5 Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs 5 for the plumage of every such bird or the fur or skin of every such hare In the case of a second conviction, the fine may extend to Rs 10 for each such bird or animal.

6 A reward, not exceeding half the fine imposed and realized under rules 4 and 5, may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

E N Baker,
Offg Secy to the Govt of Bengal.

NOTIFICATION

The Indian Law Reports

Published under Authority

THE Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively

In supersession of the previous advertisements on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

10 Amendment of Act VIII, 1885, section 119

11 Repeal of Bengal Act V, 1894

BENGAL ACT No III OF 1898

An Act to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885 VIII of 1885

WHEREAS it is expedient to amend sections 30, 31, 39, 52 and 119 and Chapter X of the Bengal Tenancy Act, 1885, in the manner hereinafter appearing,

And whereas, the said Act having been passed by the Governor General of India in Council, the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the requisite amendments being made by an Act of the Lieutenant Governor of Bengal in Council, 55 and 56 Vict., c. 14

And whereas the sanction of the Governor General has similarly been obtained to the amendment of the Court-fees Act, 1870, which is proposed by section 7 (10b) of this Act, VII of 1870

It is hereby enacted as follows —

Short title and commencement.

1 (*1*) This Act may be called the Bengal Tenancy (Amendment) Act, 1898, and

(*2*) It shall come into force on the day on which it is first published in the Calcutta Gazette after having received the assent of the Governor General

Amendment of Act VIII 1885, section 30

2 For clause (*a*) of section 30 of the Bengal Tenancy Act, 1885, the following shall be substituted, namely — VIII of 1885

"(*a*) that the rate of rent paid by the raiyat is below the prevailing rate paid by occupancy raiyats for land of a similar description and with similar advantages in the same village or in neighbouring villages, and that there is no sufficient reason for his holding at so low a rate"

Amendment of Act VIII, 1885, section 31.

3 After clause (*d*) of section 31 of the said Act the following shall be inserted, namely —

"(*e*) if a favourable rate has been determined under clause (*c*) for any description of raiyats, such rate may, if the Court thinks fit, be left out of consideration in ascertaining the prevailing rate,

"(*f*) if the holding is held at a lump rental, the determination of the rent to be paid may be made by ascertaining the different classes of land comprised within the holding, and applying to the area of each class the prevailing rate paid on that class within the village or neighbouring villages"

Insertion of sections 31A and 31B in Act VIII, 1885

4 After section 31 of the said Act the following shall be inserted, namely —

"31A (*1*) In any district or part of a district to which this sub-section is extended by the Local Government by notification in the Calcutta Gazette, whenever the prevailing rate for any class of land is to be ascertained under section 30, clause (*a*), by an examination of

What may be taken in certain districts to be the 'prevailing rate'

(Sections 5-7 Chapter X—Part I—Record of rights)

the rates at which lands of a similar description and with similar advantages are held within any village or villages, the highest of such rates at which and at rates higher than which the larger portion of those lands is held may be taken to be the prevailing rate

Illustrations

(a) The rates at which land of a similar description and with similar advantages is held in a village are as follow

Bighas.		Rs. A. P.
100	at	1 0 0
200	"	1 8 0
150		1 12 0
100		2 0 0
150	"	2 4 0
Total 700		

Then Re. 2-4 is not the prevailing rate because only 150 bighas or less than half are held at that rate Re 2 1 not the prevailing rate because 250 bighas or less than half are held at that higher rate. Re 1 12 is the prevailing rate because 400 bighas or more than half are held either at this or a higher rate and this is the highest rate at which and at rates higher than which more than half the land is held

(b) The rates at which land of a similar description and with similar advantages is held in a village are as follow —

Bighas		Rs. A. P.
100	at	1 0 0
250		1 4 0
150		1 8 0
150		1 12 0
50		0 0 0
Total 700		

Then for the reasons given in Illustration (a) neither Re 1 Re 1 12 is the prevailing rate nor is Re 1 8 the prevailing rate because only 350 bighas (exactly half) are held at Re 1 8 or at rates higher than Re 1-8 In this case Re 1-4 is the prevailing rate because more than half the land is held at Re 1-4 or higher rates and this is the highest rate at which and at rates higher than which more than half the land is held

'(2) The Local Government may by a like notification, withdraw sub-section (1) from any district or part of a district to which it has been extended as aforesaid

Limit to enhancement of prevailing rate

'31B When the prevailing rate has once been determined by a Revenue Officer under Chapter X or by a Civil Court in any suit under this Act, it shall not be liable to enhancement save on the ground and to the extent specified in section 30, clause (*b*), and section 32"

Amendment of Act VIII 1885 section 39 (6)

5 After the word "correct," in sub-section (6) of section 39 of the said Act, the words 'and may presume that the prices shown in the lists prepared for any year prior to the passing of this Act are correct" shall be inserted

Amendment of Act VIII 1885 section 52

6 To section 52 of the said Act the following shall be added, namely —

"(5) When in a suit under this section the landlord or tenant is unable to indicate any particular land as held in excess, the rent to be added on account of the excess area may be calculated at the average rate of rent paid on all the land of the holding exclusive of such excess area

New Chapter X for Act VIII, 1885

7 For Chapter X of the said Act the following shall be substituted, namely —

"CHAPTER X

"RECORD-OF-RIGHTS AND SETTLEMENT OF RENTS

"*Part I—Record-of-rights*

Power to order survey and preparation of record of rights

"101 (1) The Local Government may, in any case with the previous sanction of the Governor General in Council, and may, if it thinks fit, without such sanction in any of the cases next hereinafter mentioned, make an order directing that a survey be made and a

Section 7 Chapter X—Part I—Record-of-rights)

record-of rights be prepared, by a Revenue Officer, in respect of the lands in any local area, estate or tenure or part thereof

"(2) The cases in which an order may be made under this section without the previous sanction of the Governor General in Council are the following, namely —

"(a) where the landlords or tenants or a large proportion of the landlords or of the tenants apply for such an order and deposit, or give security for, such amount, for the payment of expenses, as the Local Government directs,

"(b) where the preparation of such a record is calculated to settle or avert a serious dispute existing or likely to arise between the tenants and their landlords generally,

"(c) where the local area, estate or tenure or the part thereof belongs to, or is managed by, the Government or the Court of Wards,

"(d) where a settlement of land revenue is being or is about to be made in respect of the local area, estate or tenure or of the part thereof

'Explanation 1—The term 'settlement of land revenue' as used in clause (d) includes a settlement of rents in an estate or tenure which belongs to the Government

Explanation 2—A superior landlord may apply for an order under this section notwithstanding that his estate or part thereof is temporarily leased to a tenure holder

"(3) A notification in the official Gazette of an order under this section shall be conclusive evidence that the order has been duly made

"(4) The survey shall be made and the record of-rights prepared in accordance with rules made in this behalf by the Local Government

"102 Where an order is made under section 101, the particulars to be recorded shall be specified in the order, and may include either without or in addition to other particulars, some or all of the following, namely —

Particulars to be recorded

"(a) the name of each tenant or occupant

"(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy-raiyat, non-occupancy raiyat or under raiyat, and, if he is a tenure holder, whether he is a permanent tenure holder or not, and whether his rent is liable to enhancement during the continuance of his tenure,

"(c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier,

"(d) the name of each tenant's landlord,

'(e) the rent payable at the time the record-of rights is being prepared,

(*Section 7 Chapter X—Part I—Record of-rights*)

"(*f*) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise,

"(*g*) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases,

"(*h*) the special conditions and incidents, if any, of the tenancy,

"(*i*) if the land is claimed to be held rent free—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority

Power for Revenue Officer to record particulars on application of proprietor, tenure holder or large proportion of ryots

"103 On the application of one or more of the proprietors or tenure holders, or of a large proportion of the ryots, of an estate or tenure, and on the applicant or applicants depositing or giving security for the required amount for expenses, a Revenue Officer may, subject to and in accordance with rules made in this behalf by the Local Government, ascertain and record all or any of the particulars specified in section 102 with respect to the estate or tenure or any part thereof

Preliminary publication amendment and final publication of record of rights

'103A (*1*) When a draft record of rights has been prepared, the Revenue Officer shall publish the draft in the prescribed manner and for the prescribed period, and shall receive and consider any objections which may be made to any entry therein, or to any omission therefrom, during the period of publication

"(*2*) When such objections have been considered and disposed of according to such rules as the Local Government may prescribe, and (if a settlement of land revenue is being or is about to be made) the Settlement Rent Roll has been incorporated with the record under section 104F, sub-section (*3*), the Revenue Officer shall finally frame the record, and shall cause it to be finally published in the prescribed manner and the publication shall be conclusive evidence that the record has been duly made under this Chapter

"(*3*) Separate draft or final records may be published under sub-section (*1*) or sub-section (*2*) for different local areas, estates, tenures or parts thereof

Presumption as to correctness of record of rights

"103B A certificate, signed by the Revenue Officer, stating that a record of rights has been finally published under this Chapter shall be conclusive evidence of such publication, and every entry in a record of-rights so published shall be presumed to be correct until the contrary is proved

(*Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land revenue is being or is about to be made*)

"PART II—*Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land revenue is being or is about to be made*

Settlement of rent and preparation of Settlement Rent Roll when to be undertaken by Revenue Officer

"104 In every case in which a settlement of land revenue is being or is about to be made, the Revenue Officer shall, after publication of the draft of the record-of rights under section 103A, sub section (*1*),—

'(*a*) settle fair and equitable rents for tenants of every class,

"(*b*) notwithstanding anything contained in section 102, settle a fair and equitable rent for any land in respect of which he has recorded in pursuance of clause (*c*) of section 102, that the occupant is not entitled to hold it without payment of rent, and

"(*c*) prepare a Settlement Rent Roll

Procedure for settlement of rents and preparation of Settlement Rent Roll under this Part

"104A (*1*) For the purposes of settling rents under this Part and preparing a Settlement Rent Roll, the Revenue Officer may proceed in any one or more of the following ways or partly in one of those ways and partly in another, that is to say,—

"(*a*) if in any case the landlord and tenant agree between themselves as to the amount of the rent fairly and equitably payable, the Revenue Officer shall satisfy himself that the rent so agreed upon is fair and equitable, and if he is so satisfied, but not otherwise it may be settled and recorded as the fair and equitable rent,

"(*b*) the Revenue Officer may himself propose what he deems to be the fair and equitable rent, and if the amount so proposed is accepted, either orally or in writing by the tenant, and if the landlord, after notice to attend, raises no objection, the rent so proposed may be settled and recorded as the fair and equitable rent,

"(*c*) if the circumstances are, in the opinion of the Revenue Officer, such as to make it practicable to prepare a Table of Rates showing for any local area, estate, tenure or village or part thereof, or for each class of land in any local area, estate, tenure or village or part thereof, the rate or rates of rent fairly and equitably payable by tenure-holders and raiyats and under raiyats of each class, he may frame a Table of Rates and settle and record all or any of the rents on the basis of such rates in the manner hereinafter described,

"(*d*) the Revenue Officer may settle all or any of the rents by maintaining the existing rentals recorded in the record of rights as published under section 103A, sub section (*1*), or by

(*Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land revenue is being or is about to be made*)

enhancing or reducing such rentals Provided that in making any such settlement regard shall be had to the principles laid down in sections 6 to 9 (both inclusive), 27 to 36 (both inclusive), 38, 39, 43, 50 to 52 (both inclusive), 180 and 191

4. "(*2*) The Settlement Rent Roll shall show the name of each landlord and of each tenant whose rent has been settled, and the amount of each such tenant's rent payable for the area shown against his name

"194B (*1*) If a Table of rates is prepared, it shall specify—

Contents of Table of Rates

"(*a*) the class or several classes of land for which, having regard to the nature of the soil, situation, means of irrigation, and other like considerations, it is in the opinion of the Revenue Officer necessary or practicable to fix a rate or different rates of rent, and

"(*b*) the rate or rates of rent fairly and equitably payable by tenants holding land of each such class whose rent is liable to alteration

"(*2*) When the Revenue Officer has prepared the Table of Rates he shall publish it in the local area, estate, tenure or village to which it relates, in the vernacular language prevailing in the district, and in the prescribed manner

Local publication of Table.

"(*3*) Any person objecting to any entry in the Table of Rates may present a petition to the Revenue Officer within a period of one month after such publication, and the Revenue Officer shall consider any such objection and may alter or amend the Table

Revenue Officer to deal with objections

"(*4*) If no objection is made within the said period of one month, or, where objections are made, after they have been disposed of, the Revenue Officer shall submit his proceedings to the Revenue authority empowered by rule made by the Local Government to confirm the Tables and Rent Rolls prepared under this Part (hereinafter called the "confirming authority"), with a full statement of the grounds of his proposals and shall forward any petitions of objection which he may have received

Table to be submitted to superior Revenue authority

"(*5*) The confirming authority may confirm a Table submitted under sub section (*4*), or may disallow the same, or may amend the same in any manner which appears to it proper, and may allow in whole or in part any objection forwarded therewith or subsequently made, or may return the case for further enquiry

Proceedings of confirming authority

"(*6*) When a Table of Rates has been confirmed by the confirming authority, the order confirming it shall be conclusive evidence that the proceedings for the preparation of the Table have

Effect of Table.

(Section 7 (chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made)

been duly conducted in accordance with this Act and it may be presumed that the rates shown in the Table for tenants of each class, for each class of land, are the fair and equitable rates payable for land of that class within the area to which the Table applies

Application of Table of Rates

"104C When a Table of Rates has been confirmed under section 104B, sub-section (5), the Revenue Officer may settle all or any of the rents and prepare the Settlement Rent Roll on the basis of the rates shown in the Table, by calculating the rental of each tenure or each holding of a raiyat or under-raiyat on the area of such tenure or holding at the said rates

"Provided that the Revenue Officer shall not be bound to apply the said rates in any particular case in which he may consider it unfair or inequitable to do so

Rules and principles to be followed in framing Table of Rates and settling rents in accordance therewith

"104D In framing a table of rates under section 104B, and in settling rents under section 104C the Revenue Officer shall be guided by such rules as the Local Government may make in this behalf, and shall, so far as may be, and subject to the proviso to the said section 104C, have regard to the general principles of this Act regulating the enhancement or reduction of rents

Preliminary publication and amendment of Settlement Rent Roll

"104E. (1) When a Settlement Rent Roll for a local area, estate, tenure, or village or part thereof has been prepared, the Revenue Officer shall cause a draft of it to be published in the prescribed manner and for the prescribed period, and shall receive and consider any objections made to any entry therein, or omission therefrom, during the period of publication, and shall dispose of such objections according to such rules as the Local Government may prescribe

"(2) The Revenue Officer may, of his own motion or on the application of any party aggrieved, at any time before a Settlement Rent Roll is submitted to the confirming authority under section 104F, revise any rent entered therein

'Provided that no such entry shall be revised until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Final revision of Settlement Rent Roll, and incorporation of the same in the record-of-rights

'104F (1) When all objections have been disposed of under section 104E, the Revenue Officer shall submit the Settlement Rent Roll to the confirming authority, with a full statement of the grounds of his proposals and a summary of the objections (if any) which he has received

"(2) The confirming authority may sanction the Settlement Rent Roll, with or without amendment, or may return it for revision

"Provided that no entry shall be amended, or omission supplied, until reasonable notice has been given to the parties concerned to appear and be heard in the matter

(Section 7 Chapter X—Part II—Settlement of Rents, preparation of Settlement Rent Roll and revision of disputes in cases where a settlement of land-revenue is being or is about to be made)

"(3) After sanction by the confirming authority, the Revenue Officer shall finally frame the Settlement Rent Roll and shall incorporate it with the record-of rights published in draft under section 103A.

Appeal to and revision by superior Revenue authorities

'104G (1) An appeal, if presented within two months from the date of the order appealed against shall lie from every order passed by a Revenue Officer prior to the final publication of the record of rights on any objection made under section 104B, sub section (3), or section 104E, and such appeal shall lie to such superior Revenue authority as the Local Government may by rule prescribe

"(2) The Board of Revenue may, in any case under this Part, on application or of its own motion, direct the revision of any record of-rights or any portion of a record of rights at any time within two years from the date of the certificate of final publication, but not so as to affect any order passed by a Civil Court under section 104H

"Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Jurisdiction of Civil Courts in matters relating to rent

'104H (1) Any person aggrieved by an entry of a rent settled in a Settlement Rent Roll prepared under sections 104A to 104F and incorporated in a record of rights finally published under section 103A, or by an omission to settle a rent for entry in such Settlement Rent Roll, may institute a suit in the Civil Court which would have jurisdiction to entertain a suit for the possession of the land to which the entry relates or in respect of which the omission was made

"(2) Such suit must be instituted within six months from the date of the certificate of final publication of the record of rights, or, if an appeal has been presented to a Revenue authority under section 104G then within six months from the date of the disposal of such appeal

'(3) Such suit may be instituted on any of the following grounds, and on no others, namely

"(a) that the land is not liable to the payment of rent,

"(b) that the land, although entered in the record-of-rights as being held rent-free, is liable to the payment of rent,

"(c) that the relation of landlord and tenant does not exist,

"(d) that land has been wrongly recorded as part of a particular estate or tenancy, or wrongly omitted from the lands of an estate or tenancy,

"(e) that the tenant belongs to a class different from that to which he is shown in the record of rights as belonging,

"(f) that the Revenue Officer has not postponed the operation of the settled rent under the provisions of section 110,

(*Section 7 Chapter X —Part II —Settlement of Rents, preparation of Settlement Rent Roll and decision of disputes in cases where a settlement of land-revenue is being or is about to be made —Part III —Settlement of Rents and decision of disputes in cases where a settlement of land revenue is not being or is not about to be made*)

clause (*a*), or has wrongly fixed the date from which it is to take effect under that clause,

"(*g*) that the special conditions and incidents of the tenancy have not been recorded or have been wrongly recorded

"The Secretary of State for India in Council shall not be made a defendant in any such suit unless the Government is landlord or tenant of the land to which the aforesaid entry relates or in respect of which the aforesaid omission was made

"(*4*) If it appears to the Court that the entry of rent settled is incorrect, it shall, in case (*a*) or case (*c*) mentioned in sub section (*3*), declare that no rent is payable, and shall in any other case settle a fair rent,

and in any case referred to in clause (*f*) or clause (*g*) of the said sub section (*3*) the Court may declare the date from which the rent settled is to take effect, or pass such order relating to the entry as it may think fit

"(*5*) When the Court has declared under sub section (*4*) that no rent is payable, the entry to the contrary effect in the record of rights shall be deemed to be cancelled

"(*6*) In settling a fair rent under sub section (*4*) the Court shall be guided by the rents of the other tenures or holdings of the same class comprised in the same Settlement Rent Roll, as settled under sections 104A to 104F

"(*7*) Any rent settled by the Court under sub-section (*4*) shall be deemed to have been duly settled in place of the rent entered in the Settlement Rent Roll

"(*8*) Save as provided in this section, no suit shall be brought in any Civil Court in respect of the settlement of any rent or the omission to settle any rent under sections 104A to 104F

"(*9*) When a Civil Court has passed final orders or a decree under this section, it shall notify the same to the Collector of the district

Presumptions as to rents settled under sections 104A to 104G

"104J Subject to the provisions of section 104H, all rents settled under sections 104A to 104F and entered in a record-of-rights finally published under section 103A, or settled under section 104G, shall be deemed to have been correctly settled and to be fair and equitable rents within the meaning of this Act

---

"PART III —*Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made*

Settlement of rents by Revenue Officer in cases where a settlement of land revenue is not being or is not about to be made

"105 (*1*) When, in any case in which a settlement of land revenue is not being made or is not about to be made, either the landlord or the tenant applies, within two months from the date of the

(Section 7 Chapter X —Part III —Settlement of Rents and decision of disputes in cases where a settlement of land revenue is not being or is not about to be made)

certificate of the final publication of the record of rights under section 103A, sub section (*2*), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent in respect of the land held by the tenant

Explanation —A superior landlord may apply for a settlement of rent notwithstanding, that his estate or tenure or part thereof has been temporarily leased

"(*2*) When, in any case in which a settlement of land revenue is not being made or is not about to be made, the Revenue Officer has recorded, in pursuance of clause (*7*) of section 102, that the occupant of any land claimed to be held rent free is not entitled to hold it without payment of rent and either the landlord or the occupant applies, within two months from the date of the certificate of the final publication of the record of rights under section 103A, sub section (*2*), for a settlement of rent, the Revenue Officer shall settle a fair and equitable rent for the land

"(*3*) Every application under sub section (*1*) or sub section (*2*) shall, notwithstanding anything contained in the Court fees Act, 1870, bear such stamp as the Government of India may from time to time prescribe by notification in the Gazette of India

'(*4*) In settling rents under this section the Revenue Officer shall presume until the contrary is proved that the existing rents are fair and equitable, and shall have regard to the rules laid down in this Act for the guidance of the Civil Court in increasing or reducing rents, as the case may be

'(*5*) The Revenue Officer may in any case under this section propose to the parties such rents as he considers fair and equitable and the rents so proposed, if accepted fully and in writing by the parties, may be recorded as the fair rents and shall be deemed to have been duly settled under this Act

"(*6*) When the parties agree among themselves, by compromise or otherwise as to the amount of the rent the Revenue Officer shall satisfy himself that the amount agreed upon is fair and equitable, and if so satisfied but not otherwise he shall record the amount agreed upon as the fair and equitable rent If not so satisfied he shall himself settle a fair and equitable rent as provided in sub sections (*4*) and (*5*),

'106 If in any case under this Part a dispute arises at any time within two months from the date of the certificate of the final publication of the record of rights under section 103A, sub section (*2*), regarding which the Revenue Officer has made any omission from the record

whether such dispute be between a landholder and tenant, or between landholders of neighbouring estates or tenures or as to whether the landlord and tenant exist, or whether land is rent free or is properly recorded in any other matter,

a suit may be instituted in the Revenue Officer by presentation of a plaint for the decision of the dispute and the Revenue Officer shall thereupon [illegible]

(*Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made*

"Provided that the Revenue Officer may, subject to such rules as the Local Government may prescribe in this behalf, transfer any particular case or class of cases to a competent Civil Court for trial

Procedure to be adopted by Revenue Officer

"107 (*1*) In all proceedings for the settlement of rents under this Part, and in all proceedings under section 106, the Revenue Officer shall, subject to rules made by the Local Government under this Act, adopt the procedure laid down in the Code of Civil Procedure for the trial of suits, and his decision in every such proceeding shall have the force and effect of a decree of a Civil Court in a suit between the parties, and, subject to the provisions of sections 108 and 109A, shall be final XIV of 1882

"(*2*) A note of all rents settled and of all decisions of disputes by the Revenue Officer under section 105 or section 106 shall be made by him in the record-of-rights finally published under section 103, sub-section (*3*) and such note shall be considered as part of the record

Revision by Revenue Officer

"108 Any Revenue Officer especially empowered by the Local Government in this behalf may, on application or of his own motion, within twelve months from the making of any order or decision under section 105, section 106 or section 107 revise the same, whether it was made by himself or by any other Revenue Officer but not so as to affect any order passed or decree made under section 109A

Provided that no such order or decision shall be so revised if an appeal from it is pending under section 109A or until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Bar to jurisdiction of Civil Courts

"109 Subject to the provisions of section 109A, a Civil Court shall not entertain any application or suit concerning any matter which is or has already been the subject of an application made or suit instituted under section 105, section 106, section 107 or section 108

Appeals from decisions of Revenue Officers

"109A (*1*) The Local Government shall appoint one or more persons to be a Special Judge or Special Judges for the purpose of hearing appeals from the decisions of Revenue Officers under sections 105 to 108 (both inclusive)

'(*2*) An appeal shall lie to the Special Judge from the decisions of a Revenue Officer under sections 105 to 108 (both inclusive), and the provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 1882

"(*3*) Subject to the provisions of Chapter XLII of the Code of Civil Procedure, an appeal shall lie to the High Court from the decision of a Special Judge in any case under this section (not being a decision settling a rent) as if he were a Court subordinate to the High Court within the meaning of the first section of that Chapter

(Section 7 Chapter X—Part III—Settlement of Rents and decision of disputes in cases where a settlement of land-revenue is not being or is not about to be made—Part IV—Supplemental Provisions)

"Provided that, if in a second appeal the High Court alters the decision of the Special Judge in respect of any of the particulars with reference to which the rent of any tenure or holding has been settled, the Court may settle a new rent for the tenure or holding, but in so doing shall be guided by the rents of the other tenures or holdings of the same class comprised in the same record as ascertained under section 102 or settled under section 105 or section 108

"*Part IV—Supplemental Provisions*

Date from which settled rent takes effect

"110 When a rent is settled by a Revenue Officer under this Chapter, it shall take effect from the beginning of the agricultural year next after the date of the decision fixing the rent or (if a settlement of land-revenue is being or is about to be made) the date of final publication of the Settlement Rent Roll

"Provided as follows —

"(*a*) if the land is comprised in an area, estate or tenure in respect of which a settlement of land-revenue is being or is about to be made, the rent settled shall subject to the provisions of sections 191 and 192 take effect from the expiration of the period of the current settlement, or from such other date after the expiration of that period as may be fixed by the Revenue Officer

"(*b*) if the land is not comprised in an area, estate or tenure as aforesaid, and if the existing rent has been fixed by a contract binding between the parties for an unexpired term of years, the rent settled shall take effect from the expiration of that term, or from such other date after the expiration of that term as may be fixed by the Revenue Officer

Stay of proceedings in Civil Court during preparation of record of rights

"111 When an order has been made under section 101 directing the preparation of a record of rights, then subject to the provisions of section 101H, a Civil Court shall not,—

(*a*) where a settlement of land revenue is being or is about to be made—until after the final publication of the record of rights, and

(*b*) where a settlement of land revenue is not being made or is not about to be made—until three months after the final publication of the record-of rights,

entertain any suit or application for the alteration of the rent or the determination of the status of any tenant in the area to which the record-of rights applies

Limitation of jurisdiction of Civil Court in matters other than rent relating to record of rights

"111A No suit shall be brought in any Civil Court in respect of any order directing the preparation of a record of rights under this Chapter, or in respect of the framing, publication signing, or attestation of such a record or of any part of it, or, save as provided

(*Section 7 Chapter X—Part IV—Supplemental Provisions*)

in section 104H, for the alteration of any entry in such a record of a rent settled under sections 104A to 104F

"Provided that any person who is dissatisfied with any entry in or omission from a record of rights framed in pursuance of an order made under section 101, sub-section (2) clause (*d*), which concerns a right of which he is in possession, may institute a suit for declaration of his right under Chapter VI of the Specific Relief Act, 1877

Power to settle special rents in special cases

"112 (*1*) The Local Government with the previous sanction of the Governor General in Council, may, on being satisfied that the exercise of the powers hereinafter mentioned is necessary in the interests of public order or of the local welfare invest a Revenue Officer acting under this Chapter with the following powers or either of them namely —

"(*a*) power to settle all rents

"(*b*) power, when settling rents to reduce rents if in the opinion of the officer the maintenance of existing rents would on any ground whether specified in this Act or not, be unfair or inequitable

'(*2*) The powers given under this section may be made exercisable within a specified area either generally or with reference to specified cases or classes of cases

"(*3*) When the Local Government takes any action under this section the settlement record prepared by the Revenue Officer shall not take effect until it has been finally confirmed by the Governor General in Council

Rent fixed when rents assessed not to be enhanced or unsettled

"113 (*1*) When the rent of a tenure or holding is settled under this Chapter, it shall not except on the ground of a landlord's improvement or of a subsequent alteration in the area of the tenure or holding be enhanced, in the case of a tenure or in occupancy holding or the holding of an undertenant having occupancy right, for fifteen years, and in the case of a non occupancy holding or the holding of an undertenant not having occupancy rights for five years and no such rent shall be reduced within the periods aforesaid save on the ground of alteration in the area of the holding or on the ground provided in section 38 clause (*c*)

(*2*) The said periods of fifteen years and five years shall be counted from the date on which the rent settled takes effect under this Chapter

Expenses of survey and demarcation

"114 (*1*) When the preparation of a record of right has been directed or undertaken under this Chapter, in any case except where a settlement of land revenue is being or is about to be made, the expenses incurred by the Government in carrying out the provisions of this Chapter in any local area, estate tenure or part thereof including expenses that may be incurred from time to time in the maintenance of boundary mark and other survey mark erected for the purpose of carrying out the provisions of this Chapter), or such part of these expenses as the

(Section 7 Chapter X—Part IV—Supplemental Provisions Sections 8, 9, 10, 11)

Local Government may direct, shall be defrayed by the landlords, tenants and occupants of land in that local area, estate, tenure or part in such proportions as the Local Government, having regard to all the circumstances, may determine

"(2) The portion of the aforesaid expenses which any person is liable to pay shall be recoverable by the Government as if it were an arrear of land-revenue due in respect of the said local area, estate, tenure or part

'Explanation.—The word 'tenure' in this section includes all revenue free and rent free tenures and holdings within a local area estate or tenure

Presumption as to fixity of rent not to apply where record of rights has been prepared

"115 When the particulars mentioned in section 102, clause (*b*), have been recorded under this Chapter in respect of any tenancy, the presumption under section 50 shall not thereafter apply to that tenancy"

Validation of publication of past records

8 All records published under section 105 of the Bengal Tenancy Act 1885, before the commencement of this Act, whether in draft or final form, shall be deemed to have been duly published VIII of 1885

Effect of settlements of rent and decisions by Revenue Officers made before the commencement of this Act

9 (*1*) Every settlement of rent or decision of a dispute by a Revenue Officer under section 104 or section 106 of the Bengal Tenancy Act, 1885, before the commencement of this Act, in respect of which no appeal has, before the commencement of this Act, been preferred to the special Judge appointed under section 108 of that Act, shall have the force and effect of a decree of a Civil Court in a suit between the parties, and shall be final VIII of 1885

Provided that an appeal shall lie to the District Judge from any such settlement or decision which was made or given within thirty days before the commencement of this Act, if the appeal be presented within thirty days from the date of such settlement or decision

(*2*) The provisions of the Code of Civil Procedure relating to appeals shall, as nearly as may be, apply to all such appeals XIV of 1882

Amendment of Act VIII, 1885, section 119

10 In section 119 of the Bengal Tenancy Act, 1885, the words and figures "sections 103A, 103B, 106, 107, 108, 109 and 109A" shall be substituted for the words and figures "sections 105 to 109, both inclusive" VIII of 1885

Repeal of Bengal Act V, 1894

11 Bengal Act V of 1894 (*an Act to remove doubts which have arisen in connection with the resettlement of land revenue in temporary-settled areas, and to amend the Bengal Tenancy Act, 1885*) is hereby repealed

THE SCHEDULE —ENACTMENTS REPEALED

A Bill to consolidate and amend the Law relating to Glanders and Farcy

WHEREAS it is expedient to *consolidate and amend the law relating to glanders and farcy* It is hereby enacted as follows

Short title extent and commencement

1 (*1*) This Act may be called the *Glanders and Farcy Act 1898* [1]

(2) It extends to the whole of British India and

(3) It shall come into force at once

Definition of 'diseased'

2 (*1*) In this Act, unless there is anything repugnant in the subject or context "diseased" means affected with glanders *or* farcy *or any other dangerous epidemic disease among horses which the Governor General in Council may by notification in the Gazette of India, specify in this behalf* [2]

(*2*) *The provisions of this Act relating to horses shall apply also to asses and mules*

Application of Act to local areas by Local Government

3 The Local Government may, by notification in the *local* official Gazette, apply this Act, or any provision of this Act, to any local area, to be specified in such notification, within the *province* [3]

Local Government to appoint Inspectors

4 (*1*) When this Act has been so applied to any local area, the Local Government may, by notification in the *local* official [4]

Gazette, appoint such persons as it thinks fit to be Inspectors under this Act and to exercise and perform, within the whole of such local area or such portions thereof as it may prescribe, the powers conferred and the duties imposed by this Act on such officers

(2) Every person so appointed shall be deemed a public servant within the meaning of the Indian Penal Code

XLV of 1860.

[5] 5 *Within the local limits for which he is so appointed, any* such Inspector may, subject to such rules as the Local Government may make in this behalf, enter and search any field, building or other place *for the purpose of ascertaining whether there is therein any horse which is diseased within the meaning of this Act*

Power of entry and search

[6] 6 Within *such* limits *as* aforesaid, any such Inspector may seize any horse which he has reason to believe is diseased

Power of seizure

[7] 7 On any such seizure, the Inspector shall cause the horse so seized to be examined as soon as possible by such Veterinary Practitioner as the Local Government may appoint in this behalf

Horse to be examined by Veterinary Practitioner

Provided that, when the Inspector is also a Veterinary Practitioner so appointed, he may make the examination himself

[8] 8 (1) If such *Veterinary* Practitioner certifies in writing that such horse is diseased, the Inspector shall cause the same to be immediately destroyed

Horse to be destroyed if found diseased otherwise restored

Provided that, in the case of any disease other than glanders or farcy, horses certified to be diseased as aforesaid may, subject to any rules which the Local Government may make in this behalf, be either destroyed or otherwise treated or dealt with as the Veterinary Practitioner may deem necessary

(2) If such Veterinary Practitioner does not so certify *that such horse is diseased*, the Inspector shall at once deliver the same to the person entitled to the possession thereof

[9] 9 (1) When any diseased horse has been in any building, shed or other enclosed place, or in any open lines, the Inspector may issue a notice to the owner of such building shed, place or lines, or the person in charge thereof, directing him to have the same disinfected and the internal fittings thereof, or such other things found therein or near thereto as the Local Government may by rule prescribe, destroyed

When horse diseased place where it has been to be disinfected etc

(2) On the failure or neglect of such owner or other person to comply with such notice within a reasonable time, the Inspector shall cause such building shed, place or lines to be disinfected and such fittings or other things to be destroyed, and the expense (if any) thereby incurred may be recovered from such owner or other person as if it were a fine

[10] 10 The owner or any person in charge of a diseased horse shall give immediate information of such horse being diseased to the Inspector or to some *police* officer

Owner or person in charge of diseased horse to give notice

[11] 11 No person in charge of any horse which has been in the same field, building or place as, or in contact with, a diseased horse, shall move such horse, except in good faith for the purpose of preventing infection or under a license to be granted by the Inspector and subject to the conditions of such license

Prohibition against removal without license of horse which has been with diseased horse

[12] 12 (1) *Whoever, being an* Inspector *appointed under this Act, vexatiously and unnecessarily*, enters or searches any field building or other place, or seizes or detains any horse on the pretence that it is diseased, shall be punish*able* with imprisonment for a term which may extend to six months or with fine which may extend to five hundred rupees, or with both

Vexatious entries searches and seizures

(2) No prosecution under this section shall be instituted after the expiry of three months from the date on which the offence has been committed

[13] 13 *Whoever* refuses or neglects to comply with any notice issued by the Inspector under section 9, or moves any horse in contravention of section 11 shall be punish*able* with imprisonment which may extend to one month, or with fine which may extend to fifty rupees, or with both

Penalty for refusing to comply with notice under section 9 or for moving horse contrary to section 11

[14] 14 (1) The Local Government may make rules *to carry out the purposes and objects of this Act*

Power to make rules

(2) *In particular and without prejudice to the generality of the foregoing power, such rules may*—

(a) regulate entries and searches by Inspectors under this Act,

(b) regulate the destruction *or treatment, as the case may be*, of horses certified under section 8 to be diseased and the disposal of the carcases of *diseased* horses *which have been destroyed thereunder*

(c) regulate the disinfecting of buildings and places in which diseased horses have been, and prescribe what things found therein or near thereto shall be destroyed, *and*

(d) regulate the grant of licenses under section 11 and the conditions on which such licenses shall be granted

(3) All such rules shall be published in the *local* official Gazette, and, *on such publication*, shall have *effect as if enacted by this Act*

(4) *In making any* rule under this section, *the Local Government may direct that a breach of it* shall be punish*able* with imprisonment *for a term* which may extend to one month, or with fine which may extend to fifty rupees, or with both

[15] 15 Any Veterinary Practitioner may be appointed by the Local Government to be both Inspector and Veterinary Practitioner for all or any of the purposes of this Act or of any rule thereunder

Appointment of same person to be both Inspector and Veterinary Practitioner

[New] 16 *The enactments mentioned in the schedule are hereby repealed to the extent specified in the fourth column thereof*

Repeal

THE SCHEDULE

ENACTMENTS REPEALED

(See section 16)

Year	No.	Short Title	Extent of Repeal
1879	XX	*The Glanders and Farcy Act 1879*	*The whole Act*
1891	XII	*The Repealing and Amending Act 1891*	*So much as relates to Act XX of 1879*
1896	XV	*The Glanders and Farcy Act (1879) Amendment Act 1896*	*The whole Act*
1897	XIV	*The Indian Short Titles Act 1897*	*So much as relates to Act XV of 1896*

STATEMENT OF OBJECTS AND REASONS

SECTIONS 5 and 6 of the Glanders and Farcy Act, 1879 (XX of 1879), as interpreted by the Courts, merely empower an Inspector appointed under that Act to enter and search, with a view to seizure, any building or place in which, from personal knowledge or information taken down in writing he has reason to believe that there is a horse affected with glanders or farcy. They give such an officer no power to visit places such as livery stables for the purpose of ascertaining whether there is therein any animal which is so diseased and ought, in the public interests, to be seized and destroyed. The main object of the legislation now proposed—see clauses 5 and 6 of the Bill—is to remove this defect in the law.

2. The expediency of making the Act capable of application like the Bengal Contagious Diseases (Animals) Act, 1880 (Ben. Act VIII of 1880), to diseases among horses other than glanders or farcy, has at the same time been brought to the notice of the Government of India, and a wider meaning has, in consequence, been given to the word 'diseased' by clause 2 (1) of the Bill.

3. These changes involve certain other ancillary amendments in the Act of 1879. Thus, section 5 is imperative as to the immediate destruction of a horse affected with glanders or farcy; but this is not necessary in the case of, say, anthrax to which the law may hereafter be extended; and clause 8 of the Bill has, therefore, been drawn in a modified form. Again, section 12 must cease to penalize entry or search without reasonable ground of suspicion, and the corresponding clause now proposed has been altered accordingly. Lastly, the Act has already been more or less substantially amended by Acts XII of 1891 and XV of 1896, and in these circumstances, it has been deemed desirable to repeal the whole and to re-enact it with the necessary alterations. The measure has thus taken the form of "a Bill to consolidate and amend the law relating to glanders and farcy."

The 28th October, 1898

C. M. RIVAZ,

J. M. MACPHERSON,

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th November, 1898

No 14 OF 1898

A Bill to amend the Law relating to Carriers

WHEREAS it is expedient to amend the law relating to carriers It is hereby enacted as follows —

1 (*1*) This Act may be called the Carriers Act, 1899 and

Short title and commencement

(*2*) It shall come into force on the first day of May, 1899

2 After section 9 of the Carriers Act, 1865 III of 1865 the following section shall be added, namely

Addition of new section to Act III of 1865

'10 No suit shall be instituted against a common carrier for the loss damage or non delivery of goods entrusted to him for carriage unless notice of the loss damage or non delivery as the case may be has been given to him before the institution of the suit and within six months of the time when the loss damage or non delivery first came to the knowledge of the plaintiff

Notice of claim or action against carrier for loss damage or non delivery of goods

3 In the second schedule to the Indian Limitation Act, 1877 the entry XV of 1877 numbered 30 shall be removed from Part V to Part IV and for the words 'Two years' in the second column thereof, the words 'One year' shall be substituted

Amendment of Schedule II Art XV 1877

STATEMENT OF OBJECTS AND REASONS

THIS Bill proposes to add to the Carriers Act, 1865 (III of 1865) a section providing that no suit shall be instituted against a common carrier for loss damage or non delivery of goods entrusted to him for carriage unless notice has been given to him before the institution of the suit and within six months of the time when the loss damage or non delivery came to the knowledge of the plaintiff It further proposes to amend the second schedule to the Indian Limitation Act 1877 (XV of 1877) so as to reduce the period of limitation for the institution of such a suit from two years to one year from the time when the loss or injury complained of occurred

2 The measure is the outcome of representations which have from time to time been made by certain River Steamer Companies which for some time past have been under consideration on the part of the Secretary of State the Government of India and Local Governments These Companies have for several years past been pressing to be relieved from some of the liabilities which fall upon them as common carriers At the outset the chief cause of complaint lay in the fact that steam boats belonging to railways had by section

6 *b*

81 of the Indian Railways Act, 1890 (IX of 1890), been exempted from the obligations imposed by the Carriers Act, 1865, but this has been removed through the repeal, by Act IX of 1896, of the special provision in question There remains, however, a further grievance which, in the opinion of the Government of India, calls for a remedy The onus of proving the absence of negligence or of criminal conduct is, by section 9 of the Act of 1865, laid upon the carrier, and it seems unreasonable that persons in the position of these Companies should be liable to meet claims preferred, it may be, two years after the occurrence of the cause of action when it is difficult, if not impossible, for them to defend themselves with the necessary evidence, consisting in the main, as it must, of the statements of the crew, who never make engagements for so long a period It would not be right to legislate in favour of River Steamer Companies only, and it has, therefore, been decided to require that notice be given within a reasonable time of the intention to bring a suit against *any* carrier, and that the period of limitation in such cases should be reduced As to the amount of the notice and the extent of the reduction there has been some difference of opinion but the Government of India have, after giving their best consideration to the matter, arrived at the conclusion that notice should be given within six months, and that the period of limitation should be fixed at one year, instead of at two years

3 These proposals will not meet all the demands made by the Companies referred to, but the Government of India think that they will remove all just cause of complaint on their part

The 22nd October, 1898.

M. D CHALMERS.

J M MACPHERSON,

Secretary to the Government of India.

42 Protection to persons acting under Act

[The "Rules" referred to on the margin are the draft Cantonment Rules published for criticism in the Supplement to the Gazette of India of the 26th September, 1896.]

A Bill to make better provision for securing house-accommodation for officers in cantonments.

WHEREAS various conditions, rules, regulations and orders have from time to time been [illegible] of the first

the occupation of land and houses in cantonments, with the object of securing, among other things, that houses built on such land should be made available when required for the accommodation of officers of the army,

And whereas, notwithstanding the said conditions, rules, regulations and orders, difficulties have frequently been experienced in obtaining house-accommodation in cantonments for officers of the army, and it is expedient to make better provision for that purpose,

And whereas it has from time to time been found necessary in certain cases to admit civil officers of the Government to the benefit of certain of the conditions, rules, regulations and orders aforesaid, and it is expedient to make better provision for obtaining house-accommodation in cantonments for such civil officers,

It is hereby enacted as follows

CHAPTER I

PRELIMINARY

Short title extent and commencement

1 (*1*) This Act may be called the Cantonments (House-Accommodation) Act, 1899

(*2*) It extends to the whole of British India (inclusive of British Baluchistan), except Aden, and

(*3*) It shall come into force at once, but it shall not become operative in any cantonment or part of a cantonment until the issue, or otherwise than in pursuance, of a notification as hereinafter provided by section 3

Definitions

2 In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "Cantonment Authority" means a Cantonment Committee, or, in the case of a cantonment for which such a Committee has not been constituted, or has ceased to exist, or cannot be convened, the Commanding Officer of the cantonment [Cf Act XIII, 1889, ss 6 (*1*) 26 (*5*)]

(*b*) "military officer" means a commissioned or warrant officer of Her Majesty's regular forces on military duty in a cantonment, and includes a Chaplain a Cantonment Magistrate and any person in Army Departmental employment whom the General Officer of the Command may at any time, for the purposes of this Act, place on the same footing as a military officer [Cf definition (*c*) in Annexure to Form B Schedule IV to Rules]

(*c*) "civil officer" means a gazetted civil officer of the Government, and includes any other person in the service of the Government, not being a military officer, whom the Local Government may at any time for the purposes of this Act, place on the same footing as a civil officer [Cf definition (*d*), *ibid.*]

(*d*) "General Officer of the Command" means the General Officer commanding the forces in a Command, and [Cf Rule 3 (*1*)]

"Command" means one of the principal portions into which the army of India

The Cantonments (House-Accommodation) Bill

(Chapter II—Application of Act—Sections 3-4 Chapter III—Appropriation of Houses for Occupation by Officers—Sections 5-7)

[Cf Rule 3 (3)]

(*e*) "grantee" means a person who has been granted permission, before the Cantonment Rules, 189——, came into force, to occupy, for the purposes of a building-site, land belonging to the East India Company or to Her Majesty in a cantonment, and includes the successors in interest of a grantee

[Cf definition (*a*) in Annexure to Form B, Schedule IV to Rules]

(*f*) "house" means a house erected on land occupied by a grantee, and includes the land and buildings appurtenant to a house, and, if any question arises whether any land or building is appurtenant to a house, it shall be decided by the Cantonment Magistrate, whose decision thereon shall, subject to revision by the District Magistrate, be final, and

[Cf definition (*b*), *ibid.*]

(*g*) the expression "repairs" to a house includes such repairs as are usually made in the neighbourhood to buildings of the same class as that to which the house belongs, but does not include additions, improvements or alterations, except in so far as they are necessary to carry out such repairs as aforesaid or have been made with the grantee's consent.

CHAPTER II

APPLICATION OF ACT

Cantonments or parts of cantonments, in which Act is to be operative

3 (*1*) The Local Government, with the previous sanction of the Governor General in Council may, by notification in the local official Gazette, declare this Act to be operative in any cantonment or part of a cantonment situate in the territories under its administration, other than a cantonment situate within the limits of a Presidency town

(*2*) Before issuing a notification under sub-section (*1*) in respect of any cantonment, the Local Government shall cause local inquiry to be made with a view to determining how the land in the cantonment is held

(*3*) The Local Government shall cause public notice of every such inquiry to be given in the cantonment Such notice shall specify, if the Act is to be operative in a part only of the cantonment, the particular part of the cantonment in which it is to be operative, and shall require all persons claiming to hold any land in the cantonment or part of the cantonment, as the case may be, by a lawful title acquired by him or his predecessors in title prior to the formation of the cantonment or the inclusion in it of that part in which the Act is to be operative, to appear, personally or by agent, before an officer to be named in the notice at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their claims and their objections (if any) to the land being included in the area in which the Act is to be operative

(*4*) On the day so fixed, or any other subsequent day to which the inquiry may be adjourned, the officer so named shall proceed to inquire into any claims and objections which any person has stated pursuant to the notice given under sub section (*3*), and shall make a report thereon

(*5*) *Primâ facie*, all land in such a cantonment as aforesaid shall be deemed to be held under a grant from Her Majesty but, if any person proves to the satisfaction of the Local Government that he holds any land by a lawful title acquired by him or his predecessors in title prior to the formation of the cantonment, then such land shall be excluded from the area of the notification, and in like manner if, pending the inquiry or at any time thereafter, any land is proved by the decree of a Court of competent jurisdiction to be held under such lawful title, it shall be excluded from the area of the notification by a further notification to be published in the same manner as the original notification.

Saving of existing grants from the Government.

4 Nothing in this Act shall affect the provisions of any lease or other agreement in writing granted or made by, or on behalf of the East India Company or Her Majesty before the Cantonment Rules, 189——, came into force, unless the lessee or other party entitled consents in writing to be bound by the terms of this Act

---

CHAPTER III

APPROPRIATION OF HOUSES FOR OCCUPATION BY OFFICERS

Liability of houses to appropriation for occupation by any military or civil officer

5 Every house situate in a cantonment or part of a cantonment in respect of which a notification under section 3, sub section (*1*), is for the time being in force, shall be liable subject to the provisions hereinafter contained, to appropriation at any time for occupation by any military or civil officer

[Cf Condition VI Annexure to Form B Schedule IV to Rules]

Appropriation of house for a military officer where it is not already occupied by a military officer

6 Where the Cantonment Authority considers that the liability imposed by section 5 should be enforced in behalf of any military officer, it may, if the house is not already occupied by a military officer, by notice in writing—

[Cf Condition VIII *ibid*]

(*a*) require the grantee to let the house to the military officer named in the notice, and

(*b*) require the existing tenant (if any) to vacate the same

Appropriation of house for a military officer where it is occupied by another military officer

7 If a house is occupied by a departmental military officer, and the Cantonment Authority considers that the liability imposed by section 5 should be enforced in behalf of a regimental officer, or *vice versâ*, it may by notice in writing, require the officer in occupation to vacate the house, and may, if necessary, by further notice in writing, require the grantee to accept the change of tenancy.

[Cf Condition IX *ibid.*]

The Cantonments (House Accommodation) Bill

(Chapter III—Appropriation of Houses for Occupation by Officers—Sections 8-15)

[Cf Condition X (3) *ibid.*]

Appropriation of house for a civil officer where it is not already occupied by a military or civil officer

8 Where the Cantonment Authority considers that the liability imposed by section 5 should be enforced in behalf of any civil officer, it may, if the house is not already occupied by a military or civil officer, by notice in writing—

(*a*) require the grantee to let the house to the civil officer named in the notice and

(*b*) require the existing tenant (if any) to vacate the same

[Cf Condition XIV *ibid.*]

Rent offered to be stated in notice to grantee

9 Every notice to the grantee issued under section 6 section 7 or section 8 shall state the amount of monthly rent which the proposed tenant offers to pay for the house

[Cf Condition XI, *ibid.*]

Procedure to be observed before appropriating house

10 (*1*) Where a military or civil officer considers that a notice should be issued in his behalf under section 6 section 7 or section 8 as the case may be, he may request the Commanding Officer of his regiment or (in the case of a departmental military officer) the local head of his department or (in the case of a civil officer) the District Magistrate to make an application to that effect to the Cantonment Authority

(*2*) On receipt of an application under sub section (*1*) the Cantonment Authority shall inquire into the case, and it shall not issue the notice applied for unless it is satisfied—

(*a*) that the officer ought to reside in the cantonment or, if this Act is in force in part of the cantonment only, then in that part, and

(*b*) that the circumstances are such as to require its intervention, and

(*c*) that the rent offered by the officer for the house is reasonable, and,

(*d*) that the house is suitable for the residence of the officer and, if it is occupied that there is no vacant house in the cantonment or the said part of the cantonment, as the case may be which is suitable for the residence of the officer

Explanation—In considering whether a house is suitable for the residence of an officer, regard shall be had to (*i*) the locality in which his duties chiefly lie and (*ii*) his rank

[Condition XII, *ibid.*]

Sanction to be obtained before a house is occupied as a bank hotel, shop or school or by a railway administration

11 No house in any cantonment or part of a cantonment in which the Act has been declared by a notification under section 3, sub section (*1*), to be operative shall, unless it was so occupied at the date of such notification, be occupied for the purposes of a bank, hotel, shop or school, or by a railway administration without the previous sanction of the General Officer of the Command, given with the concurrence of the Local Government

(*2*) Before application is made for such sanction as aforesaid, the Commanding Officer of the cantonment shall certify whether or not in his opinion the number of houses in the cantonment, as compared with the strength of the existing or probable garrison renders it likely that such occupation as aforesaid would—

(*a*) cause any difficulty in obtaining accommodation in the cantonment, or in the part of the cantonment in which the house is situate, for military or civil officers, or

(*b*) necessitate the acquisition of land at some future time for the extension of the cantonment

Houses not to be appropriated for military or civil officers in certain cases

[Cf Condition XIII, *ibid.*]

12 No notice shall be issued under section 6 or section 8 if the house—

(*a*) was occupied prior to the date of a notification under section 3 sub section (*1*), declaring the Act to be operative in the cantonment or part of the cantonment, or is occupied with the sanction required by section 11, as a bank hotel shop or school and has been so occupied continuously during the three years immediately preceding the time when the occasion for issuing the notice arises, or

(*b*) was occupied prior to the date of such a notification as is referred to in clause (*a*), or is occupied, with the sanction aforesaid, by a railway administration, or

(*c*) is occupied by the grantee, and was so occupied before the Cantonment Rules, 189—, came into force, or

(*d*) is appropriated by the Local Government with the concurrence of the General Officer of the Command, or by the Governor General in Council, for use as a public office or for any other purpose

Time to be allowed for giving possession of house

[Cf Condition XV, *ibid.*]

13 (*1*) If a house is unoccupied, a notice issued under section 6 or section 8 may require the grantee to give possession of the same to the proposed tenant within four days from the service of the notice

(*2*) If a house is occupied, a notice issued under section 6 section 7 or section 8 shall not require its vacation in less than thirty days from the service of the notice

Surrender of house when to be enforced

[Cf Rule 248 (5)]

14 If the grantee fails to give possession of a house to the proposed tenant in pursuance of a notice issued under section 6, section 7 or section 8, or if the existing tenant fails to vacate a house in pursuance of such a notice, the Cantonment Magistrate, by himself or by another person generally or specially authorized by him in this behalf shall enter on the premises and enforce the surrender of the house

Option for owner on whom notice is issued under section 6 section 7 or section 8 to call upon the officer concerned or the Government to purchase the house

15 (*1*) If a house in respect of which a notice is issued under section 6, section 7 or section 8, stands on land which is proved to the satisfaction of the Local Government, or is shown by a decree or order of a Court, to have

The Cantonments (House-Accommodation) Bill

(Chapter III—Appropriation of Houses for Occupation by Officers—Sections 16 22)

been granted by or on behalf of the East India Company or Her Majesty—

(*a*) under the conditions, rules regulations and orders in force in Bengal between the twelfth day of September, 1836, and the seventh day of December, 1864 (both inclusive), or

(*b*) under the conditions, rules, regulations and orders in force in Bombay between the seventh day of May, 1838, and the thirty first day of May, 1875 (both inclusive),

then the grantee shall have the option of either complying with the notice or offering the house for sale to the officer in whose behalf the notice was issued, or to the Secretary of State in Council

(*2*) If the grantee elects to sell the house, and the said officer or the Secretary of State in Council is willing to purchase it, the amount of the purchase money to be paid shall, in the event of disagreement, be determined by a Committee of Arbitration

[Cf Condition XVI Annexure B to Form IV Schedule of Rules]

Terms of tenancy applicable to military and civil officers

16 (*1*) Subject to the terms of any agreement in writing between a grantee and a military or civil officer and to the provisions of this section, every lease of a house to such an officer shall be deemed to be a lease from month to month, terminable—

(*a*) without notice, in the case of the departure of the officer from the cantonment on duty or under medical certificate, or in the case of a Committee of Arbitration deciding as hereinafter provided for, that the house has become unfit for occupation,

(*b*) by one month's notice to the grantee in any other case

(*2*) A notice under sub section (*1*) shall be in writing, signed by or on behalf of the officer and the Cantonment Magistrate shall, if the officer so desires, cause it to be served on the grantee free of charge

(*3*) Where a military or civil officer has in pursuance of sub section (*1*), clause (*a*), given up his occupation of a house without notice and has occupied the house during a portion only of the calendar month in which his occupation ceased, he shall be liable to pay as rent for that portion a sum bearing the same proportion to the monthly rent as the said portion bears to the whole month

Provided that the sum shall not in any case be less than one-fourth of the monthly rent

[Cf. Condition XVII, *ibid*]

Sub lease voidable at option of grantee

17 If the tenant of a house, being a military or civil officer, sublets the same without the consent of the grantee, the sub-lease shall be voidable at the option of the grantee

[Cf. Condition XVIII, *ibid*]

Power for grantee to require reference to arbitration on question of rent.

18. (*1*) If the grantee considers that the rent offered by a proposed tenant and stated in a notice in accordance with section 12 is insufficient, he may, within a period of fifteen days from the service of such notice, require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration

(*2*) If the grantee does not make such a requisition within the said period, he shall be deemed to have accepted the rent so offered

(*3*) After such acceptance or the decision of a Committee of Arbitration, the amount of such rent shall not be called in question by either party, except in the circumstances mentioned in section 21, clause (*a*)

[Cf Condition XIX *ibid*]

Power for grantee to require reference to arbitration on question of repairs.

19 (*1*) If the grantee fails to execute any repairs to a house which the tenant, being a military or civil officer, considers necessary the Cantonment Authority may, at the request of the tenant and if it is satisfied that such repairs or any of them are necessary, by notice in writing, require the grantee to execute such repairs, or such of them as it may consider necessary, within a period, not less than fifteen days, to be specified in the notice

(*2*) If the grantee objects to comply with a notice issued under sub section (*1*), he may, within fifteen days from the service of the notice, require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration

[Cf Condition X *ibid*]

Power for tenant to require reference to arbitration on question whether house has become unfit for occupation

20 If the tenant of a house, being a military or civil officer, considers that his lease should be terminable without notice in consequence of the house having become unfit for occupation he may require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration

[Cf Condition X *ibid*]

Power for either grantee or tenant to require reference to arbitration on other questions

21 If the grantee and the tenant of a house, being a military or civil officer, disagree—

(*a*) as to any change in the rent of the house which is proposed in consequence of dilapidations or additions to buildings or for any other similar reason, or

(*b*) on any matter relating to rent or repairs not otherwise provided for by this Act,

either the grantee or the tenant may require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration

[Cf Condition X *ibid*]

Power for tenant to execute repairs and deduct cost from rent

22 (*a*) If the grantee fails to comply with a notice issued under section 19, sub-section (*1*), and has not, within fifteen days from the service of such notice, required that the matter be referred to a Committee of Arbitration, or,

(*b*) if a Committee of Arbitration constituted under Chapter IV decides that repairs are

The Cantonments (House-Accommodation) Bill

(Chapter III—Appropriation of Houses for Occupation by Officers—Section 23 Chapter IV—Committees of Arbitration—Sections 24-28)

necessary and the extent to which they are necessary, and the grantee fails to execute such repairs within a period to be specified in a notice issued by the Cantonment Authority in that behalf,

the tenant of the house may himself cause the repairs specified in the notice to be executed, at rates not exceeding those paid in the cantonment by the Military Works Department or the Public Works Department, and may deduct the cost thereof from the rent, or otherwise recover it from the grantee

[Cf Condition IV, *ibid*.]

Power for General Officer of the Command to veto transfer of grantee's interest in certain cases

23 (*1*) Where a grantee intends to transfer, by sale, mortgage, gift or exchange, his interest in any land or house or in any part of any land or house, situate in a cantonment or part of a cantonment in respect of which a notification under section 3, sub section (*1*), is for the time being in force, he shall be bound to give the Cantonment Magistrate one month's notice in writing before the transfer is completed unless such notice as aforesaid has been duly given by the intended transferee

(*2*) The General Officer of the Command shall have power, within the said period of one month and with the concurrence of the Local Government, to impose, by an order in writing, his veto on any such transfer and if in any case the Cantonment Authority considers it desirable that the said power of veto should be exercised, it shall report the case to such General Officer without delay

(*3*) If notice of any such transfer be not given as aforesaid or if any such transfer be made after the same has been vetoed, the transfer shall be void

---

CHAPTER IV

COMMITTEES OF ARBITRATION

[Cf Condition XXII *ibid*.]

Convening of Committees of Arbitration in cases falling under section 15, sub section (*2*)

24 In the event of any disagreement as to the amount of the purchase money of a house to be sold under section 15 sub section (*2*), the Cantonment Authority shall apply to the Commanding Officer of the cantonment to refer the matter to a Committee of Arbitration, and the Commanding Officer of the cantonment shall forthwith proceed to convene a Committee of Arbitration to determine it

[Cf Rule 257]

Convening of Committees of Arbitration in cases falling under section 18 or section 19

25 Where a requisition is made to the Commanding Officer of a cantonment under section 18 or section 19 within the period mentioned in such section, he shall forthwith proceed to convene a Committee of Arbitration—

(*a*) to determine the amount of monthly rent to be paid, or

(*b*) to determine whether any and, if so, what repairs are necessary, and the extent to which they are necessary.

[Cf Rule 258.]

Convening of Committees of Arbitration in cases falling under section 20 or section 21

26 (*1*) Where a requisition is made to the Commanding Officer of the cantonment under section 20 or section 21, he may, after such inquiry as he may think fit to make, proceed to convene a Committee of Arbitration—

(*a*) to determine whether the house has become unfit for occupation, or

(*b*) to determine the amount of monthly rent to be paid, or

(*c*) to determine whether any and, if any, what repairs are necessary, and the extent to which they are necessary, or

(*d*) otherwise to determine the question in dispute

(*2*) In the exercise of the discretion vested in him by sub section (*1*), the Commanding Officer may refuse to convene a Committee of Arbitration on the ground that the application therefor is groundless or frivolous

[Cf Rule 260.]

Procedure for convening Committees of Arbitration generally

27 (*1*) Where a Committee of Arbitration is to be convened the Commanding Officer of the cantonment shall cause an order to be published in Station Orders, stating the matter to be determined

(*2*) The Cantonment Magistrate shall send a copy of such order to the District Magistrate and to the parties concerned, and shall, by notice in writing, require the parties to nominate members of the Committee in accordance with the provisions of sections 28 and 29

[Cf Rule 261.]

Composition of Committee of Arbitration

28 Every Committee of Arbitration shall consist of—

(*a*) the District Magistrate, or, if it is inconvenient for him to act on any Committee, some Magistrate, being a Justice of the Peace, appointed by him to act in his stead,

(*b*) a member to be nominated by the military or civil officer concerned, and

(*c*) a member to be nominated by the grantee

Provided that—

(*i*) if the military or civil officer or the grantee fails to nominate a member within seven days from the date on which he may be called upon to do so, or,

(*ii*) if any member who has been nominated, neglects or refuses to act, and the officer or the grantee, as the case may be, fails to nominate another member in his place within seven days from the date on which he is called upon to do so,

the Commanding Officer of the cantonment shall forthwith appoint a member in the place of a nominee of the officer or grantee, as the case may be

The Cantonments (House-Accommodation) Bill

(Chapter IV —Committees of Arbitration —Sections 29-34 Chapter V — Appeals —Sections 35-38 Chapter VI —Supplemental Provisions —Section 39)

[Cf Rule 263]

Members of Committees of Arbitration to be persons who are personally disinterested and whose services are immediately available

29 (*1*) A person shall not be nominated or appointed a member of a Committee of Arbitration unless he is personally disinterested in the matter under reference and his services are immediately available for the purposes of the Committee

(*2*) If any person who has been nominated, is, in the opinion of the Commanding Officer of the Cantonment, personally interested in the matter under reference, or if his services are not immediately available as aforesaid, and if the officer or the grantee, as the case may be, fails to nominate another member in his place within seven days from the date on which he is called on so to do such failure shall be deemed to constitute a failure to make a nomination within the meaning of section 28

[Cf Rule 264]

Assembling of Committees of Arbitration

30 When a Committee of Arbitration has been duly constituted the Cantonment Magistrate shall by notice in writing, inform each of the members of the fact and the Committee shall assemble within seven days from the service of the notice

[Cf Rule 265]

Chairman of Committees of Arbitration

31 The District Magistrate or the Magistrate appointed by him to act in his stead, shall be the chairman of every Committee of Arbitration

Calculation of amount of purchase money by Committees of Arbitration

32 For the purpose of determining the amount of the purchase money to be paid for a house to be sold under section 15 sub section (*2*), the Committee of Arbitration convened under section 24 shall estimate the market value of the house at the date on which the notice was served on the grantee under section 6, section 7 or section 8, as the case may be

[Cf Rule 266]

Calculation of rent by Committees of Arbitration

33 For the purpose of determining the amount of monthly rent to be paid for a house, every Committee of Arbitration shall estimate, as nearly as may be, the market value of all buildings and authorized additions and the amount of rent determined upon shall be such percentage on such market value as the Committee may consider reasonable with reference to the circumstances of the neighbourhood, and the period of time and season for which the house is likely to be occupied during the year, and shall include the taxes (if any) levied upon the land, or such proportion thereof as the Committee may find to be customarily paid for the time being in the neighbourhood by tenants

Rule

Decisions of Committees of Arbitration

34 (*1*) The decision of every Committee of Arbitration shall be determined by the majority of the votes taken at a meeting at which all the members are present

(*3*) The decision of a Committee of Arbitration shall be final

CHAPTER V

APPEALS

[Cf Rules 251 and 252]

Appeals when allowed

35 (*1*) If any grantee or any tenant of a house is aggrieved by a notice issued under section 6, section 7 or section 8 he may appeal to the General Officer of the Command

(*2*) No such appeal shall be admitted unless made within a period of twenty one days from the service of the notice aforesaid, and such period shall be computed in accordance with the provisions of the Indian Limitation Act, 1877, with respect to the computation of the period of limitation thereunder

XV of 1877

[Cf Rule 253]

Petition of appeal

36 (*1*) Every petition of appeal shall be in writing and accompanied by a copy of the notice appealed against

(*2*) Any such petition may be presented to the Cantonment Authority and that Authority shall be bound to forward it to the General Officer of the Command and may attach thereto any report which it may desire to make in explanation of the notice appealed against

(*3*) If any such petition is presented direct to the General Officer of the Command and an immediate order on the petition is not necessary, the General Officer of the Command may refer the petition to the Cantonment Authority for report

[Cf Rule 254]

Order in appeal final

37 The decision of the General Officer of the Command on any such appeal shall be final

Provided that no appeal shall be decided until the appellant has had a reasonable opportunity of being heard

[Cf Rule 255]

Suspension of action pending appeal

38 Where an appeal from a notice has been presented within the period prescribed by section 35 sub section (*2*), all action on such notice shall on the application of the appellant, be held in abeyance pending the decision of the appeal

CHAPTER VI

SUPPLEMENTAL PROVISIONS

Cf Act XIII 1889 s 26 (38) (39) (31)

Power for Governor General in Council to make rules

39 (*1*) The Governor General in Council may make rules to carry out the purposes and objects of this Act

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may—

(*a*) regulate the procedure of Committees of Arbitration

(*b*) empower Committees of Arbitration to receive evidence and for that purpose to require the production of documents and the attendance of witnesses

(*c*) define the powers of inspection, entry and search which may be exercised in carrying out this Act or any rule thereunder, and

The Cantonments (House Accommodation) Bill

(Chapter VI —Supplemental Provisions —Sections 40-42)

(*d*) prescribe the mode in which notices, requisitions and other documents are to be served on the persons to whom they are addressed

[Cf Act XIII, 1889, s 27]

Supplemental provisions respecting rules

40 (*1*) The power to make rules under section 39 is subject to the condition of the rules being made after previous publication and of their not taking effect until they have been published in the Gazette of India and in such other manner as the Governor General in Council may direct

(*2*) Any rule under section 39 may be general for all cantonments or parts of cantonments in British India in which this Act is for the time being operative, or may be special for any of such cantonments or parts, as the Governor General in Council may direct

(*3*) A copy of the rules under section 39 for the time being in force in a cantonment shall be kept open to inspection free of charge at all reasonable times in the office of the Cantonment Magistrate

(*4*) In making any rule under clause (*b*) or clause (*c*) of section 39, the Governor General in Council may direct that any person—

(*i*) failing to comply with any requisition made by a Committee of Arbitration as to the production of documents or the attendance of witnesses, or

(*ii*) obstructing any person, not being a public servant within the meaning of section 21 of the Indian Penal Code, in making any inspection, entry or search, XLV of 1860.

shall be punishable with fine which may extend to fifty rupees or with imprisonment for a term which may extend to eight days, and, in case of a continuing offence, with fine which, in addition to such fine or imprisonment as aforesaid, may extend to five rupees for every day after the first during which such offence continues

[Cf Act XIII, 1889, s 29.]

Inapplicability of section 556 of the Code of Criminal Procedure, 1898 to trials of offences against rules

41 No Judge or Magistrate shall be deemed, within the meaning of section 556 of the Code of Criminal Procedure, 1898, to be a party to, or personally interested in, any prosecution for an offence against any rule under this Act because he is a member of the Cantonment Committee or because he has ordered or approved the prosecution V of 1898.

[Cf III 1897, s. 4.]

Protection to persons acting under Act

42 No suit or other legal proceeding shall lie against any person for anything done or in good faith intended to be done under this Act

STATEMENT OF OBJECTS AND REASONS

As stated in the preamble to this Bill, various conditions, rules, regulations and orders in regard to the grant of land and the occupation of land and houses in cantonments have from time to time been made with the object of making accommodation available for officers whose duties require their residence within cantonment limits These provisions have been collected and are published for general information as an appendix to this Statement but, notwithstanding their issue in the past, great difficulties have been, and are still being, experienced in the matter

2 The necessity for removing these difficulties and of making suitable provision for the housing of officers has long been recognized by the Government, and a special Chapter was in 1888 with that object included in the Bill "to amend the law relating to cantonments" The Chapter was, however, subjected to criticism at the time, and as the matter seemed to call for further consideration, while it was thought undesirable to delay the whole measure on that account, it was decided to exclude the provisions in question and to proceed with the rest of the Bill, which was eventually passed into law as the Cantonments Act, 1889 (XIII of 1889) The difficulties referred to have, as was indeed only to be expected, steadily increased, and the Government of India consider it inexpedient any longer to defer remedial legislation on the subject

3 The Bill which it is proposed now to introduce, has been framed after careful consideration of the objections previously raised, and, while aiming at securing house accommodation for the military and civil officers of the Government whose presence in cantonments is obviously necessary, it endeavours also to safeguard as far as possible the interests of the house-owners concerned

Clause 2 (a) definition of "grantee"—It will be observed that this definition is limited to persons who obtained grants of land prior to the coming into force of certain Cantonment Rules which have at present to be indefinitely referred to in the Bill, inasmuch as, though prepared and published for criticism some time ago, they have not yet come into force It is intended, however, to bring them into operation before the Bill becomes law These rules will provide fully for the matters dealt with in the Bill so far as grants made under them will be concerned Consequently the operation of the Bill will be practically restricted to past grants only

Clause 3 enacts that the provisions of the proposed Act shall not be operative in any cantonment, or part of a cantonment, until it has been declared to be so by a notification issued by the Local Government with the previous sanction of the Governor General in Council And it further provides that, before any notification of the kind is issued, the Local Government shall cause local inquiry to be made with a view to determining how the land in the cantonment is actually held The inquiry contemplated is to proceed on the presumption that all land in cantonments is held under a grant from the Government but, if any person is able to prove to the satisfaction of the Local Government that he holds land in a cantonment by a lawful title obtained prior to the formation of the cantonment, then that land is to be excluded from the area within which the provisions of the Act are to be operative In like manner, if any land is at any time shown, by the decree of a Court of competent jurisdiction, to be held under such a title as is indicated above, it also is to be excepted from the operation of the Act

Clause 4 expressly declares that nothing in the proposed Act shall affect the provisions of any lease or other agreement in writing granted or made by the Government before the commencement of the Act, unless the lessee or other party entitled consents in writing to be bound by the terms of the Act

Chapter III deals with the appropriation of houses for occupation by officers, the terms of tenancy and the reference of disputes to arbitration Clause 12 provides for the exemption, under certain conditions, from appropriation of a house occupied as a bank hotel, shop, school or public office or by a railway administration, also a house which is occupied by the "grantee" and was so occupied at the commencement of the Act

Clauses 18 to 21 contemplate arbitration in case of dispute as regards either rent or repairs, arbitration in such matters having hitherto been an essential condition of the grant of land in cantonments, and clause 22 confers power on the tenant in certain cases to execute repairs himself and deduct the cost from the rent

Clause 23 takes power in certain cases to veto the transfer of a "grantee's" interest in any land or house in a cantonment Such a power has hitherto been expressly reserved as one of the conditions of the grant of land in cantonments for building purposes but the clause is drafted secures for the "grantee" a safeguard which he has not now, inasmuch as it provides that the power of veto shall be exercised by the General Officer of the Command instead of by the local military authorities, and then only with the concurrence of the Local Government

Chapter IV deals with the convening, constitution and proceedings of committees of arbitration The most important provisions are those to be found in clauses 32 and 33, the former of which lays down the principle on which the selling value of house property in cantonments is to be calculated, and the latter the mode of fixing the rent of houses Clause 33 has been drawn so as to remove what has hitherto been a fruitful source of complaint on the part of house owners

Chapter V makes adequate provision for the right of appeal

The provisions of Chapter VI are supplemental Power is taken for the Governor General in Council to make rules to carry out the purposes and objects of the proposed Act, and protection is afforded to persons acting under its provisions in good faith

The 4th November, 1898 EDWIN H H COLLEN

APPENDIX

Conditions, rules regulations and orders from time to time in force in regard to the grant of land, and the occupation of land and houses, in British Cantonments in India

BENGAL

General Order, dated 27th April, 1789

* * * * * * * *

Grant's Code, 1791 99 Appendix page 263

Standing regulations, revised and amended, for the better preservation of the public buildings at the station of Barrackpore against accidents by fire, and for maintaining greater uniformity in the quarters

No private bungalows or buildings to be erected within the limits of the cantonments unless by permission of Commander in Chief It is made known that such buildings will not be considered private property nor suffered to be removed, nor transferable and they are to be subject to removal whenever the service requires it

Barrackpore sanction required to buildings

Barrackpore buildings not private property

* * * * * * * *

No compounds buildings nor enclosures of the verandahs of the quarters to be allowed, except previously applied for to the Quarter Master General, and, when admitted, the following restrictions for the work will be required to be attended to, *viz* —

* * * * * * * *

Ib page 264, Carroll's Code Chapter XI section 124 Jephson's Code, Part I 1819 page 230

All stables for officers, houses for their servants, and other buildings are to be restricted to the ground purposely allotted, on the right or left of the line of rear guards

Barrackpore buildings restricted to land allotted

* * * * * * * *

Extract from Proceedings of the Governor General in Council, dated 25th June, 1801

Carroll's Code Chapter XI sections 104 to 106

The Governor General in Council considers it to be highly advisable not to grant any of the ground within the limits of the military cantonments for the purpose of making gardens

Gardens

It is not, however His Excellency's intention to deprive any officers, at present possessing gardens within the limits of the military cantonments of the use of the ground upon which these gardens are situated, so long as such ground shall not be required for public purposes

Whenever grounds upon which gardens are situated shall be required for public purposes, it will be the duty of the Commanding Officer of the station to remove the gardens, with as little inconvenience to their proprietors as circumstances will admit

Resumption of land

Extract from Proceedings of the Governor General in Council, dated 6th August, 1801

Carroll's Code Chapter XI sections 113 114 116 and 117 Jephson's Code Part I 1639 page 231

The Governor General in Council approves of the Regulation proposed by the Military Board respecting the cantonment of Barrackpore, and accordingly directs and orders —

* * * * * * * *

Barrackpore certain land not to be enclosed

Third—That the grounds round or appertaining to the officers shall not be enclosed, but remain as at present

* * * * * * * *

Sixth—That the bank of the river from the boundary of the ground allotted to the bungalows down to the water's edge, shall be left open

Barrackpore houses to be built within cantonments

It will be sufficient for the due performance of the public duties of the officers under the orders of the Commanding Officer at the station of Barrackpore and of the Officers Commanding the respective corps, that they be required to build their bungalows within the limits of the cantonments

His Excellency in Council, however, thinks it proper that uniformity should be preserved as much as possible in the principal lines of directions of the bungalows in their distances from one another and also in the dimensions of the bungalows, and His Excellency in Council desires that this may be attended to with reference also to his former orders which require that all public ground held on possessed by indulgence must be appropriated for bungalows or for other public purposes whenever such grounds shall be wanted

Barrackpore resumption of land

Resolution of the Military Board dated 11th September, 1801

Cultivation

As admitting the ground within the boundary of cantonments to be cultivated at all by the troops may lead to its becoming a general practice, the Military Board enjoin Colonel ——— will be particularly careful that cultivation in the cantonment of Midnapore is not renewed

Carroll's Code Chapter XI section 103.

Extract from Proceedings of the Vice President in Council, dated 18th February, 1807.

Barrackpore houses for sale to be offered to officers

Such bungalows at the station of Barrackpore as may be for sale are to be offered in the first instance to such officers belonging to the corps quartered there as may not already be provided with bungalows and the privilege of purchasing bungalows at Barrackpore is to be confined to officers of Native corps

Carroll's Code Chapter XI section 113 Stephenson's Code Part I 1830 page 231

General Order by the Commander in Chief dated 13th April, 1805

No more land to be occupied than necessary

The Commander in Chief directs that the cantonments ordered to be established at the several stations and posts in the field be built with the strictest attention to regularity, and that no more ground be occupied than is indispensably necessary

Carroll's Code Chapter XI section 67 to 90 Jenkinson's Code Part I 1849 page 70

Boundaries of cantonments

The Deputy Quarter Master General will visit as many of the stations and posts as he can, where new cantonments are forming, for the purpose of describing the limits, marking out the extent of the streets and lines, as well as the space of ground for the bungalows of officers of the respective ranks For such of the new posts as he may not have time to visit, he will be pleased to forward to the Commanding Officers plans describing the extent of ground and situations of the several public buildings allowed for corps of Native Cavalry and Infantry agreeably to the instructions he has received from head quarters

Boundaries of sites

Expenditure on buildings

His Lordship, moreover, strongly recommends to all officers to expend as little money as possible on the buildings they may have occasion to erect at the stations and posts now ordered to be occupied, as the relief of corps will be frequent, and the position may be often changed

Extract from Deputy Adjutant General's letter, dated 24th April, 1806

Buildings devoted to religious uses

On no account will His Lordship sanction the occupation as a dwelling house of any mosque, temple or other building of a religious description without the most positive assurance on the part of the natives and parties concerned that such an act will in no way be objectionable to them or in the smallest degree offensive to their religious habits or feelings

Carroll's Code Chapter XI section 109 Stephenson's Code Part I, 1849 page 229

* * * * * * * *

General Order by the Governor General in Council, dated 28th September, 1807

Carroll's Code Chapter XI section 107

Sale of buildings at valuation fixed by Committee of Arbitration

Ordered, that on occasions of the disposal of premises and dwellings which have been occupied by staff officers within the limits of any military cantonments, so situated as to render them in a peculiar manner adapted for the residence or due discharge of the official duties of officers succeeding to such staff situations the vendor of such premises and dwellings shall be bound to dispose of and the successor to such appointment to purchase, them, at a fair valuation by a Committee of Arbitration constituted in the usual manner

Ib section 108

Exclusion of expensive improvements from valuation

It is at the same time notified as a regulation for future observance with a view to preclude expensive improvements or additions that may be made by the actual possessor from becoming burthensome in the purchase to his successor, that no additions or improvement to premises or dwellings of the description above adverted to shall be included in the valuation of the property on its transfer, except such as have been previously sanctioned by the Military Board

Ib section 109

The Governor General in Council considers the present to be a proper occasion to call the attention of Officers Commanding stations to the subjoined orders of the Governor General in Council published in April, 1801, which they are expected to see duly carried into effect, *viz* —

Ib section 110

Houses not to be sold to or occupied by civilians

That no bungalows or quarters at any of the cantonments shall be allowed to be sold to, or occupied by, any person who does not belong to the army

Ib section 111

If individuals, not officers, shall purchase, they must remove the materials as the ground within the limits of cantonments is to be kept and appropriated exclusively to the use of the troops

Ib, section 112

On relief houses to be sold or let to military officers

Houses not to made over to civilians

Officers on quitting the station are to sell or rent their quarters to the officers who may relieve them at a moderate rate, and, in the event of the death or resignation of any officer, his quarters are to be sold or rented under the instructions of the Commanding Officer of the station, and in no case to be made over in any shape to any person not belonging to the army

---

Resolution of the Military Board, dated 29th March, 1808

Jephson's Code Part I 1839 page 29

Houses reserved for military officers

The Regulations impose no restriction whatever in respect to the sale or renting of the quarters, which are private property beyond that of their being reserved for the officers and the staff of the army, and Lieutenant Colonel—— can have no preference of claim from his rank to the occupation of quarters either the property of, or rented by any other officer at the cantonments (*Berhampore*)

Extract from Proceedings of the Vice President in Council, dated 22nd August, 1809

Carroll's Code, Chapter XI section 1,

Dinapore boundaries

The Vice President in Council is pleased to resolve the small slip of land between the Ganges and the Cantonment at Dinapore, which has been formed chiefly by the sand deposited by the river during the rains, shall be considered within the limits of the cantonment

---

General Order by the Commander in Chief, dated 31st July, 1811

Carroll's Code Chapter XI section 102 Jephson Code Part I 1839 Page 232

Boundaries of cantonments

Government having approved and confirmed the local limits assigned to the undermentioned cantonments and garrisons by the joint reports transmitted to head quarters by the civil and military authorities at those places, respectively, Commanding Officers in the stations referred to are directed to cause pillars of masonry of a suitable construction to be immediately erected at appropriate distances for the purpose of permanently distinguishing the boundaries of those cantonments and garrisons, as described in the reports transmitted to head-

quarters, and now confirmed by Government in all situations when these or other sufficien means have not been adopted for that purpose

Receipts for plans of cantonments on relief

With the view to ensure the requisite attention to the care and preservation of the plans of cantonments etc, now in course of preparation the Commander in Chief directs Commanding Officers of stations and posts of the army will consider it an established rule, on being relieved from the duties of these stations, to obtain from the relieving officer receipts in duplicate for the plans above mentioned, one of which is to be transmitted for record in the Adjutant General's office

General Order by the Governor General in Council, dated 5th June, 1813

Carroll's Code Chapter XI sections 148 and 149

Composition of Committee of Arbitration

The Governor General in Council is pleased to determine that on all future occasions in which the disposal of premises and dwellings the property of individuals situated within the limits of cantonments, may be considered by the Commanding Officer or other competent authority to be necessary for the accommodation of officers or persons belonging to the army, the Committee of Arbitration instead of being composed entirely of military officers as heretofore shall consist of the Judge and Magistrate and Collector of the district, the Commanding Officer of the station or cantonment, and any other military officer whom the Commanding Officer may select to be associated with him in the Committe

The Committee thus constituted are to proceed to value the premises making regular minutes and recording their proceedings, which are to be lodged in the office of Brigade Major or Senior Staff Officer at the station, as the case may be In instances in which the proprietor may not be satisfied with the rate of valuation fixed by the Committee of Arbitration, they are required to submit the case, accompanied with their proceedings, through the proper channel for the final orders of Government

Appeal

Such parts of the Regulations of the 28th September 1807, as are not affected by the foregoing orders are to continue in full force

General Order by the Governor General in Council, No 245, dated 19th August, 1824

Jephson's Code Part I 1839 page 233

Cultivation

It having come to the knowledge of Government that cantonment ground intended for the exercise of the troops has in some instances, been brought into cultivation by the officers in charge thereof the Governo General in Council notifies to the army that such practices are most strictly forbidden under any circumstances or pretence whatever, and that Commanding Officers of stations will be held personally responsible to Government that these orders are rigidly enforced

General Order by the Governor General in Council, No 105, dated 5th April, 1825

Jephson's Code Part I 1839, page 234

Local extent of orders
Application of orders to British cantonments in foreign territory

In order to remove any misapprehension which may exist the Right Honble the Governor General in Council is pleased to notify that all orders now in force prohibiting the levy of taxes or impositions or the letting of cantonment lands, have operation in all situations wherever British troops are or may be stationed, whether in camp or cantonments within or beyond the British frontiers

Military Board's Circular, dated 11th June, 1833

Jephson's Code Part I 1839 page 233

Transfer of surplus land to civil authorities

Under orders of Government dated the 24th December last I am directed by the Military Board to request you will convene a committee of the Commanding Officer and Collector of the district to ascertain and report the extent and appropriation of all lands within the present limits of military cantonments within your division in order

that all surplus cantonment land may be made over without delay to the local civil revenue authorities

NOTE —*In consequence of the reports received from these Committees surveys were ordered for the purpose of fixing new limits* Jenkinson C I Part I 1839 page 233

General Order by the Commander in Chief, dated 16th September, 1833

Register of houses

The Commander in Chief is pleased to direct that a register shall be kept in the office of the principal Staff Officer at the stations of Dum Dum Barrackpore, Dinapore Benares, Cawnpore, Agra Meerut and Kurnaul of the sale or transfer of any houses bungalows or gardens within the limits of these cantonments and, in order that these registers may be as complete as possible, the present proprietors of houses, etc will send to the different Staff Officers a memorandum stating when they purchased or became proprietors of them from whom they obtained them and the dimensions of their different compounds Jenkinson C I Part I 1839 page 189

In future when any house or piece of ground within the cantonments above mentioned may be sold or transferred, the person who makes the transfer will report the circumstances for the Officers Commanding information and for entry in the register

General Order by the Governor General in Council, No 59, dated 5th March 1835

Question as to resumption and appropriation of land to be referred to Government

All future questions respecting the resumption and appropriation of cantonment land shall be referred through the Department of the Quarter Master General of the Army for the information of His Excellency the Commander in Chief and for the final decision of Government Jenkinson C I Part I 1839 page 233

Alteration of boundaries of cantonments sites or bazar

His Lordship in Council also deems it expedient to direct that no deviation from the limits about to be fixed to cantonments by the surveys in progress of execution, nor alteration in the extent of inclosures surrounding bungalows, bazars lines and roads within them be permitted without the previous sanction of Government obtained through the channel of the Quarter Master General's Department

Letter from the Quarter Master General to Officers Commanding Divisions, etc, dated 24th March, 1835

Occupation of land for purposes unconnected with troops prohibited

I have been instructed by the Provincial Commander in Chief to call your attention to the General Order No 59 of the 5th instant on the subject of the resumption and appropriation of cantonment lands, and to state that the occupation of land within the boundary pillars for purposes unconnected with the troops and public establishments has, in some recent instances, been brought to the notice of Government, a practice which is directly at variance with the repeated orders issued to this army Jenkinson C I Part I 1839 page

Alteration of boundaries of sites or bazars

No alteration in the extent of ground allotted for bungalows bazars, lines and roads to be permitted without the previous sanction of Government obtained through this department

Cultivation

Officers Commanding divisions field forces and frontiers will be held responsible that no cultivation of any description is permitted within the limits of any cantonment under their authority, and in any instance where cantonment ground may be so occupied, it is immediately to be put a stop to

General Order by the Governor General in Council No 179, dated 12th September, 1836

Occupation of land and disposal of premises and buildings

Pros C G 25th June 1801
C O G G 28th September 1807
G O C G 5th June 1813

The Governor General of India in Council is pleased to rescind the various orders now in force in this Presidency in regard to the occupation of ground and the disposal of premises or buildings, situated within the limits of military cantonments and to substitute for them the following regulation which is to have effect from the date of its promulgation at the different stations of the Bengal Army — Jenkinson C I Part I 1839 page 223

Application for land

1 All applications for unoccupied ground for the purpose of bungalows, built upon or in any way appropriated to private purposes such ground being within the limits of any cantonment are, in the first instance, to be made to the Commanding Officer of the station through

the usual channel, and in no case are the boundaries of compounds to be changed old roads closed or new ones opened without the sanction of the Commanding Officer

Alteration of boundaries of sites and closing or opening of roads

2 As the health and comfort of the troops are paramount considerations, to which all others must give way, the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either, or to the appearance of the cantonment, and in forwarding any application for a grant, he must certify that it is not objectionable in those or any other respects

Certificate by Commanding Officer

3 When no objection occurs, the application is to be forwarded, through the prescribed channel, by the Commanding Officer of the station to the Quarter Master General of the Army, who, if the Commander in Chief approves, will submit it for the orders of Government

Orders of Government required

4 All such applications are to be in the annexed form marked A

Form of application

5 All grants are to be registered by the officer of the Quarter Master General's Department attached to the division, and, at stations where no such officer may be present, by the executive officer of public works, to whom also, in such cases, applications for ground are to be addressed and all grants are to be immediately noted upon the plan of the cantonment in the Quarter Master General's office

Grants to be registered and noted on plan

6 No ground will be granted except on the following conditions, which are to be subscribed by every grantee, as well as by those to whom his grant may subsequently be transferred —

Conditions of occupancy

1st —The Government to retain the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorised to be erected

Resumption of land

2nd — The ground, being in every case the property of Government, cannot be sold by the grantee but houses or other property thereon situated may be transferred by one military or medical officer to another without restriction, except in the case of reliefs, when, if required, the terms of sale or transfer are to be adjusted by a Committee of Arbitration

Land belongs to Government
Land cannot be sold by grantee
Transfer of houses between military officer

3rd —If the ground has been built upon, the buildings are not to be disposed of to any person, of whatever description, who does not belong to the army, until the consent of the Officer Commanding the station shall have been previously obtained under his hand

Arbitration in case of transfer on relief
Transfer of house to civilian

4th —When it is proposed, with the consent of the General Officer, to transfer possession to a native, should the value of the house, buildings or property to be so transferred exceed Rs 5,000, the sale must not be effected until the sanction of Government shall have been obtained through His Excellency the Commander in Chief

Transfer to native

7 All houses in a military cantonment being the property of persons not belonging to the army, which may be deemed by the Commanding Officer of the station suitable, from their locality, for the accommodation of officers, shall be claimable for purchase or for hire at the option of the owner, in the former case at a valuation, and in the latter at a rent, to be fixed, in case of the parties disagreeing, by a Committee of Arbitration constituted as follows

Houses claimable for purchase or hire at option of owner
Committee of Arbitration

8 The Committee is to be composed of one civil officer, the principal one, if practicable, at or in the vicinity of the station, the Commanding Officer of the cantonment, and an officer belonging to the station to be named by the proprietor of the premises and their decision whether relating to the terms of purchase or rent, is to be conclusive, unless it shall be reversed by Government, for whose orders the proceedings of the Committee are to be submitted, through His Excellency the Commander-in-Chief, whenever the proprietor of the premises which they have valued is dissatisfied with their award

Composition of Committee of Arbitration
Appeal

Arbitration in case of transfer as on relief

9 When the houses of the officers of one corps are to be transferred to those of another, as on the occasion of a relief, if a difference of opinion should arise as to the fair terms of the transfer the price shall be fixed by a Committee of Arbitration constituted as in the last paragraph but to which, in such cases, there is to be given an additional member to be named by the intending purchaser

No appeal

10 In this case there is to be no appeal and the decision of the Committee of Arbitration is to be final

General Order by the Governor General in Council No 74, dated 10th April, 1837

Composition of Committee of Arbitration

With reference to the 8th clause of General Order No 179 of the 12th September 1836, the Governor General of India in Council directs that, when the Commanding Officer of the station is an interested party the next senior officer shall be nominated one of the Committee of Arbitration in his stead

Robson's Code Part I [illegible]

General Order by the Governor General in Council, No 154, dated 14th July, 1840

Instances having recently occurred in which the agents for proprietors of bungalows situated within the limits of military cantonments have omitted to nominate a member of the Committee of Arbitration held upon such bungalows, under the provisions of the seventh and eighth clauses of the regulation No 179, dated 12th September, 1836 and such omission having conduced to inconvenient results for which the regulation cited provides no remedy the Right Honourable the Governor General of India in Council is pleased to establish the following rule as an addition to the eighth clause of the regulation —

Notice of intention to convene Committee of Arbitration

Nomination of member to represent owner

'Due notice shall in every instance be given to proprietors of premises, or to their agents, by the Commanding Officer of the cantonment, of the intention to hold a committee thereupon, and, should any such proprietor or his agent neglect to nominate a member of such committee after having received due notice, which in all cases where the proprietor or his agent shall not be resident within the cantonment or in its vicinity, shall be taken to mean an official notification dated fourteen days before the day on which the committee is to assemble, it will be the duty of the Commanding Officer to nominate a member of the committee to represent such proprietor, and the Committee shall thereupon proceed to arbitration'

General Order by the Governor General in Council, No 174, dated 5th August, 1840

Notice of intention to convene Committee of Arbitration

The Right Honourable the Governor General of India in Council is pleased to determine that the period which shall be held to be "due notice" to proprietors of premises or their agents, not residing within or in the vicinity of a military cantonment, of the intention to hold a Committee of

Arbitration on such premises, under the regulation No 179 dated 12th September, 1836, shall be one month, and not fourteen days as laid down in General Orders No 154 of the 15th ultimo

Order books to be corrected accordingly

General Order by the Commander-in Chief, dated 20th January, 1853

The Commander in Chief desires to call the attention of all Officers Commanding stations within this Presidency to the General Order by the Governor General, dated 12th September 1856, on the subject of the disposal of building and ground situated within military cantonments His Excellency directs that no buildings or ground may be allotted for private purposes without authority previously obtained in the prescribed manner, and all such grants are to be duly registered

Sanction required to grant of land
Registration of grants

General Order by the President in Council, No 700, dated 3rd July, 1855

At the recommendation of His Excellency the Commander in Chief the Honourable the President of the Council of India in Council is pleased to substitute the following for paragraph 7 of Government General Order No 179 of the 12th September, 1836 —

All houses in a military cantonment, not being occupied by a person belonging to the army on duty at the station or whose residence therein may be authorized by Government which may be deemed by the Commanding Officer of the station suitable from their locality for the accommodation of officers, shall be claimable for purchase or for hire at the option of the owner in the former case at a valuation and in the latter at a rent to be fixed, in case of the parties disagreeing by a Committee of Arbitration constituted as follows

Houses claimable for purchase or hire at option of owner
Committee of Arbitration

CHAPTER V—MILITARY STATIONS

Section 1—Cantonment Lands and Boundaries

Page 57

1 All matters connected with cantonment lands and boundaries will be conducted, under the orders of the Commanding Officer, by the officer of the Quarter Master General's Department at the station or, in his absence, by the Cantonment Magistrate or Station Staff Officer, assisted, if necessary, by the Executive Engineer or his subordinate

Officer to perform duties connected with lands and boundaries

Page 57

2 Questions requiring the decision of higher authority should be referred by the Officer Commanding the station, through the regular channel, to the Quarter Master General of the Army

Reference to higher authority

Page 57

Boundaries

3 The following clauses of Regulation XX of 1810 should be strictly attended to —

Page 57

V —On receipt of this Regulation, the limits of the cantonments and garrisons, including the military bazars attached thereto, at which any division or corps of the army, or any considerable detachment, not being less than half a battalion, may be quartered, shall be marked out in all cases in which it has not already been done under Regulation III, 1809, by the Commanding Officer, in concert with the Magistrate [now Collector]

The Commanding Officer at each of those stations from which a report of the nature hereafter described has not been already furnished under Section IV, Regulation III, 1809, will accordingly submit to Government, through the Commander in Chief without delay, a report framed in concert with the Magistrate [now Collector] of the district in which the cantonment or garrison may be situated upon the local limits of the cantonment or garrison, forwarding at the same time any separate remarks which the Magistrate [now Collector] may wish to make on the subject for the final orders of Government

As soon as the limits of the cantonments and garrison shall be approved and confirmed by Government on the report of the Magistrate [now Collector] and Commanding Officer above required, plans shall be prepared of the limits of the cantonments and garrisons, including the military bazars attached thereto

Plans

VI —The plan shall be prepared in quadruplicate and signed by the Commanding Officer and the Magistrate [now Collector] of the district one copy shall be deposited at the head quarters of the station, another at the cutcherry of the Magistrate [Collector] and the other two shall be transmitted to the Commander in Chief, by whom one copy will be forwarded to Government Page 58.

Plans

* * * * * * *

4 The boundaries of cantonments, when confirmed by Government should be marked by pillars which are to be supplied whenever they have been destroyed or are not forthcoming Any existing village within the limits of a cantonment should also have its boundary marked by pillars beyond which it should not be permitted to encroach Page 59

Boundaries

Boundaries of villages

5 The ground allowed for the compounds of officers of all branches of the army is as follows

Size of officers compounds

Field officers	83½ × 50 yards
Captains	66½ × 50
Subalterns	50 × 50

* * * * * * *

9 The boundaries of all bazars both sudder and regimental, should be marked by pillars Page 59

Boundaries of bazars

10 The quarterly Bazar Committees will report in their proceedings whenever the limits so marked out have been exceeded and the Officer Commanding the station will direct all houses walls or enclosures so improperly built or pushed beyond the authorized boundaries of the bazar to be thrown down, and the ruins and fences to be removed at the expense of the persons by whom they were erected This applies also to houses which may have been built beyond the limits of villages included in a cantonment (see para 4) Page 60

Removal of buildings erected beyond boundaries

11 No deviation from the limits fixed for cantonments, or from those of the lines, bazars or enclosures surrounding Government buildings is permitted without the sanction of Government obtained through the regular channel (para 2) Page 60

Alteration of boundaries

12 The cultivation of unoccupied cantonment lands is not permitted without the special sanction of Government Page 60

Cultivation

* * * * * * *

When from any cause any portion of the area of an existing cantonment is found to be no longer required for military purposes a report to that effect is to be made by the Commanding Officer to the Quarter Master General in order that it may be made over to the civil authorities Page 60.

Transfer of surplus land to civil authorities

Section 2 —Grants of Land and Private Buildings

1 In no case is any cantonment land to be enclosed or occupied without the sanction of the Commander in Chief nor are the boundaries or compounds to be changed, old roads closed or new ones opened without similar authority Page 62

Sanction required to occupation of land

2 All applications for unoccupied ground for the purpose of being enclosed built upon or in any way appropriated to private purposes are to be forwarded for transmission to the Officer Commanding the station through the officer of the Quarter Master General's Department or in his absence, through the Cantonment Magistrate or Station Staff Officer Page 62

Submission of application for land

3 The health and comfort of the troops are paramount considerations to which all others must give way, and the Commanding Officer will be held responsible that no ground is occupied in any way Page 62

Certificate by Commanding Officer

calculated to be injurious to either, or to the appearance of the cantonment In forwarding (*vide* Section I paragraph 2) any application for a grant, he must certify that it is not objectionable in these or any other respects

Page 62

Form of application for land.

4 All such applications shall be in Form No 6, and must be accompanied by a sketch or rough plan of the site applied for, embracing the portion of the cantonment adjacent to it, and exhibiting the roads, public buildings or private estates by which it is bounded

Plan of site

This plan is in practicable cases to be authenticated by the officer of the Quarter Master General's Department, or, when no such officer is present by the Executive Engineer of the Division in which the cantonment may be situated

Certificate by local officer of Quarter Master General's Department or Executive Engineer

Page 62

5 All grants are to be registered (Form No 5)* by the officer of the Quarter Master General's Department, or, at stations where no such officer may be present, by the Cantonment Magistrate or Station Staff Officer and all grants are immediately to be noted upon the plan of the cantonment in the Quarter Master General's office

Grants to be registered and noted on plan

Page 63

6 No ground will be granted except on the following conditions, which are to be subscribed to by every grantee, as well as by those to whom his grant may subsequently be transferred —

Conditions of occupancy

I —Government to retain the power of resumption at any time on giving one months notice and paying the value of such buildings as may have been authorised to be erected

Resumption of land

II —The ground, being in every case the property of Government cannot be sold by the grantee but houses or other property thereon situated may be transferred by one military or medical officer to another without restriction, except in the case of relief when if required, the terms of the sale or transfer are to be adjusted by a Committee of Arbitration

Land belongs to Government
Land cannot be sold by grantee
Transfer of house between military officers
Committee of Arbitration

III —If the ground has been built upon, the buildings are not to be disposed of to any person of whatever description, who does not belong to the army, until the consent of the Officer Commanding the station shall have been previously obtained under his hand

Transfer of house to civilian

IV —When it is proposed, with the consent of the Commanding Officer, to transfer possession to a native, should the value of the house, buildings or property to be so transferred exceed 5,000 rupees, the sale must not be effected until the sanction of Government shall have been obtained through His Excellency the Commander in Chief

Transfer to native

V —When paths or roads specially leading to any private estate shall cross any line of drainage, proper drains, on designs approved by the Executive Engineer, shall be provided by the person in possession of the estate, on the requisition of the Commanding Officer, either at the time of the original grant or at any subsequent time

Drains

VI —The Commanding Officer shall have power to cancel the grant if the ground be not brought into use for the purpose specified within twelve months

Cancellation of grant within twelve months

VII —No enclosure walls shall be built, or hedges allowed to grow, to a greater height than six feet and the Commanding Officer shall have power to prevent any buildings being erected or excavations made which he shall deem objectionable

Sanitation

* *Infra* page 16

in a sanitary point of view or otherwise He shall also have power to order the removal of any dangerous or unsightly ruins

VIII —The grantee shall engage to fill up with fresh earth all excavations made in building within six months of their being dug, or within such time as may be determined by the Commanding Officer

Excavations.

7 All houses in a military cantonment, being the property of persons not belonging to the force on duty at the station, or of persons whose residence therein may not have been specially authorised by Government, which may be deemed by the Commanding Officer of the station suitable from their locality for the accommodation of officers belonging to the force posted at the station shall be claimable, for purchase or for hire, at the option of the owner, in the former case at a valuation, and in the latter at a rent, to be fixed, in case of the parties disagreeing, by a Committee of Arbitration constituted as follows

Page 64.

Houses claimable for purchase or hire at option of owner

Committee of Arbitration

8 The Committee is to be composed of one Civil Officer (the principal one, if practicable, at or near the station), the Commanding Officer of the cantonment (unless he is an interested party, when the next senior is to be appointed), and an officer belonging to the station, to be named by the proprietor of the premises, and their decision, whether relating to the terms of purchase or rent, is to be conclusive, unless it shall be reversed by Government, for whose orders the proceedings of the Committee are to be submitted, through His Excellency the Commander in Chief, whenever the proprietor of the premises which they may have valued is dissatisfied with their award

Page 64

Composition of Committee of Arbitration

Appeal

Due notice shall in every instance be given to proprietors of premises, or to their agents, by the Commanding Officer of the cantonment, of the intention to hold a Committee thereupon, and should any such proprietor or his agent neglect to nominate a member of such Committee after having received due notice (which in all cases when the proprietor or his agent shall not be resident within the cantonment or in its vicinity, shall be taken to mean an official notification dated one month before the day on which the Committee is to assemble), it will be the duty of the Commanding Officer to nominate a member of the Committee to represent such proprietor, and the Committee shall thereupon proceed to arbitration

Notice of intention to convene Committee of Arbitration

Nomination of member to represent owner

9 When the houses of the officers of one corps are to be transferred to the officers of another as on the occasion of a relief, if a difference of opinion should arise as to the fair terms of the transfer, the price shall be fixed by a Committee of Arbitration constituted as in the last paragraph, but with the addition of a fourth member to be named by the intending purchaser

Page 65

Reference to Committee of Arbitration in case of transfer as on relief

10 In this case there is to be no appeal, and the decision of the Committee of Arbitration will be final

Page 65.

No appeal

General Order by the Governor General in Council, No 684, dated 7th July, 1862

It having been brought to the notice of Government that instances still occur of owners of houses, etc, in military cantonments either refusing or failing to keep the buildings in such a state of repair as to render them suitable for the purposes of which their erection was permitted, although the power retained by Government of resuming the ground on which they stand has been more than once exercised, the Right Honourable the Governor General in Council deems it necessary to notify for general information that authority will be given for the resumption of the land on which the buildings so neglected are situated, whenever it shall appear that the owners or their agents have failed, although duly warned, to cause the necessary repairs to be executed, and that inconvenience has thereby been caused to the inhabitants of the station.

Resumption of land on failure to repair

The value of the buildings as they stand shall in such cases be paid to the owners, such value being determined by a Committee of Arbitration composed and convened as laid down in Government General Orders No 179, dated 12th September, 1836, No 74, dated 10th April, 1837, No 154, dated 15th July, 1840, and No, 174, dated 5th August, 1840 The owner or agent shall, however, have the option of removing the materials within one fortnight from the date of the Committee's report.

Committee of Arbitration

* * * * * * * *

General Order by the Governor General in Council, No 1001, dated 8th December, 1864.

It having been brought to the notice of Government that in some cases owners of houses in military cantonments have made use of the right to sell or rent their houses at their option, which is secured to them by General Orders, so as to evade the plain intention of Government in issuing those orders,—*e g* by electing to sell when military officers have claimed the houses, in order to force them to waive their claims, and then renting the houses at whatever rent they could obtain, to persons not belonging to the cantonment,—the Right Honourable the Governor General in Council is pleased to direct the substitution of the following for paragraph 7 of Government General Order No 179, dated 12th September, 1836, as amended by Government General Order No 700, dated 3rd July, 1855

"7 The owner of any house in a military cantonment not occupied by a person belonging to the army on duty at the station or by a person in the service of Government directed or authorized by Government to reside therein, may be required to rent the same to any military officer belonging to the station who may require it to reside in, if the Officer Commanding the station is satisfied that there is no other suitable house available with due regard to the rank of the claimant and to the duties he may have to perform

Power to require owner to let house to military officer

"In every such case, however, if the owner shall have formally intimated to the officer who has so obtained the house his desire to sell rather than let it, and the offer have not been accepted, the officer shall at any time be required to vacate it within a week of his receiving notice, through the Brigade Major or Station Staff Officer, that the house has been sold, with the consent of the Commanding Officer of the station, to another military officer on duty at the station who requires it for his own residence

Vacation of house on sale to another military officer

"The rent to be paid in such cases, or the price to be paid for the house when the claimant accedes to the owner's desire that he shall purchase it, shall be fixed, in the event of the parties disagreeing as to the amount, by a Committee of Arbitration constituted as follows"

Committee of Arbitration

General Order by the Commander-in-Chief, No 5, dated 10th January, 1868

His Excellency the Commander-in Chief, in publishing the following extract from a despatch, No 122, dated 4th December, 1867, received, consequent on numerous instances of the appropriation of land in military cantonments in contravention of the regulations of the service, from the Secretary to the Government of India in the Military Department,

desires that Officers Commanding divisions and districts will enforce the orders of Government, impressing upon all officers concerned that any deviation from the same renders them personally liable for the consequences —

Sanction required to grant of land.

"As this is not the first occasion on which embarrassment has been caused by the sanction of the Commander-in Chief being anticipated, I am instructed to request that Commanding Officers may be strictly prohibited from allowing any one to occupy a site in a military cantonment under any circumstances whatever until His Excellency's approval shall have been officially received"

General Order by the Commander in-Chief, No 268, dated 8th September, 1868.

The following extract from letter No 168, dated 10th June, 1868, from the Secretary to the Government of India, Military Department, to the Madras Government, is published for information and guidance, with reference to Bengal Military Regulations, Section XI, paragraph 16 —

* * *

Composition of Committee of Arbitration

in the opinion of the Government of India, the proprietor of a house may nominate any one he pleases as his representative on the Committee of Arbitration, and his nominee need not be either a military or covenanted civil officer

---

Regulations and Orders for the Army of the Bengal Presidency, 1873

* * * * * * * *

SECTION 18 —CANTONMENTS.

* * * * * * * *

1 —GENERAL RULES.

* * * * * * * *

1948 The limits of all military cantonments are to be defined by pillars of masonry erected at each angle of the boundary line, and which are to be replaced whenever they have been destroyed or are not forthcoming At minor stations, where less than half a regiment is quartered, the boundaries need not be marked out, nor are the cantonment regulations to be introduced

Boundaries

Page 333

1949 The boundaries of sudder, station and regimental bazars, and of any villages within the limits of cantonments, are also to be defined by pillars of masonry, and all buildings erected beyond the proper boundaries on assigned limits are to be thrown down and the ruins removed at the expense of the proprietor

Boundaries of bazars and villages Removal of buildings erected beyond boundaries.

Page 334

1950 No deviation from the fixed limits of a cantonment, or from those of the lines, bazars or enclosures surrounding Government buildings, is permitted without the sanction of Government to be applied for through the Quarter Master General's Department

Alteration of boundaries.

Page 334

1952 When from any cause any portion of the area of an existing cantonment is found to be no longer required for military purposes, a report to that effect is to be made by the Commanding Officer to the Quarter Master General in order that it may be made over to the civil authorities.

Transfer of surplus land to civil authorities.

Page 334

* * * * * * * *

1962 All matters connected with cantonment lands and boundaries will be conducted, under the orders of the Commanding Officer, by the officer of the Quarter Master General's Department at the station, or, in his absence, by the Cantonment Magistrate or the Staff Officer of the station, assisted, if necessary, by the Executive Engineer Questions requiring the decision of higher authority are to be referred to head quarters through the Quarter Master General (paragraph 2777)

Officer to perform duties connected with lands and boundaries

Page 335

Rent or sale of private buildings.

Page 335

Military character of cantonments
Priority of claim of military men to houses.

1963 A military cantonment is, as its designation implies, a locality set apart primarily for military and medical officers, chaplains, soldiers, subordinates attached to the troops, and their families, for whom houses situated within such limits are by priority of right available

Regimental officers to live near their lines

Regimental officers are required ordinarily to live near the lines of their respective corps

Page 335.

Civilians permitted to reside in cantonments

1964 Civil and political officers of Government* are permitted to reside within the limits of military cantonments whenever the public interests may require that they should so reside, or whenever special grounds may exist for granting the indulgence, such as the want of other available shelter or the necessity of ensuring their personal safety, but these exceptions are not ordinarily to interfere with the priority of right possessed by military officers or others on duty at the station to the houses within its boundaries

Page 335.

Compulsory transfer of tenants. Notice

1965 In the event of a house in cantonments occupied by a non-military resident being required for an officer, a formal notice should be served on the occupant requiring him to vacate by a certain date, and warning him that, in the event of his declining or failing to comply, legal proceedings will be taken to enforce compliance Should the notice (which should be personally served if possible) fail of effect, intimation of the same should be forwarded to the Local Government in order that the necessary steps may be taken in the matter

Legal proceedings

Precautions in requiring change of tenants

Commanding Officers should not, however, have recourse to this measure except under the most unavoidable circumstances, when houses are legally claimable and absolutely necessary for the accommodation of officers whose services are actually required in the station, and for whom shelter is not available within a fairly reasonable distance of their duty In the case of civil and political officers, applications for their removal are to be made to the Commander-in Chief through the Quarter Master General for submission to Government.

Page 336

Power to require owner to let house to military officer

1966 The owner of any house in a military cantonment not occupied by a person belonging to the army on duty at the station, or by a person in the service of Government directed or authorised by Government to reside therein, may be required to rent the same to any military officer belonging to the station who may require it to reside in if the Officer Commanding the station is satisfied that there is no other suitable house available, with due regard to the rank of the claimant and to the duties he may have to perform

Vacation of house on sale to another military officer

In every such case, however, if the owner shall have formerly intimated to the officer who has so obtained the house his desire to sell rather than to let it, and the offer shall not have been accepted, the officer shall at any time be required to vacate it within a week of his receiving notice through the Staff Officer of the station that the house has been sold, with the consent of the Commanding Officer of the station, to another military officer on duty at the station who requires it for his own residence

Committee of Arbitration.

The rent to be paid in such cases, or the price to be paid for the house when the claimant accedes to the owner's desire that he shall purchase it, shall be fixed, in the event of the parties disagreeing as to the amount, by a Committee of Arbitration, to be assembled by order of the Officer Commanding the division or district after he has fully satisfied himself as to the necessity for the same, and that the application for the Committee is not opposed to the orders of Government

Page 336

Owner to have option to let or sell

1967 In all cases of dispute the owner should be called upon, previous to the assembly of the Committee of Arbitration, to elect whether he will rent or sell his house, should he elect to rent the house, the Committee cannot compel him to sell it.

Page 336

Reduction of rent not claimable by tenants

1968 A tenant who has once taken possession of a house, or who is occupying it, cannot appeal for any reduction of rent which he may have agreed to pay, nor can a Committee be assembled to arbitrate on this point.

* Officers serving under the Public Works Department were added by G O No. 62 of 1874.

1969 Committees of Arbitration are to be composed of a civil officer (the principal one, if practicable at or in the vicinity of the station), the Commanding Officer of the cantonment, and *any* other individual (who need not belong to either the civil or military services) whom the proprietor of the house may please to nominate When the Commanding Officer of the station is an interested party, the next senior officer is to be nominated one of the Committee in his stead Page 336

Composition of Committee of Arbitration

1970 When a house is transferred from one officer to another on the occasion of a relief, and a difference arises as to terms, the price or rent is to be fixed by a Committee constituted as above, with an additional member to be nominated by the intending occupant or purchaser Page 337

Reference to Committe of Arbitration in case of transfer on relief

1971 In the case referred to in paragraph 1966 the decision of the Committee of Arbitration is to be conclusive, unless it be reversed by Government, for whose orders the proceedings are to be submitted through the regular channel, whenever the proprietor of the premises is dissatisfied with the award but in the case referred to in paragraph 1970 there is no appeal from the decision of the Committee, which is to be final Page 337

Appeal when to lie from decision of Committee of Arbitration

1972 Due notice shall in every instance be given to proprietors of premises, or to their agents, by the Commanding Officer of the cantonment, of the intention to hold a Committee thereon and, in the event of the owner or agent neglecting to nominate a member of such Committee after having received the notice, which, if the owner or agent be a non resident in the cantonment or its vicinity, shall be taken to mean an official notification dated one month prior to the day on which the Committee is to assemble, the Commanding Officer will under the orders of the Officer Commanding the division or district, nominate a member of the Committee to represent such proprietor, and the Committee shall thereupon proceed to arbitration Page 337

Notice of intention to convene Committee of Arbitration

Nomination of member to represent owner

*1972A When an officer to whom a house in cantonments has been specially allotted under these regulations may choose on going away on leave or on temporary duty, to give it up, he has no right to claim the special allotment of a house on his return, under the provisions of paragraph 1966, should a suitable one not be at the time available for rent

Officer giving up house on temporarily leaving cantonment to have no claim to re allotment

In the event of any special circumstances rendering a departure from this rule necessary the case should be referred to the Quarter Master General for the decision of His Excellency the Commander in Chief

1973 In the event of the tenant of a house considering that the house requires repairs, and is unable to induce the owner to execute them, he should call on his landlord to join him in appointing a Committee of Arbitration to decide the question Page 337

Committee of Arbitration for repairs

If the cantonment rules are in force the Committee will be composed of one civilian, the Officer Commanding the station, and two officers or European residents, to be appointed, one by the landlord and the other by the occupant otherwise the landlord should be called on to name an arbitrator to act with one to be named by the occupant, who are together to appoint a third in case of difference

Composition of Committee of Arbitration

In either case the landlord should be informed that, unless within a named time he either commences† the necessary repairs or joins in the reference, the occupant will have the repairs done on the landlord's account and risk at the Public Works Departmental rates, and that the costs will be set off against the rent

Notice as to executing repairs at cost of owner

* * * * * * * *

1975 In cases where buildings in cantonments are required for public purposes, the officer of the Public Works Department in executive charge will, under the authority of the Officer Commanding the division or district, settle for the valuation and purchase of the same, according to the rules of the Public Works Department, and recourse is only to be had to Committees of Arbitration in the event of any disagreement and on the application of the Executive Engineer or of the proprietor of the premises Page 338

Purchase of buildings for public purposes

Committee of Arbitration

* Paragraph 1972A was added by G O No 216 dated 20th August 1874
† 'Executes' was substituted for "commences" by C O No 70 of 1876

Page 338

Hiring of buildings for public purposes

1976 Whenever it may be necessary to rent buildings for the use of the troops, the officer of the Public Works Department, on the spot is *in all cases* to arrange for the hiring of such buildings and to obtain sanction for the arrangements in communication with and assisted by, the local military authorities, and Officers Commanding station are to bear in mind that they are bound to direct the officer of the Public Works Department to make all necessary provision for accommodating the troops in any emergency, whenever this is possible rather than to act themselves, and thus accept a grave pecuniary responsibility in the event of their action being disapproved of

When, however, the local military authorities have been obliged to act themselves owing to the absence of the Executive Engineer from the station, it is the duty of such officer on his return to suggest to them any modification of the arrangements which his knowledge and experience might suggest as better for the soldier, or more for the interests of Government, and also to submit the arrangements for sanction as if originally made by himself

Page 338

Disputes to be reported

1977 Officers Commanding stations are required, in cases of disputes relative to houses or lands in cantonments, before taking action thereon, to submit the same with their opinion for the consideration and approval of the General Officer in local command, who will transmit them to the Quarter Master General if he is unable to decide them himself

Page 338

Buildings devoted to religious uses

1978 Mosques, temples or other buildings of a religious description, which may be within the boundaries of a cantonment, are not to be occupied as dwelling houses without the most positive assurance that the religious habits or feelings of the natives are not likely to be in any way offended thereby

II—GRANTS OF LAND

Page 338

Sanction required to occupation of land

1979 In no case is any cantonment land to be enclosed or occupied without the sanction of the Commander in Chief, and Commanding Officers are strictly prohibited from allowing any one to occupy a site, *under any circumstances whatever*, until such sanction shall have been officially received, nor are the boundaries of compounds to be changed, old roads closed or new ones opened without similar authority

Size of sites granted to officers

Building sites granted to officers in military cantonments should be no larger than is absolutely necessary, conforming as far as practicable to the dimensions laid down in the Public Works Code

Page 339

Submission of application for land

1980 All applications for unoccupied ground for the purpose of being enclosed, built upon or in any way appropriated to private purposes are to be forwarded, for transmission to the Officer Commanding the station, through the officer of the Quarter Master General's Department at the station, or, in his absence, through the Cantonment Magistrate or Staff Officer of the station, as the case may be

Page 339

Certificate by Commanding Officer

1981 The health and comfort of the troops are paramount considerations to which all others must give way, and the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either, or to the appearance of the cantonment In forwarding to the Quarter Master General any application for a grant, he must certify that it is not objectionable in these or any other respects

Page 339

Form of application for land
Plan of site

1982 All such applications shall be made according to Appendix No 28, and must be accompanied by a sketch or rough plan of the site applied for, embracing the portion of the cantonment adjacent to it, and exhibiting the roads, public buildings or private estates by which it is bounded, also any line of railway proposed or actually passing through the cantonment, and, where the line of railway does not immediately abut on the ground applied for, the direction and distance are to be shown

Certificate by local officer of Quarter Master General's Department or Executive Engineer

This plan is to be authenticated by the officer of the Quarter Master General's Department at the station, or, when no such officer is present, by the Executive Engineer of the division in which the cantonment may be situated Such applications must also be accompanied by a certificate from the Executive Engineer of the division to the effect that no departmental objection is known to the application, and that the grant if made, does not seem likely to interfere with any building existing or likely to be required

1983 All grants are to be registered (Public Works Code, Section 2, Chapter IX) by the Cantonment Magistrate, where one is allowed, or otherwise by the Staff Officer of the station and all grants are to be immediately noted on the plan of the cantonment in the Quarter Master General's office Page 339

Grants to be registered and noted on plan

1984 No ground will be granted except on the following conditions, which are to be subscribed to by every grantee as well as by those to whom his grant may subsequently be transferred — Page 339

Conditions of occupancy

(*a*) Government to retain the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorized to be erected

Resumption of land

(*b*) The ground, being in every case the property of Government, cannot be sold by the grantee, but houses or other property thereon situated may be transferred by one military or medical officer or chaplain to another on a joint report being made to the Staff Officer, who will make the requisite entry in the register, except in the case of relief, when, if required, the terms of the sale or transfer are to be adjusted by a Committee of Arbitration

Land belongs to Government
Land cannot be sold by grantee
Transfer of house between military officers
Arbitration in case of transfer on relief

(*c*) If the ground has been built upon, the buildings are not to be disposed of to any person who does not belong to the army until the consent of the Officer Commanding the station shall have been previously obtained under his hand

Transfer of house to civilian

(*d*) When it is proposed, with the consent of the Commanding Officer of the station, to transfer possession to a native, the sale must not be effected until the sanction of the Local Government shall have been obtained *

Transfer to native

(*e*) The Commanding Officer shall have power to cancel the grant if the ground be not brought into use for the purpose specified within twelve months

Cancellation of grant within twelve months

* * * * * * * *

APPENDIX No 28

APPLICATION FOR A GRANT OF LAND

SIR

Form.

I request you will apply for permission for me to occupy the ground herein described

I fully understand the terms on which the occupation of the ground is permitted and I hereby engage to comply with them without demur, and not to transfer the property to any other person except under the regulations in force at the time for the tenure of land and property in cantonments

I have, etc,

(Signed)

Site of ground	Quantity	Boundaries	How to be occupied.	REMARKS

* * * * * * * *

* By G O No 282, dated 4th October 1875 clause (*d*) was re-constructed in the form in which it appears in paragraph 42 of the Regulations of 1880 (*infra* p 20) and by G O No 184 and No 188 respectively dated 31th July, 1876, the second and third sub clause of clause (*d*) printed in that paragraph were introduced

General Order No 264, dated 24th September, 1874

Form No 28, Appendix, Bengal Army Regulations, is hereby cancelled, and the following substituted —

APPENDIX No 28

APPLICATION FOR A GRANT OF LAND

SIR,

Form — I request you will apply for permission for me to occupy the ground herein described

I have, etc,

(Applicant's signature)

Site of ground	Quantity	Boundaries.	How to be occupied	REMARKS
				I fully understand the terms on which the occupation of the ground is permitted and I hereby engage to comply with them without demur and not to transfer the property to any other person except under the regulations in force at the time for the tenure of land and property in cantonments *
				(Applicant's signature)

* By G O C C Nos 135 of 1878 the following clause was added to this column:—
I hereby further engage to build on the site applied for, and not to transfer it to any one else for this purpose '

Regulations and Orders for the Army of the Bengal Presidency, 1880

* * * * * * * *

SECTION 17 —CANTONMENTS

* * * * * * * *

I —GENERAL RULES

* * * * * * * *

4 The limits of all military cantonments are to be defined by pillars of masonry erected at each angle of the boundary line, and which are to be replaced whenever they have been destroyed or are not forthcoming Page 376.

Boundaries.

5 The boundaries of sadr, station and regimental bazars, and of any villages within the limits of cantonments, are also to be defined by pillars of masonry, and all houses, walls or enclosures improperly built beyond the authorised boundaries are to be thrown down and the ruins and fences removed at the expense of the proprietor or persons by whom they were erected Page 377

Boundaries of bazars and villages
Removal of buildings erected beyond boundaries

6 No deviation from the fixed limits of a cantonment is permitted without the sanction of Government, to be applied for through the Quarter Master General's Department No alteration of the limits of lines, bazars or compounds can be made without the authority of the Commander-in Chief Page 377

Alteration of boundaries

7 When from any cause any portion of land which has been taken up for military purposes is found to be no longer required for such a report to that effect is to be made by the Commanding Officer to the Quarter Master General in order that it may be made over to the civil authorities Page 377

Transfer of surplus land to civil authorities

* * * * * * * *

18 All matters connected with cantonment lands and boundaries will be conducted, under the orders of the Commanding Officer by the officer of the Quarter Master General's Department at the station, or, in his absence, by the Cantonment Magistrate or the Staff Officer of the station assisted, if necessary, by the Executive Engineer Questions requiring the decision of higher authority are to be referred to head quarters through the Quarter Master General (pargraph 34, section 22) Page 378.

Officer to perform duties connected with lands and boundaries

Rent or Sale of Private Buildings

19 A military cantonment is, as its designation implies, a locality set apart primarily for military and medical officers chaplains, soldiers, subordinates attached to the troops, and the officers and subordinates of all departments connected with the housing and supplies of the troops, for whom houses situated within such limits are by priority of right available Page 378.

Military character of cantonments
Priority of claim of military men to houses

Regimental officers to live near their lines

Regimental officers are required ordinarily to live near the barracks or lines of their respective corps

20. Civil and political officers of Government, and officials belonging to the Public Works Department and railways, are permitted to reside within the limits of military cantonments whenever the public interest may require that they should so reside, or whenever special grounds may exist for granting the indulgence, such as the want of other available shelter, or the necessity of ensuring their personal safety but these exceptions are not ordinarily to interfere with the priority of right possessed by military officers or others on duty at the station to the houses within its boundaries Page 378.

Civilians permitted to reside in cantonments

21 In the event of a house in cantonments occupied by a non military resident being required for an officer, a formal notice should be served on the occupant requiring him to vacate by a certain date, and warning him that, in the event of his declining or failing to comply, legal proceedings will be taken to enforce compliance. Page 379.

Compulsory transfer of tenants
Notice

Should the notice (which should be personally served if possible) fail of effect, intimation of the same should be forwarded to the Local Government in order that the necessary steps may be taken in the matter

Legal proceedings

Commanding Officers should not, however, have recourse to this measure except under the most unavoidable circumstances, when houses are legally claimable and absolutely necessary for the accommodation of officers whose services are actually acquired in the station, and for whom shelter is not available within a fairly reasonable distance of their duty

Precautions in requiring change of tenants

In the case of officials mentioned in paragraph 20, applications for their removal are to be made to the Commander-in-Chief through the Quarter Master General for submission to Government

Page 379

22 The owner of any house in a military cantonment not occupied by a person belonging to the army on duty at the station, or by a person directed or authorised by Government to reside therein (paragraph 20), may be required to rent the same to any military officer belonging to the station who may require it to reside in if the Officer Commanding the station is satisfied that there is no other suitable house available, with due regard to the rank of the claimant and to the duties he may have to perform

Power to require owner to let house to military officer

In every such case, however, if the owner may have formerly intimated to the officer who has so obtained the house his desire to sell rather than to let it, and the offer has not been accepted, the officer may at any time be required to vacate it within a week of his receiving notice through the Staff Officer of the station that the house has, with the consent of the Commanding Officer of the station, been sold to another military officer on duty at the station who requires it for his own residence

Vacation of house on sale to another military officer

The rent to be paid in such cases, or the price to be paid for the house when the claimant accedes to the owner's desire that he shall purchase it, is to be fixed, in the event of the parties disagreeing as to the amount, by a Committee of Arbitration to be assembled by order of the Officer Commanding the division or district after he has fully satisfied himself as to the necessity for the same and that the application for the Committee is not opposed to the orders of Government (paragraph 30)

Committee of Arbitration

Page 379

23 In all cases of dispute, the owner should be called upon, previous to the assembly of the Committee of Arbitration, to elect whether he will rent or sell his house Should he elect to rent the house, the Committee cannot compel him to sell it

Owner to have option to let or sell

Page 379.

24 Houses situated within the limits of military cantonments that may be declared to be for hire can only, according to these regulations and customs, be let by the month

Monthly tenancy

Page 380

25 A tenant who has once taken possession of a house, or who is occupying it, cannot appeal for any reduction of rent which he may have agreed to pay, nor can a Committee be assembled to arbitrate on this point

Reduction of rent not claimable by tenants

Page 380

26 Committees of Arbitration are to be composed of a civil officer (the principal one, if practicable, at or in the vicinity of the station), the Commanding Officer of the cantonment, and any other individual (who need not belong to either the civil or military services) whom the proprietor of the house may please to nominate When the Commanding Officer of the station is an interested party, the next senior officer is to be nominated one of the Committee in his stead

Composition of Committee of Arbitration

Page 380.

27 When a house is transferred from one officer to anther on the occasion of a relief, and a difference arises as to terms, the price or rent is to be fixed by a Committee constituted as above, with an additional member to be nominated by the intending occupant or purchaser

Reference to Committee of Arbitration in case of transfer on relief

Page 380.

28 In the case referred to in paragraph 22, the decision of the Committee of Arbitration is to be conclusive, unless it be reversed by Government, for whose orders the proceedings are to be submitted, through the regular channel, whenever the proprietor of the premises is dissatisfied with the award, but in the case referred to in paragraph 27 there is no appeal from the decision of the Committee, which is to be final.

Appeal when to lie from decision of Committee of Arbitration

29 Due notice must in every instance be given to proprietors of premises or to their agents, by the Commanding Officer of the cantonment, of the intention to hold a Committee thereon and, in the event of the owner or agent neglecting to nominate a member of such Committee after having received the notice—which, if the owner or agent be a non resident in the cantonment or its vicinity, is to be taken to mean an official notification dated one month prior to the day on which the Committee is to assemble—the Commanding Officer will, under the orders of the Officer Commanding the division or district, nominate a member of the Committee to represent such proprietor, and the Committee will thereupon proceed to arbitration

Page 380.

Notice of intention to convene Committee of Arbitration

Nomination of member to represent owner

30 When an officer to whom a house in cantonments has been specially allotted under these regulations may choose, on going away on leave or on temporary duty, to give it up, he has no right to claim the special allotment of a house on his return, under the provisions of paragraph 22, should a suitable one not be at the time available for rent In the event of any special circumstances rendering a departure from this rule necessary the case should be referred to the Quarter Master General for the decision of the Commander in Chief

Page 380

Officer giving up house on temporarily leaving cantonment to have no claim to re allotment.

31 In the event of the tenant of a house considering that the house requires repairs, and of his being unable to induce the owner to execute them, he should call on his landlord to join with him in appointing a Committee of Arbitration to decide the question

Page 380.

Committee of Arbitration for repairs

If the cantonment rules are in force, the Committee will be composed of one civilian, the Officer Commanding the station, and two officers or European residents to be appointed, one by the landlord and the other by the occupant, otherwise the landlord should be called on to name an arbitrator to act with one to be named by the occupant, who are together to appoint a third in case of difference

In either case the landlord should be informed that, unless within a named time he either executes the necessary repairs or joins in the reference, the occupant will have the repairs done on the landlord's account and risk at the Public Works Departmental rates, and that the costs will be set off against the rent

* * * * *

33 In cases where buildings in cantonments are required for public purposes, the officer of the Public Works Department in executive charge will under the authority of the Officer Commanding the division or district settle for the valuation and purchase of the same according to the rules of the Public Works Department, and recourse is only to be had to Committees of Arbitration in the event of any disagreement and on the application of the Executive Engineer or of the proprietor of the premises

Page 381

Purchase of buildings for public purposes

Committee of Arbitration

34 Whenever it may be necessary to rent buildings for the use of the troops, the officer of the Public Works Department on the spot is in all cases to arrange for the hiring of such buildings, and to obtain sanction for the arrangements in communication with, and assisted by, the local military authorities, and Officers Commanding stations are to bear in mind that they are bound to direct the officer of the Public Works Department to make all necessary provision for accommodating the troops in any emergency, whenever this is possible, rather than to act themselves and thus accept a grave pecuniary responsibility in the event of their action being disapproved of

Page 381

Hiring of buildings for public purposes

When, however, the local military authorities have been obliged to act themselves owing to the absence of the Executive Engineer from the station, it is the duty of such officer on his return to suggest to them any modification of the arrangements which his knowledge and experience might suggest as better for the soldier or more for the interests of Government, and also to submit the arrangements for sanction as if originally made by himself

35 Officers Commanding stations are required, in cases of disputes relative to houses or lands in cantonments, before taking action thereon, to submit the same, with their opinion for the consideration and approval of the General Officer in local command, who will transmit them to the Quarter Master General if he is unable to decide them himself

Page 381

Disputes to be reported.

Page 381

Buildings devoted to religious uses

36 On no account is any church, chapel, mosque, temple, tomb or other building devoted to religious use to be occupied as a dwelling-house or for any other purpose without the full and free consent of the persons interested in it and the sanction of the principal civil or political authority on the spot

II—GRANTS OF LAND

Page 382

Sanction required to occupation of land

Alteration of boundaries and closing or opening of roads

37 In no case is any cantonment land to be enclosed or occupied without the sanction of the Commander in Chief, and Commanding Officers are strictly prohibited from allowing any one to occupy a site, under any circumstances whatever, until such sanction has been officially received, nor are the boundaries of compounds to be changed, old roads closed, or new ones opened without similar authority

Size of sites granted to officers

Building sites granted to officers in military cantonments should be no larger than is absolutely necessary, conforming as far as practicable to the dimensions laid down in the Public Works Code

Page 382

Submission of application for land

38 All applications for unoccupied ground, for the purpose of being enclosed, built upon or in any way appropriated to private purposes, are to be forwarded, for transmission to the Officer Commanding the station through the officer of the Quarter Master General's Department at the station or, in his absence, through the Cantonment Magistrate or Staff Officer of the station, as the case may be

Page 382

Certificate by Commanding Officer

39 The health and comfort of the troops are paramount considerations to which all others must give way, and the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either or to the appearance of the cantonment In forwarding to the Quarter Master General any application for a grant, he must certify that it is not objectionable in these or any other respects

Page 382

Form of application for land
Plan of site

40 All such applications are to be made according to Appendix No 24* and must be accompanied by a sketch or rough plan of the site applied for, embracing the portion of the cantonment adjacent to it, and exhibiting the roads, public buildings or private estates by which it is bounded, also any line of railway proposed or actually passing through the cantonment, and, where the line of railway does not immediately abut on the ground applied for, the direction and distance are to be shown

Certificate by local officer of Quarter Master General's Department and Executive Engineer

This plan is to be authenticated by the officer of the Quarter Master General's Department at the station, or, when no such officer is present, by the Executive Engineer of the division in which the cantonment may be situated

Such applications must also be accompanied by a certificate from the Executive Engineer of the division to the effect that no departmental objection is known to the application, and that the grant, if made, does not seem likely to interfere with any building existing or likely to be required

Page 382

Grants to be registered and noted on plan

41 All grants are to be registered (Public Works Code,* paragraph 162 page 201) by the Cantonment Magistrate, where one is allowed, or otherwise by the Staff Officer of the station, and all grants are to be immediately noted on the plan of the cantonment in the Quarter Master General's office

Page 383

Conditions of occupancy

42 No ground will be granted except on the following conditions, which are to be subscribed to by every grantee as well as by those to whom his grant may subsequently be transferred —

(*a*) Government to retain the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorised to be erected

Resumption of land

(*b*) The ground, being in every case the property of Government, cannot be sold by the grantee, but houses or other property thereon situated may be transferred by one military or medical officer or chaplain to another on a joint report being made to the Staff Officer, who will make the requisite entry in the register, except in the case of relief, when if required,

Land belongs to Government
Land cannot be sold by grantee
Transfer of house between military officers
Arbitration in case of transfer on relief

* Edition of 1878.

the terms of the sale or transfer are to be adjusted by a Committee of Arbitration

(*c*) If the ground has been built upon, the buildings are not to be disposed of to any person who does not belong to the army until the consent of the Officer Commanding the station has been previously obtained under his hand

Transfer of house to civilian

(*d*) *When it is proposed, with the consent of the Commanding Officer, to transfer possession to a native, should the value of the house, buildings or property to be so transferred exceed Rs 5,000, the sale must not be effected until the sanction of Government has been obtained through the Commander-in Chief

Transfer to native

This rule applies to officers in the service of Government only, but the sale or transfer of any house in cantonments must first receive the sanction of the military authorities

All applications for permission to sell, to a native, cantonment house property exceeding in value the above amount are to include the name and status of the proposed purchaser, and to be accompanied by a certificate from the civil officer of the district that there is no objection to the sale

(*e*) The Commanding Officer has power to cancel the grant if the ground be not brought into use for the putpose specified within twelve months

Cancellation of grant within twelve months

* * * * *

APPENDIX No 24

Form

APPLICATION FOR A GRANT OF LAND

SIR,

I request you will apply for permission for me to occupy the ground herein described

I have, etc,

(*Applicant's signature*)

Site of ground	Quantity	Boundaries.	How to be occupied	REMARKS
				I fully understand the terms on which the occupation of the ground is permitted, and I hereby engage to comply with them without demur and not to transfer the property to any other person except under the regulations in force at the time for he tenure of land and property in cantonments And I further engage to build on the site applied for and not to transfer it to any one else for this purpose (*Applicant's signature*)

* * * * *

* By G O No. 117, dated 10th July 1882 the following was substituted for clause (*d*) —

"When it is proposed, with the consent of the Commanding Officer to transfer possession to a native, the procedure prescribed in section 7 paragraph 38 (as revised by General Order No. 38 of 1882) is to be adhered to.

"This rule applies to officers and others in the service of Government only, but the sale or transfer of any house in cantonments must first receive the sanction of the local authorities."

† Paragraph 1994A was inserted by G O No 51 of 1887
‡ The words Assistant or Deputy Assistant were inserted by G O No 51 of 1887

Page 482

1998 All grants are to be registered (Public Works Code,* paragraph 162, page 201) by the Cantonment Magistrate where one is allowed, otherwise by the Staff Officer of the station, and all grants are to be immediately noted on the plan of the cantonment in the Quarter Master General's office

Grants to be registered and noted on plan

Page 482.

1999 No ground will be granted except on the following conditions, which are to be subscribed to by every grantee as well as by those to whom his grant may subsequently be transferred —

Conditions of occupancy

(*a*) Government to retain the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorised to be erected

Resumption of land

(*b*) The ground, being in every case the property of Government, cannot be sold by the grantee, but houses or other property thereon situated may be transferred by one military or medical officer or chaplain to another on a joint report being made to the Staff Officer, who will make the requisite entry in the register, except in the case of relief, when, if required, the terms of the sale or transfer are to be adjusted by a Committee of Arbitration

Land belongs to Government
Land cannot be sold by grantee
Transfer of house between military officers
Arbitration in case of transfer on relief

(*c*) If the ground has been built upon, the buildings are not to be disposed of to any person who does not belong to the army until the consent of the Officer Commanding the station has been previously obtained under his hand

Transfer of house to civilian

(*d*) When it is proposed, with the consent of the Commanding Officer, to transfer possession to a native, the procedure prescribed in section VII, paragraph 7-4, is to be adhered to This rule applies to officers and others in the service of Government only but the sale or transfer of any house in cantonments must first receive the sanction of the local military authorities

Transfer to native

Sanction required to any transfer

(*e*) The Commanding Officer has power to cancel the grant if the ground is not brought into use for the purpose specified within twelve months

Cancellation of grant within twelve months

APPLICATION FOR A GRANT OF LAND

SIR,

I request you will apply for permission for me to occupy the ground herein described

I have, etc,

(*Applicant's Signature*)

Site of ground	Quantity	Boundaries	How to be occupied	REMARKS
				I fully understand the terms on which the occupation of the ground is permitted and I hereby engage to comply with them without demur and not to transfer the property to any other person except under the regulations in force at the time for the tenure of land and property in cantonments. And I further engage to build on the site applied for, and not to transfer it to anyone else for this purpose (*Applicant's Signature*)

* Edition of 1878

BOMBAY

Government General Order, dated 15th April, 1819

The Governor in Council is pleased to publish for the information of the army the following Regulation passed on the 25th February in the Judicial Department, defining the powers of the police within the military bazars under this Presidency, and confirming the principle laid down in the General Orders by Government dated the 5th April, 1805, and 4th December, 1817 — Aitchison's Code 1824 page 41, Art. 25

A D 1819, Regulation I

* * * * * * * *

(iv) On receipt of this Regulation the limits of the cantonments, including the military bazars attached thereto, at which any division or corps of the army, or any considerable detachment (not less than half of a battalion) may be quartered, shall be fixed by the Commanding Officers in concert with the Criminal Judge or Zila Magistrate *Ib* page 42 Art 32

Boundaries.

The Commanding Officer at each of those stations will accordingly submit to Government, through the usual channel, as soon as circumstances may conveniently admit, a report framed in concert with the Criminal Judge or Zila Magistrate, within whose jurisdiction the cantonments may be situated upon the local limits of the cantonments, forwarding at the same time any separate remarks which the Criminal Judge or Zila Magistrate may wish to make on the subject for the final orders of the Governor in Council

Report as to boundaries

(v) The above rules shall be considered applicable to all cantonments in which any considerable body of the troops, not being less than half a battalion, is quartered, whether the cantonments be situated at the place of residence of the Judge, Criminal Judge and Zila Magistrate or in any other part of the districts *Ib* page 42 Art 33

Local extent of rules

Government General Order, dated 6th January, 1827

The Honourable the Governor in Council thinks it necessary to explain in General Orders that any permission which officers not provided with public quarters may receive to erect houses on ground within a fortress or military cantonment confers on them no right of property whatever in the ground allotted them for that purpose, which continues the property of the State, and resumable at the pleasure of Government Aitchison's Code Supplement 1832 page 27, Art 92

Land belongs to Government

Resumption of land

Government General Order, dated 1st May, 1827.

With a review to the better security of the health of the troops, the Governor in Council is pleased to establish it as a general rule that as soon as the limits of any military cantonment are fixed according to the existing regulations all grounds not required to be occupied be immediately cleared and left vacant and on no account appropriated for the cultivation of grain It should be a particular duty of Commanding Officers to take care that no vegetation of any kind that threatens to be injurious to health should be permitted within the limits of cantonments. Aitchison's Code Supplement 18 page 124 Art 38 Jameson's Code 1844 page 112 Art 241 Jameson's Code 1850 page 132 Art 5

Land not required to be cleared and left vacant

Cultivation

Government letter, dated 8th January, 1830

The Right Honourable the Governor in Council concurs with His Excellency the Commander in Chief as to the expediency of making it a general rule to fix the rent of houses within military cantonments Aitchison's Code Supplement, 1836 page 40 Art 223

Fixing of rent.

(N B —The rent of all such houses is to be fixed by a Committee) *Ib*

Government (Bombay) General Order, dated 30th October, 1832

As in conformity with the principle of Regulation XXII A D 1827 section XXI, clause 1st, and of Government General Order 6th January, 1827, Military Code, Second Supplement page 27 Article 92, no private landed property is to be included within the limits of cantonments in which the whole of the ground belongs to Government, the Right Honourable the Governor Aitchison's Code Supplement 1836 page 28 Art 1804

Exclusion of private land

in Council is pleased to declare that Commanding Officers have the power of removing from cantonments, and preventing the residence therein, of any person not being an officer or soldier belonging to the force, and that it is the duty of Commanding Officers of cantonments so to remove from within the limits all such persons whose residence therein they may deem objectionable under due responsibility to superior authority for the proper exercise of this power

Power to remove civilians from cantonments

Aitchison's Code Supplement 1836 page 36 Art 105

Persons removed from a cantonment are, of course, to be allowed to dispose of or take away the materials of any building in the cantonment belonging to them and their property of every description.

Right of excluded persons to remove their property

Government (Bombay) General Order, dated 22nd August, 1835.

Aitchison's Code Supplement 1836 page 39 Art 217

The Right Honourable the Governor in Council has been pleased to pass the following rules regarding the appropriation of unoccupied ground within the limits of military cantonments

Rules as to appropriation of unoccupied land

Ib, Art 218.

(1) All applications for unoccupied Government ground, for the purpose of being enclosed, built upon or appropriated in any way whatsoever within the limits of military cantonments, are in the first instance to be made to the Commanding Officer of the station in which such ground is situated

Submission of application for land

Ib Art 219.

(2) The Commanding Officer of the station is held responsible that no such ground is occupied to the inconvenience of the service or the public or to the injury of the appearance of the camp or cantonment, and will satisfy himself on these points, and certify the same on the face of each application that he may forward

Certificate by Commanding Officer

Ib, Art 220

(3) If no objection exists, the application will be forwarded to the General or other Officer Commanding the division But in all cases in which ground hitherto unappropriated is applied for for the purpose of being enclosed, the applications are to be handed up in the usual manner to His Excellency the Commander in Chief for the final approval of Government

Approval required

Ib Art 221

(4) All such applications are in future to be made according to the annexed form

Form of application.

Ib Art 222

(5) It is to be understood that permission to occupy ground within the limits of a cantonment confers no proprietary right on the occupant

Permission to occupy confers no proprietary right.

FORM

Form

To

The Assistant Quarter Master General (or other Staff Officer)

SIR,

I request you will procure permission for me to occupy the ground herein described —

Situation of the ground	Enclosed or open	Extent.	Nature of the soil	How to be laid out	Bounded on the north, south east and west

Government General Order, dated 7th May, 1838.

Rules as to occupation of land and disposal of land or buildings

The various orders now in force in this Presidency in regard to the occupation of ground and the disposal of premises or buildings within the limits of military cantonments are rescinded, and the following regulations substituted — Jameson's Code 1844, pages 111 112 Arts. 232 to 242 Jameson's Code, 1850 pages 172 173, Arts 7 to 17

Submission of application for land.

Alteration of boundaries and closing or opening of roads

All applications for unoccupied ground, for the purpose of being enclosed, built upon or in any way appropriated to private purposes within the limits of a military cantonment are in the first instance to be made to the Commanding Officer of the station through the usual channel, and in no case are the boundaries of compounds to be changed, old roads closed or new ones opened without the sanction of the Commanding Officer

Certificate by Commanding Officer

As the health and comfort of the troops are paramount considerations, to which all others must give way, the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either, or to the appearance of the cantonment, and in forwarding any application for grant he must certify that it is not objectionable in those or any other respects

Orders of Government required

When no objection occurs, the application is to be forwarded through the prescribed channel by the Commanding Officer of the station to the Quarter Master General of the army, who, if the Commander in Chief approves, will submit it for the orders of Government

Form of application

All such applications are to be made according to the annexed form

(FORM)

The Assistant Quarter Master General (or other Staff Officer)

SIR,

I request you will procure permission for me to occupy the ground herein described —

Situation of the ground	Enclosed or open	Extent.	Nature of the soil	How to be laid out	Bounded on the north south east and west

Permission to occupy confers no proprietary right.

Resumption of land

Committee of Arbitration

Permission to occupy ground in a military cantonment confers no proprietary right on the occupant it continues the property of the State and resumable at the pleasure of Government but in all practicable cases one month's notice of resumption will be given, and the value of all buildings which may have been erected thereon, as estimated by a Committee, will be paid to the owner

Transfer of houses between military officers

Houses or other property situated on such ground may be transferred by one officer to another without restriction (beyond the permission of the local Commanding Officer to the purchaser to live in a particular quarter or section of the cantonment), recourse being had in cases of dispute to a Committee of Arbitration, whose decision shall be binding on both parties

Committee of Arbitration

Whenever the Commanding Officer at a station shall deem it necessary for the public service, or for the accommodation of the officers or soldiers at that station, to take possession of any house occupied within the cantonment by a person not being an officer or soldier of the force at such station, the occupant shall receive the full value of such house as a building, and, in case of its being intended to keep up such house, it shall be at the option of the previous occupant to claim either its full value as purchase or a fair rent for the occupation of the same, the rent or value in the above case to be determined by a Committee of Arbitration

Owner to have option to let or sell

Committee of Arbitration

When houses of the officers of one corps are to be transferred to those of another, as on occasion of a relief, if a difference of opinion should arise as to the terms of transfer, the price shall be fixed by a Committee of Arbitration

Committee of Arbitration

Committees of Arbitration assembled under this order are to be composed of five officers having no interest in the subject of reference In all practicable cases the Officer Commanding the cantonment should preside, and an officer of the Quarter Master General's Department and of the Engineers, if present, should be ordered to assist The decision of such Committees to be final

Composition of Committees of Arbitration

No appeal

In all cases where houses occupied by a person not being an officer or soldier of the force at that station are taken possession of as above-mentioned, care shall be taken to consult the advantage and convenience of the occupants as far as the exigency of the case and the public interests will permit, and the Committee of Arbitration appointed to fix the value or rent of such a house shall take fully into their consideration all the circumstances of the case, and any representation made by or on behalf of the occupants, before they make their award, and the proceedings of the Committee shall be submitted to His Excellency the Commander in Chief, who may direct a revision by the same or any other Committee if he thinks proper, and no award of any Committee shall be carried into effect until it shall have received His Excellency's sanction and approbation

Precautions in requiring change of tenants

Proceedings of Committee of Arbitration to be submitted to Commander in Chief

Government General Order No 496, dated 27th August, 1844

Jameson's Code 1850, page 132, Arts 1 to 4

Government is pleased to direct that, whenever it may be required to mark the limits of cantonments, particular attention be paid to the section * of Regulations XXII of 1827, *viz* —

Boundaries

Clause 1st —" At military stations situated within the territories subordinate to the Presidency of Bombay, the limits of cantonments or bazars shall, when directed by the Governor in Council, be marked by the local Magistrate and Commanding Officer in conjunction, subject to approval by the Governor in Council, in which limits private property is not to be included

Exclusion of private land

Clause 2nd —" The above mentioned officers will report the limits, with a plan thereof, to the Governor in Council, and, when they have been approved, a plan shall be kept by the Magistrate and another by the Commanding Officer "

Plan

When the local Magistrate and Commanding Officer shall in conjunction have marked the limits, the report and the plan thereof are to be signed by both these officers before they are submitted for the approval of Government and for publication in General Orders

Whenever an alteration may be required in any part of the limits of a cantonment which have been regularly marked out and published, the local Magistrate and Commanding Officer are to draw up and sign a report and plan of the entire limits after alteration, and a new description will then be published in General Orders which will be considered to supersede and cancel the former description altogether

Alteration of boundaries

* *i.e.*, section 21

General Order by the Commander-in-Chief, dated 7th July, 1847

Jameson's Code 1850 page 133, Art 18.

Enforcement of rules of May 1838.

The Commander-in-Chief calls attention of all Officers Commanding divisions and stations to the Order of the 7th May, 1838, laid down by Government for the disposal of ground in military cantonments, and the circumstance of any enclosure having been obtained without these rules being observed, if brought to His Excellency's notice, will cause it to be immediately resumed, and should any buildings have been erected thereon, they will be cleared away at the expense of those who granted it

Government letter, dated 20th August, 1847

Jameson's Code 1850 page 133, Art. 19

Enforcement of rules of May 1838

Government direct that any deviations from the above regulations on the part of local Commanding Officers will not be permitted, and any grant made without due authority for the purpose of a new enclosure or the extension of an old one will, whenever brought to notice, be immediately annulled

Government General Order No 569, dated 8th November, 1849

Jameson's Code 1850 page 927 Art 22

Government directs the publication of the following rules connected with the formation and conservation of cantonments, in addition to those already existing, and as an addenda to those of 1838 —

Ib Art 23

Boundaries

Regulation XXII Chapter IV Section XXI Clause I, Civil Regulations 1827

The limits of every military cantonment shall be fixed by the Commanding Officer of the station in concert with the Political Officer or Collector of the district marked by boundary stones, or in some other equally permanent manner, and the description thereof published in General Orders

Ib, Art 24

Plan

A plan of every cantonment so marked to be signed by these authorities will be kept in the Quarter Master General's office, where it will be duly registered

Ib, Art 25

Sanction required to building

Officers Commanding divisions of the army, or in charge of cantonments, shall not permit dwelling houses or such like buildings to be erected within the limits of a military station until they shall have obtained the sanction of Government through the prescribed channel

Ib Art 26.

Encroachments

Removal of buildings erected beyond boundaries

The preservation of cleanliness is of the first importance and to this end the encroachment of huts or shops temporary or otherwise, beyond the space already marked out for that purpose, or extending enclosures or court yards, without the sanction of Government is to be particularly prevented Any person erecting such buildings without this necessary sanction shall be liable to have them demolished, and he will be required to remove the materials at his own cost

* * * * * * * *

Ib Art. 28.

Registration of value and rent of buildings and name of occupants

Owners of houses within cantonments not being resident, military officers, are required to have their names registered in the Major or Brigade or Station Staff Officer's office, together with the *bona fide* value of their buildings, monthly rent and the names of their occupants

Ib Art. 29.

Limitation to rate of rent

Committee of Arbitration

The rent of all buildings to be limited to 20 per cent of their *bonâ fide* value if taken from month to month, or 15 per cent if for a period of twelve months, and in case of dispute this value to be determined by a Committee of Arbitration, as laid down in the Code, paragraph 133, Article 16

Ib, Art. 30.

Procedure in fixing rent

But, as no rule can be framed for ~~making~~ this estimate, the Committee will be guided by their own judgment and experience when taking into consideration the value of the materials composing each building, its state of repair, accommodation and general convenience

Ib Art 31

Reduction of rent to standard

Should the rent charged be found to exceed 20 per cent in the former case and 15 in the latter of the *bonâ fide* value of the buildings, it shall be reduced to that standard It is to be understood that this percentage includes the cost of all annual and necessary repairs, etc, should the house-owner be bound to make them

Jameson's Code, 1850 page 927, Art 32. Reduction of rent and execution of repairs by tenant

In the event of the house owner refusing to lower his rent or declining to make the repairs required should such be his agreement, the tenant will be at liberty, with the previous sanction of the Officer Commanding the station, to make them himself deducting the cost thereof, as well as the sum in excess of the percentage laid down in the preceding paragraph, from the rent

Ib, Art 33. Local extent of rules

The above rules are to be considered applicable to all military stations under this Presidency excepting the garrison of Bombay

---

Government General Order, No 677, dated 15th December, 1851

Jameson's Code, 1850, Appendix No I 1852 page 20, Art 129 Rules as to boundaries occupation of land and buildings and disposal of land and buildings

The following modified rules connected with cantonments and houses, cancelling paras 7 to 17, pages 132 and 133, of the Code, and paras 22 to 33, page 927, addenda to Code, are published for general information —

Ib Art 130 Boundaries

The limits of every military cantonment shall be fixed by the Commanding Officer of the station, in concert with the Political Officer or Collector of the district, marked by boundary stones, or in some other equally permanent manner and the description thereof published in General Orders

Ib, Art. 131 Plan.

A plan of every cantonment so marked to be signed by those authorities will be kept in the Quarter Master General's office, where it will be duly registered

Ib, Art. 132. Submission of application for land Alteration of boundaries and closing or opening of roads

All applications for unoccupied ground, for the purpose of being enclosed, built upon or in any way appropriated to private purposes* within the limits of military cantonments, are in the first instance to be made to the Commanding Officer of the station through the usual channel, and in no case are the boundaries of compounds to be changed, old roads closed or new ones opened without the sanction of the Commanding Officer

Ib, Art. 133. Certificate by Commanding Officer

As the health and comfort of the troops are paramount considerations to which all others must give way, the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either or to the appearance of the cantonment, and, in forwarding any application for grant, he must certify that it is not objectionable in those or any other respects

Ib, Art. 134. Orders of Government required

When no objection occurs, the application is to be forwarded through the prescribed channel by the Commanding Officer of the station, to the Quarter Master General of the army, who, if the Commander in-Chief approves, will submit it for the orders of Government

Ib, Art 135. *Form of application*

All applications are to be made according to the annexed form —

To

The Assistant Quarter Master General (or other Staff Officer)

SIR,

I request you will procure permission for me to occupy the ground herein described —

Situation of ground	Enclosed or open	Extent	Nature of the soil	How to be laid out	Bounded on the north south, east and west

* The words "to private purposes" were cancelled by G G O, dated 11th November, 1853, *post*

Officers Commanding stations shall not permit private* buildings to be erected within the limits of a military station until they shall have obtained the sanction of Government through the prescribed channel — Jameson's Code 1850 Appendix No I 1852 page 20 Art 136

Sanction required to building

The preservation of cleanliness is of the first importance, and to this end the encroachment of huts or shops, temporary or otherwise, beyond the space already marked out for that purpose, or extending enclosures or court yards, without the sanction of Government, is to be particularly prevented Any person erecting such buildings without this necessary sanction will be liable to have them demolished, and to be required to remove the materials at his own cost — *Ib* Art 137

Encroachments

Removal buildings erected beyond boundaries

* * * * * * * *

Permission to occupy ground in a military cantonment confers no proprietary right It continues the property of the State, and resumible at the pleasure of Government, but in all practicable cases one month's notice of resumption will be given, and the value of all buildings which may have been erected thereon, as estimated by a Committee, will be paid to the owner — *Ib* Art 139

Permission to occupy confers no proprietary right

Resumption of land

Committee of Arbitration

Houses or other property situated on such ground may be transferred by one officer to another without restriction (beyond the permission of the local Commanding Officer to the purchaser to live in a particular quarter or section of the cantonment), recourse being had in cases of dispute to a Committee of Arbitration, whose decision, duly confirmed, shall be binding on both parties — *Ib* Art 140.

Transfer of houses between military officers

Committee of Arbitration

Whenever the Commanding Officer at a station shall deem it necessary for the public service, or for the accommodation of the officers or soldiers at that station, to take possession of any house within the cantonment owned by a person not being an officer or soldier of the force at such station, the owner shall receive the full value of such house as a building, or in case of its being intended to keep up such house, it shall be at the option of the owner to claim either its value or a rent for occupation, such rent or value to be determined by a Committee of Arbitration — *Ib* page 214, Art 141

Owner to have option to let or sell

Committee of Arbitration

When houses of the officers of one corps are to be transferred to those of another, as on occasion of a relief, if a difference of opinion should asise as to the terms of transfer, the price or rent shall be fixed by a Committee of Arbitration — *Ib*, Art 142.

Committee of Arbitration

Committees of Arbitration assembled under this order are to be composed of five officers having no interest in the subject of reference, especially selected for their judgment and experience, the owner being allowed to name one member, a military officer at the station, and willing to officiate, in all practicable cases the Officer Commanding the cantonment should preside, and an officer of the Quarter Master General's Department and of the Engineers if present should be ordered to assist — *Ib* Art 143

Composition of Committee of Arbitration

In all cases where houses are taken possession of as above mentioned, care shall be taken to consult the advantage and convenience of the occupants and owners, as far as the exigency of the case and the public interest will permit and the Committee of Arbitration appointed to fix the value or rent of such a house shall take fully into their consideration any representation made by or in behalf of the owners, before they make their award the owner, or his agent, in all practicable cases to be warned of the intended assembly of a Committee and invited to attend and the proceedings of the Committee shall be submitted, with any remarks thereon the Officer Commanding the station and division may think advisable, to the Commander-in Chief, who may direct a revision by the same or by any other Committee, if he think proper, and no award of any Committee shall be carried into effect until it shall have received His Excellency's sanction — *Ib*, Art 144.

Precautions in requiring change of tenants

Proceedings of Committee of Arbitration to be submitted to Commander in Chief

* The word 'private' was cancelled by G G O, dated 11th November, 1853, *post*

Jameson's Code, 1850 Appendix No. I 1852 page 20 Art 145

Registration of value and rent of buildings and names of occupants

Owners of houses within cantonments, not being resident military officers, are required to have their names registered in the Major or Brigade or Station Staff Officer's office, together with the *bonâ fide* value of their buildings monthly rent and the names of their occupants

Ib Art 146

Owner to record whether he desires to sell or let

The owner of every house coming under this order, in giving in the value and rent of his property, will at the same time record if it is his desire to sell or rent, and he is not to be allowed to change the record but by permission of the Brigadier of the station on his showing sufficient grounds

Ib Art. 147

Limitation to rate of rent

The rent of buildings valued by Committees to be not less than 20 per cent of their *bonâ fide* value if taken from from month to month, or 15 per cent if for twelve months or more, but Committees may award as much more as in their judgment, considering the probable deterioration cost of repairs, and any local or peculiar circumstances, may be a just and sufficient return for money invested in house property If an officer taking a house for twelve months quits it under any circumstances before that period has expired, he is to pay the higher percentage for the time of actual occupation

Ib, Art. 148.

Procedure in fixing rent

In estimating the value of houses, the opinion of an Engineer Officer, when available, should always be taken, any circumstances tending to enhance its value to the tenant such as extensive grounds, gardens, advantageous situation, etc, should also be attended to by the Committee

Ib, Art 149.

Reduction of rent and execution of repairs by tenant

In the event of a house owner refusing to lower his rent to the standard fixed by a Committee, or declining to make the necessary repairs, the tenant will be at liberty with the previous sanction of the Officer Commanding the station as to extent and amount, to make them himself, deducting the cost thereof, as well as the sum in excess of the percentage, from the rent

Ib Art 150

Recovery of rent

In any case where a house owner shall represent that there is difficulty or delay in procuring the stipulated amount of house rent, the Commanding Officer of the station is authorised if on enquiry it appears to him expedient to do so, to direct the amount to be deducted monthly from the officer's abstract and paid over to the owner by the regimental Paymaster

[illegible] page 22 of 1851

Local extent of rules

The above rules are to be considered applicable to all military stations under this Presidency, excepting the garrison of Bombay

---

General Order by the Commander-in-Chief, dated 16th May, 1853

Jameson's Code 1850 Appendix No II 1854 page 18 Art. 172

The following orders relating to good order and cleanliness in cantonments are published —

Sale of land illegal

1st—By Article 139, Section XI, Appendix No 1, to Jameson's Code, it is declared that permission to occupy ground in a military cantonment confers *no proprietary right*, yet cases have been brought to notice where land in cantonments, the use or occupation of which has been granted to officers by Government, has been *sold* to natives Such acts are illegal and dishonest

Ib Art 173

Houses not claimible as of right for occupation by civilians

2nd—No persons except military officers belonging to a force at a station, or to the divisional or general staff, can *of right* occupy houses in a cantonment or without obtaining the permission of the Officer Commanding to do so but this permission is only to be refused on public grounds, and every desire is to be shown to accommodate officers in the public service whose duty requires them to live in or near a cantonment, and other persons of irreproachable character and conduct

Ib page 19, Art 174

Precautions in requiring change of tenants

3rd—The power accorded by paragraph 141, Section XI, Appendix No 1 of the Code, to an Officer Commanding a station to take possession of a house owned or occupied by a person not belonging to the force is to be exercised with the greatest reserve and considered as applying only to extreme cases No house to be taken possession of against the will of the owner or occupier because a military officer may simply *prefer it to others*, but only when it can be satisfactorily shown that no other house befitting his rank is to be procured within a reasonable distance from the part of the cantonment where his public duty specially requires his presence

4th —When a necessity occurs for removing any person from his house for the benefit of an officer of the force, a party not on duty or belonging to the public service, and as far as practicable the last comer, is to be the first to be displaced — Jameson's Code 1850 Appendix No II 1854, page 18 Art 175

New tenant to carry out engagements of previous tenant

An officer in whose favour another party has been removed from a house is to make good all engagements to which the previous tenant was liable

Staff Officers

Staff Officers may be allowed to live in any part of a cantonment — *Ib* Art 176

Encroachments

6th —The prohibition in paragraphs 18 and 19, Section XI of the Code to the alteration of compound limits, without sanction of Government, applies to internal as well as external alterations — *Ib* Art 177

7th —Commanding Officers of regiments aided by their Quartermasters, are to be held responsible that the regulations in paragraphs 123 137 and 138, Section XI, Appendix No I, to the Code, are observed within the lines of their respective corps by all who reside within such lines, whether belonging to the regiment or not. — *Ib* Art 178

Expulsion from cantonment

8th —If the directions to non-military parties relative to these orders are after due warning unattended to, Officers Commanding stations may compel them to leave the cantonment — *Ib* Art 179

* * * * * * * *

Government General Order No 674, dated 11th November, 1853

To prevent misconception hereafter, the words '*to private purposes*" in Art 132, and "*private*" in Art 136, Section XI, Appendix No I to Jameson's Code, are cancelled — Jameson's Code 1850 Appendix No II 1854 page 17 Art. 154.

Government Resolution, Military Department, No 816, dated 15th March, 1862 and General Order by the Commander in Chief, No 338, dated 29th March 1862

Permission to occupy confers no proprietary right
Land belongs to Government.
Resumption of land
Committee of Arbitration

Permission to occupy ground in a military cantonment confers no proprietary right It continues the property of the State, and resumable at the pleasure of Government but in all practicable cases one month's notice of resumption will be given, and the value of all buildings which may have been erected thereon, as estimated by a Committee, will be paid to the owners

In sales of land only a right of occupancy is transferred

Allotments of ground cannot be sold to any one, but the right of occupancy of an allotment in the sadr bazar of a cantonment may be sold where a fixed rate has been established by the Brigadier in conjunction with the cantonment staff and approved of by the Commander in Chief it being clearly understood that it is only the occupancy that is to be sold, subject to the conditions specified in this paragraph it being further understood that where more than one candidate comes forward for the same lot, an auction will be held, and the right of occupancy knocked down to the highest bidder In the case of resumption of the ground, the price paid for the right of occupancy will be repaid to the occupant.

Government Resolution, Military Department, No 2631, dated 29th June, 1870

Permission to occupy land in cantonment in foreign territory

It has been ruled by Government that there appears to be no reason why the military authorities should not grant a right of occupancy in cantonment limits at stations situated within foreign territory on the same conditions on which the right is granted in military cantonments in British India These conditions effectually protect the sovereign or proprietary rights of the State in the land, and so long as these remain unaffected no objection can be legitimately made to any arrangements which the military authorities may find it necessary to adopt for the internal administration of a cantonment

Regulations and Orders for the Army of the Bombay Presidency, 1875

* * * * * * * *

SECTION 18.—CANTONMENTS

* * * * * * * *

I.—GENERAL RULES

* * * * * * * *

4 The limits of cantonments or bazars shall be marked by the Magistrate or Political Agent and Commanding Officer in conjunction In marking out the limits of new cantonments, private property is not to be included therein

Boundaries
Exclusion of private land

5 When the local Magistrate and Commanding Officer shall in conjunction have marked the limits, a report and plan thereof are to be signed by both these officers and submitted through the Quarter Master General for the approval of Government and for publication, when approved in General Orders, the limits are then to be marked by pillars or in some other equally permanent manner

Report and plan as to boundaries
Boundaries

6 A plan of every cantonment so marked and signed will be kept in the Quarter Master General's office, where it will be duly registered, and a copy thereof, with a register of enclosures, will be furnished by the Divisional or District Assistant Quarter Master General to each Brigadier or Station Commanding Officer, who is to report to divisional head quarters all changes in boundaries or occupations as they occur All such changes are to be reported by the Divisional Assistant to the Quarter Master General to enable him to correct the register and standard plans in his office

Record of plan showing boundaries
Alteration of boundaries

7 Whenever an alteration may be required in any part of the limits of a cantonment which have been regularly marked out and published, the Magistrate and Commanding Officer are to draw up and sign a report and plan of the entire limits, as proposed after alteration, and a new description will then be published in General Orders which will be considered to supersede and cancel the previous plans and register

New plan on alteration of boundaries

8 When an extension of cantonment limits, or the acquisition of ground for other military purposes is proposed the General Officer Commanding the division concerned will prepare (in communication with the civil authorities) a sketch plan exhibiting the ground asked for, together with a description of the same

Procedure for extending boundaries

This plan and description accompanied by a detail of the reasons on which the acquisition of the land is urged, and a statement of the probable cost of obtaining possession, will be submitted for the information of His Excellency the Commander in Chief, who, should the object to be attained by the proposed acquisition warrant the proceeding, will forward the same for the sanction of Government

9. The boundaries of sadr, station and regimental bazars, and of any villages within limits of cantonments, are also to be defined by pillars of masonry

Boundaries of bazars and villages

10 The preservation of cleanliness is of the first importance, and to this end the encroachment of huts or shops, temporary or otherwise, beyond the space already marked out for that purpose, or extending enclosures or courtyards without the sanction of Government, is to be particularly prevented Any person erecting such buildings without this necessary sanction will be liable to have them demolished, and to be required to remove the materials at his own cost (paragraph 160)

Encroachments

* * * * * * * *

14 No deviation from the fixed limits of a cantonment, or from those of the lines, bazars or enclosures surrounding Government buildings, is permitted without the sanction of Government, to be applied for through the Quarter Master General's Department

Alteration of boundaries

* * * * * * * *

19 The regimental and departmental lines, and all unoccupied ground in military cantonments, are to be guarded from the intrusion of persons unconnected with the corps or departments for whom the lines are intended

Intrusion

* * * * * * * *

31 All matters connected with cantonment lands and boundaries will be conducted, under the orders of the Commanding Officer, by the officer of the Quarter Master General's Department at the station, or in his absence, by the Cantonment Magistrate or the Staff Officer of the station assisted if necessary, by the Executive Engineer Questions requiring the decision of higher authority are to be referred to head quarters through the Quarter Master General

Officer to perform duties connected with lands and boundaries

* * * * * * * *

33 The use of private lands for military purposes should be obtained through the Quarter Master General of the Army

Obtainment of private lands for military purposes

* * * * * * * *

Rent or Sale or Private Buildings

35 A military cantonment is as its designation implies, a locality set apart primarily for military and medical officers, chaplains soldiers subordinates attached to the troops and their families, for whom houses situated within such limits are by priority of right available

Military character of cantonments
Priority of claim of military men to houses

Regimental officers are required ordinarily to live near the lines of their respective corps

Regimental officers to live near their lines

36 Civil and political officers of Government, and officers of the Public Works Department, are permitted to reside within the limits of military cantonments whenever the public interests may require that they should so reside, or whenever special grounds may exist for granting the indulgence, such as the want of other available shelter or the necessity of ensuring their personal safety but these exceptions are not ordinarily to interfere with the priority of right possessed by military officers and others on duty at the station to the houses within its boundaries

Civilians permitted to reside in cantonments

37 In the event of a house in cantonments occupied by a non military resident being required for an officer, a formal notice should be served on the occupant requiring him to vacate by a certain date, and warning him that, in the event of his declining or failing to comply, legal proceedings will be taken to enforce compliance Should the notice (which should be personally served if possible) fail of effect intimation of the same should be forwarded to Government in order that the necessary steps may be taken in the matter

Compulsory transfer of tenants
Notice

Legal proceedings

Commanding Officers should not, however, have recourse to this measure except under the most unavoidable circumstances, when houses are claimable and absolutely necessary for the accommodation of officers whose services are actually required in the station, and for whom shelter is not available within a fairly reasonable distance of their duty In the case of civil or political officers, or officers of the Public Works Department, applications for their removal are to be made to the Commander in-Chief through the Quarter Master General for submission to Government

Precautions in requiring change of tenants

38 The owner of any house in a military cantonment not occupied by a person belonging to the army on duty at the station, or by a person in the service of Government directed or authorised by Government to reside therein, may be required to rent the same to any military officer belonging to the station who may require it to reside in if the Officer Commanding the station is satisfied that there is no other suitable house

Power to require owner to let house to military officer

available (paragraph 46), with due regard to the rank of the claimant and to the duties he may have to perform

Vacation of house on sale to another officer

In every such case, however, if the owner shall have formally intimated to the officer who has so obtained the house his desire to sell rather than to let it and the offer shall not have been accepted, the officer shall at any time be required to vacate it within a week of his receiving notice through the Staff Officer of the station that the house has been sold, with the consent of the Commanding Officer of the station, to another military officer on duty at the station who requires it for his own residence

Committee of Arbitration

The rent to be paid in such cases, or the price to be paid for the house when the claimant accedes to the owner's desire that he shall purchase it, shall be fixed, in the event of the parties disagreeing as to the amount, by a Committee of Arbitration, to be assembled by order of the Officer Commanding the division or district, after he has fully satisfied himself as to the necessity for the same and that the application for the Committee is not opposed to the orders of Government (paragraphs 42 and 44)

Monthly tenancy

39 When a house is required to be rented for a military or medical officer under the conditions laid down in these regulations, the right to insist on anything beyond a monthly tenancy does not exist in cantonments unless there is some specific authority for taking the building out of the usual conditions on which land for building purposes is usually granted for military limits

Owner to have option to let or sell

40 In all cases of dispute the owner should be called upon, previous to the assembly of the Committee of Arbitration, to elect whether he will rent or sell his house Should he elect to rent the house, the Committee cannot compel him to sell it

Reduction of rent not claimable by tenants

41 A tenant who has once taken possession of a house or who is occupying it, cannot appeal for any reduction of rent which he may have agreed to pay, nor can a Committee be assembled to arbitrate on this point

Composition of Committee of Arbitration

42 Committees of Arbitration are to be composed of a civil officer (the principal one, if practicable, at or in the vicinity of the station), the Commanding Officer of the cantonment, and *any* other individual (who need not belong to either the civil or military services) whom the proprietor of the house may please to nominate When the Commanding Officer of the station is an interested party, the next senior officer is to be nominated one of the Committee in his stead

Reference to Committee of Arbitration in case of transfer on relief

43 When a house is transferred from one officer to another on the occasion of a relief, and a difference arises as to terms, the price or rent is to be fixed by a Committee constituted as above, with an additional member to be nominated by the intending occupant or purchaser (paragragh 44)

Appeal when to lie from decision of Committee of Arbitration

44 In the case referred to in paragraph 38, the decision of the Committee of Arbitration is to be conclusive, unless it be reversed by Government, for whose orders the proceedings are to be submitted through the regular channel, whenever the proprietor of the premises is dissatisfied with the award, but in the case referred to in paragraph 43 there is no appeal from the decision of the Committee, which is to be final

Notice of intention to convene Committee of Arbitration

Nomination of member to represent owner

45 Due notice shall in every instance be given to proprietors of premises, or to their agents, by the Commanding Officer of the cantonment of the intention to hold a Committee thereon, and in the event of the owner or agent neglecting to nominate a member of such Committee after having received the notice,—which, if the owner or agent be a non resident in the cantonment or its vicinity shall be taken to mean an official notification dated one month prior to the day on which the Committee is to assemble,—the Commanding Officer will, under the orders of the Officer Commanding the division or district, nominate a member of the Committee to represent such proprietor, and the Committee shall thereupon proceed to arbitration

46 When an officer to whom a house in cantonments has been specially allotted under these regulations may choose, on going away on leave or on temporary duty to give it up, he has no right to claim the special allotment of a house on his return, under the provisions of paragraph 38, should a suitable one not be at the time available for rent In the event of any special circumstances rendering a departure from this rule necessary, the case should be referred to the Quarter Master General for the decision of His Excellency the Commander in Chief

Officer giving up house on temporarily leaving cantonment to have no claim to re allotment.

47 In the event of a tenant of a house considering that a house requires repairs, and is unable to induce the owner to execute them, he should call on his landlord to join with him in appointing a Committee of Arbitration to decide the question

Committee of Arbitration for repairs

If the cantonment rules are in force, the Committee will be composed of one civilian, the Officer Commanding the station, and two officers or European residents, to be appointed, one by the landlord and other by the occupant, otherwise the landlord should be called on to name an arbitrator to act with one to be named by the occupant, who are together to appoint a third in case of difference

Composition of Committee of Arbitration

In either case the landlord should be informed that, unless within a named time he either commences the necessary repairs or joins in the reference, the occupant will have the repairs done on the landlord's account and risk at the Public Works Department mental rates, and that the costs will be set off against the rent

Notice as to executing repairs at cost of owner

* * * * * * *

49 In cases where buildings in cantonments are required for public purposes, the officer of the Public Works Department in executive charge will, under the authority of the Officer Commanding the division or district, settle for the valuation and purchase of the same according to the rules of the Public Works Department and recourse is only to be had to Committees of Arbitration in the event of any disagreement, and on the application of the Executive Engineer or of the proprietor of the premises

Purchase of buildings for public purposes

50 Whenever it may be necessary to rent buildings for the use of the troops the officer of the Public Works Department on the spot is *in all cases* to arrange for the hiring of such buildings, and to obtain sanction for the arrangements in communication with, and assisted by, the local military authorities and Officers Commanding stations are to bear in mind that they are bound to direct the officer of the Public Works Department to make all necessary provision for accommodating the troops in any emergency, whenever this is possible, rather than to act themselves, and thus accept a grave pecuniary responsibility in the event of their action being disapproved of

Hiring of buildings for public purposes

When however, the local military authorities have been obliged to act themselves owing to the absence of the Executive Engineer from the station, it is the duty of such officer on his return to suggest to them any modification of the arrangements which his knowledge and experience might suggest as better for the soldier or more for the interests of Government, and also to submit the arrangements for sanction as if originally made by himself

51 Officers Commanding stations are required in cases of dispute relative to houses or lands in cantonments, before taking action thereon, to submit the same, with their opinion, for the consideration and approval of the General Officer in local command, who will transmit them to the Quarter Master General if he is unable to decide them himself

Disputes to be reported

52 Mosques, temples or other buildings of a religious description, which may be within the boundaries of a cantonment, are not to be occupied as dwelling houses without the most positive assurance that the religious habits or feelings of the natives are not likely to be in any way offended thereby

Buildings devoted to religious uses

II —GRANTS OF LAND

53 In no case is any cantonment land to be enclosed or occupied without the sanction of the Commander in Chief and Commanding Officers are strictly prohibited from allowing any one to occupy a site *under any circumstances whatever* until such sanction shall have been officially received nor are the boundaries of compounds to be changed old roads closed or new ones opened without similar authority

Sanction required to occupation of land

Alteration of boundaries and closing or opening of roads

Building sites granted to officers in military cantonments should be no larger than is absolutely necessary

Size of site granted to officers

No application for ground within cantonment limits, other than the bazar, can be received from persons who are not Government servants requiring residence in cantonments for the performance of their duties

Applications from private persons barred

54 All applications for unoccupied ground, for the purpose of being enclosed, built upon or in any way appropriated to private purposes, are to be forwarded, for transmission to the Officer Commanding the station, through the officer of the Quarter Master General's Department at the station, or, in his absence, through the Cantonment Magistrate or Staff Officer of the station, as the case may be

Submission of application for land

55 The health and comfort of the troops are paramount considerations to which all others must give way, and the Commanding Officer will be held responsible that no ground is occupied in any way calculated to be injurious to either or to the appearance of the cantonment In forwarding to the Quarter Master General any application for a grant, he must certify that it is not objectionable in these or any other respects

Certificate by Commanding Officer

56 All such applications shall be made according to Bombay Form No 212 and must be accompanied by a sketch or rough plan of the site applied for, embracing the portion of the cantonment adjacent to it, and exhibiting the roads, public buildings or private estates by which it is bounded, also any line of railway proposed or actually passing through the cantonment, and where the line of railway does not immediately abut on the ground applied for, the direction and distance are to be shown

Form of application for land
Plan of site

This plan is to be authenticated by the officer of the Quarter Master General's Department at the station, or, when no such officer is present, by the Executive Engineer of the division in which the cantonment may be situated

Authentication of plan by local officer of Quarter Master General's Department or Executive Engineer

Such application must also be accompanied by a certificate from the Executive Engineer of the division to the effect that no departmental objection is known to the application, and that the grant, if made, does not seem likely to interfere with any building existing or likely to be required

Certificate by Executive Engineer

57 All grants are to be registered by the Cantonment Magistrate where one is allowed, or otherwise by the Staff Officer of the station, and all grants are to be immediately noted on the plan of the cantonment in the Quarter Master General's office

Grants to be registered and noted on plan

58 No ground will be granted except on the following conditions, which are to be subscribed to by every grantee, as well as by those to whom their grants may subsequently be transferred —

Conditions of occupancy

(*a*) Government to retain the power of resumption at any time on giving one month's notice and paying the value of such buildings as may have been authorised to be erected

Resumption of land

(*b*) The ground, being in every case the property of Government, cannot be sold by the grantee, but houses or other property thereon situated may be transferred by one military or medical officer or chaplain to another on a joint report being made to the Staff Officer, who will make the requisite entry in the register, except in the case of relief, when, if required, the terms of the sale or transfer are to be adjusted by a Committee of Arbitration

Land belongs to Government
Land cannot be sold by grantee
Transfer of house between military officers
Arbitration in case of transfer on relief

(*c*) If the ground has been built upon, the buildings are not to be disposed of to any person who does not belong to the army until the consent of the Officer Commanding the station shall have been previously obtained under his hand

Transfer of house to civilian

(*d*) When it is proposed, with the consent of the Commanding Officer of the station, to transfer possession to a native, the sale must not be effected until the sanction of Government shall have been obtained

Transfer to native

(*e*) The Commanding Officer shall have power to cancel the grant if the ground be not brought into use for the purpose specified within twelve months

Cancellation of grant within twelve months

MADRAS

General Order by the Governor in Council, dated 8th May, 1812

The Honourable the Governor in Council is pleased to direct that officers in command of divisions of the army, or in charge of forts, under this Presidency shall not permit private buildings of any description to be erected within the walls of forts until they shall have obtained the sanction of Government through the Military Board, and all officers or other persons in submitting applications for this purpose will be particularly careful to explain the extent and site of the ground, and whether it be the property of the public or of individuals They will also submit plans of the buildings which they may desire to erect and the estimated amount of the expense, which is never to be exceeded except under the sanction of the same authority

Sanction required to building

Ownership of land
Plan of buildings

The Honourable the Governor in Council has further resolved that no buildings shall be erected on the esplanade of a fort within 1,200 yards of the ditch, and that no officer or other person shall be permitted to erect any building on ground belonging to the Company within the walls of a fort, or within the limits of any cantonment, but on condition of its immediate surrender to the Government at a fair valuation to be determined by their authority if at any future period it shall be required for public purposes, nor shall the grant in perpetuity of any piece of ground within the precincts of a fort or cantonment be hereafter accorded to any individual

Prohibition of building in certain localities
Resumption of land.

No grant in perpetuity

On occasions when applications for grounds may be laid before the Government it will rest with them to grant or not, as may be deemed expedient, a lease for twenty one years, renewable at their pleasure at the expiration of every seven years, subject to the yearly payment of a ground rent or tax, and of a certain fine at the renewal of every lease proportioned to the extent or relative value of the ground

Lease

Ground rent

* Clauses *1st* and *2nd* were inserted by G O C C, dated 2nd July 1877

In order also to prevent the impositions to which officers are occasionally exposed in renting houses in forts or cantonments, the Honourable the Governor in Council is further pleased to direct that, from the date on which the above mentioned agreement may be concluded between the Government and an individual, the latter shall, if required, restrict the rent of his house to an estimate which the engineer will be directed to submit on the occasion, and, in default of such valuation being acceded to by the proprietor, it will be reported to the Government, who will decline to sanction the renewal of the lease

Regulation of rent.

General Order by the Governor in Council, dated 1st October, 1813

The following code of regulations for the conduct of the Quarter Master General's Department, compiled under the orders of His Excellency the Commander-in Chief, having been approved by the Honourable the Governor in Council, it is hereby directed that the same be considered as Standing Orders of the Government of Fort St George, and that printed copies be transmitted to every station, and to the head quarters of every corps, for the general information and guidance of the army

* * * * * * * *

20 Officers in command of divisions of the army, or in charge of forts, under this Presidency shall not permit private buildings of any description to be erected within the walls of forts until they shall have obtained the sanction of Government through the Military Board, and all officers or other persons, in submitting applications for this purpose, will be particularly careful to explain the extent and site of the ground and whether it be the property of the public or of individuals They will also submit plans of the buildings which they may desire to erect, and the estimated amount of the expense, which is never to be exceeded except under the sanction of the same authority

Resumption of land

No grant in perpetuity

31 On occasions when applications for grounds may be laid before the Government, it will rest with them to grant or not, as may be deemed expedient, a lease for twenty-one years, renewable at their pleasure at the expiration of every seven years, subject to the yearly payment of a ground-rent or tax, and of a certain fine at the renewal of every lease proportioned to the extent or relative value of the ground

Lease

Ground rent

32 The proportions of ground to be allotted to the several ranks of officers under the above rule shall be regulated according to the following scale, and applications for the same shall be transmitted to the Quarter Master General of the army, who will lay them before the Military Board —

Scale of land allowed to officers

	Superficial contents Sq Yds
Field officers	22,500
Captains	12 000
Subalterns	7,000

33 Although the above is to be considered the usual scale yet as it may occasionally happen that, from the inequality of ground or other local causes there may be no objection to an extension of the scale, in all such cases the Military Board shall notify the same to the Government in submitting the applications for grants

Extensions of scales

34 All officers who may be desirous of disposing of their houses erected on grounds leased out to them, under the foregoing regulations, shall apply to the Military Board for permission, specifying the person who may wish to purchase their property

Sale of houses

35 In order also to prevent the impositions to which officers are occasionally exposed in renting houses in forts or cantonments, it is directed that, from the date on which the above-mentioned agreement may be concluded between the Government and an individual the latter shall, if required, restrict the rent of his house to an estimate which the Engineer will be directed to submit on the occasion, and, in default of such valuation being acceded to by the proprietor, it will be reported to the Government, who will decline to sanction the renewal of the lease

Regulation of rent

* * * * * * * *

General Order by the Governor in Council, dated 19th December, 1826

The following revised code of regulations for the conduct of the Quarter Master General's Department, compiled under the orders of His Excellency the Commander-in-Chief, having been approved by the Honourable the Governor in Council, it is hereby directed that the same be considered as Standing Orders of the Government of Fort St George, and that printed copies be transmitted to every station and to the head quarters of every corps for the general information and guidance of the army

* * * * * * * *

Sanction required to building

34. Officers in command of divisions of the army or in charge of cantonments shall not permit private buildings of any description to be erected within the limits of a military station until they shall have obtained the sanction of Government, and all officers or other persons in submitting applications for this purpose, will be particu-

Ownership of land.

larly careful to explain the extent and site of the ground, and whether it be the property of Government or of individuals

Plan of buildings

35 They will also submit plans of the buildings which they may desire to erect, and the estimated amount of the expense, which is never to be exceeded except under the sanction of the same authority

Resumption of land

36 No building shall be erected within the limits of any cantonment but on condition of its immediate surrender to the Government at a fair valuation to be determined by their authority if at any future period it shall be required for public purposes, nor shall the grant in perpetuity

No grant in perpetuity

of any piece of ground within the precincts of a fort or cantonment be hereafter accorded to any individual

Lease

37 On occasions when applications for grants of grounds may be laid before the Government, it will rest with them to comply* or not, as may be deemed expedient, a lease for twenty one years, renewable at their pleasure at the expiration of every seven years, subject to the yearly

Ground rent

payment of a ground rent or tax, and of a certain fine at the renewal of every lease proportioned to the extent or relative value of the ground

Scale of land allowed to officers

38 The proportions of ground to be allotted to the several ranks under the above rule shall be regulated according to the following scale, and applications for the same shall be transmitted to the Quarter Master General of the Army, through whom all requisitions for Government

Registration of grants

grants shall be forwarded, whether for military or other public purposes These applications, as well as the applications of individuals, shall be sent by the Quarter Master General of the Army to the Collector of Customs in his capacity of Registrar of Government Grants, together with the title deeds, and every other document showing by what right the ground in question is held by Government must invariably be transmitted —

	Superficial contents Sq yds
Field officers	22 500
Captains	12 000
Subalterns	7,000

Extension of scale

39 Although the above is to be considered the usual scale, yet as it may occasionally happen that from the inequality of ground or other local causes there may be no objection to an extension of the scale in all such cases the Quarter Master General shall notify the same to the Collector of Madras when forwarding the applications for grants

Sale of houses

40 All officers who may be desirous of disposing of their houses erected on grounds leased out to them under the foregoing regulations shall apply to the Quarter Master General for permission, specifying the person who may wish to purchase their property

Regulation of rent.

41 In order also to prevent the impositions to which officers are occasionally exposed in renting houses in forts or cantonments, it is directed that, from the date on which the above mentioned agreement may be concluded between the Government and an individual the latter shall, if required, restrict the rent of his house to an estimate which the Engineer will be directed

General Order by the Governor in Council, No 273, dated 4th December, 1829

Doubts having arisen as to the channel through which applications for grants of land, situated within forts and military cantonments should be submitted to the Government, the Right Honourable the Governor in Council is pleased to declare paragraphs 34 to 42 of the Quarter Master General's regulations to be still in force with the exception of that part of the 37th clause which restricts the terms of leases to a period of twenty-one years, and the portion of the 42nd paragraph which, in reference to the General Order by Government of the 8th May, 1812, prescribes the Military Board as the channel through which applications for grants should be submitted to Government

Applications for grants of land within the limits of forts and military cantonments will be made hereafter, in the first instance, to Officers Commanding, who on having satisfied themselves as to the propriety of each particular grant, will forward the applications to the Quarter Master General of the army, who, having received His Excellency the Commander in Chief's orders, will submit them for the approval or rejection of Government In the event of their being sanctioned, the resolution of Government will be communicated to the Military Board, by whom the usual lease will be prepared

Submission of application for land.
Sanction of Government required
Lease

To give proprietors of land situated within military limits a more permanent interest in the property and a stronger inducement to construct good houses, the Right Honourable the Governor in Council is pleased to declare that grants shall hereafter be made for a period not exceeding fifty years, and that they shall be renewable at the expiration of every tenth year on the conditions of the original deed on payment of a small fine of ten rupees

As it is desirable that all grants of land by the Government should be registered in one office, it will be the duty of the Military Board, previously to the delivery of leases for land within fortresses and cantonments, to send such deeds for registry to the office of the Registrar of Government Grants, who will return them, without delay, with his countersignature attached, in acknowledgment of their having been recorded in his office, making no charge for fees thereon

Registration of grants

This order is to be considered applicable to all military stations, with the exception of that on the Neilgherry Hills The grants for buildings constructed there will receive the separate consideration of the Right Honourable the Governor in Council

Local extent of rules

General Order by the Governor in Council, No 11, dated 16th January, 1838.

The Right Honourable the Governor in Council, in reference to G O, 8th May, 1812, and 4th December, 1829, is pleased to direct that, previously to submitting to Government applications, whether from Europeans or natives, for grants of land within fortresses or the limits of military cantonments, a reference shall be made by the Commanding Officer to the Collector of the district to ascertain how the land, if the property of the Government, is entered in his accounts, and what rent has hitherto been assessed upon

Enquiry as to assessment etc of Government land.

it, and the report of the Collector shall accompany the application for such land through the channel prescribed by the existing rules

Application as to private land. Certificate by Commanding Officer

With respect to lands not being the property of Government within fortresses and cantonments, application shall be made through the Collector and the Board of Revenue, and on the production of a certificate from the Commanding Officer that the occupation of the land in the manner proposed is free from objection in a military point of view

---

General Order by the Governor in Council, No 107, dated 19th July, 1844

The Most Noble the Governor in Council is pleased to direct the publication of the following extract from the Minutes of Consultation in the Revenue Department, dated the 15th June, 1844, No 588, relative to the payment of quit-rent or assessment for lands situated within military cantonments —

Ground rent.

"The Most Noble the Governor in Council resolves to direct, in modification of all former orders, that the following rules, which will be promulgated through the Military Department, shall guide the local officers in the disposal of questions arising on the subject of lands in military cantonments —

"1st —That the terms of the grants which have been obtained for lands situated in military cantonments shall be respected, and that such lands shall pay the amount of quit rent stipulated in those grants

"2ndly —That for all lands in excess of the extent entered in such grants the ordinary assessment shall be levied for such excess

"3rdly —That for all lands for which grants have not been obtained the ordinary assessment shall be charged, except when that may exceed the quit rent, in which case the amount of quit-rent shall be levied"

---

* General Order by the Governor in Council, No 71, dated 17th April, 1849

The Right Honourable the Governor in Council directs the publication of the following rules in supersession of paragraphs 34 to 42 of section I of the regulations for the Quarter Master General's Department

CANTONMENTS—GRANTS OF LAND

* * * * * * * *

Boundaries

2 The limits of every military cantonment shall be marked by boundary stones or in some other equally permanent manner

Record of plans

3 A plan of every cantonment so marked will be kept in the Quarter Master General's office, where it will be duly registered

Sanction required to building

4 Officers Commanding divisions of the army, or in charge of cantonments, shall not permit dwelling houses, churches or such like buildings to be erected within the limits of a military station until they shall have obtained the sanction of Government

Encroachments Removal of unauthorised buildings.

5 The preservation of cleanliness is of the first importance, and to this end the encroachment of huts and shops, temporary or otherwise, is to be particularly prevented Any person erecting such buildings on Government land without having first obtained the permission of the local authority for so doing shall be liable to have them demolished and he will be required to remove the materials at his own cost.

* * * * * * * *

8 Applications for grants of land by Europeans or natives within the limits of fortresses, military cantonments and stations will be made in the first instance to the Officer Commanding the station, according to the following form —

Application for land.

To

The Officer Commanding

(Station)

Form

SIR,—I request you will have the goodness to take the necessary steps for my obtaining a Government grant for the ground herein described —

Situation of the ground	Since when enclosed	Title under which it is held and whether the property of Government or of individuals.	Extent of the ground.			Nature of the soil	How laid out, and whether buildings upon it	Bounded on the			
			Cawnies	Grounds	Square feet.			North by	South by	East by	West by

* *Sic*

(Here enter certificate of the Commanding Officer of the station that the ground does not interfere with any parade or military work)

Certificate by Commanding Officer

I am,
SIR,
Your most obedient servant,

9 Having satisfied himself that there is no objection in a military point of view to the occupation of the ground by the applicant, as also of its not encroaching on or interfering with any public road, parade or military work, he will ascertain from the Collector of the district how the land, if the property of Government, is entered in his accounts, and what rent has hitherto been assessed on it He will then submit the Collector's reply, and a sketch showing the boundaries of the ground and its vicinity, accompanied by the application previously made to him, through the Officer Commanding the division or force, to the Quarter Master General of the army, by whom it will be submitted for the consideration of the Commander-in Chief, and, if approved of by him, it will be laid before Government

Duties of Commanding Officer

Enquiry as to assessment, etc., of Government land

Plan of site

In the event of its being sanctioned, the resolution of Government will be communicated to the Quarter Master General and the Military Board, and by the latter a lease containing the following conditions will be prepared —

Lease

I The grant to be allowed for fifty years

Term.

II The lease to be renewable at the end of every ten years by endorsement, for which purpose it is to be forwarded, through the Quarter Master General, to the Military Board, in whose office every such endorsement will be registered.

Renewal

Ground-rent

III Payment of a yearly ground rent as per Collector's valuation

N B—In the Tenasserim provinces this yearly payment is levied by the authorities at Moulmein under the denomination either of quit rent or house tax

IV No grant or lease of the premises to be assigned by the applicant to any person not under the license or protection of the Company

Transfer of house

Protection of Government and tenants

V To do nothing to the premises which shall occasion annoyance to the Company or their tenants

VI The rent of all buildings erected on the premises to the limited to 15 per cent of their *bonâ fide* value This value to be determined by the Engineer of the division

Amount of rent

Resumption of land

VII If the Government needs the land and buildings at any time, they are to be surrendered

VIII The Government in this case to pay the value of the buildings, which is to be determined by the Engineer of the division

IX If dissatisfied with this value, the same to be fixed by the Government

X If the ground is not built upon, or brought into use for the purpose specified, within twelve months, the lease may be cancelled under the orders of His Excellency the Commander-in Chief *

Cancellation of grant within twelve months.

XI The observance of all these stipulations to entitle the applicant to the land for the time prescribed without let or hindrance

Continuance of lessee's rights

10 The grant in perpetuity of any piece of ground within the precincts of any fort or cantonment shall not hereafter be accorded to any individual

No grant in perpetuity

11 It is of course sufficient to reject any application for ground if it be ascertained that to grant it would interfere with the public convenience in any manner whatever

Rejection of application for grant

12 With respect to land not the property of Government within fortresses or cantonments, application shall be made through the Collector and Board of Revenue to Government, a certificate from the Commanding Officer being at the same time produced to the effect that the occupation of the land in the manner proposed is free from objection in a military point of view

Application as to private land

Certificate by Commanding Officer

13 All grants of land made by Government under the above provisions shall be entered in the office of the Registrar of Government Grants who is to return them, without delay, with his countersignature attached in acknowledgment of their having been recorded in his office No charge is to be made for this duty

Registration of grants

14 The proportion of land allowed to officers of the army requiring it is as follows —

Scale of land allowed to officers

	Sq yds
Field officers	22,500
Captains	12 000
Subalterns	7,000

15 Although the above is to be considered the usual scale, yet as it may occasionally happen that, from the inequality of ground or other local causes, there may be no objection to an extension of the scale, in all such cases the Quarter Master General shall notify the same to Government when forwarding the applications for grants

Extension of scale

16 All officers who may be desirous of disposing of their houses erected on ground leased out to them under the foregoing regulations shall apply to the Quarter Master General for permission to do so, specifying the person who may wish to purchase their property

Sale of houses

* Clause X was added by G G O No. 386, dated 13th October, 1868

17 Officers occupying houses built upon ground for which a grant has been made, considering that they are overcharged for rent, are at liberty to apply to the Officer Commanding the division for a house board Should the Board be of the same opinion, the Engineer of the division will be called on to prepare an estimate of the value of the house or buildings agreeably to the terms of the grant.

House-board for settlement of rent.

18 As no rules can be framed for making this estimate, the Engineer will be guided by his own judgment and experience when taking into consideration the valuation of the materials composing each building, its state of repair, accommodation and general convenience

Valuation of house by Engineer

19 Should the rent charged be found to exceed 15 per cent. of the *bonâ fide* value of the buildings, it shall be reduced to that standard It is to be understood that this percentage includes the cost of all annual and necessary repairs etc, which the house owner is bound to make The proceedings of the Board and estimate of the Engineer will be forwarded, through the channel above prescribed, to the Quarter Master General and eventually, if necessary, to Government

Reduction of rent to 15 per cent

20 In the event of the house-owner refusing to lower his rent according to the terms of his lease, he will be liable to have it cancelled, or, should he decline to make the repairs required, the tenant will be at liberty to make them himself, deducting the cost from the rent

Cancellation of lease for over charge of rent

Right of tenant to make repairs at cost of owner

21 In the case of parties possessing buildings on land for which no grant has been issued, the above stipulations are equally binding, but, should they refuse to conform to them, they will be obliged to have the buildings removed from off the ground within six months from the date of the receipt of the order to do so

Buildings on land of which no grant made

22 The above rules are to be considered applicable to all military stations under this Presidency, the Neilgherry Hills excepted

Local extent of rules

* * * * * * * *

General Order by the Governor in Council, No. 181, dated 6th September, 1853

The Right Honourable the Governor in Council directs that the following be substituted for rule 20 in G O G, 17th April, 1849, No 71 —

"In the event of the house owner refusing to lower his rent according to the terms of his lease, he will be liable to have it cancelled Should he decline to make the repairs required, a house-board will be assembled to decide upon what is really required, and what expense is to be incurred The house will be repaired agreeably to its decision, and the *bonâ fide* cost deducted from the rent"

Cancellation of lease for overcharge of rent

House-board for repairs

General Order by the Governor in Council, No 227, dated 6th June, 1862

His Excellency the Governor in Council is pleased to publish the following rules for regulating the residence of officers and others in military cantonments, which are to form part of the Quarter Master General's regulations —

OCCUPATION OF HOUSES IN CANTONMENTS

1 A military cantonment is, as its designation implies a locality set apart primarily for military and medical officers, chaplains, soldiers, European and East Indian subordinates, and their families, and limits are fixed for each cantonment in order that the space within which military authority may be exercised should be publicly recognized

Military character of cantonments.

2 Houses situated within such limits are consequently by priority of right available for officers and soldiers above described

Priority of claim of military men to houses

3 The above rule is not, however, to interfere with gentlemen of the Covenanted Civil Service as regards the houses usually occupied by them in military cantonments.

Civilians permitted to reside in cantonments

4. Regimental officers are required to live as near their lines or barracks as is practicable. A certain number of houses for each regiment will, therefore, be set apart in each cantonment by local Commanding Officers, and every opportunity should be taken advantage of to adjust the present inconvenient distribution of officers in cantonments so as to bring all stations under the above arrangement in course of time

Regimental officers to live near their lines

5 Staff Officers may be allowed to live in any Staff Officer's part of a cantonment

Staff Officers

6 The rate of rent of all houses in a cantonment should be registered by the Staff Officer of the station, and recorded together with the proceedings of all "House Boards"

Registration of rent.

7 Other claims for house accommodation noted in the margin for gentlemen and others will be considered and adjusted by the Officer Commanding the station, with due respect to their rank and position, and with regard to the availableness of houses in the cantonment for their use But these gentlemen cannot retain any house that may be absolutely required for an officer of the military force at the station.

Claims of civilians to houses

Officers Public Works and other departments
European and East Indian subordinates, etc. in the Civil or Public Works Department.
Missionaries and other residents.

8 Houses within the limits of a cantonment, built on ground the property of Government, whether held on lease or not are liable to be occupied as above under the control of the Officer Commanding the station

Houses to which the foregoing paragraphs apply

Houses built on land not the property of Government, or held on free-hold tenure, or occupied as shops, are exempt from this liability

Exemption of houses on private land and shops

9 In the case of necessity arising requiring the removal of a non-military tenant to make way for an officer, not less than one month's notice in writing must be given to the owner as well as the tenant of the house that the house in question is required

Compulsory transfer of house to officer

No *summary* ejectment is ever to be permitted, and the greatest consideration should be shown to the occupant whose removal on public grounds is rendered necessary

Precautions in requiring change of tenants

The Officer Commanding the cantonment may however, extend the period of such notice when circumstances will admit of it, and other quarters should be provided for the person, if removed as above, whenever practicable

10. The register of houses occupied and vacant, referred to in paragraph 6 of this order, is to be kept in the Station Staff Office, alterations being made in it from time to time, and no house is to be taken by any non military officer unless with the concurrence of the Officer Commanding the station, whose duty it will be to see that such occupancy of the house will not interfere with public convenience

Register of houses.
Sanction required to occupation of house by civilians

11 In order that the number of dwelling houses in a cantonment available for civil and military officers and officers of public departments, missionaries and others, may not be unduly diminished, no house built on Government land or land leased from Government, or assigned to Government for its own use, hitherto occupied as above shall be converted into a shop, or otherwise rendered unsuitable as a residence, except under the sanction of the Officer Commanding the station, but any houses occupied as shops on the promulgation of this order will not be liable to be registered as dwelling-houses unless the owners wish it or His Excellency the Commander-in-Chief may consider it absolutely necessary

Sanction required to conversion of house into shop, etc.

Registration of shop as dwelling-house.

12 House-boards can only assemble on houses erected subsequent to 1813, when the G. O. on that subject was first promulgated

House-board.

13 At stations, such as Secunderabad, where the ground is foreign territory, but assigned by the *Nizam's* Government to Her Majesty's Government for military purposes, the above rules, as regards the rental of houses and allotment of officers in the cantonment, are to have equal effect.

Application of rules to British cantonments in foreign territory

Exemption of Bangalore

Bangalore is specially exempted from the operation of these rules

14 These rules are not to have *retrospective* effect* nor are they to disturb the residence of officers and others at the present moment, except in cases of extreme and proved public inconvenience. Their object is to secure gradually, and as opportunity offers, a better arrangement for the future

Rules not to have retrospective effect.

* Houses built prior to the establishment of military jurisdiction not being included under these rules

15 In ordinary cases, the decision of the Station Commanding Officer should be considered final, but appeals may be heard and decided by the Officer Commanding the division, and, if necessary, they may be submitted for the orders of the Commander-in-Chief, those submitted by gentlemen of the Civil Service being forwarded, with the observations of His Excellency, for final disposal by Government.

Appeal

General Order by the Commander-in-Chief, No 65, dated 30th May, 1865.

CANTONMENTS—MILITARY BUILDINGS.

Instances having occurred in which departments of the army have occupied sites within the limits of military cantonments for the erection of buildings for the use of their departments without the cognizance or the authority of the Officer Commanding the division or force, or of Army Head-Quarters, and contrary to the provisions of G O G No, 71 of 1849, paragraph 4, the Commander in-Chief is pleased to direct that, whenever a site for such purposes is required, it shall first be applied for to the Officer Commanding the division, who will forward the application, with his observations, to the Commander-in Chief for approval or otherwise

Application for land

General Order by the Commander-in Chief, No 122, dated 21st September, 1865.

CANTONMENTS

The Commander-in-Chief directs the attention of Officers Commanding cantonments to paragraph 5 of G O G No 71 of 1849 —

"The preservation of cleanliness is of the first importance, and to this end the encroachment of huts or shops temporary or otherwise, is to be particularly prevented Any persons erecting such buildings on Government land without having first obtained the permission of the local authority for so doing shall be liable to have them demolished, and he will be required to remove the materials at his own cost"

Encroachments.

Removal of unauthorised buildings.

I am

SIR,

Your most obedient servant,

1287 The Officer Commanding the station, having satisfied himself that there is no objection in a military point of view to the occupation of the ground by the applicant, as also that it does not encroach on or interfere with any public road, parade or military work, will ascertain from the Collector of the district how the land, if the property of Government, is entered in his accounts, and what rent

Duties of Commanding Officer.

Enquiry as to assessment, etc., of Government land.

has hitherto been assessed on it he will then submit the Collector's reply, and a sketch showing the boundaries of the ground and its vicinity, accompanied by the application previously made to him, through the Officer Commanding the division or force to the Quarter Master General, by whom it will be submitted for the consideration of the Commander in-Chief

Plan of site

In the event of its being sanctioned, a lease will be prepared by the Quarter Master General containing the following conditions —

Lease

(i) To hold the lease for fifty years, renewable at the end of every ten years, at the option of Government

Term and renewal

(ii) To pay a yearly ground rent to well and sufficiently repair, maintain, amend and keep the premises and appurtenances in such good and substantial repair as is necessary for the occupation of a tenant at rack rent to scour and cleanse all drains and water courses belonging to the premises and keep the same free from obstruction to remove from the premises, and keep the same free from prickly pear and aloe and all causes of malaria hedges to be of a height not exceeding four feet from the level of the public road in front of or leading to the premises, to lop, and keep lopped, the branches of all trees, present and future, which shall grow lower than six feet from the ground

Ground rent
Maintenance

(iii) The premises, although maintained in the above order, to be given to Government at any time, if required

Government claim to house

(iv) The premises to be open to the Government authorities to take plans and examine the condition thereof

Inspection

(v) All or parts of requirements, if found necessary, to be supplied, notice of which in writing to be left at the premises, to be attended to by the lessee within three calendar months

Requirements to be supplied

(vi) Not to do or do willingly cause or suffer any act or thing to be done, in or upon the premises to the annoyance, grievance, damage or disturbance of Government or their tenants

Protection of Government and tenants

(vii) On assigning the premises to another a notice in writing of the assignment to be given to the Officer Commanding the cantonment, with full particulars, within three calendar months

Notice of assignments

(viii) The monthly rent should be limited to a sum equal to one twelfth part of a sum equivalent to Rs 15 per cent per annum on the *bonâ fide* value of the building to be certified by the local Engineer officer

Amount of rent

(ix) To officers the monthly rent to be limited to, and in no case to exceed, either the said sum, or the sum of hundred rupees, whichever of the said sums shall be least in amount, the meaning being that no more than one hundred rupees a month as rent can be demanded, although the *bonâ fide* value of the building may be more

Rent to officers not to exceed Rs 100

(x) If at any time the tenant, being a military officer, shall consider the rent to exceed the amount mentioned in the foregoing clause, and if the Engineer certify to that effect, the lessee should reduce the rent to what the Engineer shall fix

Reduction of rent
N B – This is not intended to do away with the assembly of a house board

(xi) If at any time it is desired to let or sell, the preference should be given to military officers of the cantonment over anybody else

Priority of military officers as to hiring or buying

(xii) If the house is required for the residence of any of the officers of the cantonment, notice in writing to be given to the owner, and after thirty days, the house should be vacated for occupation by such officer

Vacation in favour of military officer

(xii) If the Government require the land at any time, it should be restored on payment of the fair value of the buildings to be fixed *by the Engineer* If dissatisfied with this value, the amount to be fixed by Government, which decision will be final

Resumption of land

(xiv) The lessee to conform to and obey all present and prospective orders and regulations of Government

Government orders to be obeyed

(xv) If the annual rent to Government is not paid within thirty days after the due date, or if the lessee become bankrupt or insolvent, and if there is any execution out against the lessee where the lease shall be seized, or in case of the breach or non performance of any of the conditions contained in the lease, it shall be lawful for the Government to obtain re possession of the premises on payment of their value *

Resumption of land for default

(xvi) If the ground is not built upon, or brought into use for the purpose specified, within twelve months, the lease may be cancelled under the orders of His Excellency the Commander-in Chief

Cancellation of lease within twelve months

Page 226 1288 The grant in perpetuity of any piece of ground within the precincts of any fort or cantonment shall not hereafter be accorded to any individual

No grant in p rpetuity

It is of course sufficient to reject any application for ground if it be ascertained that to grant it would interfere with the public convenience in any manner whatever

Rejection of application for grant

With respect to land not the property of Government within fortresses or cantonments, application shall be made through the Collector and Board of Revenue to Government a certificate from the Commanding Officer being at the same time produced to the effect that the occupation of the land in the manner proposed is free from objection in a military point of view

Application as to private land

Certificate by Commanding Officer

Page 226. 1289 All grants of land made by Government under the above provisions shall be entered in the office of the Registrar of Government Grants, who is to return them, without delay, with his counter signature attached in acknowledgment of their having been recorded in his office No charge is to be made for this duty

Registration of grants

Scale of land allowed to officers

The proportion of land allowed to officers of the army requiring it is as follows —

Field officers	22,500 square yards.
Captains	12,000 ditto
Subalterns	7,000 ditto.

Although the above is to be considered the usual scale, yet it may occasionally happen that, from the inequality of ground or other local causes, there may be no objection to an extension of the scale

Page 226. 1290 Officers occupying houses built upon ground for which a grant has been made, considering that they are overcharged for rent, are at liberty to apply to the Officer Commanding the division for a house board Should the Board be of the same opinion, the Engineer of the division will be called on to prepare an estimate of the value of the house or buildings agreeably to the terms of the grant The Engineer will be guided by his departmental rules in making the estimate, taking into consideration the valuation of the materials composing each building, its state of repair, accommodation and general convenience

House board for settlement of rent

Valuation of house by Engineer

Should the rent charged be found to exceed 15 per cent of the *bonâ fide* value of the buildings, it shall be reduced to that standard It is to be understood that this percentage includes the cost of all annual and necessary repairs, etc , which the house owner is bound to make

Reduction of rent to 15 per cent.

* Quit rent is not charged in Burma

The proceedings of the Board and estimate of the Engineer will be forwarded through the channel above prescribed to the Quarter Master General, and eventually, if necessary, to Government

Submission of proceedings to Quarter Master General

Cancellation of lease for overcharge of rent.

1291 In the event of the house-owner refusing to lower his rent according to the terms of his lease, he will be liable to have it cancelled Page 227.

Should he decline to make the repairs required, a house board will be assembled to decide upon what is really required, and what expense is to be incurred. The house will be repaired agreeably to its decision, and the *bond fide* cost deducted from the rent

House board for repairs

Buildings on land of which no grant made

1292 In the case of parties possessing buildings on land for which no grant has been issued, the above stipulations are equally binding, but, should they refuse to conform to them, they will be obliged to have the buildings removed from off the ground within six months from the date of the receipt of the order to do so Page 227

Sanction required to building

Plan of site

1293. No building of any kind is to be erected in a cantonment without the sanction of the Commander-in Chief, which must be applied for, through the station and divisional authorities, to the Quarter Master General This applies to public departmental buildings as well as all others Every application should state clearly the description and size of the building it is proposed to erect, and the purpose for which it is required, and should be accompanied by a sketch of the proposed site showing the buildings and roads, etc in its immediate vicinity Page 227.

Regulations and Orders for the Army of the Madras Presidency, 1876

* * * * * * * *

SECTION 18 —CANTONMENTS

* * * * * * * *

I —GENERAL RULES

* * * * * * * *

Military character of cantonments
Priority of claim of military men to houses

2046 A military cantonment is as its designation implies, a locality set apart primarily for military and medical officers, chaplains, soldiers, European and East Indian subordinates, and their families, for whom houses situated within such limits are by priority of right available Page 326

Civilians permitted to reside in cantonments

This rule, however, is not to interfere with gentlemen of the Covenanted Civil Service as regards the houses usually occupied by them in military cantonments

Regimental officers to live near their lines

2047 Regimental officers are required to live as near their lines or barracks as is practicable A certain number of houses for each regiment will therefore be set apart in each cantonment by local Commanding Officers, and every opportunity should be taken advantage of to adjust the present inconvenient distribution of officers in cantonments, so as to bring all stations under the above arrangement in course of time Page 327

Staff Officers

Staff Officers may be allowed to live in any part of a cantonment

Claims of civilians to houses

Officers, Public Works and other Departments
European and East Indian subordinates etc in the Civil or Public Works Department
Missionaries and other residents

2048 Other claims for house accommodation noted in the margin for gentlemen and others will be considered and adjusted by the Officer Commanding the station, with due respect to their rank and position, and with regard to the availableness of houses in the cantonment for their use But these gentlemen cannot retain any house that may be absolutely required for an officer of the military force at the station Page 327

Houses to which Regulations 2046 to 2048 apply

2049 Houses within the limits of a cantonment, built on ground the property of Government, whether held on lease or not, are liable to be occupied as above under the control of the Officer Commanding the station Page 327

Houses built on land not the property of Government, or held on freehold tenure, or occupied as shops, are exempt from this liability

Exemption of houses on private land and shops

Page 327 2050 In the case of necessity arising requiring the removal of a non-military tenant to make way for an officer, not less than one month's notice in writing must be given to the owner as well as the tenant of the house that the house in question is required

Compulsory transfer of house to officer

No *summary* ejectment is ever to be permitted, and the greatest consideration should be shewn to the occupant whose removal on public grounds is rendered necessary

Precautions in requiring change of tenants

The Officer Commanding the cantonment may, however, extend the period of such notice when circumstances will admit of it, and other quarters should be provided for the person, if removed as above, whenever practicable

Page 327 2051 The limits of every military cantonment are to be clearly defined, boundary stones or pillars being erected where there are no well marked natural boundaries

Boundaries

A plan of each cantonment on a scale sufficiently large to show every building in it is to be kept in the office of the divisional Quarter Master General or Station Staff Officer

Record of plans

Page 327 2052 The boundaries of sadr, station and regimental bazars, and of any villages within the limits of cantonments, are also to be defined by pillars of masonry, and all buildings erected beyond the proper boundaries or assigned limits are to be thrown down and the ruins removed at the expense of the proprietor

Boundary marks for bazars and villages

Removal of buildings erected beyond boundaries

Page 328. 2053 No deviation from the fixed limits of a cantonment or from those of the lines, bazars or enclosures surrounding Government buildings is permitted without the sanction of Government, to be applied for through the Quarter Master General's Department

Alteration of boundaries

Page 328. 2054 When from any cause any portion of the area of an existing cantonment is found to be no longer required for military purposes, a report to that effect is to be made by the Commanding Officer to the Quarter Master General in order that it may be made over to the civil authorities

Transfer of surplus land to civil authorities

Page 328 2055 A register of houses occupied and vacant, showing the rent of each, is to be kept in the Station Staff Office, alterations being made in it from time to time, and no house is to be taken by any non military officer unless with the concurrence of the Officer Commanding the station, whose duty it will be to see that such occupancy of the house will not interfere with public convenience

Register of houses and rents

Sanction required to occupation of house by civilian

Page 328. 2056 In order that the number of dwelling houses in a cantonment available for civil and military officers and officers of public departments, missionaries and others, may not be unduly diminished, no house built on Government land or land leased from Government, or assigned to Government for his own use, hitherto occupied as above, shall be converted into a shop, or otherwise rendered unsuitable as a residence, except under the sanction of the Officer Commanding the station, but any houses occupied as shops will not be liable to be registered as dwelling houses unless the owners wish it or His Excellency the Commander-in Chief may consider it absolutely necessary

Sanction required to conversion of house into shop etc

Registration of shop as dwelling house

Page 328 2057 At stations, such as Secunderabad, where the ground is foreign territory, but assigned by the *Nizam's* Government to Her Majesty's Government for military purposes, the above rules as regards the rental of houses and allotment of officers in the cantonment are to have equal effect.

Application of rules to British cantonments in foreign territory

Exemption of Bangalore

Bangalore is specially exempted from the operation of these rules

Kamptee and Cuttack are under the Bengal cantonment rules

2058 In ordinary cases the decision of the Station Commanding Officer should be considered final, but appeals may be heard and decided by the Officer Commanding the division or district, and, if necessary, they may be submitted for the orders of the Commander in Chief, those submitted by gentlemen of the Civil Service being forwarded with the observations of His Excellency, for final disposal by Government Page 328.

Appeal

* * * * * * * *

2068 All matters connected with cantonment lands and boundaries will be conducted, under the orders of the Commanding Officer, by the officer of the Quarter Master General's Department at the station or, in his absence, by the Cantonment Magistrate or the Staff Officer of the station, assisted, if necessary, by the Executive Engineer Questions requiring the decision of higher authority are to be referred to head-quarters through the Quarter Master General Page 330

Officer to perform duties connected with lands and boundaries

II —GRANTS OF LAND

2069 Application for grants of land within the limits of cantonments or fortresses will be made in the first instance to the Officer Commanding the station in the following form Page 330.

Form of application for land

No grants of land will be made except for the purpose of erecting thereon officers' quarters or shops for the convenience of residents It will be the duty of the Officer Commanding the station to see that this purpose is fulfilled

Grants only for officers' quarters or shops.

To

Form

The Officer Commanding

(*Station*)

SIR,

I request you will have the goodness to take the necessary steps for my obtaining a Government grant for the ground herein described —

Situation of the ground	Since when enclosed.	Title under which it is held, and whether the property of Government or of individuals	Extent of the ground	Nature of the soil	How laid out and whether buildings upon it.	Bounded on the			
			Square yards.			North by	South by	East by	West by

[Here enter certificate of the Commanding Officer of the station that the ground does not interfere with any parade or Military work]

Certificate by Commanding Officer

I am,
SIR,
Your most obedient servant,

Page 331

2070 The Officer Commanding the station, having satisfied himself that there is no objection in a military point of view to the occupation of the ground by the applicant, as also that it does not encroach on or interfere with any public road, parade or military work, will ascertain from the Collector of the district how the land, if the property of Government, is entered in his accounts, and what rent has hitherto been assessed on it He will then submit the Collector's reply, and a sketch showing the boundaries of the ground and its vicinity, accompanied by the application previously made to him, through the Officer Commanding the division, district or force, to the Quarter Master General, by whom it will be submitted for the consideration of the Commander-in-Chief

Duties of Commanding Officer

Enquiry as to assessment, &c., of Government land.

Plan of site

Lease

In the event of its being sanctioned, a lease will be prepared by the Quarter Master General containing the following condions —

Term and renewal

(i) To hold the lease for fifty years, renewable at the end of every ten years, at the option of Government

Ground rent. Maintenance

(ii) To pay a yearly ground rent, to well and sufficiently repair, maintain, amend and keep the premises and appurtenances in such good and substantial repair as is necessary for the occupation of a tenant at rack rent, to scour and cleanse all drains and water courses belonging to the premises, and keep the same free from obstruction, to remove from the premises and keep the same free from prickly-pear and aloe and all causes of malaria, hedges to be of a height not exceeding four feet from the level of the public road in front of, or leading to, the premises, to lop, and keep lopped, the branches of all trees, present and future, which shall grow lower than six feet from the ground

Government claim to house.

(iii) The premises, although maintained in the above order, to be given to Government at any time if required

Inspection

(iv) The premises to be open to the Government authorities to take plans and examine the condition thereof

Requirements to be supplied.

(v) All or parts of requirements, if found necessary, to be supplied, notice of which in writing to be left at the premises, to be attended to by the lessee within three calendar months

Protection of Government and tenant's

(vi) Not to do or willingly cause or suffer any act or thing to be done in or upon the premises to the annoyance, grievance, damage or disturbance of Government or their tenants

Notice of assignment

(vii) On assigning the premises to another, a notice in writing of the assignment to be given to the Officer Commanding the cantonment, with full particulars, within three calendar months

Amount of rent.

(viii) The monthly rent should be limited to a sum equal to one twelfth part of a sum equivalent to Rs 15 per cent per annum on the *bond fide* value of the building to be certified by the local Engineer officer

Rent to officers not to exceed Rs. 100

(ix) To officers the monthly rent to be limited to, and in no case to exceed, either the said sum or the sum of one hundred rupees, whichever of the said sums shall be least in amount, the meaning being that no more than one hundred rupees a month as rent can be demanded, although the *bond fide* value of the building may be more

Reduction of rent.

(x) If at any time the tenant, being a military officer, shall consider the rent to exceed the amount mentioned in the foregoing clause, and if the Engineer certify to that effect, the lessee should reduce the rent to what the Engineer shall fix

N B—This is not intended to do away with the assembly of a house board

(xi) If at any time it is desired to let or sell, the preference should be given to military officers of the cantonment over anybody else

Priority of military officers as to hiring or buying

(xii) If the house is required for the residence of any of the officers of the cantonment, notice in writing to be given to the owner, and after thirty days, the house should be vacated for occupation by such officer

Vacation in favour of military officer

(xiii) If the Government require the land at any time it should be restored on payment of the fair value of the buildings to be fixed *by the Engineer* If dissatisfied with this value, the amount to be fixed by Government, which decision will be final

Resumption of land

(xiv) The lessee to conform to and obey all present and prospective orders and regulations of Government

Government orders to be obeyed

(xv) If the annual rent to Government is not paid within thirty days after the due date, or if the lessee become bankrupt or insolvent, and if there is any execution out against the lessee where the lease shall be seized, or in case of the breach or non performance of any of the conditions contained in the lease, it shall be lawful for the Government to obtain repossession of the premises on payment of their value *

Resumption of land for default.

* Quit rent is not charged in Burma.

(xvi) If the ground is not built upon or brought into use for the purpose specified within twelve months, the lease may be cancelled under the orders of His Excellency the Commander in Chief

Cancellation of lease within twelve months

2071 The grant in perpetuity of any piece of ground within the precincts of any fort or cantonment shall not hereafter be accorded to any individual Page 332.

No grant in perpetuity

It is of course sufficient to reject any application for ground if it be ascertained that to grant it would interfere with the public convenience in any manner whatever

Rejection of application for grant

With respect to land not the property of Government within fortresses or cantonments, application shall be made through the Collector and Board of Revenue to Government a certificate from the Commanding Officer being at the same time produced to the effect that the occupation of the land in the manner proposed is free from objection in a military point of view

Application as to private land

Certificate by Commanding Officer

2072 All grants of land made by Government under the above provisions shall be entered in the office of the Registrar of Government grants, who is to return them without delay, with his countersignature attached in acknowledgment of their having been recorded in his office No charge is to be made for this duty Page 333.

Registration of grants

(i) To hold the lease for fifty years, renewable at the end of every ten years, at the option of Government

Term and renewal.

(ii) To pay a yearly ground rent* as per Collector's valuation, to well and sufficiently repair, maintain, amend and keep the premises and appurtenances in such good and substantial repair as is necessary for the occupation of a tenant at rack-rent, to scour and cleanse all drains and water-courses belonging to the premises, and keep the same free from obstruction, to remove from the premises and keep the same free from prickly-pear and aloe, and all causes of malaria, hedges to be of a height not exceeding four feet from the level of the public road in front of, or leading to, the premises, to lop, and keep lopped, the branches of all trees, present and future, which shall grow lower than six feet from the ground

Ground rent
Maintenance

* Quit rent is not charged in Rangoon Tonghoo and Thayetmyo, but in Moulmein this yearly payment is levied by the civil authorities under the denomination either of quit-rent or house-tax

(iii) The premises, although maintained in the above order, to be given to Government at any time if required.

Government claim to house

(iv) The premises to be open to the Government authorities to take plans and examine the condition thereof

Inspection

(v) All or parts of requirements, if found necessary, to be supplied, notice of which in writing to be left at the premises, to be attended to by the lessee within three calendar months

Requirements to be supplied

(vi) Not to do or willingly cause or suffer any act or thing to be done in or upon the premises to the annoyance, grievance, damage or disturbance of Government or their tenants

Protection of Government and tenants

(vii) On assigning premises to another, a notice in writing of the assignment to be given to the Officer Commanding the cantonment with full particulars, within three calendar months.

Notice of assignment

(viii) The monthly rent should be limited to a sum equal to one twelfth part of a sum equivalent to Rs 15 per cent per annum on the *bonâ fide* value of the building to be certified by the local Engineer officer

Amount of rent

(ix) To officers the monthly rent to be limited to, and in no case to exceed, either the said sum or the sum of one hundred rupees, whichever of the said sums shall be least in amount, the meaning being that no more than one hundred rupees a month as rent can be demanded, although the *bonâ fide* value of the building may be more

Rent to officers not to exceed Rs 100.

(x) If at any time the tenant, being a military officer, shall consider the rent to exceed the amount mentioned in the foregoing clause, and if the Engineer certify to that effect, the lessee should reduce the rent to what the Engineer shall fix

Reduction of rent.

N.B—This is not intended to do away with the assembly of a house board

(xi) If at any time it is desired to let or sell, the preference should be given to military officers of the cantonment over anybody else.

Priority of military officers as to hiring or buying

(xii) If the house is required for the residence of any of the officers of the cantonment, notice in writing to be given to the owner, and, after thirty days, the house should be vacated for occupation by such officer

Vacation in favour of military officer

(xiii) If the Government require the land at any time, it should be restored on payment of the fair value of the buildings to be fixed *by the Engineer* If dissatisfied with this value, the amount to be fixed by Government, which decision will be final

Resumption of land.

(xiv) The lessee to conform to and obey all present and prospective orders and regulations of Government

Government orders to be obeyed

(xv) If the annual rent to Government is not paid within thirty days after the due date, or if the lessee become bankrupt or insolvent, and if there is any execution out against the lessee where the lease shall be seized, or in case of the breach or non-performance of any of the conditions contained in the lease, it shall be lawful for the Government to obtain repossession of the premises on payment of their value

Resumption of land for default.

(xvi) If the ground is not built upon or brought into use for the purpose specified within twelve months, the lease may be cancelled under the orders of His Excellency the Commander-in-Chief

Cancellation of lease within twelve months

2002 The grant in perpetuity of any piece of ground within the precincts of any fort or cantonment shall not hereafter be accorded to any individual Page 485

No grant in perpetuity

It is of course sufficient to reject any application for ground if it be ascertained that to grant it would interfere with the public convenience in any manner whatever

Rejection of application for grant

With respect to land not the property of Government within fortresses or cantonments, application shall be made through the Collector and Board of Revenue to Government, a certificate from the Commanding Officer being at the same time produced to the effect that the occupation of the land in the manner proposed is free from objection in a military point of view

Application as to private land.

Certificate by Commanding Officer.

2003 All grants of land made by Government under the above provisions shall be entered in the office of the Registrar of Government Grants, who is to return them without delay, with his counter signature attached in acknowledgment of their having been recorded in his office No charge is to be made for this duty Page 485

Registration of grants.

The proportion of land allowed to officers of the army requiring it is as follows —

Scale of land allowed to officers.

Field officers	22,500 square yards.
Captains	12,000 ditto
Subalterns	7,000 ditto

Although the above is to be considered the usual scale, yet it may occasionally happen that, from the inequality of ground or other local causes, there may be no objection to an extension of the scale

2004 Officers occupying houses built upon ground for which a grant has been made, considering that they are overcharged for rent, are at liberty to apply to the Officer Commanding the division for a house-board Should the house-board be of the same opinion, the Engineer of the division will be called on to prepare an estimate of the value of the house or buildings agreeably to the terms of the grant The Engineer will be guided by his departmental rules in making the estimate, taking into consideration the valuation of the materials composing each building,* its state of repair, accommodation and general convenience Page 485

House board for settlement of rent

Valuation of house by Engineer

Should the rent charged be found to exceed 15 per cent of the *bonâ fide* value of the buildings, it shall be reduced to that standard It is to be understood that this percentage includes the cost of all annual and necessary repairs, etc, which the house-owner is bound to make

Reduction of rent to 15 per cent.

The proceedings of the Board and estimate of the Engineer will be forwarded, through the channel above prescribed, to the Quarter Master General, and eventually, if necessary, to Government

Submission of proceedings to Quarter Master General

2005 In the event of the house-owner refusing to lower his rent according to the terms of his lease, he will be liable to have it cancelled Page 486

Cancellation of lease for overcharge of rent.

* That is, value of materials and labour at the time such building was erected

Should he decline to make the repairs required, a house-board will be assembled to decide upon what is really required, and what expense is to be incurred The house will be repaired agreeably to its decision and the *bonâ fide* cost deducted from the rent

House board for repairs

Page 486.

2006 In the case of parties possessing buildings on land for which no grant has been issued, the above stipulations are equally binding, but, should they refuse to conform to them, they will be obliged to have the buildings removed from off the ground within six months from the date of the receipt of the order to do so

Buildings on land of which no grant made

Page 486.

2007 No building of any kind is to be erected in a cantonment without the sanction of the Commander-in-Chief, which must be applied for, through the station and divisional authorities, to the Quarter Master General This applies to Public Departmental buildings as well as all others

Sanction required to building

Every application should state clearly the description and size of the building it is proposed to erect, and the purpose for which it is required, and should be accompanied by a sketch of the proposed site showing the buildings and roads, etc, in its immediate vicinity.

2007A No old roads in cantonments are to be closed or new ones opened without the sanction of the Commander-in-Chief *

Closing or opening of roads

* * * * * * * *

* Paragraph 2007A was added by G G O. No. 9 of 1898.

NEW ZEALAND, NORTH ISLAND—EAST CAPE

Light on East Cape Island

THE following extract from the *New Zealand Gazette* dated 6th October 1898 is republished —

Notice is hereby given that about the month of August 1899, a light will be exhibited from a light-house now being erected on East Cape Island, near East Cape, in latitude 37° 40′ S, and longitude 178° 36′ E, as measured from the Admiralty chart The light will be 362 feet above the level of the sea at high water, and will be a second-order dioptric light, revolving to show a white flash at intervals of every ten seconds

The light will be seen seaward over an arc of 280 degrees of the horizon (or as far round as the land will allow), and in ordinary clear weather it will be visible twenty two nautical miles from the deck of a vessel 15 feet above sea-level

Further particulars, together with the date of lighting, will be given in a future notice

Chart, &c, affected No 2527, Sheet III, N Z, "New Zealand Pilot," Chapter III, pages 147 and 148

AUSTRALIA—BRISBANE RIVER.

Leading marks and new red buoy for new cutting above Lytton

THE Port Master, Brisbane, has given notice (No 17 of 1898) that the old pair of leading beacons and lights above Lytton have been removed, and that the new dredged cutting there is marked as follows —

A pair of white triangular beacons on the first mangrove islet above Lytton and a pair of post lights near Lytton Wharf mark the downstream portion of the cutting, and a pair of triangular beacons on the Lytton Flats, carrying lights at night, mark the upper portion, a red buoy being placed at the turn in the cutting

Directions —A vessel ascending the river must, after passing Lytton Wharf, bring in nine a pair of triangular beacons bearing S 29° W in line ahead, or a pair of lights at night must be brought in line astern bearing N 29° E, and keep them so until another pair of beacons bearing N 58° E, carrying lights at night, come in line astern, passing a red buoy on the starboard hand

This last lead passes 300 feet off the Queensland Meat Export Company's Wharf, and may be kept until the latter is neared, when proceed as hitherto

A plan of the locality may be seen at the Harbour Master's Office

AUSTRALIA, EAST COAST—QUEENSLAND

Hinchinbrook Channel—Alterations in buoyage

THE British Admiralty has given notice (No 587 of 1898) of the undermentioned alterations in the buoyage of the South entrance to Hinchinbrook channel —

1 The Fairway buoy, which is now painted red, has, in consequence of the bar extending seaward, been moved to a position in 5 fathoms at low water, with Hillock point bearing N 22° W and Conspicuous tree on Lucinda point S 63° W, distant $3\frac{1}{10}$ miles

A small black buoy is moored in a depth of 9 feet in the former position of the Fairway buoy

2 The red buoy at the entrance to Enterprise channel has been withdrawn

3 A red buoy has been established in a depth of 10 feet to mark the northern end of a sandbank which has extended into the channel, from it the White leading mark on Hinchinbrook island bears N 39° W, distant $3\frac{3}{4}$ cables, and Oyster rock S 55° W

4 A small red beacon marks a sandbank, which dries 2 feet at low water, from it the White leading mark on Hinchinbrook island bears N 84° E, distant $1\frac{1}{4}$ miles, and mount Stralock N 23° E

Approximate position, Lucinda point (Conspicuous tree), lat 18° 31′ 30″ S, long 146° 20 15″ E

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No 961L F, dated the 17th October 1898, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal for the quarter ending 30th June 1898

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the first quarter of the year 1898 99 be published in the *Calcutta Gazette* and circulated to the officers concerned

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette*

Ordered also that a copy of this Resolution, and of the abstract referred to, be forwarded for information to the Commissioners of the Rajshahi, Chittagong, Bhagalpur, and Chota Nagpur Divisions, Superintending Engineer of the Northern Circle, Inspectors of Works, Eastern and Western Circles, and Financial Department of this Government

By order of the Lieutenant Governor of Bengal,

R B BUCKLEY,

Secretary to the Government of Bengal

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF CALCUTTA FOR THE YEAR 1897-98.

MUNICIPAL DEPARTMENT—MUNICIPAL

Calcutta, the 15th November 1898

RESOLUTION—No 6486M

READ—

The Administration Report of the Commissioners of Calcutta for the year 1897-98.

Read again—

The Report for the year 1896-97 and the Resolution recorded by Government thereon

This Report was not received by Government until 7th October, although due on 31st July This delay of nearly two and-a-half months is to be regretted, but it is explained as having been mainly due to the pressure of urgent work in connection with plague measures

2. There were two changes during the year in the office of Chairman of the Corporation Mr H. C Williams, who took furlough on 19th May 1897, subsequently resigned, and was succeeded by Mr W R Bright, who held the post until 7th March 1898, when he also was compelled by ill-health to take leave Mr R T Greer has since been acting as Chairman and the present Report is submitted by him. Babu Nilambara Mukarji continued to hold the office of Vice-Chairman throughout the year, and the post of Engineer to the Corporation was, as in the previous year, filled by Mr A J Hughes, C I E Dr W J Simpson, the Health Officer, retired on 6th September 1897, but it was not till 21st December of that year that the Commissioners selected a successor The candidate chosen was Dr Nield Cook, the Health Officer of Madras, who took over charge of his duties on 7th January 1898 In the meantime the Assistant Health Officer, Dr Sen, carried on the work of the office Among the nominated Commissioners Syed Hazoor Mirza was appointed by Government in place of Maulvi Abdul Jubber, Khan Bahadur, C I E, who resigned, and Dr C Banks in place of Lieutenant E W Petley, C I E The periodical election of Commissioners was held on 12th March 1898, and resulted in the re-election of 38 out of 50 Commissioners The elections were contested in 13 out of the 25 wards From the tables appended to the Report, it appears that out of a total population of 681,560, there were 13,890 registered voters, of whom 10,143 were Hindus, 2,030 were Europeans, 1,501 Muhammadans, and 216 others Owing to the existence of plural voting, the voting power differs from the above The total voting power amounts to 58,476 votes, of which 41,381 belong to Hindus, 10,720 to Europeans, 5,391 to Muhammadans, and 984 to other classes Lawyers as usual obtained a larger share of representation than any other class, winning 20 seats out of 50

3 *Meetings and attendance of Commissioners*—The total number of meetings of all kinds held by the Commissioners was 241 against 248 in the previous year General meetings numbered 37 as compared with 45 in 1896-97, Standing Committees met 125 times, Special Committees 32 times, and Sub Committees 47 times The number of Commissioners who attended more than 50 meetings fell from 26 to 19 Babu Nalin Behari Sircar, who attended 154 meetings, heads the list, next come Babu Priya Nath Mallik and Mr Ghosal with 117 attendances, Babu Kally Nath Mitter with 106, and the Hon'ble Babu Norendro Nath Sen with 105 The average percentage of attendance among the elected Commissioners was 52 against 50 in the previous year, that among the appointed Commissioners remained the same, viz 46, while that among the Commissioners representing the Port Commissioners, the Bengal Chamber of Commerce and the Calcutta Trades Association rose to 51 against 47 in 1896-97

4 *Proceedings of Commissioners*,—The chief subjects discussed by the Commissioners in general meeting during the year were matters connected with the new drainage works, the question of electric tramways, the grant of land required by the Bhowanipur Hospital, the disposal of the Fort sewage, the reorganization of the Warrant Department of the Municipality, the construction of a new Municipal office, and the measures to be taken to prevent the introduction of bubonic plague, and to combat it on its appearance The progress

made towards the completion of the new drainage works is described below The Committee which was appointed in January 1897 to consider the possible arrangements for the introduction of mechanical traction on the Calcutta tramways submitted proposals in June of that year, but these, after being discussed by the Commissioners, were returned by them for further consideration After seven more meetings, the Committee drew up another report, which was accepted in November 1897 These terms were, however, rejected by the Tramways Company, who submitted counter-proposals Subsequent to the close of the year, a fresh offer was made to the Company, but this also has been refused, and the negociations have been finally broken off The condition of the tramway lines in many parts of the town is deplorable, and constitutes a patent breach of the obligations imposed on the Company by Act I (B C) of 1880 The Corporation has acted with much forbearance towards the Company in the past in the hope that with the introduction of electric traction a great public improvement would be effected. But now that there has ceased to be any immediate hope of this, it is incumbent on the Commissioners to take prompt and vigorous action to compel the Company to fulfil its long-neglected obligations The Lieutenant Governor has noticed with satisfaction the steps that are being taken to this end.

Certain land to the north east of the hospital at Bhowanipur, mention of which was made in last year's Resolution, was made over to Government free of cost, on condition that the hospital, which had hitherto been known as the South Suburban, should bear the name of the Shambhu Nath Pandit Hospital A scheme for the disposal of the Fort sewage by establishing a pail depôt in Clive's Ravelin, to be connected with the Municipal sewer in the Esplanade Road, was received in June 1897 from the Executive Engineer, Fort William This was approved by the Commissioners, but has not been carried out, as the terms on which the work was to be done are still under the consideration of Government The organization of the Warrant Department, which had for years been inefficient, was taken up and thoroughly examined by a Special Sub-Committee The latter was not unanimous in its recommendations, but eventually a scheme was drawn up which was sanctioned by the Commissioners in the third quarter of the year The changes effected by this scheme provide for the introduction of well-paid and well-educated officers to check the collections, and the department, as reorganized, has been working since December 1897 It now includes the Arrear Department, which has been absorbed It has not been stated whether the new system provides for the issue of notices of demand at an earlier stage of the proceedings This suggestion has twice been brought to the notice of the Commissioners by Government, and the Lieutenant-Governor desires that he may be informed what action has been taken regarding it Under the new system improvement was at first slow, but towards the end of the year became very marked No sensible impression has, however, yet been made on the heavy accumulation of arrears, and it is to be hoped that during the current year the reorganized department will be more successful in this respect The Commissioners accepted the proposals of another Special Committee on the subject of a new Municipal office for the Corporation A site was selected and plans and estimates prepared, according to which the total cost for land and buildings will amount to about 7 lakhs

5 *Loans* —The loan liability of the Corporation at the commencement of the year was as stated below —

	Rs	A	P
Unpaid balance of the 6 per cent. Debenture Loan of 1866	5,000	0	0
5 per cent Debenture Loans	1,44,01,900	0	0
4½ " " "	30,48,300	0	0
4 " " "	18,00,000	0	0
3½ " " "	20,00,000	0	0
	2,12,55 200	0	0
Balance of consolidated loans from Government	43,29,756	6	2
Total	2,55,84,956	6	2

A new loan of 20 lakhs, bearing interest at 4 per cent. and repayable in 21 years, was floated during the year, but owing to the unfavourable state of the market the full amount was not subscribed, and the total sum deposited only reached Rs 14,70,700 Of the consolidated loans from Government, Rs. 2,83,277 4 6 were repaid, and the loan liability of the Corporation at the close of the year was Rs. 2,67,72,379-1-6 Against this they had in their reserve funds, and in the special fund for the repayment of the loan of 1866, a total sum of Rs 21,37,004-0-4. After the close of the year the Corporation obtained the sanction of the Government of India to the raising of a further loan of 30 lakhs, bearing interest not exceeding 4½ per cent and repayable in 19 years

In the section of the Report dealing with the two reserve funds, which include the assets of the sinking fund to meet the loan liabilities of the Corporation, it is said that these include "Government Promissory Notes for Rs 8,05,800, value Rs. 8,42,669-9," and again "Promissory Notes for Rs 96,400, value Rs 1,00,867-6." It is not understood how these figures of value have been arrived at. If they represent the sums actually paid for the securities, when the market value was above par, it is plainly necessary to write them down now to their present value The Lieutenant Governor desires that a report on the point may be submitted

6 *Income and expenditure* —The following statement compares the receipts and expenditure of the Municipality for the past two years —

Receipts.	1906-07 Rs	1907 08. Rs
General rate at 9½ per cent.	17,92,531	17,79,106
Sewage „ 2 „	3,77,408	3,74,540
Water „ 6 „	11,32,123	11,23,621
Lighting „ 2 „	3,77,375	3,74,540
Total of consolidated taxation, 19½ per cent.	36,79,437	36,51,807
Taxes on trades and professions, carriages and animals, &c.	5,52,574	5,81,809
Municipal market receipts	1,34 890	1,33,556
Receipts from the sale of water	1,46,950	1,55,219
Conservancy receipts . .	70,446	64,790
Road Department receipts	35,254	34,975
Slaughter-house receipts .	37,971	41,148
All other receipts .	1,40,776	1,37,756
Total ..	47,98,298	47,51,060

Expenditure	1906-07 Rs.	1907 08 Rs.
Interest on loans	5,72,648	5,99,209
Contribution for repayment of loans	2,29,460	2,44,615
General establishment .	4,07,941	4,02,025
General office expenditure .	99,883	1,04,684
Road Department	4,30,613	3,60,446
Street watering . ..	89,668	98,278
Gowkhana .	2,00,188	2,17,501
Conservancy	1,55,139	1,57,616
Basti cleaning	97,153	80,231
Sewer cleaning and relaying charges	93,398	1,28,480
Hospital and vaccination charges	76,634	67,102
Suburban improvements	1,40,862	37,884
All other expenditure from the general fund	3,85,385	4,40,682
Sewage rate charges .	2,84,162	2,72,006
Water „	11,65,803	11,79,085
Lighting „ ..	4,45,949	4,56,098
Total	48,76,336	48,45,592

The total income, as compared with the previous year, decreased by Rs 47,238, receipts from the general rate falling off by Rs 13,425, from the sewage rate by Rs 2,868, from the water rate by Rs 8,502, and from the lighting rate by Rs 2 835 The decrease under the general rate is ascribed to the consequences of the earthquake, as explained below A decrease also occurred under licenses, fines, conservancy receipts, receipts from the municipal market, hospitals, and vaccination, while, on the other hand, cart registration fees, the municipal railway, house drainage, and general miscellaneous receipts show a slight increase The total expenditure was Rs 30,744 less than in the preceding year The chief item of decrease, Rs 1,03,028, was in the amount spent on suburban improvements, this is due to the increased charge for interest and sinking fund on account of works executed in the suburbs out of loan funds The total annual expenditure is required by law to be not less than 3 lakhs, and as the capital charge increases, a smaller sum is required to be spent from revenue. It appears from paragrah 11 of the report that in nine years the Commissioners have spent Rs 28,32,205 on suburban improvements, their legal obligations extending to 27 lakhs only

7 *Financial position* —The year opened with a net cash balance of Rs 2,08 781 to the credit of the Revenue Funds, and a net credit balance of Rs 15,92,135 in the Capital Funds. During the year the total receipts of the Revenue Funds, as shown in the preceding paragraph, amounted to Rs 47,51,060 and the expenditure to Rs. 48,45,592, leaving a net balance of Rs 1,14,249 to be carried to account, while the receipts of the Capital Funds, added to the opening balance, amounted to Rs 31,02,436 and the expenditure to Rs 23,18,685, leaving a net credit balance of Rs 7,83,751

From paragraph 10 of the Report it appears that the net income and expenditure of the Municipality, after excluding capital expenditure and payments for interest and sinking fund, during the past three years have been as follows —

	Net income.	Actual expenditure less interest and sinking fund.
	Rs	Rs
1895 96	31,30,131	32,92,603
1896 97	31,78,212	32,54,023
1897-98	30,50,029	31,47,179

From these figures it appears that for three years in succession the Commissioners have been exceeding their available income, and have been drawing on their cash balances, which are now reduced to a little over a lakh of rupees As a consequence of this depletion of the balance, coupled with the expenditure incurred unavoidably by apprehension of plague, it became necessary for the Commissioners, early in the current year, to apply for a temporary advance from Government to enable them to carry out their current duties This state of things cannot continue No material reduction of expenditure is likely to be possible at present, and unless the Commissioners can succeed in improving their collections, an increase in the rates will very shortly become imperative

8 *Assessment and collection of the consolidated rate* —The revaluation of houses, lands, and bustis during the year, after the disposal of appeals filed under section 138 of the Municipal Act, resulted in a net increase of Rs 4,37,926 per annum The assessed annual valuation of the town on 31st March 1898 stood, therefore, at Rs 2,08,54,467 against Rs 2,04,16,541 on 31st March 1897. The number of objections against enhanced assessments, including 1,045 remaining from the previous year, was 2,744 Of these, 1,462 were disposed of, leaving 1,282 pending at the close of the year

The current demand of the consolidated rate was Rs 39,42,653 against Rs. 38,75,914 in the previous year, showing an increase of Rs 66,739, due to the revision of assessments. There was an outstanding balance of Rs 5,20,002, and the gross demand for the year was Rs 44,62,655 The gross collections amounted to Rs 36,48,505 against Rs 36,67,467, the amount realised in the previous year The percentage of collections on the gross demand was 81 75 against 83 91 in the previous year The incidence of the consolidated rate per head of the population of Calcutta was Rs 6-1-1 against Rs 5-15-5 in

the previous year, and that of the total municipal taxation Rs. 6-15 against Rs 6 13 10

9. The collections made in the Collector's Department during the year amounted to Rs 27,88,830 against Rs 28,07,212 in the previous year, and the percentage on the demand fell from 86 94 to 85 22 It is explained that, owing to the damage done by the earthquake, many tenants were compelled to leave the houses they rented, and it was found difficult in many cases to trace their addresses Owners of houses are also stated, in consequence of their heavy expenses for repairs, to have been more remiss in paying their dues, while the middle and poorer classes were affected by the scarcity and high prices that prevailed during the year and were therefore more reluctant to pay than usual

In the Joint Collector's Department, the collections rose from Rs 6,25,655 to Rs 6,29,209, but here, again, the percentage on the demand fell from 81 78 to 80 22. The amount realised by the Warrant Department for consolidated rate bills was Rs 2,30,465 against Rs 2,34,599 in the previous year It is observed that during the first three months of the year all bills in the hands of the bailiffs were withdrawn and collections suspended for the purpose of stock-taking The figures for the fourth quarter show a decided improvement, being Rs 93,340 against Rs 76,320, Rs 70,975, and Rs 52,236 in the corresponding quarter of the three preceding years A considerable increase is, therefore, to be hoped for in the collections of the current year

10 *License and Registration Department* —The following statement compares the gross receipts under the several heads in this department for the past two years —

	1896 97			1897 98		
	Rs	A	P	Rs	A	P
I —Tax on trades and professions	3,14,908	7	9	3,34,204	7	1
II —Tax on carriages and animals	1,49,008	3	3	1,40,287	3	10
III —Cart registration fees	80,126	4	0	80,643	4	0
IV —Fees for the removal of trade refuse	65,818	4	0	58,867	0	0
V —License fees for cow-sheds, &c	135	8	0	218	0	0
VI —Registration fees for hackney carriages, &c	19,455	8	6	16,549	9	4
VII —Miscellaneous receipts	773	3	0	1,037	14	9
VIII.—Fines under section 90 of the Calcutta Municipal Act.	7,843	4	0	10,388	14	2
IX —Fines under section 80 of the Calcutta Municipal Act	1,095	0	0	1,304	8	0
Total	6,69,243	10	6	6,43,500	13	2

The total receipts, as compared with the previous year, show a decrease of Rs 25,743 The number of licenses for professions, trades and callings fell from 26,881 to 25,198, and it is under this head that the chief diminution is to be found It is explained that, owing to the scarcity of money and the high rate of interest, and owing also to the dislocation of trade with Bombay caused by the plague, a large number of firms and shopkeepers failed during the year, and many of the small shop keepers were unable to pay their tax The number of licenses issued for carriages fell from 5,205 to 4,914, and licenses for animals from 6,273 to 5,736 The number of carts registered was 20,196 against 20,056 in the preceding year, and the number of hackney carriages registered was 2,988 against 3,636, a decrease being observable under each class of carriage

11 *Survey* —In twenty one cases survey plans were made during the year in connection with projects of improvement and boundary disputes, and for the sale of land Enquiries were made in 342 cases concerning encroachments and demarcation of boundaries, and also in 619 miscellaneous cases

12 *Market, lighting and printing* —A sum of Rs 1,32,117 was realized from the Municipal Market during the year against Rs 1 32,232 in 1896-97. The decrease is small considering the unfavourable character of the year. It was found necessary to spend Rs 14,894 on general repairs, in consequence of the earthquake, and Rs 18,515 on new meat carts, and in consequence of this expenditure the net profit derived by the Commissioners only came to Rs. 84,197 against Rs 1,06,077 in the preceding year.

The number of gas lamps in Calcutta, including the added area, on 31st March 1898 was 6,548, and the number of oil lamps 2169, against 6,391 and 2061, respectively, on the same day of the previous year. The total cost of lighting in the town and suburbs was Rs 4,15,448, an increase of Rs 11,941 over the Rs 4,03,507, which in round figures, is the figure that correctly represents the cost in 1896-97. The rise was due to the increased number of lamps and to the lighting of gas lamps during extra hours in the town and suburbs. The electric lighting of Harison Road, the contract for which was granted to Messrs Kilburn and Company, was in the course of the year inspected by the Government Electrician, who reported favourably on the working. The Printing Department appears to have worked satisfactorily. The net profit shown is, however, only Rs 1,806, against Rs 2,981 in the preceding year and Rs 4,488 in the year before that.

13. *Litigation*.—Thirty-six fresh civil suits were instituted by the Corporation during the year, of which 30 were for the recovery of the consolidated rate, involving a sum of Rs 12,500. Of these, 29 were decreed, one was withdrawn and five remained pending at the end of the year. There were also 21 cases pending from the preceding year, in 18 of which decrees were obtained, and the remaining three were withdrawn. The number of suits instituted by the Warrant Department was only 15 against 38, 80 and 121, respectively, in the three preceding years. This decrease is very singular, considering the heavy arrears which remain to be recovered by the Department. It appears also from the statement given in paragraph 229 of the Report that in a large majority of cases in which decrees have been obtained, nothing has yet been realised. This is very discreditable to the Warrant Department and the Lieutenant-Governor requests that the Chairman will cause every effort to be made to recover the money due to the Corporation.

Of two suits which were brought against the Corporation during the year, one was compromised and the other withdrawn. Three were appealed to the Small Cause Courts under section 137 of the Municipal Act against the chairman's valuation of property, two were compromised, one was dismissed with costs, four were withdrawn, and in four cases the assessment was reduced. The number of cases instituted by the Corporation in the Police Courts rose from 5,775 to 6,078, an increase being shown in the prosecutions conducted by every Department except the Conservancy Department. It is observed that the fines inflicted are altogether inadequate and wholly ineffectual, and it is suggested that the punishments inflicted by Honorary Magistrates should in many instances entail a direct pecuniary loss. It is certainly remarkable that, in spite of the increased number of prosecutions, the total amount of the fines inflicted should have fallen from Rs 4,432 to Rs 3,812. The Commissioners have, however, made representation to Government under section 122 of the Municipal Act to the appointment of stipendiary Magistrates only by the Corporation. The cost of litigation was Rs 17,03 against Rs 15,200 in the preceding year.

Prosecutions instituted by the License Department under section 90 of the Act numbered 14,139 against 8,761 in the previous year. It is explained that the receipts from license fees would have been greater but for the check on the prosecutions in the Calcutta and Alipore Police Courts, the number of prosecution pending disposal on 31st March 1898 being 5,416 involving license fees to the amount of Rs 31,212, while on 31st March 1897 the number was 2,894 involving Rs 28,080. The attention of Government has lately been drawn to the cause of the arrears in these Courts, and it has been ascertained that no less than 14,416 license prosecution cases were instituted in the month of June 1898 and 10,148 in the month of June 1897 evidently to prevent their being barred by limitation. It is apparent therefore that it is the License Department which is primarily responsible for the block in the Courts. Still more serious evidence of the inefficiency of the present arrangements is given by the figures in paragraph 200 of the Report. Out of 14,139 cases instituted, 96 were dismissed, 6,744 were struck off or withdrawn for various causes (without payment of the license fees), and 5,993 were "compromised on the recommendation of the Court or on its recommendation upon the payment of license fees." Only 986 cases, or less than 7 per cent. ended in the imposition

of a fine It is plain from these figures both that there have been dilatoriness and laxity in the management of the Department for which there is no apparent excuse, and that a large proportion of these so called prosecutions must be prosecutions only in name It appears to the Lieutenant Governor that the Criminal Courts are not an appropriate agency for the recovery of municipal dues, and it will be considered in connection with the legislation now pending whether a more direct and efficient machinery cannot be provided

14 *Education* —During the year the Corporation spent Rs 2,801 in aid of primary education within the amalgamated portion of the suburbs against Rs 2,939 in the previous year This sum was distributed by the Suburban Improvement Committee among 64 schools in different wards of the town

15 *Town and busti improvement* —The total amount spent on town and busti improvement was Rs 57,340 against Rs 52,576 in the preceding year The Capital Fund from which this expenditure is met opened the year with a balance of Rs 73,475 The receipts during the year only amounted to Rs 6,353 against Rs 73,066, a decrease of which no explanation is given, and the balance at the end of the year fell to Rs 33,725 Exclusive of the outlay on latrines, &c, the total sum expended was Rs 46,103, of which Rs 37,917 was absorbed by town improvements, the chief items of which were the construction of new roads by Furriapuker Street, Mohun Bagan the compensation paid to owners for setting back, and the cost of land required for the improvement of certain town roads Only Rs 8,185 could be spared for the usual items of busti improvement, the construction of busti roads, the making of bathing platforms, and filling and improving tanks It is explained however, and the explanation is reasonable, that the heavy expenditure that is being incurred on drainage and water-works has lessened the funds available for extensive busti improvements.

16 *Engineer's Department* —The daily supply of filtered and unfiltered water was 26,100,035 against 26,169,476 gallons in the previous year About $2\frac{1}{2}$ miles of pipe were added to the distribution system for filtered water, making the entire length of filtered water main 314 62 miles The number of premises connected during the year was 591 The daily average consumption of filtered water was 20,638,212 gallons against 20,786,655, and the daily consumption per head was 38 10 gallons in the town and 11 26 in the added area against 41 42 and 10 94 in the previous year The daily unfiltered water supply was 5,461,823 gallons, giving a daily consumption per head of 12 01 gallons A scheme for the extension of the unfiltered water supply in the town area was carried out during the year by Messrs Martin and Company, at a cost of Rs 5,46,204, the work being completed in March 1898 This has resulted in an extension of the unfiltered water main by more than $15\frac{1}{2}$ miles, the total length of pipe now amounting to 96 50 miles, with which are connected 1,906 premises, 135 public conveniences, 320 sewer or flushing chambers, and 2,973 ground hydrants 86 bathing platforms, which were formerly connected, have since been severed and connected with the filtered main Besides this, a second project for extending the unfiltered water supply in the suburbs is also being carried out by Messrs Martin and Company, The length of new pipe is estimated to be 221,700 feet and the cost Rs 4,93,514 Some delay in carrying out the scheme has occurred, partly in consequence of the state of the roads during the rains, partly because of the necessity of a new alignment in the neighbourhood of the Docks, and partly because it was found necessary to await the acquisition of some land in Hazra Road, and the construction of a new sewer in Russa Road, North Pipes have, however, been laid along 175,882 feet A site for the pumping station for the suburban unfiltered water supply was chosen, and the works are being constructed In the town area one new Worthington pumping engine and a portion of another were erected at Mullick's Ghat pumping station, two more it was decided should be erected at the Talla station

The new drainage works under construction, the foundation stone of which was laid by Sir Alexander Mackenzie at the end of the year 1896, consist of three sections—works for the improvement of the storm water and sewage outfall of the city proper, works for the drainage of the suburban area south of Tolly's Nullah, and works for the drainage of that part of the suburban area which lies between the Canal and the Circular Road. The contracts for the

first two sections were let out to Messrs Martin and Company, and it is reported that the work was vigorously pushed on, and satisfactory progress made during the year In the third area greater difficulty was experienced This contract was let out to Messrs Burn and Company, but for various reasons operations could not be commenced till October 1897, when the work of pipe crossing under Tolly's Nullah was taken in hand The Canal authorities sanctioned the closure of the nullah from 1st December, and the south dam was successfully completed on the 15th On the 17th, however, the Port Commissioners represented that a sufficient water supply could not be obtained for the Docks This necessitated the cutting of the bunds and the stoppage of the work, which cannot be attempted again until the cold weather Difficulty was experienced also in the construction of the main sewer, which carries the drainage of the south added area to the outfall at Ballygunge, owing to the beds of fine sand which extend to a considerable depth, and which, when charged with water, become converted into quicksand This obstacle is being overcome, but progress is necessarily slow The temporary project for the suburban drainage has, it is stated, been working successfully two of the pumping stations have only been at work for three quarters of the year After the earthquake of 12th June 1897, all the brick sewers in the town were examined, and 1 12 miles were repaired and cement pointed In Ward No 4 an important new road was completed connecting Gas Street on the south with Juggernath Dutt's Lane and Gurpar Road on the north, and in Ward No 7 a new road was made, connecting Roop Chand Road with Harrison Road

17 *Health Department* — The number of births recorded during the year was 12,584, which is very slightly lower than the 12,608 recorded in the preceding year, and is higher than the figures of any year since 1893 The birth rate per thousand of the population was 18 4, the same as in 1896, the average for the previous seven years being 17 8 The number of deaths recorded rose from 24,356 to 24,665 and the ratio per thousand from 35 7 to 36 1, which is considerably above the average figures for the five years 1892 to 1896, which are 22,824 and 33 4 The following statement shows the mortality from the various diseases during the past two years —

Year	Fever	Small pox	Bowel complaints	Cholera	Other causes	Total
1	2	3	4	5	6	7
1896	9,564	69	2,967	3,449	8,307	24 356
1897	9,619	161	3,218	2,349	9,318	24,665

There was thus a decrease in the mortality from cholera, but an increase in the deaths due to the remaining causes Compared with the averages of the previous five years, the figures show a rise in every instance, except in the number of deaths due to small pox Deaths from this cause, though more numerous than last year, fell considerably below the average for the eight years from 1889 to 1896, which is 467 The disease broke out in an epidemic form in Howrah at the beginning of 1897, and it was in consequence of this, it is stated, that the number of vaccinations rose from 11,976 to 21,620, a higher figure than that recorded in any previous year except 1895 It is noteworthy that during October, November, and December the town was absolutely free from small pox Five hundred and sixty three anti cholerae inoculations by M Haffkine's method were performed during the first three months of 1897, after which time the Corporation discontinued the grant for this purpose Deaths from cholera were most frequent in February, March and April, the mortality reaching its highest in March, and rapidly declining in May and June The number of deaths shown as due to fever has only once been exceeded

18 It was not till after the close of the year under review that plague made its appearance in Calcutta, and the Health Officer's report is therefore only concerned with the precautionary measures devised to guard against the importation of the disease by infected persons and things, and the action taken to prevent the lodgment and spread of plague, should it be found to have broken out The 17 sanitary circles into which the city had been divided were, in the month of May 1897, reduced to 10, each in charge of a fully qualified medical man This officer was called the Medical Inspector, and, according to definite rules which were laid down, was required to make himself acquainted with the sickness prevalent in his district, to examine persons reported or suspected to be suffering from plague, and, if necessary, to arrange for the removal of such persons to hospital, and the segregation of those who had come in contact with them It was his duty also to visit lodging houses and grain depôts and to report the existence of insanitary dwellings to the Chief Superintendent of Conservancy or the Assistant Health Officer During the year the Medical Inspectors examined 1,100 persons, who arrived in Calcutta from places where plague was in existence, enquired into 24 suspected cases which were subsequently held not to be plague, inspected 5,226 lodging houses 23,130 other houses, 17 rag depôts and paid 2,017 visits to granaries and 60 visits to coolie recruiters' depôts in Calcutta The Manicktola Plague Hospital, which had been partially constructed in the previous year, was completed, and sites were selected for the erection of other hospitals, two of which were subsequently constructed at Mucua Square and the Budge Budge Road A hand ambulance of the Bombay pattern was added to the two horse ambulances previously provided, an Empire stove and steam sprayer were purchased and 40 woollen pumps for disinfection with corrosive sublimate in solution were ordered from Japan The post of Chief Superintendent of Conservancy was continued, and held throughout the greater portion of the year by Mr De Putouch, with a strong special staff of Inspectors, Supervisors, and coolies In paragraph 36 of the Health Officer's Report an interesting account is given of the work done by this establishment, the results of which were speedily made apparent in the greater cleanness of the city

Plague was first detected in the town in the month of April in the present year, and continued in sporadic form up to the end of September The measures taken by the Corporation to meet it belong therefore to the history of 1898-99 At the present date Calcutta has been declared free from plague and it is the Lieutenant Governor's sincere hope that, notwithstanding the approach of the season at which its activity has been greatest elsewhere, the efforts made during the last two years will be successful in preventing its reappearance

19 The special Commission appointed by Government to examine the question of framing suitable building regulations for the town of Calcutta submitted their report during the year Their suggestions will be taken into consideration in the Calcutta Municipal Bill now pending in the Legislative Council

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Offg Secy to the Govt of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON WARDS' AND ATTACHED ESTATES IN THE LOWER PROVINCES FOR THE YEAR 1897 98

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 12th November 1898

RESOLUTION—No 2347

READ—

Report of the Board of Revenue on Wards' and Attached Estates in the Lower Provinces for the year 1897-98.

THE Board's report was received by Government a few days after the date upon which it was due

The total number of estates of all descriptions under the management of the Board during the year 1897-98 was 141 against 146 in the preceding year, there being a decrease of 2 in the number of wards' estates and 3 in that of attached estates and others Of these, 71 were wards' estates and 60 estates of which charge was taken under the Chota Nagpur Encumbered Estates Act of the remaining 10, 6 were trust estates and 4, estates under attachment Thirteen wards' and 13 attached and encumbered estates were under management for a portion of the year only

2 *Revenue and cesses due to Government* —The year opened with an arrear demand on account of revenue and cesses due to Government from the estates under the management of the Board, of Rs 1,14,425, which with the current demand of Rs 56,32,373 made up a total of Rs 57,46,798. Of this Rs 56,22,659 were paid, and the balance of Rs 1,24,139 remained outstanding A considerable portion (Rs 53,302) of the balance was due from the Bettiah Estate in Champaran, and has been paid up since the close of the year, while it is anticipated that the balance of Rs. 21,666 due by the Sridharpur Estate in Jessore will be paid as soon as a proposed loan of Rs 50,000 is raised on behalf of the estate The sum of Rs. 10,951 on account of the Patkum Estate in Manbhum is due from the Patkum Indigo and Trading Company as assignees of Mr C B Gregson, who holds the lease of the greater portion of the estate The amount is under realisation by the certificate procedure, and a revised scheme has been drawn up for meeting all Government demands In the Barabhum Estate in Manbhum Rs. 4,276 are due from Mr Mathewson as assignee of Messrs. Watson and Company, the lessee of the major part of the estate Government revenue to the extent of Rs. 4,319 was still due from the estate of Fazl Ali Khan in Chittagong, to which great damage was done by the cyclone and storm-wave of 24th October 1897, and in the Mohula estate in Shahabad, and that of Paigambarpur in Darbhanga, considerable arrears remained unpaid for want of funds In other instances this same cause is assigned as the reason for the arrears In some cases the sums due from individual estates are nominal The current demand of the year under report was about five lakhs in excess of that of the previous year, but the unrealised balances rose for the first time during the last five years to over one lakh

3. *Rent and cesses due to superior landlords.*—From estates that were under the Board's management throughout the year, the current demand of rent and cesses due to superior landlords amounted to Rs 3,58,779, which with the arrear demand of Rs. 1,18,081 made a total of Rs 4,76,860 for payment, of this Rs 3,45,985 were paid and Rs 189 remitted, leaving a balance of Rs. 1,30,686 There has been a large increase in the unpaid balances, payments having amounted to 96 4 per cent of the current and 72 5 per cent. of the gross demand, against 98 5 and 83 3 per cent respectively in the preceding year More than two thirds of the balance were, however, due from four estates only—the Sridharpur Estate in Jessore (Rs 45,940), the Satkhira Estate in Khulna (Rs 39,572), the Burdwan Raj (Rs 7,229), and the estate of Muzaffar Ahmad in Chittagong (Rs. 6,928) At the close of the previous

year an almost equal balance was still due from the Satkhira Estate, the greater portion of which was however, adjusted during the year, and of the present amount shown as outstanding only Rs. 17,629 have since been left unpaid for want of funds The amount due by the Burdwan Raj Estate remained unpaid for want of the names and proper addresses of the landlords and omissions on their part to arrange to receive payment The balances due from the Sridharpur and Muzaffar Ahmad estates were on account of lack of funds, the latter estate having suffered severely in the cyclone In the Paigamberpur estate a large sum (Rs 9,725) was left unpaid for similar reasons

4 *Collection of rents and cesses* —The progress made in the collection of rent and cesses due to the estates under the charge of the Board during the five years ending 1897 98 is shown below —

Year.	Demand.			Collections.			Percentage of—		Remissions.	Balances
	Arrear	Current.	Total.	Arrear.	Current.	Total.	Current collections on current demand	Total collection on total demand.		
1	2	3	4	5	6	7	8	9	10	11
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			Rs	Rs.
1893-94	66,78,037	97 38,203	1 64,16 230	39,24,402	64,13 911	03,07 313	65 8	57·2	4,25,740	56 97 173
1894-95	62,50 095	92 45,008	1,55,35 103	39,33,916	61,59,226	01,33,142	66·4	57 3	5,07,994	51,18,978
1895-96 ,,	61 50,670	93,44,103	1,55 03,969	39,16 194	59,93,481	99 09 675	64 1	57 4	5 90 113	50 04,345
1896-97	65,16 803	95 92,028	1 64,14,886	39,32,121	59,67,696	91,99,717	61·9	55 6	4,15,543	69,99,549
1897-98	76,63,028	1,19,50 216	1,96,23,249	40,15,064	76,66,775	1,20 04,893	63·9	61 1	3,57 816	72,79,353

The Lieutenant Governor would himself prefer a comparison between total collections and the current demand. It is on the whole the best comparison, for the allotment of receipts between arrears and current rent varies with very different circumstances, and the arrear balances, as will be presently seen, constantly comprise items which should not be on the roll at all Judged by this standard, the rent collections under the Court of Wards appear to him generally excellent, and for the year under report remarkable. The figures are—

1893 94	96 5 per cent
1894-95	98·5 ,,
1895-96	95 3 ,,
1896-97	95 5 ,,
1897-98	100 3 ,,

The increase in the arrear and current demands is chiefly attributable to the assumption of charge of the Bettiah Estate in Champaran The total collections exceeded a year's rent, and having regard to the unfavourable circumstances of the year were satisfactory The percentage of current collections on the current demand for all estates was 65 9, and for estates in charge throughout the year, 66 7 These figures show a slight improvement on those of the previous year, as also on the proportion of total collections to total demand. The collections were worst in the Bhagalpur Division, where only 43·9 per cent of the current demand was realised, the result is partially attributed to the bad collections in the Lugma Estate in Bhagalpur owing to some confusion in the management, and where also the tenants had suffered severely from the scarcity of the previous years. The unsatisfactory results in the Presidency Division are ascribed to the release of the Kasimbazar Estates, confusion in the rent-roll of the Sridharpur Estate, and mismanagement in the Syedpur Estate Among estates with a rent and cess roll of over Rs 50,000, only two attained the prescribed standard of a collection of 90 per cent of the current demand. The proportion in the Paigambarpur Estate (17·3 per cent) was even worse than in the preceding year, while the results were also poor in the Hatwa Raj (39 7), and the estates of Khagra (33 4), Satkhira (40 2), and Chandra Kumar (38·6). In the Hatwa Estate, however, the Commissioner, considering the fact that famine prevailed during a considerable portion of the year, and that even after the famine unusual demands were made upon the raiyats for advances taken during it, and on account of the cost of the survey and settlement proceedings, is of opinion that better collections could not have been expected.

At the close of the year a total amount of Rs. 72,79,564 was altogether due to the estates under management as compared with Rs 68,26,546 in the previous year. The large increase from Rs 10,21,690 to Rs. 24,28,606, in the balance due to estates in the Patna Division, of which charge was held during the whole year, is the result of the inclusion of the figures of the Bettiah Estate which was brought under management during the year, and to the fact that the accounts of the Hatwa Estate, charge of which was assumed during 1896-97, have been shown for a complete year

The subject of the classification of the arrear balances, with a view to the separation of amounts which are really due and realisable, from sums in reality fictitious and hopelessly irrecoverable, is one to which special attention has now been directed for several years, and orders have been issued that the accounts should be cleared of nominal outstanding demands of the latter description Special reports were called for by the Board, which were received from all but the Patna and Orissa Divisions, and the Lieutenant-Governor is satisfied that the matter is one to which special consideration is being directed During the year under report various special circumstances existed which to some extent explain the apparent increase in the balances unrealised during the year As explained, the figures of the Bettiah Estate now appear for the first time, as also do those of the Hatwa Raj for a complete year, the serious damage done to the crops in Chittagong by the cyclone necessitated the exercise of leniency in the collection of rent, and in the Presidency Division the assumption of the charge of the Sridharpur Estate, with outstanding arrears of Rs 3,20,098, all tended to swell the figures unduly At the same time famine prevailed in various parts of the Province during the first half of the year, and in all districts the effects of the previous scarcity were felt almost to its close In some instances, however, sufficient attention does not appear to have been paid to the orders of Government, and the Lieutenant-Governor agrees with the Board that it is again necessary to call the special attention of the Commissioners to the subject, and to insist that prompt and energetic action shall be taken to give effect to the instructions already issued In the Resolution on the Report for the previous year, various estates were instanced in which the balances might be considerably reduced, and in some cases cleared off altogether by the remission of the amounts classified as legally inadmissible or irrecoverable for sufficient cause The Lieutenant-Governor observes that the accounts of most of these estates still exhibit the same features. The proportions borne by the total balances shown as outstanding in the estates then mentioned and which are still under the management of the Board, to the amounts classified as likely to be recovered, are indicated in the margin The remainder shown as outstanding is either barred by limitation, under valid objection, or irrecoverable for good reason, and it is evident that much remains to be done before the accounts of these estates can furnish an accurate representation of their true financial position That is, in itself, an important reason for the exclusion of these items, but it is far more important that demands which cannot be legally made, should not be kept hanging over the heads of the raiyats of the estates In the Burdwan Estate as much as Rs 80,062 barred by limitation is still borne on the rent-roll, and the Commissioner reports that the progress made in clearing off arrears has not been satisfactory In the Bettiah Raj Rs 55,772 are said to be under valid objection on the part of the tenants The arrears outstanding in the Syedpur Estate in Khulna are large, amounting to Rs 1,11,651, most of which is, however, classed as recoverable The fact that the date fixed for the sale of patni tenures fell after the year under report was responsible for the non-realisation of Rs. 65,608. The balances of the Sridharpur Estate have not yet been classified, but 24 estates in all still show total balances outstanding, in excess of 100 per cent. of the current demand.

Estate	Total balance outstanding	Amount of total balance likely to be realised.
	Rs	Rs.
Maligbati	32 865	9,696
Saktikira	2,23 050	1,59,402
Tikari	4,66,092	2,75,167
Chandra Kumar	62,376	20,612
Hatwa	9,00,719	7,09,631
Bhowhar	42,210	24,778

5. Debts due by estates.—The estates which were under the Board's management for the entire year were indebted to a total amount at the

commencement of the year of Rs 34,21,249, while additional liabilities to the extent of Rs 95,02,421 were ascertained to be due or newly incurred during the year, making a total of Rs 1,29,23,670 After deduction of the payments made, amounting to Rs 10,59,864, and allowing for a reduction of Rs 1,23,134 by compromise a balance of Rs 1,17,40,672 remained outstanding at the close of the year The large increase in comparison with the amount due at the close of 1896 97 (Rs 31,48,377) was mainly due to the inclusion in the figures for the first time of the debts due by the estates of Sridharpur (Rs 94,197), Bettiah (Rs 80,15,437), Patkum (Rs. 1,78,554), and Kera (Rs 92,282) Reductions were effected in the encumbrances of all the most heavily-indebted estates with the exception of those of Khajwa, where an effort to raise a loan at reduced interest having failed, the sale of some of the outlying portions of the estate has been sanctioned, Mobarak Hussein, for which no explanation has been furnished, and Paigambarpur, which felt the effects of the famine severely, and also suffered from mismanagement In the case of estates taken in charge or released during the year, the total encumbrances amounted to Rs 2,32,240, of which Rs 3,873 were paid and Rs 17,359 reduced by compromise, leaving a balance of Rs 2,11,508

6 *Management charges and rates*—During the year the management charges in all Divisions were carefully scrutinised with a view to possible reductions, but, as the Board point out, uniformity among estates managed on widely diverse principles is not possible Reductions were effected in the Presidency Division, but the apparent decrease in the Patna Division is due chiefly to the low percentage of cost in the Hatwa and Bettiah Estates, large portions of which are held on lease. In other Divisions no great economies are reported to be possible, and several of the apparent fluctuations are the result of temporary accidental causes The cost of management in the estates under the charge of the Board as a whole, excluding the cost of construction and repairs of office buildings, amounted to 6 9 per cent of the total current demand for rent and cesses, as against 8 1 per cent in 1896-97 The charge seems to the Lieutenant Governor to be on the whole moderate, and he has no desire to press economy to the point of injuring the efficiency of management The percentage continues to be highest in the Orissa Division, although it was reduced from 17 1 in 1896 97 to 14 6

The figures for receipts and charges on account of the general and audit rates are reported to be subject to revision after certain discrepancies have been reconciled The expenditure to be covered by the management rate levied under Act X of 1892 was estimated at Rs. 1,54,000, in addition to which there was an estimated deficit of Rs 18,931 at the close of the previous year Including the Bettiah Estate, the charge of which was assumed on 1st April 1897, the gross income of the estates under management was estimated at Rs 1,23,45,611, and the demand on account of the general rate levied under Act X of 1892, at Rs 1,77,673, or a surplus of Rs 4,742 over and above the sum required. The actual demand, however, amounted to Rs 1,68,695 only, while the deficit at the end of 1896 97 was Rs. 21,344 Taking into account an increase over the estimate of Rs 3,612 in the actual charges in Government offices, the actual expenditure to be met amounted to Rs 1,78,956, and the net deficit at the end of the year to Rs 10,261. In addition to the current demand of Rs 1,68,695 as above, the year opened with an arrear demand of Rs 33,310. Of the total of Rs 2,02,005 thus recoverable, Rs 1,39,661 were realised and Rs. 28,834 paid in advance, leaving a balance of Rs 41,510, which is said to have been mostly collected since the close of the year In the Resolution on the report of last year it was observed that if the rules prescribing the payment of the rate half-yearly in advance were adhered to, it was not understood how arrears had been allowed to accrue From the explanations received it appears that officers wait until the close of the year to ascertain the actual gross income upon which the rate is leviable, but this as the Board observe is unnecessary, since the rate is leviable on the estimated gross income

The rate for the professional audit of accounts of estates with annual rent and cess demands of Rs 50,000 and upwards, was fixed for the year under report at one anna per Rs. 100 of the gross income of the Burdwan Estate,

four annas for the Tikari Estate, and seven annas for the 21 other estates concerned The demand so calculated amounted to Rs 17,096, while the actual charges were Rs 19,482, leaving a deficit of Rs 2,386 Taking into account, however, the surplus of Rs 3,936 at the end of last year, there is a surplus at the close of 1897-98 of Rs 1,550

In the previous year attention was drawn to the doubtful legality of the practice which was supposed to exist of maintaining a running account of the rates from year to year It is now explained that this is not in effect done The rate is paid on receipt of a requisition from the Accountant General after the audit of the accounts As the audit of all estates is not completed before the end of the year, the amounts from some estates remain to be realised at its close In the event of an advance payment having been made, and the estate being released within the year, the sums so paid are refunded to the proprietor.

7 During the last five years the following amounts have been spent on the various descriptions of improvements —

Year.	Subscriptions and donations to schools	Subscriptions and donations to dispensaries	Maintenance in efficient condition of estates, buildings and other immovable property	Improvement of land and property and benefit of ward	Surveys and settlements	Total
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs	Rs	Rs
1897 98	72 948	61 515	3 64 778	2,18 905	2 25 591	9 46 737
1896 97 ..	52 941	44 790	4 89 094	1 78 52	1 [illegible],114	7 78 090

1894 95	50 217	38 564	1,68 08	1 43 208	1 64 705	5 65 502
1893 94	59 844	46 527	2 45,225	1 58 406	2 01 899	7 12,901

In paragraph 8 of the Resolution on the Board's report for the year 1896 97, it was directed that, as was done in Government estates, solvent estates under the charge of the Court of Wards should contribute 1 per cent of the annual demand to education, while under previous orders contained in Government Resolution No 895 P R, dated 9th October 1896, it was similarly directed that at least 3 per cent of the rental or such larger percentage on the surplus that remains after payment of Government revenue, and cost of management, &c, as the Board may determine, should be set aside for agricultural and sanitary improvements A statement has been submitted showing how far effect was given to these orders in 47 estates during the year under report, from which the following particulars are taken —

Division	One per cent of the rental.	Three per cent of the rental	Expenditure on schools	Expenditure on works of improvement
1	2	3	4	5
	Rs.	Rs	Rs	Rs
Burdwan	47,246	1,41,738	26 654	42 431
Presidency .	3,594	10,782	2,798	11,239
Rajshahi	1,921	5,763	114	2,045
Dacca	1,563	4,689	197	9,220

Total	85,241	2,55,723	59,468	1,72,189

In six estates, viz, Khagra, Narainpur, Sankara, Kanika, Dhanwar, and Begoonkoodar, the expenditure, both on schools and works of improvement, reached the prescribed standards In five other estates, viz, Syedpur, Panameah, Hatwa, Jogearah, and Mirza Mahomed Hossain's, the expenditure on schools was satisfactory, and in ten other estates (including Bhowanipur and Dakhin Shahbazpur) that on works of improvement amounted to the proportion prescribed Expenditure as regards education is reported to have been especially inadequate in the Mahghati and Bhowanipur Estates, and in those of the Rajshahi and Dacca Divisions generally In the Hatwa Estate, the expenditure on works of improvement was above the standard fixed by Government, if the sum of Rs 52,118 be included, which has been classified as spent on "Famine Relief," but which was laid out on the excavation of tanks and the repairs of roads In the Burdwan Raj Estate, the sum devoted to works of improvement attains the standard of 3 per cent of the rental only after deduction of Government revenue and the cost of management, &c The Board, however, draw attention to the special conditions of the estate, and consider that the sum so spent is adequate It is represented that the excavation of tanks and wells and the encouragement of arboriculture are but little required in the Nalhati Estate, and that the purchase of landed property would be a more suitable method for utilising the surplus funds With this view the Board agree The Lieutenant-Governor, however, remarks that the purchase of landed property is not the kind of agricultural improvement contemplated in the Resolution of the 9th October Such purchases may be a desirable and useful way of spending surplus funds, but they do not constitute agricultural or sanitary improvements As a large portion of the surplus proceeds of the Syedpore Trust Estate is spent on Muhammadan education under special orders, the rule requiring expenditure on schools on that estate may be relaxed

The only experimental farm was, as before, that at Pala, maintained by the Burdwan Raj Estate Experiments with various crops in different estates met with but partial success The cultivation of Naini Tal potatoes in Dhanwar and some ten estates in Lohardaga proved successful, but failed in the Kanakshar and Madhupur Estates English vegetables gave satisfactory results in both the Dinajpur and Purnea circles of the Maldwar Estates, and in the Chakma Raj's Estate in Chittagong Carrots were cultivated with success in the Bettiah and Khagra Estates, and in the latter Indian corn and guinea grass also A dairy farm for the Tikari Estate, was sanctioned during the year, but was not brought into working order

8 *Survey and Settlement*.—In five estates survey and settlement operations, under the supervision of the Director of Land Records were in progress during 1897-98, and the operations in all were concluded either during the year or shortly after its close, the final reports on the proceedings in the Dakhin Shahbazpur and Sirrampur Estates being received by Government Excluding the estates included in the general operations in Chittagong, Orissa, and North Bihar, there were ten other estates under survey and settlement subject to the supervision of the Board

In the Resolution of last year it was observed that the arrangements for the maintenance of the survey and settlement proceedings, after the completion of operations, appeared in some cases to exist only on paper, and the hope was expressed that satisfactory arrangements might be come to for ensuring that effect would be given to them in practice The whole subject is one which is at present under the consideration of Government in connection with the working of the Land Records Maintenance Act III (B C) of 1895, and may more conveniently be discussed in the Resolution on the annual report of the Director of Land Records and Agriculture, but upon receipt of the Government orders referred to, the Board instituted special enquiries on the point, in connection with the Burdwan, Maldwar, and Dakhin Shahbazpur Estates, the results of which are summarised in their present Report In the Burdwan Estate a special establishment was employed and the *parchas* opened by the tahsildars were checked and compared with the original *khatians* Field to field attestation was also effected over an area of 14,464 bighas In Sujamutha the rent roll is in course of revision with a view to its issue under section 2, Act III (B C) of 1895 In the whole estate, where holdings are reported to be not transferable by custom, only 600 transfers were registered in the mahals held direct by the Raj In Maldwar, where, similarly, the custom of

transferability of holdings is said not to exist, registers and returns have been prescribed, but the work is progressing slowly Out of 1,043 applications received, only 250 appear to have been disposed of In Dakhin Shahbazpur the rules were brought into operation, but the field to hold comparison of maps and khasras made little headway It is reported that necessary arrangements for the maintenance of the records were made in the Syedpur Estate, and that a peripatetic establishment is maintained for the purpose in the wards' estates in the Sonthal Parganas Special rules for the Kanika Estate were approved during the year

9 *Certificates* —The working of the certificate procedure in wards' estates during the year 1897 98 and four preceding years is shown below —

Division		Number pending from last year	Number filed during the year	Total	Disposed of during the year	Pending more than six months	Pending less than six months	Total	Amount of demand covered by the certificates	Total amount realizable by certificates

NOTE The difference between the number of certificates pending at the close of 1896 97 and the number shown as pending at the commencement of 1897 98 is due to the exclusion of 16 certificates of the Kujang Estate and omission of 71 certificates of Sukraj Rai's Estate and inclusion of 1 certificate of the Lugma Estate and 1 of the Rerhung Estate for which explanations have been called for also 1 certificate of Tilmi Encumbered Estate released in 1896-97 has been excluded

There was a satisfactory decrease in the number of certificates filed during the year 1897 98, as compared with the figures for the four preceding years, while the percentage of the total number disposed of remained practically the same as during 1896 97, with the result that there was a decrease of 1,323 in the number of cases left pending at the close of the year The only Divisions in which more cases were instituted during the year than in that preceding were those of Patna, Bhagalpur, and Chota Nagpur, where the local circumstances of different estates affected the figures The decrease in the other Divisions is attributed to the greater leniency shown to defaulters, and to the stricter observance of orders prohibiting the use of the certificate procedure in estates in which a record of rights has not been prepared Out of the total demand covered by the certificates filed, only 39 7 per cent was realised, as compared with 4 3 5 per cent during the previous year

10 *Civil suits* —Particulars of civil suits for the recovery of rent and cesses due to the estates under management are given below —

Division		Number of suits pending from last year	Number filed during the year	Total	Disposed of during the year	Pending more than six months	Pending less than six months	Total	Amount of demand covered by the suits	Amount decreed	Amount recovered
1		2	3	4	5	6	7	8	9	10	11

Total for	1897 98	700	3 903	4 603	4,199	104	80	184	1 6 5 8	4, 303	1 81 0
	1896-97	658	3 501	4 159	3 518	431	110	541	3 8 4	84 4 8	1 81 117
	1895 96	583	3 086	4 069	3 314	389	366	7	3 31 0 0	3 0 60 5	1 0 6 0 6

NOTE —The difference between the number of civil suits pending at the close of 1896 97 and the number shown as pending at the commencement of 1897 98 is due to the inclusion of 41 suits omitted from previous year's statements of which 1 suit of the Lugma Estate and 1 suit of the Dakhin Shahbazpur Estate erroneously shown as pending in the previous statement of 1896 97 and 70 of Sukraj Rai's Estate for which explanations have been called for also 1 suit of the Tilmi Encumbered Estate released in 1896 97 has been excluded

Although the number of suits filed during the year increased, there was a satisfactory decrease in the number of cases left undisposed of at the close of the year, and noticeably of those that had been pending for more than six months The Lieutenant Governor observes that the remarks made last year as to the necessity for greater energy in the execution of decrees once obtained have borne but little fruit, the results of this year being even worse than in 1896 97, only 39 per cent of the demand having been recovered as compared with 46 per cent in the previous year He trusts that in this respect better results will be attained during the current year As matters stand, there seems little use in sueing for arrears

11 *Condition of the tenantry* —The failure of crops and the distress resulting therefrom occurred in various degrees in most of the estates under the management of the Court of Wards during 1896 97 and also in the first portion of the year under report, but towards the latter half of the year the condition of the raiyats improved generally owing to the good crops then reaped and the high prices obtainable for the produce Relief operations, apart from the general scheme of relief in districts in which famine was declared to exist, were carried out in several estates In Cuttack, in the Kujang pargana in the Burdwan Raj some Rs 13,000 were advanced as famine loans, and Rs 1,354 gratuitously Advances were also given and relief works opened for the benefit of the tenants of the Bhowanipur Estate in the district of Khulna and operations were undertaken on a very extensive scale in the Hatwa Estate in Saran, where the famine was severely felt, about 6½ lakhs of rupees being spent on relief, and some 84,000 maunds of rice advanced on loan The Lieutenant-Governor is pleased to observe the statement that the indigo concerns, who hold a number of villages on lease from the Bettiah Estate, while continuing the regular payment of the sums due to the estate, stopped the collection of rent from their raiyats during the famine Considerable sums were spent on relief in the Lugma Estate and the Wards' estates in the Sonthal Parganas, and over Rs 50,000 were so expended in the Kanika Estate in Cuttack In the Satkhira Estate and in that of Syedpur, during the early part of the year, the condition of the raiyats was unfavourable, while the low price of jute, the occurrence of floods, and an outbreak of cholera caused distress in the Maldwar Estate The harvests are said to have been insufficient in the estates in Noakhali and in Chittagong, and a cyclone and storm-wave, following on the bad harvests of the previous year, seriously affected the tenants Both in the Patna and Chota Nagpur Divisions the effects of the famine were severely felt, and the raiyats on Wards estates suffered in common with those of ordinary zamindars The harvests of the latter part of the year were, however, favourable, and conditions were steadily improving towards the end of the year In fact, the high prices prevailing were a distinct advantage to cultivators with crops to dispose of, and it is stated regarding the Narhan Estate that the tenants had more hard cash in their hands than they have had for many years

12 *Estates with a rent-roll of Rs 50,000 and upwards* —As usual, a short account is given of the affairs of each estate with a rent roll of half a lakh or upwards The Maharajkumar of Burdwan was married during the year, and the successful management of the estate continues under the able supervision of Raja Ban Behari Kapur The settlement of police service lands with the estate by Government continued, lands in 454 villages being so disposed of, and the revenue amounting to Rs. 16,890 being fixed A re-survey of the jungle lands discovered the actual area in possession of the tenants to be more than two and a half times that mentioned in their *pattas* which, if assessed at the same rates would have yielded Rs 15,120 The amicable settlement made as regards about a third of the land in question would appear to be very lenient, the area assessed having increased 192 per cent, and the rent assessed having been raised by 20 per cent only The settlement of ghatwali lands in Bankura was somewhat retarded by the orders of Government directing the grant of *mukarrari* rights to the Ghatwals The current demand of the estate, amounting to Rs 46,68,233, showed an increase of Rs 47,376, and with the arrear demand (Rs 23,85,353) made a total of Rs 70,53,586, out of which Rs 47,16,765, or 101 6 per cent on the current demand, were collected Excluding remissions, amounting to Rs. 82,920, the balance outstanding was Rs 22,23,901, of which Rs 10,40 000 were collected after the close of the year by proceedings under Regulation VIII of 1819, and claims to Rs 10,14,508

are good and in process of realisation In the Resolution on the report for 1896-97 it was directed that the Manager should be called on to report the steps taken to clear the accounts of irrecoverable and fictitious balances The unrealised arrears, amounting to Rs 11,83,901, are slightly less than in the previous year, but Rs 1,11,030 are still borne on the accounts, though described as bad and irrecoverable Prompt measures should be taken to clear these off The progress made in the recovery of debts due to the estate was slow, a balance of Rs 99,174, though mostly covered by decrees and bonds, remaining unrealised out of a total demand of Rs 1,23,587 While the total receipts by the Raj showed an increase of Rs 3,44,295, the expenditure rose by Rs 4,79,282, about half of which was due to the expenses in connection with the marriage of the Maharajkumar The sum of Rs 41,234 was spent on improvements as against Rs 32,738 in the preceding year, or about 6 6 per cent on the current demand of Rs 6,19,277 on those portions of the estate which are not permanently leased The Board consider this expenditure sufficient The litigation on behalf of the estate was on the whole successful, but only about 29 per cent of the amounts covered by civil and certificate decrees in favour of the estate was realised or remitted The Board have drawn the special attention of the Manager to the matter

As noticed last year, charge was assumed of the Hatwa Raj in October 1896 The estate has lost the valuable services of the Manager, Mr M Buskin, who retired on a well earned pension on 31st March 1898 The demand of Rs 2,55,246 due to Government on account of revenue and cesses was paid in full, the balance shown being merely nominal The arrear demand shown as due to the estate at the commencement of the year amounted to Rs 9,64,926 while the current demand was Rs 10,44,571, of which Rs 11,10,437, or 106 3 per cent on the current demand, were realised Of the balance of Rs 9,00,719, Rs 1,92,200 are reported to be irrecoverable or doubtful of recovery, and no time should be lost in submitting the remission statements promised The closing balance to the credit of the estate amounted to Rs 18 17,891 and Rs 18,15,087 were invested in Government securities of which the estate now holds Rs 27,38,575 in value The cost of management, including the commissions paid on collections in villages which are in lease, amounted to 12 2 per cent on the current demand The outlay on improvements comprised the expenditure of Rs 5,516 on the construction of new wells and drains, &c, and the purchase of one Hissar bull for breeding purposes, Rs 52,118 in addition were expended in re-excavating and enlarging old tanks, and in the repair of village roads as relief works during the late famine In view of the fact that a total sum of Rs 6,19,240 was spent in connection with the famine, a larger expenditure on improvements proper was not necessary

In the Tikari Estate the year opened with an arrear demand of Rs 5,48,061, and a current demand of Rs 8,89,958, or a total Rs 14,38,019, out of which Rs 8,50,104, or 95 5 per cent on the current demand, were realised, in comparison with 99 1 per cent in the previous year The falling off occurred in the North Bihar portions of the estate which were included in the famine area The outstanding balance of Rs 4,96,431 was reduced to Rs 4,66,092, the sum of Rs 98,898 being written off as irrecoverable, but as Rs 1,60,036, of which about a third only has been reported for remission, is still classified as bad and irrecoverable, the Lieutenant Governor would rep at the hope expressed last year that such demands will be written off without delay and a strenuous endeavour made to realise the recoverable balance Sir John Woodburn is glad to observe that the proportion of the cost of the management to the current demand has been reduced from 18 6 per cent, in the previous year, to 15 6 per cent, but it is still high, and the actual expenditure increased, for which no explanation has been furnished Attention was drawn in reviewing the report of the preceding year to the apparent decrease in the expenditure on works of improvement from Rs 35,174 during 1895 96 to Rs 19,220 in 1896 97 It is now explained that the real expenditure during the previous year was Rs 66,695, the difference not having been shown, as it had been spent in anticipation of sanction Unless a similar explanation holds good this year

also (and, if so, it should have been furnished), it is not understood how the expenditure shown in the year under report amounted to Rs 20,604 only

The balances outstanding in the Satkhira Estate amounting to Rs. 2,23,050 were very heavy, the estate is not solvent, and was unable to pay in full the demands due to superior landlords The reduction of the proportion of the cost of management to the current demand from 14 2 to 12 per cent during 1897-98 was satisfactory, but owing to the financial position of the estate merely a nominal sum could be expended on improvements The difficulties in the way of expenditure on improvements in the Narhan Estate have already been referred to, but it is noted that the cost of management, which was already high, has increased to 15 per cent on the current demand

The collections on the Bhowampur Estate were good, amounting to 111 2 per cent on the current demand, but there was a decrease of Rs 4,491 in the amount spent on improvements, although the estate has a large invested capital of Rs 1,35,665 There was a falling off in the collections in the Syedpur Estate, but the greater part of the large balance shown as outstanding was due from *patni* tenures for which the sale day fell after the close of the year The collections on the Maldwar Estate improved, but there is still a large uncalised balance said to be recoverable, the execution of improvements was retarded owing to delay in appointing an overseer, who was also chiefly employed in supervising the erection of a residence for the wards The Lieutenant Governor is glad to observe that good progress was made in the Kanika Estate in collecting the arrears which had accrued from the previous year when the collections amounted to 62 1 per cent only of the current demand, the corresponding percentage in the year under report being 124 per cent Affairs in the Paigambarpur Estate are still in a most unsatisfactory position The management has never been efficient, and the estate suffered severely from the effects of the famine Collections were even worse than in the preceding year, being 37 4 per cent of the current demand only, as compared with 42 7 per cent in the previous year There was a change of managers during the year, and the Bhagalpur portion of the estate, which is the most extensive and difficult of control, was placed under the Collector of Bhagalpur with a special sub-manager, from which much improvement is expected The expenditure on improvements in the Dakhin Shahbazpur Estate, which was reported last year to have amounted to Rs 2,602, a sum regarded as insufficient, is now explained to have really been Rs 7,074 owing to the inclusion of works subsequently completed The expenditure during the year under report was Rs 8,644 There was a noticeable improvement in the collections in the Sheohar and Mahishati Estates in the districts of Muzaffarpur and Midnapore respectively

13 Of the 13 estates taken in charge during the year, the Board have separately reviewed the circumstances of 5, and of the 13 estates similarly released, a special account has been given of 11 A brief notice has also been given of 12 estates the charge of which was assumed or relinquished during previous years, but the particulars regarding which had not been incorporated in former reports The most important estate which came under the control of the Court of Wards during the year was that of Bettiah, charge of which was assumed on 1st April 1897, the proprietress of the estate, the junior Maharani Janki Koer, widow of the late Maharaja Sir Harendra Kishore Singh, KCIE, being declared, under section 6(*a*) of Act IX (B C) of 1879, disqualified to manage the estate The estate comprises lands, houses and temples scattered over 10 districts in the Patna Division and in the North Western Provinces, though the greater part of the property lies in Champaran In addition, a conditional deed of sale for Rs 15,00,000 is held over the Bhoputpore estate, for which it is shortly intended to foreclose The portion lying in the North-Western Provinces is managed under the supervision of that Government. The total income of the Raj is Rs 18,78,514, of which Rs 18,18,194 is from landed property, the rental of the villages held in Champaran alone amounting to Rs 17,01,156 The state of the rent-roll is reported to be satisfactory, no doubts exist as to the rents payable, which are fair, and in Champaran particularly low The cadastral survey operations have included the Champaran portion of the estate along with the rest of the district The rent-rolls

so far received of the settled villages show a general increase on account of extensions of cultivation The system of letting out villages in lease obtains to a large extent, in Champaran annual rent and cesses amounting to Rs 5,61,584 are received from indigo planters on account of villages held by them in perpetual lease, and the sum of Rs 5,95,502 in respect of leases for shorter periods Rupees 4,68,210 are similarly paid by temporary native lessees A special report has been called for from the Board of Revenue on the subject of the continuance of the system There is a large sterling loan upon the property, as security for which promissory notes to the value of Rs 4,02,000 are held by trustees The Collector of Champaran has been appointed Managing Collector of the Bengal portions of the estate, and Mr J R Lowis as Manager on a salary of Rs 1,800 per mensem, with two Assistant Managers under him The management charges amount to Rs 1,48,923, or 8 5 per cent on the current demand of Rs 17,42,125 A Middle English School and a large female hospital under the Countess of Dufferin Fund are maintained at the cost of the Raj in Bettiah, and, in addition to four outdoor dispensaries about to be opened in different parts of the estate, subscriptions are made to various Government schools and hospitals Subsequent to the death of the late Maharaja, two suits were filed claiming succession to the estate That filed in 1895 by Babu Ram Nandan Singh was decided in his favour in July 1897 in the Court of the Subordinate Judge of Tirhut, but execution has been stayed pending the decision of the appeal preferred The second suit instituted by Babu Girija Nandan Singh, of Sheohar, has been dismissed

Of the estates released during the year, the largest was that of Kasimbazar in Murshidabad which was restored to the proprietor in September 1897 after being successfully managed for a period of seventeen and-a-half years The rent-roll which stood at Rs 2,94,564 at the time of the assumption of charge had risen to Rs 3,54,974 by the date of the release of the property, owing to the purchase of new villages and the settlement of pargana Sarail Of the total recoverable demand of Rs 61,08,022 during the management of the Court, deducting remissions on account of the deaths, desertions, and poverty of the raiyats, 86 3 per cent was collected Debts to the extent of one lakh were liquidated, and the property handed over with a balance to its credit of Rs 2,13,253 Rupees 1,59,434 were expended on improvements during the period of management by the revenue authorities, mostly on the excavation of tanks, wells and irrigation channels, and the construction of roads and bridges, while investments in landed property were made to the extent of Rs 4,05,525 A cadastral survey and settlement was carried out in pargana Sarail in Tippera belonging to the estate at a net cost of Rs 1,83,199

Other extensive estates released during the year were those of Babu Sukraj Rai in Bhagalpur and Shankarpur in Dinajpur The former had been under the control of the Court of Wards for eight years, the debts due by it, amounting to Rs 49,345, were practically liquidated, and the estate restored with a balance of Rs 46,812 It is noticeable that during this time, notwithstanding the accumulation of a considerable balance, only Rs 2,200 were spent on the improvement of the property The management of the Shankarpur Estate extended over 25 years A survey and settlement of the estate was carried out at a cost of Rs 91,584, of which Rs 49,208 were recovered from the tenants and co sharers Rs 27,154 were spent on improvements, mostly on increasing the water supply and the encouragement of arboriculture The rent-roll was raised by Rs 26,734, chiefly owing to the survey and settlement proceedings and to reclamations and re settlements The balance in hand, when the estate was released, amounted to Rs 64,810 in addition to promissory notes to the value of Rs 2,55 500 in deposit in the High Court A survey and settlement at a cost of Rs 33,790 was carried out in the Talipabad Estate in Dacca previous to its release, and heavy liabilities appertaining to the estates of Koer Bhagwant Persad in Patna and Namsodag in Palamau were discharged, though not without recourse to the sale of portions of the properties

14 *Encumbered estates in Chota Nagpur* —There were 60 estates managed under Act VI of 1876 during the year in comparison with 61 during

1896-97 The collections of rent and cesses due to them are shown below —

District	Arrear demand	Current demand	Collections	Percentage of total collections on current demand	Remissions	Balances	Advance collections on account of the ensuing year
1	2	3	4	5	6	7	8
	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Hazaribagh	55,136	1 36 388	1 25,632	92 7	5,444	59 448	31,849
Lohardaga	64,464	80,471	71,595	88 9	3,266	70 074	208
Palamau	8 659	16 992	16,204	95 3		9 447	
Manbhum	3 12,868	3 73 192	3 44 916	92 4	259	3 40,885	6
Singhbhum	1 35 503	88,637	88 265	99 6	18,319	1,17,606	37
Total for 1897 98	5 76 690	6 94 683	6 46 612	93 0	27,288	5 97 460	32 095
Total for 1896 97	4,64 463	6,48,382	5 72 554	88 8	53,928	4 81,160	26,261

The progress made in the repayment of the debts due by the estates is shown in the following statement —

District	Due at the commencement of the year	Ascertained and incurred during the year	Total	Payments	Reductions by compromise	Balance due at the close of the year	Total amount provided in the scheme for payment of debts as shown in the Commissioner's annual report
1	2	3	4	5	6	7	8
	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Hazaribagh	6 37 624	1 54,966	7 92 590	68,688	17,309	7 06 043	75,292
Lohardaga	2,31 607	66 916	2 98 523	49 110		2 49 413	76 913
Palamau	1 12 805	4 138	1 16 943	16,089		1 00,854	17,679
Manbhum	10 97,754	3 55 384	14 53 138	46 993	86 903	13 19 242	1 11 717
Singhbhum	66 012	1 23 953	1,89,965	37 383		1,52 582	40 929
Total for 1897 98	21 45 802	7 05 357	28 51 159	2 18,263	1 04,262	25 28,634	3 12 550
Total for 1896 97	21 98,189	2,54 488	24,52,677	1,57 969	6 320	22 88 388	2 29,262

The Board are of opinion that, considering the severe scarcity which was felt in the Division during the early part of the year, the improvement in the percentage of collections is creditable, the results were worst in Lohardaga, where for a time at least, the distress was most acute The revenue demand due to Government was paid in full by all estates with the exception of those of Burrabhum and Patkum The payments of debts were, as in the previous year, less than the amounts provided in the schemes of management of the different estates, the relative proportions in the two years being about the same (69 per cent) Explanations of the deficiencies have been furnished by the Commissioner

15 The thanks of Government are due to the Board of Revenue for the able and successful supervision exercised by them over the several classes of estates under their charge The names of the officers specially commended by the Board in paragraph 27 of their Report will be communicated to the Appointment Department of this Government

By order of the Lieutenant-Governor of Bengal,

F A SLACK,

Offg. Secretary to the Government of Bengal

RESOLUTION ON THE ADMINISTRATION REPORT OF THE ORISSA PORTS FOR THE YEAR 1897 98

No. 2085Marine.

Government of Bengal

MARINE DEPARTMENT.

Dated Calcutta, the 12th November 1898.

RESOLUTION

READ—

The Administration Report of the Orissa Ports for the year 1897-98

The following statement shows the receipts of the year under review, as compared with those of the preceding year —

PARTICULARS	1896 97	1897-98	Increase	Decrease
1	2	3	4	5
	Rs	Rs	Rs	Rs
Port dues on Vessels	1,772	2,212	440	
Ditto on Mail Steamers	14,914	14,301		613
Miscellaneous	110	251	141	
Government contribution	24,000	12,500		11,500
Total Receipts	40,796	29,264		11,532

The large decrease is entirely due to the Government contribution having been reduced from Rs 24,000 to Rs 12,500

2 The expenditure during the year 1897-98, as compared with that during 1896-97, is shown in the subjoined table —

PARTICULARS	1896-97	1897-98	Increase	Decrease
1	2	3	4	5
	Rs	Rs	Rs	Rs
Establishment	9,353	10,730	1,377	
Light-house Establishment	4,534	4,759	225	
Vessels and Boats Establishment	1,990	1,850		140
Dockyard Services and Supplies	4,941	8,042	3,101	
Miscellaneous	657	488		169
Other charges	2,378	2,708	330	
Total Charges	23,853	28,577	4,724	

3 The expenditure shows an increase over the figures of the preceding year Of the items in which there has been an increase, the largest are those on account of "Establishment" and "Dockyard Services and Supplies" In False Point the increase was due to expenditure incurred in repairing the row boat at Hukitola, which was seriously damaged by fire, and in Balasore the increase was due to the value of stores supplied to Shortt's Island

light house and to the Port Officer, Chandbali Among these stores was a life-boat supplied to the Shortt's Island light house establishment. The value and repairing charges of buoys also contributed to the increase The decrease in the expenditure was small, and calls for no remarks

4 The following table shows the number and tonnage of vessels that entered and cleared during the year, as compared with those of the preceding year —

	Year	Entered		Cleared	
		Number	Tonnage	Number	Tonnage
1	2	3	4	5	6
False Point	1896 97	45	74,640	45	74,640
	1897 98	36	70,948	36	70,948
Balasore	1896 97	492	113,881	493	113,951
	1897 98	496	101,620	490	107,919
Puri	1896-97	22	27 937	23	30 094
	1897 98	17	27,464	17	27,464

Four hundred and sixty-one vessels in all entered the ports during the year, of which 388 were steamers, and of these 387 were engaged in the coasting trade Of the 73 sailing vessels, 4 were engaged in the foreign and 69 in the coasting trade There was a decrease at all the ports in both the number and tonnage of vessels which entered and cleared during the year under review as compared with the preceding year

5 The following figures show the value of the trade of the ports during the years 1896 97 and 1897-98 —

	Private Trade		Government Stores		Total.	
	1896-97	1897-98.	1896 97	1897 98	1896 97.	1897 98
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs	Rs	Rs
Exports	90,20 905	96,40 028	3,160	4 900	90,24,065	96,44,928
Imports	65 09,290	80,93 380	97,177	1,62,778	66,06,467	82,56,158
Total	1,55 30 195	1,77,33,408	1 00,337	1,67,678	1,56,30 532	1,79,01,086

The total value of the trade of all the ports shows an increase during the year under review, as compared with the year 1896-97, and the cause of the increase, it is explained, is due chiefly to the increase in the value of the trade of Balasore The increase in the value of the export trade was due to the fact that the foreign trade of Balasore was limited to Mauritius and the Maldives, but during 1897-98 a trade with Colombo sprang up, and some thousand maunds of rice were sent there The great advance in the value of the year's imports is explained to be due to the import of railway materials for the Bengal-Nagpur Railway Extension, as well as to the import of a larger quantity of kerosene oil and salt

6 A steamer service was regularly maintained between Calcutta and Chandbali by the India General Steam Navigation Company and Messrs Macneill and Company Communication between Chandbali and Balasore was kept up throughout the year.

By order of the Lieutenant-Governor of Bengal,

A D McARTHUR, *Col.*, R E.,

Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT

For the week ending the 14th November 1898

Burdwan—No rain Weather seasonable *Aman* crop excellent Cultivation of *rabi* crops and potato going on Cases of cattle-pox reported from thanas Monteswar and Purbas thali Common rice selling as follows —

		Srs	
Sadar		13 to 16	per rupee
Kalna	..	13 „ 15	
Katwa		15	
Raniganj	.	16	

Birbhum—Rainfall at Sadar 01 Weather seasonable Prospects of crops good Price of common rice at Sadar 16 8 seers and at Rampur Hât 16 seers per rupee

Bankura—No rain Weather seasonable Sowing of *rabi* crops still continues *Nuas* paddy being harvested, Prospect of *aman* good Fodder and water sufficient Common rice sells at Sadar 17½ seers and at Vishnupur 16 seers per rupee

Midnapore—No rain Prospects of standing crops very good Cattle-disease reported from Nayagram. Prices of common rice —

		Srs	
Sadar		13 to 15	per rupee
Contai		13 „ 16	
Tamluk		13¾	
Ghatal	.	13 „ 16	

Hooghly—No rain Prospects of crops good *Rabi* crops are being sown Cattle disease prevails Common rice sells from 10 to 12 seers per rupee

Howrah—Rainfall nil Weather seasonable Prospects of *aman* good Harvesting of *aus* finished Fodder and water sufficient Common rice sells at 12 to 14 seers per rupee

24-Parganas—Rainfall nil Weather seasonable Prospects good Ploughing and sowing of *rabi* crops going on Harvesting of *aman* paddy has commenced in some places in the Diamond Harbour subdivision No cattle-disease reported. Fodder and water sufficient Common rice sells as follows —

		Srs	Srs. ch	
Sadar		11 to	12 0	per rupee
Barasat			17 0	
Basirhat	*Aman*	..	15 10	
	Aus		18 13	
Diamond Harbour			13 0	

Nadia.—No rain Winter rice doing well Ploughing of land and sowing of *rabi* crops going on Common rice selling at 12 to 16 seers per rupee Fodder and water sufficient. Cattle-disease in thana Tehatta.

Murshidabad.—No rain Weather seasonable Prospects of *aman* and *kalai* favourable *Rabi* crops still being sown State of indigo, mulberry, and sugarcane appears to be good Fodder insufficient in Sadar and Kandi subdivisions Common rice sells as follows —

		Srs	
Sadar	.	15½	per rupee
Jangipur		17½	
Kandi		19	

Jessore—No rain Weather fine and cold *Aman* rice ripening Prospects continue good. Oilseeds and pulses are being sown No cattle-disease reported Fodder and water sufficient Common rice sells as follows —

		Srs.	
Jessore	.	16 to 20	per rupee
Jhenida		17 „ 18	
Magura	. .	18 „ 22	
Narail		20	

Khulna.—Rainfall nil Weather seasonable Cultivation of land and sowing of *rabi* crops going on. Prospect of *aman* paddy excellent Fodder and water sufficient Common rice sells as follows —

			Srs.	
Sadar	..	.	16 to 20	per rupee
Bagerhat ..		.	.. 18	
Satkhira ...	...	..	18	

Dinajpur—Rainfall nil. Weather cool Standing crops good No cattle-disease Fodder and water plentiful. Rice 16 seers a rupee.

Jalpaiguri—Rainfall nil Weather seasonable Prospect of *haimanti* paddy good Transplantation of tobacco and sowing of mustard going on Fodder and water sufficient Common rice sells from 8 to 15 seers per rupee

Darjeeling—Rainfall nil Weather seasonable *Hills—Bara marua, haimanti* paddy, *phaphar* and *kalai* progressing *Terai—Haimanti* paddy, mustard, and *kalai* doing well, sugarcane being cut Coarse rice sells as follows —

	Srs
Hills	9 to 11 per rupee
Terai	13 to 14 per rupee

Bhutta sells at Darjeeling 19 seers and at Kalimpong 44 seers per rupee

Rangpur—Rainfall nil Weather fine and cool Cultivation of *rabi* crops and transplanting of tobacco have begun Prospects good Common rice selling at 13 to 15 seers per rupee Fodder and water sufficient

Bogra—Rainfall nil. Preparation of land for *rabi* crops still continues Prospects of crops good. Common rice selling from 15 to 20 seers per rupee Fodder and water sufficient

Pabna.—Rainfall nil. Weather fine and cool. Crop prospects good Price of rice 14 to 16 seers per rupee

Dacca—Rainfall nil Weather seasonable Prospects of standing crops good Fodder available No cattle disease Common rice 13 to 20 seers per rupee

Mymensingh—Rainfall nil Weather seasonable Prospects of crops good Common rice sells at 16 to 19 seers per rupee Fodder and water ample Condition of cattle good

Faridpur—No rain Weather seasonable Prospects of crops good Rice 16 to 20 seers per rupee

Backergunge—Rainfall nil Weather seasonable Prospects of crops good. Common rice sells from 11½ to 18 seers (*aman*) and from 15 to 29½ seers (*aus*) per rupee

Tippera—No rain Weather seasonable Prospects of standing crops good *Rabi* crops are being sown Fodder sufficient Common rice sells at 12 to 22 seers per rupee

Noakhali—Rainfall nil Prospects of crops good. Lands are being cultivated for *rabi* crops Cattle disease reported from Companyganj Condition of fodder in the Sadar subdivision not good, it is available at Feni. Water good Price of rice—*aman* 12 to 16 seers and *aus* 16 to 28 seers per rupee

Chittagong—Rainfall nil Weather seasonable Prospects of crops good Prices steady Water and fodder sufficient

Patna—No rain *Rabi* sowing in progress Prospects of paddy and sugarcane good. Prices stationary Common rice in Patna sells at 19 seers a rupee Fodder and water for cattle sufficient

Gaya—No rain Prospects of both winter rice and *rabi* crops good Common rice selling at 15½ seers per rupee

Shahabad—No rain Weather seasonable *Rabi* sowings continuing Standing crops good Rice sells at Arrah 14 seers per rupee Fodder and water sufficient

Saran—No rain Weather warm Paddy and *rabi* doing well Poppy sowings delayed on account of heat Average prices are—Common rice 15 13 seers and *makai* 24 15 seers per rupee

Champaran.—No rain Weather fine Crop prospects generally good *Rabi* and poppy sowings continue Fodder and water sufficient Common rice sells at 15½ seers and maize at 23 seers per rupee

Muzaffarpur—Rainfall nil. Prospects of standing crops favourable *Rabi* sowings continue No cattle-disease Prices are—Common rice 11 to 17 seers, wheat 15 to 17 seers, barley 24 to 30 seers, gram 18 to 20 seers, *rahar* 21 to 22 seers, and *marua* 27½ seers per rupee

Darbhanga.—No rain Weather cool. Paddy attaining maturity *Rabi* being sown and doing well. Prospects good Fodder available Common rice is sold at Sadar 11 seers per rupee

Monghyr —No rain Weather cool and cloudy Harvesting of winter rice commenced *Rabi* sowings going on State of sugarcane and other standing crops good Poppy sowings begun and about 8 annas sown Prospects satisfactory A shower just now would facilitate the sowings. No cattle disease Common rice sells as follows :—

	Srs	
Monghyr	13	per rupee
Begusarai	13 to 15	
Jamui	15 „ 16	

Bhagalpur.—Rainfall nil Weather seasonable Standing crops doing well *Rabi* crops being sown Cattle-disease reported from Supaul and Partabganj thanas Prices nearly stationary

Purnea.—No rain Weather seasonable Prospect of *aghani* rice favourable *Rabi* crops doing well Cattle disease still continues in Araria Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	18	per rupee
Kishanganj	20	
Araria	21	

Malda —Rainfall nil Cold weather has set in Winter rice excellent everywhere *Kalai* pulse flowering Sowing of *rabi* crops continues Price of coarse rice stationary at 18 seers per rupee No want of fodder

Sonthal Parganas —Rainfall nil Weather bright and cool Prospects of winter rice good Harvesting on high lands in progress Sowing of *rabi* still continuing Price of rice varies from 16 to 22 seers per rupee, and of maize from 32 to 40 seers per rupee

Cuttack —Rainfall nil Weather seasonable *Laghu sarad* ripening and in some places being harvested *Guru sarad* in ear Sugarcane maturing *Biri, mung, kulthi,* and *arhar* in flower and pods Condition of cattle generally good, but disease reported from some places Fodder and water sufficient Common rice sells as follows —

	S	ch	
Cuttack	15	2	per rupee
Jajpur	17	1	
Kendrapara	21	0	
Banki	19	6	

Balasore —No rain Harvesting of *beali* and sowing of *rabi* crops continue *Sarad* in flower, and is being damaged by insect-pest in Balasore circle Sugarcane being pressed. Rice sells from 14 to 22 seers per rupee in the interior, and at 16 and 17 seers at Balasore and Bhadrak respectively Rain wanted Fodder sufficient

Puri —Rainfall at Puri 03 *Sarad* ripening *Laghu* being cut Prospects of sugar cane, *arhar,* and other miscellaneous crops good Fodder and water sufficient Cattle-disease reported from certain parts of the district. Common rice sells as follows —

	S	ch.	
Puri	15	12	per rupee
Khurda	14	7	
Interior of district	13 to 18	2 to 6	

Hazaribagh.—Rainfall nil. Weather seasonable Harvesting of rice in progress *Rabi* being sown Common rice 12 to 17 seers per rupee

Lohardaga —No rain Harvesting of lowland paddy continues State of standing crops good Rice sells at Ranchi 18 seers, and in the interior from 18 to 24 seers per rupee Cattle-disease continues in the interior. Fodder and water sufficient Grain in stock sufficient.

Palamau —No rain Weather seasonable *Rabi* sowings nearly finished Rain wanted for *rabi* Paddy being harvested in places Cattle-disease prevailing in some villages Rice sells at Sadar 18 seers per rupee

Manbhum —Rainfall nil Weather seasonable Prospects of crops excellent Harvesting in progress Cattle disease reported from thana Purulia Fodder and water sufficient Average price of common rice (new) at Sadar 22½ seers per rupee Supply sufficient

General Summary —There was slight rain at Puri, where it was needed, elsewhere no rain is reported The general prospects of the crops are favourable The winter rice is maturing, and in some districts is being harvested In Balasore some damage has been done to the crop by a pest of insects Sugarcane and pulses are doing well The *rabi* and other cold weather crops, including poppy, are being sown In Saran the poppy sowings are said to be delayed on account of heat Prices are stationary or falling Except in parts of Murshidabad and Noakhali, the fodder-supply is everywhere sufficient There is no outbreak of cattle disease anywhere in an epidemic form, but isolated cases are reported from some districts

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 15th November 1898.

The total fall from 1st January to 12th November 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor General's Office	65 10

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

METEOROLOGICAL OFFICE, GOVT OF INDIA,
Calcutta, the 14th November 1898

G W KUCHLER,
For Meteorological Reporter to the Govt of India

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1898

DURING the first few days of October fine settled weather prevailed over the province and the Bay, with a tendency to the development of conditions typical of the change of seasons In the latter half of the month cold weather conditions, well marked for the season, became established over the province, with clear skies, northerly winds and temperature 2° or 3° below the normal

There was a period of unsettled weather during the second week A cyclonic storm which originated in the south or south east of the Bay moved towards the South Circars coast, the centre of the depression crossing near Masulipatam It continued to move north westward for a short time after passing the coast and then began to recurve Crossing Orissa and Chota Nagpur it then turned eastward across the central districts of Bengal proper, and broke up shortly afterwards in the hilly parts of Assam

While the main depression was in the neighbourhood of Masulipatam, a shallow low pressure area was shown in the north west of the Bay, more by the cyclonic winds on the Orissa coast than by the pressure differences This shallow depression moved northwards over South West Bengal and was over the centre of the province when the main disturbance, having recurved, was approaching Orissa The two depressions then united into one of some depth with a centre between Midnapore and Chaibassa at 8 A M on the 14th, and with a maximum defect of about 2 inch On the 15th the centre was near Sirajganj, and on the 16th the disturbance had almost ceased

The tendency for depressions crossing the south of the Bay in October is, sooner or later, to follow a curved path and ultimately move in north-easterly or easterly direction In the case of the depression under consideration, it appears to have divided, the main portion continuing in a westerly direction, while the second and more shallow depression under the influence of causes which produce the usual curved path moved towards the north

This shallow depression was probably the cause of the unusual rainfall in Orissa, where general heavy falls occurred while the main depression was near Masulipatam The recurving of the main depression, the subsequent union and the north-easterly line of motion, all tended to maintain rainfall over the province for several days General rain fell in the southern districts from the 10th to the 15th, and in other districts from the 12th to the 15th, except in Bihar, where very little rain fell except on the 14th and 15th

The general fall for the month was in considerable excess in the south and east of the province and in moderate defect in Chota Nagpur and Bihar

At the beginning of the month pressure was unusually uniform over both the province and the Bay, readings being between 29 76 and 29 80 inches They were generally in defect which though increasing towards the south, was small except in Burma and Ceylon Winds were light and variable with a tendency to become north, and temperature was above the normal except in Madras where there was a small defect There was very little change for several days Pressure oscillated slowly, and temperature remained relatively high except in the west of the province, where it fell and remained 1° below the normal till the 6th

The first signs of the disturbance in the south of the Bay appeared on the 7th Pressure was beginning to fall in Burma, but winds, though easterly there, were light On the following day the fall of pressure was more general, and wind velocity at Diamond Island had increased from 8 to 14 miles an hour The increase to 28 miles on the 9th showed that the disturbance was extending, and from the rise of pressure in the east it was seen to be moving towards the west The stormy weather continued on the 10th in the south east of the Bay and the centre of the disturbance was then not far from the Madras coast about south east from Masulipatam On the morning of the 11th the centre was near Masulipatam, where pressure was a third of an inch below the normal The gradient was very steep on the coast between Masulipatam and Coconada, and strong cyclonic winds prevailed between the latter station and Nellore Northwards from Coconada the wind directions were not in agreement with the cyclonic circulation round the centre near Masulipatam, and suggested the existence of another and more shallow depression off the north coast of the Circars The evidence of such a depression was more marked on the 12th, on the morning of which day the depression moving northwards crossed South-West Bengal and caused moderate variations of pressure On the 12th it was over the central districts of Bengal with a regular cyclonic circulation of winds

Showers had begun in Orissa on the 10th, and heavy falls varying up to 6 inches were reported on the 11th from all the coast stations between Saugor Island and Gopalpur On the 12th the heaviest falls were at Saugor Island, Balasore and False Point, and on the 13th, when the centre of the shallow depression was inland, at Faridpur and Noakhali This burst of heavy rainfall moved northwards with a velocity very similar to that of the shallow depression, and was probably due to it and not to the main disturbance which on the 13th was still in the north of the Madras Presidency

On the 14th there was one depression only with a centre near Midnapore Rainfall was on that day much more general over the province than it had been on the days previous, but it was more uniform and nowhere very heavy The north easterly movement of the storm continued, and the area of rainfall, though still including all districts on the 15th, contracted rapidly towards the east On the 16th the storm had ceased, and rainfall was almost entirely confined to a few scattered stations, mostly in the eastern districts

Owing to the cloudy rainy weather which had prevailed between the 10th and 15th, day temperatures were very low The mean defect on the 16th ranged up to 6° in South West Bengal, but by the following day it was greater than 2° in East Bengal only

The pressure distribution soon recovered after the passage of the disturbance Temperature became normal or was slightly above, and though there were light variable winds in Bengal, a north westerly current obtained over the Bay

Fine settled weather continued over the province till the end of the month, the only change worthy of note being the fall of temperature which began in the west of the province on the 27th and was general on the 28th During the last three days of the month the mean defect varied from 1° in the north-east of the province to 5° in the south west

After the recovery of pressure in the north about the middle of the month the normal distribution of pressure was established over the Bay with a gradient rather steeper than usual North-east monsoon conditions commenced on the Madras coast about the end of the third week, and the weather there continued showery throughout the remaining days of the month

Pressure was not subject to large oscillations except in the second week while the cyclonic storm was in existence As the depression was not of more than average depth, the changes were not so large as frequently occur on such occasions, and the defect at the centre was at most a third of an inch During the passage across Bengal the greatest defect was only a fifth At other times the pressure distribution was more steady than usual and generally about normal The average difference from the normal at the various inland stations is very small usually only a few thousands of an inch

Temperature was low during the second week while the disturbance was affecting the weather and again towards the end The difference from the normal on the former of these two occasions was chiefly in day readings, and on the latter in night readings, the average defect being about 5° At other times there was usually a small excess

The means for the month are below the normal over almost the whole province In North Bengal the average mean of the month is practically normal, but from there defect steadily increases towards the south-west and is greatest in South West Bengal

Rainfall.—Very little rain fell except between the 10th and 15th, but during these days heavy falls were of daily occurrence, especially in Orissa and Lower Bengal In the west and north of the province most of the falls occurred on the 14th and 15th and were generally under two inches In the west of Bihar the fall was much lighter than in other parts especially in Saran and Champaran, where only light scattered showers occurred

On an average Bihar received less than half the normal of the month viz 48 per cent, and Chota Nagpur 68 per cent In all the other divisions there was considerably more than the normal, excess being 38 per cent in North Bengal, 60 in Lower Bengal, and 60 per cent in Orissa

The rain distribution was very uniform in the western half of the province, the reports from the different stations being generally 1 or 2 inches East of a line running south south west from the south of Cooch Behar to the west of Orissa falls were over 5 inches, and of a narrow strip along the Orissa and Bengal coasts they were between 10 and 15 inches The only inland tract of country where the falls were over 10 inches was the north of East Bengal near which the depression of the middle of the month broke up, a process usually accompanied by very heavy rain in the hills and the adjacent plains

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October in the same form as has been employed in the previous monthly abstracts of the present year The figures represent the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage The table thus gives a condensed summary of the rainfall data of the year for each meteorological division The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October —

Meteorological Divisions	January	February	March	April	May	June	July	August	September	October	Actual rainfall of first ten months of 1898 expressed as percentage of the normal fall for the period
South West Bengal	120	16	2	64	88	124	82	188	116	15	109
North Bengal	119	162	6	82	88	114	80	87	101	16	106
East "	177	31	8	34	80	132	88	157	10	161	108
Bihar	38	200	23	109	100	80	91	147	274	48	117

C W BOLTON,
Chief Secy to the Govt of Bengal.

NOTIFICATION—No 5332A

The 12th November 1898 —The following rules for the examination for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service, to be held in 1899, are published for general information —

1 An examination of candidates for appointment as Deputy Collectors and Magistrates and as Sub-Deputy Collectors will be held in Calcutta in March 1899, on dates to be notified hereafter

2 All candidates for examination shall apply in writing to the Under-Secretary in the Appointment Department not later than the 1st of February 1899 The application shall be accompanied by a fee of Rs 20 and by certificates to the following effect —

(1) That on the date fixed for the examination the candidate's age will not exceed 25 years This certificate should be supported by the candidate's horoscope, or, if the horoscope can not, for sufficient reason, be produced, by other sufficient evidence, such as the sworn affidavit of a near relation This condition of age may be relaxed on sufficient grounds being shown in favour of persons already in the Government service who may be considered suitable candidates for these appointments

(2) That he is of good moral character

(3) That he has passed the B A examination of the Calcutta University, or that he has received an education not below the standard of such examination

(4) That he is of active habits and able to ride The certificate must be signed by a District Officer (or, in his absence from head quarters, by the Joint-Magistrate in charge), or by the Commissioner or Deputy Commissioner of Police, Calcutta The certificates of the preceding year will in no case be accepted, and fresh certificates must be produced

Each candidate shall also submit a statement showing the landed property owned by him, or in which he may have any interest, or which may be held by and managed by his wife or by any other member of his family, living with or in any way dependent on him

The Lieutenant-Governor may at his discretion call for such additional proof as he may think fit in reference to any of the above points

3 No candidate who is already serving under another Government will be allowed to compete unless he obtains the previous permission of that Government

4 The subjects of examination and the marks to be awarded will, until further orders, be as follows —

(*a*) *English* —The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include precis writing and letter-drafting In awarding marks in these papers, great weight will be attached to good and legible hand-writing

(*b*) *Vernacular* —Candidates will be examined in one of the following languages at their option —Bengali, Urdu, Hindi and Uriya The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c, written in manuscript

(2) Translation from English into the vernacular selected

(*c*) *Law*—

(1) Regulation I of 1793 and Field's Introduction to the Regulations, Act VIII of 1885, Regulation VII of 1822, Act I of 1894

(2) The Penal Code, the Code of Criminal Procedure, the Code of Civil Procedure, the Evidence Act

(*d*) *Surveying* —Survey and mensuration

The marks will be given on the following scale —

English	300
Vernacular	100
Law	300
Surveying	100
Total	800

5 A medical certificate in the form annexed will be required from each selected candidate after the examination and before he joins service as a probationer The certificate will be granted by a Presidency Surgeon, viz, the Professor of Midwifery, Medical College, Calcutta, on the requisition of the Under-Secretary to Government, to whom applications should be made In the event of the opinion of the medical officer being unfavourable to the candidate, an appeal will lie to the Medical Board, and the decision of the Board will be final.

6 It is at present proposed to select three candidates for Deputy Collectorships and four for Sub Deputy Collectorships These will at first be appointed as probationers on a subsistence allowance of Rs. 50 and Rs 30 a month, respectively Two of the probationers for Deputy Collectorships will be appointed from the first two candidates on the list in order

of merit, and one will be selected by the Lieutenant-Governor from among those who have obtained a minimum of one-third of the total marks From the remainder of those qualified by obtaining one third of the marks, the Lieutenant Governor will select four more candidates as probationers for Sub Deputy Collectorships

7 No probationer will be appointed to officiate as a Deputy Collector and Magistrate or as a Sub Deputy Collector unless he has given satisfactory proof, during his period of probation, of physical and mental capacity and of general good conduct He must, before appointment, afford such further evidence of his ability to ride as may be required

C W BOLTON,
Chief Secy to the Govt of Bengal

REVENUE DEPARTMENT—(FORESTS)

NOTIFICATION—No 3333For

The 12th November 1898 —Mr C G Rogers, F C H, Deputy Conservator of Forests, is, on return from furlough, posted to the charge of the Darjeeling Division

Mr F Trafford, Officiating Deputy Conservator of Forests, in charge of the Direction and Darjeeling Divisions, on being relieved by Mr Rogers of the charge of the latter division, is re-appointed to be Personal Assistant to the Conservator of Forests, Bengal

F A SLACK,
Offg Secy to the Govt of Bengal

REVENUE DEPARTMENT,—(OPIUM)

NOTIFICATION—No 974T R

The 8th November 1898 —It is hereby declared that a competitive examination for one appointment in the Opium Department will be held in February 1899 At this examination only such European and Eurasian candidates as have been nominated by the Lieutenants-Governor of Bengal and the North-Western Provinces, each of whom is authorised to make as many nominations

as he considers necessary or desirable, subject to ultimate approval by the Lieutenant-Governor of Bengal, will be permitted to present themselves

It must be clearly understood by competitors that the candidate who may be declared successful will not be entitled to obtain permanent appointments in the grade of Assistant Opium Agents, until a permanent vacancy occurs in that grade, nor until he has complied with the conditions of Rule 12, but it is the intention of Government to appoint him at once to duty in the Department as an Officiating Assistant Opium Agent on a salary of Rs 140 a month If within two years of his appointment he succeeds in passing the Departmental Examinations, and is well reported on, and there is a vacancy in the Department at the time, he will be appointed on a salary of Rs 200 per mensem His pay thereafter will rise with length of service according to the following scale, and the rules governing service in the Department —

Years of service	Pay
	Rs
1, 2, 3	200
4, 5, 6	250
7 8, 9, 10	300
11, 12, 13, 14	400
15, 16, 17, 18, 19	500
20, 21, 22, 23, 24	600

After 24 years' service all increases of pay will depend upon the occurrence of vacancies in the four highest grades of Sub Deputy Opium Agents, viz, 4th grade on Rs 700, 3rd grade on Rs 800, 2nd grade on Rs 900, and 1st grade on Rs 1,000

2 A certificate of health and physical fitness, signed by a covenanted medical officer, in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination No one whose age will be below 19 years on the 1st February 1899, or above 22 years on the 1st March, will be permitted to appear

I do hereby certify that I have examined Mr a candidate for employment in the Opium Department and that he has no disease affection or bodily infirmity and is in my opinion possessed of a robust constitution, well fitted for the performance of the duties appertaining to such an appointment His age is according to his own statement years and by appearance about years

Signature

Description

The 189

3 A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate, or by a Presidency Magistrate or the Commissioner of Police, in the case of applicants residing in Presidency towns, should also be submitted

4 Applications for nominations by the Lieutenant Governor of Bengal, accompanied by the necessary certificates, must be sent to the Under Secretary to the Government of Bengal, in the Revenue Department, on or before the 1st January 1899 Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs 30 before they can appear at the examination The fee is payable to the Under Secretary aforesaid

5 The examination will be held in Calcutta the date and place of the examination and the order in which the different subjects will be taken up will be notified hereafter to such candidates as are allowed to present themselves at the competition.

6 The examination will be by written questions and answers and *viva voce*

(*b*) Inorganic Chemistry, Theoretical and Practical, by W Jago

7 No books of any kind will be allowed at the time of examination

8 Candidates who fail to obtain half the marks in each and all of the three subjects of the preliminary examination shall not be allowed to proceed further with the examination in the remaining subjects The examination in the obligatory and optional subjects will not be held until the papers of the preliminary examination have been examined and marked, for which an interval of a day or two will ordinarily be allowed to the Examiners, and a list of the candidates successful in the preliminary examination will be published forthwith at the place of the examination

9 In the obligatory subjects each candidate must obtain at least one third of the marks allotted to each paper to be considered to have passed in that paper, and half of the marks in the aggregate Should no candidate obtain the minimum of qualifying marks according to this standard, the appointment will be made by His Honour the Lieutenant Governor of Bengal in such way as may be deemed proper

10. The candidates will only be allowed to take up either, but not both, of the groups of the optional subjects, and the marks obtained will count towards the aggregate total

The candidates must state in their applications which of the groups they will take up

11. The candidates will be placed in order of precedence according to the aggregate number of marks obtained by them, and appointments will be made accordingly

12 Candidates appointed to the Opium Department after examination will be considered as probationers for the first two years of their service The confirmation of a candidate in the Department will depend on his passing the Departmental Examinations and on the periodical reports submitted by the Opium Agents, showing the industry and intelligence with which he discharges his duties and his aptitude for service in the Department as displayed during the period of probation He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation

F A. SLACK,

Offg Secretary to the Govt of Bengal

Khatra, Kotalpore	Bankura
Bhanga	Faridpur
Kasba, Nabinagar	Tippera

(Rule No 2 of 28th May 1896)

Issued by authority of the High Court of Judicature at Fort William in Bengal

CIVIL.

Rule No 9, dated the 30th September 1898

1 *Cancel* the "Note" to clause (*a*) of Class I under Sub-Rule I of Rule I, Chapter IV, at page 98 of the High Court's General Rules and Circular Orders (Civil) and *substitute* therefor the following —

Note — Suits under section 9 of the Specific Relief Act (I of 1877) should be included, not in this class, but in Class III

Published in the *Calcutta Gazette* of the 21st September 1898, Part I, page 1008, and in the *Assam Gazette* of the 24th idem, Part IIA, page 914

Existing Note

Note —Suits under the Specific Relief Act (I of 1877) should not be included in this class, but in Class III—"All suits which do not come under Class I or Class II" (High Court Proceedings, December 1895, No 114)

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL

(Civil)

Rule No 10, dated the 7th October 1898

Existing sub-rule (3) of Rule 1

3rd —Any person who has obtained a certificate from the Examiners under the Rules of 1874 shall be entitled to apply within one year from the date of such certificate but not later to be admitted as a Pleader under the provisions of those Rules

1 *Cancel* the 3rd paragraph of sub rule (3) of Rule 1, Chapter VII at page 374 of the High Court General Rules and Circular Orders (Civil)

Existing sub rule (5) of Rule 1

3rd —Any person who has obtained a certificate from the Examiners under the Rules of 1874 shall be entitled to apply within one year from the date of such certificate but not later to be admitted as a Mukhtar under the provisions of those Rules

2 *Cancel* the 3rd paragraph of sub rule (5) of the same Rule at page 379 *ibid*

Existing sub-rule (6) of Rule 1

6 In order to qualify a person to present himself for the examination required by those Rules for Mukhtars—

1st —He must hold a certificate of having passed the Entrance Examination of the University of Calcutta, Madras, the Punjab, Allahabad, or Bombay

Provided that in the case of all candidates who were admitted to the Examination held on the 28th February and 1st and 2nd March 1898, the production of a certificate of having passed the Middle Vernacular or Middle English Scholarship Examination or some other Examination certified by the Director of Public Instruction to be equivalent thereto shall, in the case of such candidates only and no others, be deemed sufficient to qualify them to be admitted to the Mukhtarship Examination to be held in February-March 1899.

3 For sub rule 6 of the same Rule at page 379 *ibid*, as amended by Rules No 6 dated the 23rd April 1898 and No 7 dated the 15th July 1898 *substitute* the following —

(6) In order to qualify a person to present himself for the examination required by these Rules for Mukhtars—

1st —He must hold a certificate of having passed the Entrance Examination of the University of Calcutta, Madras, the Punjab, Allahabad, or Bombay, or a certificate of having passed the Middle Vernacular or Middle English Scholarship Examination or some other Public Examination certified by the Director of Public Instruction to be equivalent thereto

(*a*) Provided that a certificate of having passed the Middle Vernacular or Middle English Scholarship Examination or some other Public Examination certified by the Director of Public Instruction to be equivalent thereto shall be deemed to entitle a candidate to present himself at the examination only in case such candidate shall be a native of one of the districts comprised within the Chief Commissionership of Assam, and provided also that no candidate who does not hold a certificate of having passed the Entrance Examination of the University of Calcutta Madras, the Punjab, Allahabad, or Bombay, shall, in the event of his passing the examination mentioned in Rule 5, clause *2*, receive a certificate entitling him to practise beyond the limits of the said Chief Commissionership

(*b*) Provided also that in the case of all candidates who were admitted to the Mukhtarship Examination held in the year 1898, or in any year previous thereto under the Rules of the 7th March 1884 as published in the *Calcutta Gazette* of the 13th February 1884 and in the

Assam Gazette of the 23rd February 1884, or as subsequently amended, the production of a certificate of having passed the Middle Vernacular or Middle English Scholarship Examination or some other Public Examination certified by the Director of Public Instruction to be equivalent thereto shall be deemed to qualify them to be admitted to the Mukhtarship Examination to be held in February March 1899, but not to any subsequent examination unless they are otherwise qualified under the provisions of this Rule

2nd—He must produce a satisfactory certificate of good moral character and be above the age of twenty years

2nd—He must produce a satisfactory certificate of good moral character and be above the age of twenty years

Existing sub-rule (8) of Rule 1

8 * * *

The Judge shall thereupon satisfy himself of the sufficiency of the certificates of character presented by all candidates for Pleadership who shall have filed the certificate referred to in clause 2 of Rule 4, and by all Mukhtarship candidates and shall satisfy himself as to the identity of such candidates and shall on or before the 1st December transmit to the Examiners all such applications with the documents accompanying together with a list of such applications and annexures and with his opinion in each case as to the sufficiency of the testimonials produced and any other information which he may think it needful in any case to communicate And he shall at the same time transmit to the Examiners a list of those candidates, if any, for the Pleadership Examination, who have not filed the certificates referred to in clause 2 of Rule 4

4 For the second paragraph of sub rule 8 of the same Rule at pages 380 and 381 *ibid*, *substitute* the following —

The Judge shall thereupon satisfy himself of the sufficiency of the certificates of character presented by all candidates for Pleadership who shall have filed the certificates referred to in clause 2 of Rule 4, and by all Mukhtarship candidates and shall satisfy himself as to the identity of such candidates and shall on or before the 1st December transmit to the Examiners all such applications with the documents accompanying together with a list of such applications and annexures and with his opinion in each case as to the sufficiency of the testimonials produced and any other information he may think it needful in any case to communicate In the case of the application of any candidate who applies to be admitted as being a native of one of the districts comprised within the Chief Commissionership of Assam under the first proviso to the first clause of sub-rule 4 or under the first proviso to the first clause of sub rule 6 the District Judge shall not transmit such application to the Examiners unless he be satisfied that such candidate is *actually* a native of one of such districts, and in that case he shall certify on the face of such applications that he is so satisfied

The District Judge shall at the same time transmit to the Examiners a list of all those candidates, if any, for the Pleadership Examination who have not filed the certificates referred in clause 2 of Rule 4

Existing Rule 20

20 The fees payable previous to examination and on application for enrolment shall be as follows —

	Pleader	Mukhtar
	Rs	Rs
Before examination	30	15
Before admission	25	10

5 For sub rule 20 of the same Rule at page 384 *ibid*, *substitute* the following —

20 The fees payable previous to examination and on application for enrolment shall be as follows —

	Pleader	Mukhtar
	Rs	Rs
Before examination	30	20
Before admission	25	10

6 These amendments take effect from the date of the publication of this Rule

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India"*]

The following orders, issued by the Government of India in the Home Department, are republished for general information

C W BOLTON,
Chief Secy to the Govt of Bengal

NOTIFICATIONS

PUBLIC

Simla, the 10th November 1898

No 2364.—The following despatch from Her Majesty's Secretary of State for India is published for general information —

INDIA OFFICE,
London, 6th October 1898

Public,
No 144

To His Excellency the Right Honourable the Governor-General of India in Council

MY LORD,

Public criticism of Government policy by Government servants.

I have received your letter of the 14th July, with enclosures, relating to a speech delivered by Mr Thorburn, Financial Commissioner of the Punjab, at Simla on the 28th of June

2 It appears that on that day a paper was read in connection with the United Service Institution on the subject of the Tirah campaign, and that, in the discussion which followed Mr Thorburn took the opportunity of making what is said to have conveyed the impression of being "an attack of a deliberate and somewhat violent character on the policy and proceedings of the Government."

3 It is not surprising that this action on the part of Mr Thorburn should at once have attracted the serious notice of his official superiors, or that he should have found it necessary, within eight days of the delivery of the speech, to express his deep regret for his conduct. This apology your Government thought well to accept, and your acceptance was communicated to him through the Government of the Punjab in a letter dated the 12th of July

4 In these circumstances I have no intention of commenting on this particular incident, so far as it affects Mr Thorburn individually But I think it right, while fully recognising that every officer is entitled to form and to hold his own opinion on public matters, to record my entire agreement with Sir Mackworth Young's statement of the rules which must govern the conduct of Government servants in India. It should be distinctly understood that (to use his words) "a member of the Government service is not at liberty to make an attack upon what he knows or believes to be the policy or procedure deliberately approved by the Government," and that "it is no justification of such attack that he is actuated by conscientious motives or has a strong conviction of the correctness of his own judgment" I will

add, further, that it is improper for any officer to convey to the public, whether in writing, or in a speech or otherwise, any opinion upon matters of Government policy which are, or are likely to become, the subject of public discussion It is, of course, inevitable that cases must from time to time occur in which the decisions of Government do not commend themselves to the officers who may have to carry them out On such occasion, the officers in question, after making proper representations to their official superiors, have only two courses open to them, namely, either to acquiesce loyally and silently in the decision of the responsible authorities, or to resign their positions in the Service

5 I am glad to have had of late more than one opportunity of stating publicly my high appreciation of the loyalty and self-devotion of the Indian Civil Service Those qualities have never been more conspicuous than during recent years of difficult and anxious labour But a clear understanding that the rules to which I have referred are in existence, and will be strictly enforced, can only tend to increase the efficiency of that Service, and I request that Your Excellency will take such steps as may seem to you advisable to make my views generally known, and to ensure that improprieties, such as that which you have on this occasion thought fit to condone, shall not be repeated in future

I have the honour to be,

MY LORD,

Your Lordship's most obedient humble Servant,

GEORGE HAMILTON

The 11th November 1898

No 2268 —His Excellency the Governor General is pleased to add the following Consular Officer to the list of those declared by Home Department Notification No 672, dated the 30th April 1897, whether permanently or temporarily in office, to have as such the privilege of private entree to the Government House at Calcutta —

The Consul for Chili

No 2271 —His Excellency the Governor-General is pleased to declare that the following personages shall have the privilege of private entree to the Government House at Calcutta —

(1) Maharaja Khitish Chunder Roy Bahadur, of Krishnagar, Nadia
(2) Maharaja Harballabh Narayan Singh Bahadur, C I E, of Sonbursa, Bhagalpur
(3) Maharaja Partap Oodeynath Sahai Deo, of Chota Nagpur
(4) Nawab Sir Khwaja Ahsanullah Bahadur, K C I E, of Dacca
(5) Nawab Vilayat Ali Khan Bahadur, C I E, of Patna

ESTABLISHMENT

The 9th November 1898

No 825 —With reference to Home Department Notification No 350, dated the 6th May 1898, it is hereby notified that the Honourable Sir Antony Patrick MacDonnell, K C S I, returned from leave and resumed charge of the office of Lieutenant-Governor of the North Western Provinces and Chief Commissioner of Oudh on the 6th instant

EXAMINATIONS

The 10th November 1898

No 484 —With reference to paragraph 1 of Home Department Notification No 457, dated the 28th October 1898, it is hereby notified that the examination prescribed for filling vacancies in the Lower Division of the Secretariat Clerical Service of the Government of India and attached offices and in the clerical establishments of the offices subordinate to the Government of Bengal, will be held at Calcutta in the Senate House of the Calcutta University commencing on Saturday, the 7th January 1899

The examination at Allahabad and Lahore of candidates for appointments in the Secretariat offices of the Government of India and attached offices will be held at the same time at the places to be appointed by the Governments of the North-Western Provinces and and Oudh and the Punjab, respectively

SANITARY

The 10th November 1898

No 4341 —In the notification of the Government of India in the Home Department No 2495, dated the 20th November 1897, it was ordered, under the powers conferred by section 2, sub section (*1*) of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjaz during the season of 1898 might be permitted except in the case of persons residing in the Bombay Presidency (excluding Sind), subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments, including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non-infected portions of India

Plague is unfortunately still widely prevalent in the Bombay Presidency, and the disease has extended to the Madras Presidency and to the Mysore and Hyderabad States Karachi as well as Bombay is an infected port The alarm experienced by European Governments, including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were subjected to much vexatious restric-

tion and consequent hardship, and a proposal that they should not be permitted to land in Arabia was at one time put forward The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the coming season, but they consider it essential that careful precautions should be observed similar to those which were enforced during the past season

The Governor General in Council is pleased to cancel the order contained in the Notification of the Government of India in the Home Department, No 2495, dated the 20th November 1897

The Governor General in Council is further pleased to direct that until further orders no person resident permanently or temporarily in the Presidency of Bombay (excluding the whole of Sind except Karachi), the Presidency of Madras, the Mysore and Hyderabad States and Coorg shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca

The Governor General in Council is further pleased to direct as follows —

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated, and unless such person is conveyed from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose

(2) That no passage tickets for the Hedjaz shall be sold except at the places appointed for the detention of intending pilgrims under observation

The Government of India think it necessary to repeat the warning given last year that although they have decided that the pilgrimage to the Hedjaz may be permitted subject to the safeguards enumerated above, they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government and the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia

ECCLESIASTICAL

The 10th November 1898

No 506 —The following Despatch from Her Majesty's Secretary of State for India is published for general information —

No 149Public (Ecclesiastical), dated London, the 13th October 1898

To

His Excellency the Right Honourable the Governor-General of India in Council

MY LORD,

With reference to the letter of your Government, No 2, dated 14th April last, I have to inform Your Excellency in Council that the Queen has been graciously pleased to appoint the Reverend James Edward Cowell Welldon, M A , to be Bishop of Calcutta and Metropolitan Bishop in India and the Island of Ceylon in succession to the Most Reverend Edward Ralph Johnson, resigned

2 I forward, for the information of Your Excellency in Council, a copy of the Letters Patent appointing Mr Welldon

I have, etc ,

(Sd) GEORGE HAMILTON

No 507 —Her Majesty's Secretary of State for India has permitted the Ven ble W MacCarthy, Archdeacon of Calcutta, to retire from the service, with effect from the 20th December 1898

EDUCATION

The 10th November 1898

No 774 —Under section 12 of Act II of 1857 the Governor-General in Council is pleased to authorize the affiliation of the Diamond Jubilee College, Monghyr, to the Calcutta University in Arts up to the F A Standard

A H L FRASER,
Offg Secy to the Govt of India

The following order, issued by the Government of India in the Department of Revenue and Agriculture, is republished for general information

Chief Secy to the Govt of Bengal

NOTIFICATION

FAMINE

Simla, the 11th November 1898

No 2363—38-14 —The services of Mr H J McIntosh, I C S , who was appointed Secretary to the Indian Famine Commission by this Department's Resolution No 35—245 26 (Famine), dated the 23rd December 1897, published in the *Gazette of India*, dated the 25th December 1897, are replaced at the disposal of the Government of Bengal, with effect from the forenoon of the 8th November 1898

T W HOLDERNESS,
Secy to the Govt of India.

The following orders, issued by the Government of India in the Finance and Commerce Department, are republished for general information

C W BOLTON,
Chief Secy to the Govt of Bengal.

SALARIES, ESTABLISHMENTS, &C,
COMPENSATION

No 4847Ex, dated the 5th November 1898

RESOLUTION—By the Government of India, Finance and Commerce Dept

READ AGAIN—

Resolution by the Government of India, Finance and Commerce Department, No 2422Ex, dated the 31st May 1897

Resolution by the Government of India Finance and Commerce Department, No 4936Ex dated the 8th November 1897

RESOLUTION —In the Resolution of 31st May 1897, cited in the preamble, with which the revised rules for the grant of Exchange Compensation Allowance were promulgated, certain general orders were issued as to the list of (*a*) offices in which European qualifications are indispensable and (*b*) services and departments in which a proportion of Europeans is held to be indispensable, and Local Governments and Departments were invited to make any recommendations for further inclusion in the lists These having now been received from almost all quarters, His Excellency the Governor General in Council is pleased to issue the following further orders as to what are the appointments by virtue of holding which an officer, *appointed in India*, not being a statutory native, becomes entitled to Exchange Compensation Allowance

It should be clearly understood in all cases that the present orders relate solely to the question as to what are the appointments by virtue of holding which an officer, if not otherwise excluded, becomes entitled to Exchange Compensation Allowance They do not, therefore, render a person appointed in India eligible for the allowance, if he is a *native of India* within the definition of that term in Statute 33 Vict, cap 3, section 6

Public Works Department

2 Excluding the Account Branch, certain special and technical appointments, and the clerical staff, which will be dealt with further on, the establishments of the Public Works Department appointed in India may be classed for the purposes of the Resolution as under

3 Engineering, including the Engineering Staff of State Railways

I —Superior Establishments

(*a*) Engineers appointed in India who have by reason of their previous European training been placed on an equal footing with Engineers appointed from Europe by the Secretary of State

A list of the officers falling under this category is given in Appendix 13 of the Civil Service Regulations

(*b*) Special Engineers taken over from Railway Companies

(*c*) European and Eurasian Engineers appointed from the Indian Colleges before recruitment from those Colleges was limited to statutory natives.

(*d*) Other European and Eurasian Engineers appointed direct before recruitment was limited to officers sent out from England and officers appointed from the Indian Colleges

This category includes a few officers appointed after passing the direct examination of the Thomason College

(*e*) European and Eurasian Engineers appointed from the Indian Colleges after recruitment from the Colleges was limited to statutory natives

This category includes Engineers appointed from the Colleges to the Provincial Engineering Establishment

(*f*) Europeans and Eurasians appointed to the Provincial Engineer Establishment by promotion from the Upper Subordinate Establishment

II —Upper Subordinate Establishment of Sub-Engineers, Supervisors and Overseers

(*a*) Military non-commissioned or warrant officers,

(*b*) Others recruited without restriction as to being statutory natives from the Indian Colleges and other sources

III —Lower Subordinate Establishment of Sub-Overseers, Maistries, &c

Of these classes I (*a*), I (*b*), and II (*a*) are eligible Classes I (*c*) and III are not eligible As regards classes I (*c*), I (*d*), and II (*b*), orders will be passed hereafter "Provincial" officers are dealt with in paragraphs 7 and 8

4 *Establishments of State Railways* —Excluding Engineering staff which has been dealt with above, and consisting of,—

I —Superior Establishments

(*a*) Managerial, in which the appointments are filled by selection in India from the Engineering, Traffic and other branches of the Public Works Department Establishment Europeans only are selected

(*b*) Traffic, recruited partly by selection of officers from other branches, partly by promotion of deserving subordinates, and partly by direct appointment—since 1897 all officers appointed direct are taken from Coopers Hill These officers are Europeans with a sprinkling of Eurasians, and one native who is a promoted subordinate

(*c*) Locomotive, consisting entirely of Europeans either appointed from England or in India after European training, or taken over from Companies

(*d*) Storekeeper's Branch, also consisting entirety of Europeans, with a few Eurasians, taken over from Companies, and recruited either by direct appointment or transfer or promotion from other establishments

II—Subordinate Establishments, including open line, maintenance, traffic, and locomotive hands, holding appointments on the sanctioned cadre of the several lines as distinguished from the fluctuating staff, *e g*, engine-drivers, firemen guards, ticket-collectors, wheel testers, station masters at the smaller stations, etc, and comprising,—

(*a*) pensionable hands, appointed before service in the Railway Revenue Establishments was made non pensionable,

(*b*) non-pensionable hands appointed since

The Superior Establishments under class I are essentially European in character and the appointments included therein will qualify for Exchange Compensation Allowance subject to the proviso that promoted subordinates in the Traffic Branch, and officers transferred thereto from other branches, will not be eligible for the allowance unless they drew it in their former capacity

Of the pensionable men under class II (*a*) 42 at present hold appointments carrying a maximum pay of Rs 250 and over These appointments may be admitted as qualifying

As regards the subordinate establishment under class II (*b*) most of these will be covered by an arrangement now under consideration, by which all non-pensionable subordinates on pay not exceeding Rs 450 will be outside the ordinary Exchange Compensation Allowance Rules, European members of the staff being eligible (within the Rs 450 limit) for increased pay with reference to the market value of their services Eight appointments which will remain outside this arrangement will qualify for Exchange Compensation Allowance

5 The Superior Establishment of the Indian Telegraph Department is recruited from England, but at present contains four other officers, viz, two officers transferred from the Indo European Telegraph Department, and two promoted from the subordinate establishment before the constitution of a Provincial Service These hold qualifying appointments Future promotions from the Subordinate Department will be to the Provincial Branch of the service which is not eligible

In the subordinate grades of the Indian Telegraph Department soldiers employed signallers and telegraph masters are eligible

6 The Indo-European Telegraph Establishment even in its subordinate grades, is one which has to be selected largely with reference to European qualifications, and the Europeans contained therein should on this account be admitted to Exchange Compensation Allowance

Provincial Services

7 The general Provincial Services are the staff of Deputy Collectors and Extra Assistant Commissioners on the Executive side, and Sub-Judges, Munsifs and the like on the Judicial side They are entirely recruited in India, and the great majority of their members are Asiatic natives Though they contain a sprinkling of Europeans, most of these are statutory natives

The members of these Provincial Services are entirely outside the Exchange Compensation Allowance Rules

8 The same ruling will apply to other Provincial Services existing along side of, or in subordination to, an Imperial Branch of the same Department, as in such case the necessary European element in the service is taken as being supplied by the Imperial Branch Accordingly members of the Public Works, Telegraph, Forest and Survey Provincial Services are ineligible for Exchange Compensation Allowances and this also applies (with certain exceptions to be mentioned hereafter) to the Provincial Educational Service

Account Departments

9 There are in the main three Account Establishments in India—the Civil, the Public Works and the Military The Civil, excluding the few appointments filled from the Indian Civil Service, is composed of—

(1) the "Enrolled List" which consists of—

(*a*) officers recruited in India, under a special system, *as Europeans* by nomination and examination, or by nomination alone before the method of recruitment by examination was introduced (This class is now recruited by the Secretary of State in England),

(*b*) officers similarly recruited, but by a separate recruitment as statutory natives

(*c*) officers promoted from subordinate positions

(2) Chief Superintendents and Subordinate Account Service

Of these, (1) (*a*) only is within the conditions of the Exchange Compensation Allowance

10 The Public Works Accounts Service is composed of—

(1) The Superior Accounts Branch which consists of—

(*a*) European officers appointed *as Europeans* by nomination or by nomination and examination These appointments are now made in England from the Royal Indian Engineering College

(*b*) Officers taken over from Companies

(*c*) Officers transferred from the Engineering and Traffic Branches of the Public Works Department

(*d*) Officers promoted from subordinate grades

(2) The Subordinate Accounts Establishment

Of these, (1) (*a*) and (1) (*b*) are admissible The eligibility of officers in class (1) (*c*) will depend on whether they were allowed Exchange Compensation Allowance in their previous appointments Orders in regard to classes (1) (*d*) and (2) are reserved

11 The Military Accounts Department is composed of—

(1) The Superior Service which consists of—

(*a*) Commissioned officers of the Army

(*b*) Officers promoted from the Subordinate Service

(2) The Subordinate Account Service

Of these, (1) (*a*) are eligible as Europeans appointed in England Orders will issue later regarding (1) (*b*) and (2)

12 The question whether the Examinership of Marine Accounts should be classed as an appointment which should in itself carry Exchange Compensation Allowance will be settled later on In the meantime the Examiner will be eligible if appointed from the Royal Navy or Royal Indian Marine, or from the eligible grades of any of the Accounts Departments

Technical Appointments

13 There is a numerous class of appointments which may be grouped together as Technical appointments, and dealt with here

(1) In the Public Works Department there are the Superintendent, Assistant Superintendent, and Mechanical Draftsman, Rookee Workshops and Mine Managers and Overmen

(2) The Military Department employ a large number of miscellaneous mechanicians and artizans, mechanics of Ordnance Establishments other than those who possess claims by reason of being enlisted soldiers or officers serving under covenant, professional tailors in the Army Clothing Department, and leather workers in the Ordnance Department, boatswains sailmakers, gunners, and similar dockyard artizans who mostly occupy the position of foremen, of working establishments

(3) On the Mint establishments, there are mechanical engineers and engravers, and other artizans

(4) In the Survey Department there are artizans in its workshops and trained Engravers, Lithographers and Photographers

(5) In the Civil Department there are Inspectors of Boilers and of Explosives and Curators of Museums and Gardens, and their assistants

(6) Ordnance and Dockyard Storekeepers are also in this category

In many case these men are appointed by the Secretary of State and sent out to India in others they are appointed in India So far as men appointed in India are serving under contract, their case is provided for by the rules So far as they are not, they should be considered eligible for Exchange Compensation Allowance if they have, as a matter of fact, before their appointment, acquired their professional training or qualifications in Europe, or in Government establishments, or under European firms in India But a man appointed without such previous training, and afterwards acquiring it in Government employ, has obviously not been appointed to Government employ by reason of any special European qualification

14 The above principle applies also to those officers who are engaged in regulating or supervising large mechanical establishments In commercial life, mill-owning firms and the like consider Europeans necessary for the posts of Superintendents of their working establishments and in Government establishments of the same kind, such offices may be regarded as requiring European qualifications Such appointments as Superintendent and Deputy Superintendent of Government Presses and also heads of Jail Workshops and of the Postal Workshop at Aligarh should, therefore, carry a title to Exchange Compensation Allowance

15 Orders will hereafter issue with reference to Civilian Overseers at the Remount Depots

Marine Appointments

16 The principal marine appointments come under the principle which applies to "Technical appointments," namely, that for them a kind of skill and knowledge is necessary which is practically to be acquired only in Europe or in European employment Therefore all Europeans holding appointments in connexion with ports that are prescribed either by Act of Parliament or by Indian Law (Port Officers, Ship Surveyors, Shipping Masters and their Deputies and Assistants), Captains and other officers and Engineers of Government

vessels,* Health Officers of Ports, River Surveyors, Bengal Pilot Service, should be entitled to Exchange Compensation Allowance In this last case there is a small local service which is ineligible Agents, Government Consignments, may be reckoned as eligible under this class

17 European light-house-keepers who are of the class of able seamen or selected from the class of sea-going mariners may also be regarded as eligible for Exchange Compensation Allowance

Learned Professions

18 Appointments limited by rule or ordinary practice to Barristers or persons having an English Medical degree may be reckoned as carrying Exchange Compensation Allowance in the case of persons possessing these qualifications but Uncovenanted Medical Officers appointed in India to posts which are also open to Civil Assistant Surgeons, a class of officers not entitled to the allowance, are not eligible Chaplaincies which are usually held by graduates of English Universities, will carry Exchange Compensation Allowance under this category when filled in India

But in several of these cases it has to be borne in mind that Exchange Compensation Allowance is not given to men who are not whole-time officers of Government, and who merely receive a fee in respect of part of their time given to public duties

19 Gentlemen holding appointments as scientific experts must be similarly classed as eligible for Exchange Compensation Allowance, and this applies not only to isolated appointments mostly under Scientific and Minor Departments, but to such departments as the Geological, the Botanical, the Civil Veterinary and the Archæological

By "experts" is meant persons who are selected for particular appointments by reason of their being already experts, and not men who merely become so by their being trained as assistants in Government service

Police and Jail Departments

20 Under the Resolution of this Department No 4936 Ex, dated the 8th November 1897, Exchange Compensation Allowance is admissible to any European whose first appointment in the Police Department was in a post not lower than that of Assistant Superintendent The principal appointments in the Jail Department also require European qualifications, and officers of and above the rank of Assistant Superintendent in that Department who were appointed to these appointments direct may also be regarded as eligible

21 Proposals have been made to include as appointments qualifying for the allowance a few appointments of lower grade First in the Police, the claim is made for A class Inspectors in Burma ("gentlemen Inspectors," from whom Assistant Superintendents are often selected) Those may be admitted as also the similar cases in some provinces where men are, or have been, specially appointed as Inspectors for a time only in pursuance of a system of recruitment for Assistant Superintendences, or pending the occurrence of a vacancy The same will apply to any analogous case that may exist in the Jail Department It has also been laid down, in some provinces at least, that the district Reserve Inspectors of Police should be Europeans and these officers and on similar grounds the Jailors of Presidency and Central Jails, may also be admitted

22 European Constables and European Sergeants of Police, and of European Warders in those Jails in which special accommodation is provided for Europeans, require European qualifications and are appointed by reason of their possessing them, at the same time, they are hardly within the classes for whom Exchange Compensation Allowance is intended, and the most suitable form of order regarding them that commends itself to His Excellency in Council is that they should be considered eligible until their Local Government reconsider and revises the salaries attached to the appointments.

23 Superintendents in the Presidency Police forces should be considered eligible

Opium Department

24 Officers of this Department of and above the rank of Assistant Opium Agent should be regarded as eligible for Exchange Compensation Allowance

Salt Department

25 In the Salt Department executive appointments are chiefly officered by Europeans, domiciled and non domiciled, the number of Asiatic natives in all but the lowest appointments being comparatively small It is accordingly ruled that all officers of the Salt Department holding appointments not lower in rank than that of Assistant Superintendent in Northern India, Assistant Inspector in Madras and Inspector in Bombay, shall, if otherwise eligible, obtain Exchange Compensation Allowance

Customs Department, etc

26 The administering officers of the Customs Department have a good deal to do with European ships and European merchants, and officers of the rank of Assistant Collector and upwards may be classed as eligible Appraisers, Gaugers and Inspectors at present on the establishment, and such of the officers of these classes as may hereafter be appointed *as Europeans*, may also be regarded as eligible But this ruling will not apply to officers whose Customs Work is of a ministerial character such as Accountants, Superintendents of Statistics, etc

* The Royal Indian Marine stands on a different footing and is eligible *per se*

27 Members of the Customs Preventive Service, including the two Superintendents of the Excise Detective Establishment, Calcutta Collectorate, in regard to whom reference has been made by the Bengal Government are eligible

Post Office

28 The following categories are part of the indispensable European element of the Department —

(1) All ranks senior to Superintendents,
(2) the Sea Post Office Establishment,
(3) the Aden Post Office Establishment;

and Europeans filling these posts will be eligible

29 In 1880 the Director General was directed to arrange his recruitment for Superintendencies of Post Office so as to provide a proportion of Europeans for certain special posts, and the necessity for this has now been more prominently brought to notice in connection with Postal work on Military expeditions Accordingly European Superintendents to the extent of 10 per cent of the whole body of this class may be admitted to Exchange Compensation Allowance

Education Department

30 This Department is divided into an Imperial and a Provincial Service, which primarily gives the division between eligibility and non eligibility—see paragraph 8 above But Head Masterships and Head Mistresships (by whatever designation known) of all technical colleges or schools and of all schools specially established for Europeans and such special appointments (not being Heads) as those instanced below, may be included among those carrying exchange compensation allowance —

(1) Professor and Superintendent, Sibpur Engineering College
(2) Assistant Superintendent, School of Art, Calcutta

Survey and Forest Departments

31 These are Departments which are divided into an Imperial and a Provincial Service All officers in the Imperial Service of both Departments are eligible, if otherwise qualified As stated in paragraph 8 of this Resolution officers in the Provincial Service of these Departments are not eligible

Secretaryships and Heads of Departments

32 The holders of Secretaryships under Governments (including Joint, Deputy, Under and Assistant Secretaryships) should, if Europeans and not already qualified by reason of the service to which they belong, obtain Exchange Compensation Allowance

33 The same rule is applicable to Registrarships and Deputy Registrarships in High Courts

34 On the same principle Heads of Departments are included generally Most of them will no doubt be qualified by reason of the service to which they belong, but when they are not, they are, if Europeans, entitled to the allowance

35 Superintendents of Stamps and officers holding special appointments as Income tax Collector at a Presidency Town are also eligible

Personal Staff

36 The personal staff of the Governor-General and Heads of provinces (when not admissible by reason of the service to which they belong) and also the heads of the clerical staff of Private and Military Secretaries are included

Clerical and Ministerial Appointments

37 These cases, including Registrars and Superintendents as well as purely clerical members of establishments, are reserved for further orders, save that on the establishment of the Foreign Office under the Government of India, twelve appointments above the grade of Rs 100—150 shall be guarded as the number of appointments which it may be necessary to fill with Europeans who are not statutory natives, and within that limit Exchange Compensation Allowance will be admissible to the establishment of that office

The question whether there are any other civil office establishments, in which a proportion of Europeans not being statutory natives, is indispensable has not yet been finally settled, and if it should be decided that there are any such, orders in regard to them will issue later on

Military Subordinate and Warrant Officers and Clerks in Military Offices, including the Military Secretariat of the Government of India

38 If an appointment on an establishment (including ministerial establishments) connected with the administration of the army is by rule or practice held by a man who is borne on the strength of the British Army, such a person, holding such an appointment, will be eligible for Exchange Compensation Allowance Warrant and Honorary Commissioned Officers of the Subordinate Military Medical Service will come under this category

To other members of these establishments the orders in paragraph 37 apply

Transfer from an eligible to a non-eligible appointment

39 The case of an officer transferred from a service or appointment in which he is eligible for Exchange Compensation Allowance to one which does not carry the allowance should be dealt with as follows So long as such an officer substantively belongs to the eligible service or appointment, and merely officiates in the other, he should retain his claims, but when he is substantively transferred, he should not get the allowance if he would not have drawn it had he been originally recruited for his new service or appointment

Grant of Exchange Compensation Allowance to Local Fund and Municipal servants

40 The orders issued by the Government of India on the subject of Exchange Compensation Allowance apply *proprio vigore* only to officers paid from general revenues Their application to officers serving under Local Boards and Municipalities is a matter to be settled by Local Governments so far as these have legal and financial power to enhance the salaries of such officers To this extent Local Governments may sanction any increase in the salaries of Local Board or Municipal servants by way of exchange compensation, provided that the concessions so made in no case exceed what such officer would have been eligible for by way of Exchange Compensation Allowance had he been serving under Government It must also be borne in mind that, as stated in paragraph 3 of the preamble to the Exchange Compensation Allowance Rules issued with this Department's Resolution of 31st May 1897, No 2422 Ex, no vested rights to receive compensation for ill in exchange can in any case be recognized

ORDER.—Ordered that the foregoing Resolution be published in the *Gazette of India*, and that it be circulated to all Local Governments and Administrations, to Departments of the Government of India, to Heads of Departments subordinate to the Financial Department, to the Comptroller and Auditor General, and to all Accountants-General and Comptrollers

H H RISLEY,
Offg Secretary to the Govt of India

The following orders, issued by the Government of India in the Military Department, are republished for general information

3 The Governor General in Council is further pleased to direct that the gentlemen posted to the Lower Provinces of Bengal shall, on arrival at Calcutta, report themselves to the Chief Secretary to the Government of Bengal Should any of them land in Bombay, they should inquire of the Secretary to the Government of Bombay whether any orders are awaiting them from the Government of Bengal The officers posted to Burma should proceed to Rangoon and report themselves to the Chief Secretary to the Government of that Province

4 The officers posted to the North Western Provinces and Oudh should report themselves to the Chief Secretary to the Government of the North Western Provinces and Oudh, Allahabad The officers posted to the Punjab should telegraph from Bombay to the Chief Secretary to the Government of the Punjab, Lahore, for orders as to their destination, in the event of their not finding instructions awaiting their arrival at Bombay The officers posted to the Central Provinces should report by telegraph from Bombay their arrival to the Secretary to the Chief Commissioner of those Provinces at Nagpur, by whom they will be instructed to which portion of the Province to proceed

5 Local Governments and Administrations are requested to inform the Government of India of the dates on which the gentlemen in question so report themselves Should any officer attached to one of the Upper Provinces in India wish to exchange with an officer of his year attached to another of those Provinces, he is at liberty to do so, but he must report to the Government of India in the Home Department for previous sanction any arrangement of the kind he may be able to effect

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Governments of Bengal, the North-Western Provinces and Oudh, the Punjab and Burma, and the Chief Commissioner of the Central Provinces, for information and guidance, and that a copy be forwarded to the Chief Commissioner of Assam for information. Also that the Resolution be published in the Supplement to the *Gazette of India*, and that a copy be forwarded to each of the gentlemen named therein

A H L. FRASER,

Offg Secretary to the Government of India

GOVERNMENT OF INDIA

HOME DEPARTMENT

Appointment of a Plague Commission.

Nos 4360—74

Extract from the Proceedings of the Government of India in the Home Department Sanitary Plague, *under date Simla, the 11th November 1898*

READ—

(1) Despatch to Her Majesty's Secretary of State for India, No 19 dated the 25th August 1898
(2) Telegrams from Her Majesty's Secretary of State for India, dated the 28th September and 2nd November 1898

RESOLUTION

Plague broke out in the City of Bombay during the rainy season of 1896, and has since visited all parts of the Bombay Presidency, the City of Calcutta, the district of Saharanpur in the North-Western Provinces, the districts of Jullunder and Hoshiarpur in the Punjab, several districts of the Madras Presidency, the Hyderabad and Mysore States, the Sirohi State in the Rajputana Agency, and the Gwalior State in the Central India Agency No efforts have been spared in devising and prosecuting measures to stay the epidemic, and the Government of India think that, although the plague has been widespread, these efforts have been attended in many respects with marked success

2 The Governor General in Council is of opinion that the time has now come when it is possible as well as most desirable to obtain reliable scientific opinion as to the manner in which the disease is communicated, the causes of the outbreaks in different parts of India, and the circumstances influencing their growth and decline The facts connected with the outbreaks of the disease are still very obscure, and no such opportunity has arisen—and it may be hoped that none will arise in the future—as now presents itself for their investigation A number of interesting facts have already been collected and embodied in the different reports regarding the outbreak of the disease which has prevailed in India for the past two years, but there must be many valuable items of information to be ascertained from officers who have been employed on plague operations that have not been recorded in official reports, and there are also many circumstances connected with the outbreaks at different places which require to be locally examined by persons who can collate the facts and form conclusions which will be accepted by public as well as scientific opinion in respect of them

The Government of India also regard it as very desirable that an authoritative scientific opinion should be obtained as to the value of prophylactic and therapeutic serum in dealing with plague

3 The Governor General in Council has accordingly decided, with the approval of Her Majesty's Secretary of State for India, to appoint a commission to inquire into the following questions —

(1) the origin of the different outbreaks of plague,
(2) the manner in which the disease is communicated,
(3) the effects of curative serum, and
(4) the effects of preventive inoculation

The object with which the Commission is appointed is to conduct an investigation of a scientific character, the results of which will be of the greatest interest and importance not only to the Government of India, but beyond the limits of the Indian Empire

4 The President of the Commission will be Professor T R Fraser, M D, LL.D, F R S, Professor of Materia Medica in the University of Edinburgh The Members of the Commission will be Mr J P Hewett, C I E, I C S, Secretary to the Government of India in the Home Department, Professor A E Wright, M D, Professor of Pathology in the Army Medical School, Netley, Mr A. Cumine, I C S, a Senior Collector in the Bombay Presidency, and Dr M A Ruffer of the Egyptian Sanitary Department Mr C J Hallifax, I C S, will be Secretary to the Commission

5 The Commission will be formally constituted on the arrival of the members from England They will first visit the city of Bombay, and will probably then desire to make

enquiries in the other parts of India in which plague is or has been prevalent The Governor-General in Council desires to leave the matter of method and procedure entirely to their discretion The general conduct of the inquiry and the regulation of the course of business before the Commission will be entrusted to the President in communication with the members The Commission, through their Secretary acting under the instructions of the President, will correspond direct with Local Governments and Administrations (including Political Officers in direct relation with the Government of India) and Departments of the Government of India and with any local authorities with whom direct communications may be authorized by Local Governments and Administrations as a matter of convenience and in order to save time It is requested that all communications or requisitions for information emanating from the Commission may be treated as urgent and complied with promptly, and that, in the event of the Commission visiting a Province, they may be afforded every facility for their inquiries

ORDER —Ordered, that copy of this Resolution be forwarded to the Local Governments and Administrations for information and guidance, and to the Departments of the Government of India noted in the margin for information *

NOTIFICATION—No 3481 R

The 22nd November 1898—Under the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act, VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that a survey shall be made and record of rights prepared in respect of all lands included within the external boundaries of thana Bahera in the district of Darbhanga

The particulars to be recorded in the survey and record of rights shall be the following —

(*a*) The name of each tenant

(*b*) The class to which he belongs, that is to say, whether he is a tenure holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non occupancy raiyat or under raiyat, and if he is a tenure holder whether he is a permanent tenure holder or not and whether his rent is liable to enhancement during the continuance of his tenure

(*c*) The situation, quantity, and boundaries of the land held by him

(*d*) The name of his landlord

(*e*) The money rent payable, or, if a produce-rent, the fact that a produce rent is paid

(*f*) The mode in which the rent has been fixed, whether by contract, by order of a Court or otherwise

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases

(*h*) The special conditions and incidents, if any, of the tenancy

(*i*) The name of each proprietor, including rent free owner, with the character and extent of his interest, and the situation quantity and boundaries of the proprietor's private lands, as defined in Chapter XI of the Act

(*j*) The name of each rent-free occupant, if any, the situation, quantity, and boundaries of the land held by him and whether he holds rent free by the permission of the proprietor of the land, or of his predecessor in title, or independently of such permission

NOTIFICATION—No 6644Medl

The 21st November 1898—The following documents are published for general information

E N BAKER,
Offg. Secy to the Govt of Bengal

No 4345, dated Simla, the 10th November 1898

From—A H L FRASER, Esq, C S I, Offg, Secy to the Govt of India, Home Dept,
To—The Secretary to the Govt of Bengal, Municipal Department

I AM directed to acknowledge the receipt of your letter No 5704 (Medical), dated the 9th September 1898, regarding the arrangements to be made for the pilgrimage to the Hedjaz during the ensuing season, and in reply to forward, for the information of the Government of Bengal, a copy of a Notification No 4341, dated the 10th instant, issued by the Government of India under the Epidemic Diseases Act, 1897

2 It will be observed that the pilgrimage will be permitted except in the case of residents of the Bombay Presidency (excluding the whole of Sind except Karachi), the Madras Presidency, the Mysore and Hyderabad States and Coorg, and that Chittagong is the sole port from which embarkation will be permitted The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based Every endeavour should also be made through Magistrates

of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that the Government of Bengal thinks best, to dissuade intending pilgrims from going to the Hedjaz next season

3 I am to request that, with the permission of His Honour the Lieutenant Governor, arrangements may be made, similar to those made last season, for receiving the pilgrims at Chittagong and despatching them thence to the Hedjaz The Government of India agree to the proposal, made in your letter of the 9th September, that the pilgrim camp should be established at some place in the neighbourhood of Chittagong instead of at Ranigunj Pilgrims from other provinces will be despatched from camps situated in those provinces to the Chittagong camp after they have completed the necessary period of observation I am to forward, for the information of His Honour the Lieutenant Governor, a copy of the instructions on the subject issued to Local Governments and Administrations They have been directed to inform the Government of Bengal of the arrangements made, and to supply periodical information respecting the number of persons in the provincial camp destined for Chittagong and the period of observation they have completed I am to request that the Government of Bengal will enter into communication with the Local Governments and Administrations concerned on the subject of the arrangements for receiving pilgrims from the provincial camps

4 Tickets are to be sold only at the observation camps, and I am to request that steps may be taken to enforce this order and make it known to pilgrim brokers The owners and agents of ships engaged in the pilgrim traffic should be informed that Chittagong will be the port of embarkation for pilgrims to the Hedjaz, and endeavour should be made to ascertain from them, as far as possible, what vessels will sail and approximately on what dates

5 The Government of India will be glad to be informed in due course of the progress of the arrangements

---

No 4341, dated Simla, the 10th November 1898

NOTIFICATION—By the Government of India, Home Department

IN the notification of the Government of India in the Home Department, No 2495 dated the 20th November 1897, it was ordered, under the powers conferred by section 2 sub-section (1) of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjaz during the season of 1898 might be permitted, except in the case of persons residing in the Bombay Presidency (excluding Sind), subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non infected portions of India

Plague is unfortunately still widely prevalent in the Bombay Presidency, and the disease has extended to the Madras Presidency and to the Mysore and Hyderabad States Karachi as well as Bombay is an infected port The alarm experienced by European Governments including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were subject to much vexatious restriction and consequent hardship, and a proposal that they should not be permitted to land in Arabia was at one time put forward The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the coming season, but they consider it essential that careful precautions should be observed similar to those which were enforced during the past season

The Governor General in Council is pleased to cancel the order contained in the notification of the Government of India in the Home Department, No 2495, dated the 20th November 1897

The Governor General in Council is further pleased to direct that until further orders, no person resident permanently or temporarily in the Presidency of Bombay (excluding the whole of Sind except Karachi), the Presidency of Madras, the Mysore and Hyderabad States, and Coorg shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca

The Governor General in Council is further pleased to direct as follows —

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated, and unless such person is conveyed

from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose

(2) That no passage tickets for the Hedjaz shall be sold, except at the places appointed for the detention of intending pilgrims under observation

The Government of India think it necessary to repeat the warning given last year that, although they have decided that the pilgrimage to the Hedjaz may be permitted subject to the safeguards enumerated above they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government and the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia

---

Nos 4347 52, dated Simla, the 10th November 1898

From—A H L FRASER, Esq, C S I, Offg Secy to the Govt of India, Home Dept,

To—The Secretary to the Government of the North-Western Provinces and Oudh, Sanitation Department, the Junior Secretary to the Government of the Punjab, the Chief Commissioner of the Central Provinces the Chief Commissioner of Assam, the Agent to the Governor-General in Rajputana, and the Agent to the Governor General in Baluchistan

I AM directed to forward, for the information of the Government of the North West rn Provinces and Oudh / the Government of the Punjab / your information, a copy of a Notification No 4341, dated the 10th instant issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season

2 The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based Every endeavour should also be made through Magistrates of districts, the religious heads of the Muhammadans, pilgrim brokers, and in any other way that the Government of the North West rn Provinces and Oudh / the Government of the Punjab / you thinks / think best, to dissuade intending pilgrims from going to the Hedjaz next season

3 It will be observed that embarkation is permitted only at the Port of Chittagong in the Lower Provinces of Bengal The Government of Bengal has abolished the central camp established last year at Ranigan] for the reception of pilgrims, and in its stead will open a central camp in the neighbourhood of Chittagong to which intending pilgrims from other provinces must be sent under arrangements similar to those made last year All persons in the North West rn Provinces and Oudh / the Punjab / the Central Provinces / Assam / Rajputana / Baluchistan and neighbouring Native States who persist in the desire to go on pilgrimage [and* all persons from beyond the border who enter Baluchistan for the same purpose and persist in it] must be collected at an observation camp within the Province / Agency, where they must be detained under the careful superintendence of a Commissioned Medical Officer for at least ten days Intending pilgrims, who have completed the ten days observation period and are certified to be free from infection, should be sent to the camp near Chittagong as soon as information is received by the Government of the North Western Provinces and Oudh / the Government of the Punjab / you from the Government of Bengal that the authorities are ready to take them over This will depend on the number of ships available and on the dates on which they sail The Government of Bengal has been asked to obtain as full information as possible on this subject. Pilgrims must be despatched from the provincial camp by special train and under the charge of a responsible officer In cases in which there are only a few pilgrims present when notification is received from the Government of Bengal that a ship is ready for them small batches may be sent in a special carriage attached to an ordinary train, provided that the carriage is reserved exclusively for their use, that they are placed in charge of a responsible officer, and that they are not allowed to mix with other persons [It will be necessary to communicate with the political authorities in Native States with regard to the reception of pilgrims from those States in the provincial observation camp]‡ Passage tickets to the Hedjaz may be sold only at the observation camps and I am to request that the necessary steps may be taken to enforce this order and, in communication with the Government of Bengal to make it known to shipping agents and pilgrim brokers

4 I am to request that a place for the observation camp may be selected at once, that arrangements may be made as quickly as possible to give effect to the instructions contained in this letter and that the arrangements may be communicated to the Government of India and to the Government of Bengal Arrangements should be made in communication with the Government of Bengal for supplying a periodical statement of the number of persons in the provincial camp destined for Chittagong and the period of observation they have completed, and for despatching pilgrims from the provincial camp to the camp near Chittagong

[In the case of Baluchistan only]

† In the case of Rajputana and Baluchistan

‡[Except in Baluchistan]

[5 Pilgrims from Kashmir and from beyond the Punjab and Kashmir borders will be detained under observation in the Punjab camp, and will be despatched along with the Punjab pilgrims to Chittagong

To the Punjab

Letter No 2571 dated the 1st December 1897

I am to request that arrangements may be made to collect pilgrims from beyond the Punjab border at the observation camp, and that pilgrims from Kashmir may also be received in the camp The Resident in Kashmir has been directed to settle, in communication with the Government of the Punjab, the arrangements for despatching the pilgrims from Kashmir and from beyond the Kashmir border to the Punjab observation camp Pilgrims from beyond the Baluchistan border will be kept under observation in a camp in the Baluchistan Agency]

[5 In accordance with the instructions issued last year intending pilgrims from Central India will be kept under observation in the North-Western Provinces and Oudh provincial camp The Agent to the Governor-General in Central India has been informed of this, and I am to request that the necessary arrangements may be made in communication with him]

To the North West ern Provinces and Oudh

Letter No 2562 dated the 29th November 1897

No 6645Modl, dated Calcutta, the 18th November 1898

From—E N BAKER, Esq, Offg Secy to the Govt of Bengal, Municipal Dept,
To—The Inspector General of Police, Bengal

I AM directed to forward, for your information, a copy of a letter, No 4345, dated the 10th November 1898, with enclosures, from the Government of India, with regard to the pilgrimage to the Hedjaz during the current season

2 Orders will as last year be issued on paragraph 2 of the Government of India's letter from the Political Department of this office, and it is hoped the desired effect of deterring a large number of Muhammadans from going to the Hedjaz this year will be attained

3 The Lieutenant Governor has decided to place you again in charge of the arrangements for despatching pilgrims from Chittagong in the manner described in paragraph 3 of the letter of the Government of India You will observe that pilgrimage is permitted except in the case of residents of the Bombay Presidency (excluding the whole of Sind, except Karachi), the Madras Presidency, the Mysore and Hyderabad States, and Coorg, and that this year Chittagong is the sole port from which embarkation is allowed The central camp also is to be established at some place in the neighbourhood of Chittagong instead of at Ramgarj, and the Ramgarj camp may therefore be broken up I am to request that after making such enquiries as may be necessary you will submit, for the information of the Lieutenant Governor, and for communication to the Government of India, a report stating in as full detail as possible the arrangements you have been able to make for the retention and reception of pilgrims from Bengal and other provinces, at Chittagong, and for their despatch from that port I am to request also that you will report as early as possible what arrangements you have been able to make about ships

4 The arrangements at the Chittagong camp should be generally similar to those made last year at the Ramgarj camp, subject to any modification which experience may have led you to think desirable The plan of the camp should be so arranged that the appearance of infectious disease in any one part may not render it necessary to detain the whole body of pilgrims Special attention must be paid to the water supply, the latrines, and the method of removing and disposing of the night soil You are authorised to supply the pilgrims with food during their detention in camp The housing of female pilgrims, pilgrims of the upper classes, and the pilgrim brokers will also engage your attention As soon as the camp is ready for the reception of pilgrims, the fact must be notified as widely as possible through leading Muhammadans, brokers, and village chaukidars The Local Governments of other provinces from which pilgrims may be likely to come will be advised that communications regarding their despatch should be addressed to you direct, and you should make all necessary arrangements to have the batches of pilgrims forwarded to Chittagong at appropriate times in the manner indicated by the Government of India All pilgrims who come from other provinces should be sent *viâ* Naihati without passing through Calcutta The camp should have accommodation for 800 inmates, and a junior police officer should be placed in charge of it You will be authorised to draw the necessary funds from the Chittagong Treasury

5 Under the Home Department Notification No 4341, dated 10th November 1898, tickets for the Hedjaz may only be sold at the places appointed for the detention of intending pilgrims under observation, *i e*, at the Chittagong camp for Bengal, and at the observation stations in other provinces which may hereafter be chosen This prohibition should be effectively enforced and be made widely known No ticket should be accepted as valid that does not bear a certificate signed by the Officer in charge of a camp (1) that the ticket was sold in the camp concerned, (2) that the holder was detained under observation up to the time of his departure No person desiring to go on the pilgrimage should be admitted into the Chittagong camp if he has not money enough to purchase a ticket to Jeddah

6 It will be the duty of the Port Officer of Chittagong to see that the provisions of the Pilgrim Ships Act, 1895, and the rules framed under it are duly complied with He will be instructed to see that the pilgrims do not enter the town or have any communication with the residents of Chittagong

If any pilgrim ship, owing to its heavy draught, is unable to cross the bar of the Chittagong harbour, the Port Officer will be required to take pilgrims out to such vessel when lying outside the bar

7 Your experience of last year will enable you to ascertain what pilgrim ships are likely to start from Chittagong, and what arrangements should be made about provisions for the voyage

JUDICIAL DEPARTMENT

No 5549A

Lights re-established—Pasig river open to navigation

THE British Admiralty has given notice (No 615 of 1898) that Corregidor light on the summit of that island, which was extinguished in April 1898, is now re-exhibited, it is a *group flashing* light, with a period of *twenty seconds*, showing alternately *red* and *white flashes* every *ten seconds*, separated by total eclipses.

The *fixed red* light on the north quay of the mouth of Pasig river has been also re established

The obstructions in Pasig river have been so far removed as to give a practicable channel of 15 feet depth at high water

Approximate position Corregidor light, lat 14° 23′ N, long 120° 33′ E

PACIFIC OCEAN—(1) SANTA CRUZ AND (2) MOTUITI ISLANDS

(1) *Shoal discovered*

THE British Admiralty has given notice (No 619 of 1898) that information dated 4th August 1898 has been received from Lieutenant and Commander C W S Leggatt, H M.S *Goldfinch*, that when about 25 miles south-westward of the Duff or Wilson group he obtained a sounding of 9 fathoms, and another of 11 fathoms shortly afterwards, in approximately lat 10° 14 30″ S, long 166° 54′ 30″ E A depth of 9 fathoms has been placed in this position on the Admiralty Charts, and named Goldfinch shoal

(2) *Motuiti island—Non-existence of.*

Also, that Motuiti (or Kennedy) island (supposed to have been discovered by the *Nautilus* in 1801, and unsuccessfully searched for by the *Carola* in 1883) was carefully searched for without success a distance of 60 miles both east and west of its assigned position, a cast of 75 fathoms, no bottom, having been taken on its charted position, and no sign of land being visible from the masthead This island, the existence of which has always been considered doubtful, has in consequence been erased from the Admiralty Charts

Approximate position, lat 8° 38′ S, long, 167° 48′ E

(*Variation 9° Easterly in 1898*)

EASTERN ARCHIPELAGO—SUMATRA—LANGA ISLAND

East Domino (Selentang island)—Reefs

THE British Admiralty has given notice (No 631 of 1898) that the following information has been received as to the reefs extending off and in the vicinity of East Domino (Selentang) island —

The reef surrounding the island, which dries at low water, extends from its north east side to a distance of nearly three quarters of a mile, on the east side a quarter of a mile, and on the south side one fifth of a mile

At a quarter of a mile S 48° W from the south point of the island is a patch with a least depth of one fathom, and 8 to 10 fathoms close to

At 1¼ miles S 6° W from the same point is a shoal with a least depth of 1¾ fathoms

The reef marked (D) on the Chart, and situated about 3½ miles S ¾ E from the island does not exist, and has been erased from the Charts.

There is good anchorage in 8 fathoms on the west side of Selentang island

Approximate position, Selentang island, lat 0° 6′ 30″ S, long 104° 57′ 30″ E

(*Variation 2° Easterly in 1898*)

NEW ZEALAND, NORTH ISLAND—East Cape

Light on East Cape Island

The following extract from the *New Zealand Gazette* dated 6th October 1898 is republished —

Notice is hereby given that about the month of August 1899, a light will be exhibited from a light-house now being erected on East Cape Island, near East Cape, in latitude 37° 40 S, and longitude 178° 36′ E, as measured from the Admiralty chart The light will be 362 feet above the level of the sea at high water, and will be a second order dioptric light, revolving to show a white flash at intervals of every ten seconds

The light will be seen seaward over an arc of 280 degrees of the horizon (or as far round as the land will allow), and in ordinary clear weather it will be visible twenty-two nautical miles from the deck of a vessel 15 feet above sea-level

Further particulars, together with the date of lighting, will be given in a future notice

Chart, &c, affected No 2527, Sheet III, N Z, 'New Zealand Pilot," Chapter III, pages 147 and 148

CHINA—Yang tse Kiang

Shaweishan or North channel—Light established at Drinkwater point

The British Admiralty has given notice (No 570 of 1898) that a light is now established on Drinkwater point, Shaweishan or North channel, Yang tse Kiang

Drinkwater point light is a *group flashing white* light showing *two flashes* in quick succession *every twenty seconds*, elevated 89 feet above high water, and visible in clear weather from a distance of 15 miles

The illuminating apparatus is dioptric of the 4th order

The lighthouse is an iron screw pile structure, 93 feet in height, painted in alternate black and white horizontal bands, situated 332 yards N 45° W from the Drinkwater point beacon

Approximate position, lat 31° 27′ 50″ N, long 121° 48′ 15″ E

PACIFIC OCEAN—FIJI ISLANDS—KANDAVU

Great Astrolabe reef—Rocks near Yambu island

THE British Admiralty has given notice (No 576 of 1898) of the existence of the undermentioned rocks near Yambu island, Great Astrolabe reef, Kandavu island —

1 A rock awash at low water with 5 fathoms close around lies with the south-west end of Yambu island bearing E ¼ S, distant 2½ cables, or approximately in lat 18° 50′ 50″ S, long 178° 30′ 10″ E

2 A circular coral patch, about 50 yards in diameter, with less than 6 feet over it at low water, lies with the south west end of Yambu island bearing N 63° E, distant 4 cables, or approximately in lat 18° 50′ 55″ S, long 178° 30′ 0″ E

3 A coral patch, about one cable in length N N W and S S E, having a knoll of less than 6 feet water at each end and from 1½ to 4 fathoms between, lies with the south west end of Yambu island bearing N 50° E, distant half a mile, or in approximately lat. 18° 51′ 5″ S, long 178° 29′ 50″ E

AUSTRALIA—BRISBANE RIVER

Leading marks and new red buoy for new cutting above Lytton

THE Port Master, Brisbane, has given notice (No 17 of 1898) that the old pair of leading beacons and lights above Lytton have been removed, and that the new dredged cutting there is marked as follows —

A pair of white triangular beacons on the first mangrove islet above Lytton and a pair of post lights near Lytton Wharf mark the downstream portion of the cutting, and a pair of triangular beacons on the Lytton Flats, carrying lights at night, mark the upper portion, a red buoy being placed at the turn in the cutting

Directions —A vessel ascending the river must, after passing Lytton Wharf, bring in line a pair of triangular beacons bearing S 29° W in line ahead, or a pair of lights at night must be brought in line astern bearing N 29° E, and keep them so until another pair of beacons bearing N 58° E, carrying lights at night, come in line astern, passing a red buoy on the starboard hand

This last lead passes 300 feet off the Queensland Meat Export Company's Wharf, and may be kept until the latter is neared, when proceed as hitherto

A plan of the locality may be seen at the Harbour Master's Office

Hinchinbrook Channel—Alterations in buoyage

The British Admiralty has given notice (No 587 of 1898) of the undermentioned alterations in the buoyage of the South entrance to Hinchinbrook channel —

1 The Fairway buoy, which is now painted red, has, in consequence of the bar extending seaward, been moved to a position in 5 fathoms at low water, with Hillock point bearing N 22° W and Conspicuous tree on Lucinda point S 63° W, distant $3\frac{7}{10}$ miles
A small black buoy is moored in a depth of 9 feet in the former position of the Fairway buoy
2 The red buoy at the entrance to Enterprise channel has been withdrawn
3 A red buoy has been established in a depth of 10 feet to mark the northern end of a sandbank which has extended into the channel, from it the White leading mark on Hinchinbrook island bears N 39° W, distant $3\frac{3}{4}$ cables, and Oyster rock S 55° W
4 A small red beacon marks a sandbank, which dries 2 feet at low water, from it the White leading mark on Hinchinbrook island bears N 84° E, distant $1\frac{3}{4}$ miles, and mount Stralock N 23° E

Approximate position, Lucinda point (Conspicuous tree), lat 18° 31′ 30″ S, long 146° 20 15″ E

The Hon'ble MR BAKER took his seat in Council

APPOINTMENT OF A MEMBER OF THE PROVINCIAL SERVICE TO A DISTRICT MAGISTRACY

The Hon'ble BABU SURENDRANATH BANERJEE said—

I have the honour to call the attention of the Government to the fact that since the death of Mr Umesh Chunder Batabyal, late Magistrate and Collector of Bogra, who was a member of the Provincial Service, no member of that Service has been appointed to a District Magistracy Will the Government be pleased to consider the propriety of appointing a member of the Provincial Service to such an appointment, especially in view of the consideration adverted to in the letter of the Government of India, No 285, dated the 30th April 1890, viz, that the claims of members of the Indian Civil Service of 1853 and 1854 for vacancies among Magistrates and Collectors and Judges have now been fully considered, and the time, therefore, has come to consider the claims of members of the Provincial Service for such appointments?

The Hon'ble MR BOLTON replied —

"As was explained to the Hon'ble Member in Council on the 20th of March last year, the notification of this Government published in the *Calcutta Gazette* of the 30th April 1893, declaring certain 'listed' appointments (of which four are Collectorships and six District Judgeships) open to members of the Provincial Service, including Statutory Civilians, was subject to the restrictions imposed by the Resolution of the Government of India, No $\frac{1}{11}$, dated the 21st April 1892 That Resolution laid down that the appointment of members of the Provincial Service to these posts should be subject to the prior right to promotion of members of the Indian Civil Service appointed in the several years in which recruitment was reduced by one sixth in order to allow of vacancies being filled up by members of the Provincial Service In accordance with these orders six District Judgeships and Collectorships are now held by Statutory Civilians all the Indian Civilians appointed in or before 1886 having received similar promotion to the rank of District Judge or Collector The vacancy caused by the death of Mr Batabyal could not be given to the Provincial Service, because the Civilians recruited in 1887 have yet to receive promotion, and until they have all been promoted another District Judgeship or Collectorship will not become available for a member of the Provincial Service

'When the Government of India wrote their letter of the 30th April 1890 only two of the listed appointments had been appropriated, and both were held by Statutory Civilians Since that date four more appointments have been so appropriated The six appointments are now held by Mr Nanda Krishna Bose Kumar Gopendra Krishna Deb and Messrs Ambika Charan Sen, Syed Nurul Hudá, Brojendra Kumar Seal and Surjya Kumar Agasti"

MR AMBLER'S CASE

The Hon'ble BABU SURENDRANATH BANERJEE asked—

Has the attention of the Government been called to the case which has recently been decided in which one Mr Ambler was committed to the Court of Sessions on a charge under section 304, Indian Penal Code, of culpable homicide not amounting to murder and other charges, he having it is alleged, caused the death of one Jadoo Tewari? Is the Government aware that the decision and the proceedings in connection with that case have caused general dissatisfaction among the Indian section of the community?

If the case be, that, contrary to law, Mr Ambler was tried by the Sessions Court although, the committal being under section 304, Indian Penal Code he should have been tried by the High Court, which was thus unduly deprived of its jurisdiction in the case, (2) that the Jury consisted exclusively of three Europeans all of whom were members of his own Club, one of them being the Honorary Secretary of the Club, and that, in the first instance they refused to bring in a verdict of guilty under a charge of assault under provocation, even though the prisoner had pleaded guilty to it, and (3) that,

contrary to the express provisions of the law, the accused was enlarged on bail by the Committing Magistrate, who possesses no such power, the committal being in respect of a non bailable offence triable exclusively by a Court of Sessions, the Sessions Court alone in such a case having the power of granting or refusing bail?

Whether, having regard to all these irregularities, which are sufficiently grave in their character, the Government will be pleased to call for the papers and the records of the case and consult the Law Officers of the Crown and take such action as the justice of the case may demand?

The Hon'ble Mr BOLTON replied —

"The attention of the Government was attracted to the case referred to by the Hon'ble Member, and acting under instructions, the Legal Remembrancer has already taken steps to have a motion presented to the High Court in the matter Under the circumstances it is not desirable to enter into the points of law raised in the question"

SCARCITY IN THE DISTRICT OF KHULNA

The Hon'ble BABU SURENDRANATH BANERJEE asked—

Is the Government aware that the district of Khulna suffered from scarcity for three consecutive years preceding the famine of 1896-97, and that there has been a steady deterioration in the productive quality of the soil which has been ascribed by Mr Westmacott, late Commissioner of the Presidency Division, to the incursions of salt water, which if not checked, might bring on a recurrence of distress in future years? Will the Government be pleased to state what action, if any, it has taken to improve the tracts which suffered from distress, and will the Government lay on the table all the papers and correspondence on the subject?

The Hon'ble Mr BOLTON replied —

"It is not correct to say that the district of Khulna suffered from scarcity for three consecutive years preceding the famine of 1896-97 The winter rice is the main staple of the people, who are mostly agriculturists The winter rice crop of 1893-94 was reported to have exceeded the average in the Sadar subdivision and to have been but little below it elsewhere In the succeeding year the crop was an excellent one and the outturn estimated at 17 annas while, although the yield during 1895-96 was less, the material condition of the people was not seriously affected The physical features of the district render it peculiarly liable to damage from salt water The occurrence of a cyclone in October 1895 drove the salt water over a larger extent of land than usual in the Satkhira subdivision, and the famine of 1896-97 was largely due to the fact that the short rainfall was insufficient to wash out the saline deposits from the soil In that year, however, the affected area amounted to 474 square miles only, out of a total area of the district of 2,077 square miles The country is mainly dependent for its protection upon bandhs These have been permitted by the local zamindars and ryots to get out of repair, with the consequence that the salt water percolates through to the gradual deterioration of the soil In January 1897 Sir Alexander Mackenzie addressed a circular to the leading landowners, many of whom are absentees, impressing upon them that they could best provide for their own interests, while fulfilling their duty to their tenants, by taking in hand the repair of existing embankments and the construction of new ones which may be necessary Loans were offered to the purpose, and a sum of nearly half a lakh was so disbursed during the famine and expended upon bunds and embankments The subject has already been discussed in the published reports of Government in connection with the famine operations, which, together with a copy of the circular referred to, can be laid upon the table if desired"

KILLING OF MONKEYS IN THE PURI MUNICIPALITY

The Hon'ble BABU NOPENDRA NATH SEN said—

The Government is aware of the excitement caused among the orthodox Hindu community in various parts of India by the action of the Puri Municipality in killing monkeys That excitement has been allayed to some extent by the timely and wise intervention of Government, at whose instance the slaughter has been suspended till further orders Will the Government be now pleased to state if it has arrived at any final decision in the matter?

The Hon'ble MR BOLTON replied —

"The Commissioner was desired to take steps to put a stop to the slaughter of monkeys in the Puri Municipality, and did so It does not appear that any further order from the Government is called for in the matter"

STATEMENT AS TO THE COURSE OF BUSINESS

The Hon'ble THE PRESIDENT said —"GENTLEMEN OF THE COUNCIL —According to custom I have to make to you a statement of the business before you in the present Session There are at present no new Bills to be introduced The main duty in the Session will be the consideration in the Select Committee of the Calcutta Municipal Bill It will I cannot conceal be a long and troublesome task But questions that concern the Government of a great city can never be light, and the Committee will be encouraged in their labours by the importance of the work on which they will be engaged

"There are questions in connection with this Bill on which I feel that I am called upon to make a personal statement Because, to the misfortune of the Province, Sir Alexander Mackenzie no longer presides in this Council I have been challenged to give my personal opinion on the issue upon which an overwhelming majority of this Council has already given its decision Not except upon the strongest and clearest grounds could I ask this Council to suspend or vary its decision But I am bound to say that after a patient and, I venture to think, an impartial examination I am independently of the opinion that that decision was right

"The Corporation of Calcutta has under its present constitution assented to some great and far reaching schemes of improvement for the city, and they are entitled to all the credit—and it is a high one—of realizing the value and necessity of the great schemes which have been drawn up for their approval, such as those for the drainage of the city, and the construction of the Harrison Road They have not shrunk from the heavy taxation which was needed to bring these beneficent projects into effect, and I have myself had evidence of the high public spirit and laborious circumspection which many members of the Corporation bring to the discharge of their municipal duties These are qualities which not in Calcutta alone have elicited my respect, and it is a pleasure to me to have this opportunity of acknowledging them

"Nevertheless, it has also been my own experience, in even my limited time of office among you, that the judgment of Sir Henry Harrison on the constitution of the municipal government of Calcutta was right No man has ever had such long and such favourable opportunities of judging it No Chairman has ever wielded such an influence in the Corporation, no Chairman has ever been so much beloved or so much trusted, no Chairman's advice was ever so promptly and unhesitatingly accepted, and yet it was his judgment that under its present constitution there is a lack of motive power The energies of the municipal government expend themselves in criticism and not in action That opinion was confirmed in the experience of my predecessors In my own period of office I have been compelled to admit its justice In the administration of a great city there must be provision for prompt, steady, and efficacious action, and there is no room for doubt that reform of some sort is needed

"The real issue is the shape which this reform shall take The solution which Sir Alexander Mackenzie proposed, and which this Council has accepted, is that the executive body of the Corporation—its agents for all purposes of action—shall be a committee limited in numbers, in which the three great interests of the city shall be equally represented—the rate payers, the men of commerce, and the Government. Under the name of the Government are gathered those great sections of the people—the Muhammadans for instance and the poor—who but for Government nomination may never be represented at all Against this proposal the Select Committee of the Council will find that several protests have been presented The most important of these is the memorial submitted by a meeting at the Town Hall The gravamen of these protests is that the constitution of the Executive Committee, as proposed in the Bill, is an infringement of the great principles of Local Self-Government If it were so, the Bill would have had from me a most reluctant adhesion, but whatever may or may not be the demerits of the scheme, it most certainly cannot be alleged of it that it infringes in any way the principles of Self-Government Self-Government is not circumscribed into one solitary and sacred system Self-Government would cease to be a defensible method of Government, if it were refused permission to adjust itself to the lessons of experience No Government is defensible which does not seek to amend and improve itself whenever weakness and inefficiency become apparent From this essential law Self Government is no more free than an autocracy If Self Government in one form has proved unequal to the whole of the task imposed on it, that form must be varied

"In the humdrum monotonous duties of every day, in duties, nevertheless, of such imperious necessity as the cleanliness of the city, the present constitution has not succeeded as we hoped I am sorry to say it, but there is no shutting our eyes to that which is patent We must try and improve it I think the method which this Council has decided upon is a good one It limits the members of the Executive where it was overgrown, it increases the share in the administration of the city of those great interests in the community which had been overborne by the single interest of the rate-payers, it keeps strictly within the lines which all the principles of Self-Government permit, and at the same time it has the great merit of clearly defining and distinguishing the functions and relations of the Corporation, the General Committee and the Chairman

"Of course this is a reform which is unpalatable to the representatives of the rate payers They lose the predominance that they have been accustomed to, and we part with annoyance from anything to which we have been habituated The change, moreover, does convey a slight. In all these feelings they have the sympathy of all of us. Had they been indolent, negligent, false to their duty, they could have had no sympathy Their virtues have indeed been their vices, and a very excess of zeal has paralyzed their agents But we should not be true to those very principles of Self-Government which are now said to be assailed, we should not be true to those very principles if we allowed our tenderness to these most natural feelings to hold us back from setting our house in order when its defects have been pointed out The end must otherwise indeed be that blow to Self-Government which I should be the last to wish to have a hand

"In the criticisms on the Bill the Select Committee will further find the suggestion that the central body of the Corporation should be reduced in number and brought into harmony with the constitution of the General Committee It is alleged that it is unscientific and illogical to leave the Corporation unchanged while you materially change your executive Committee, and that the result is certain to be a constant friction I am not concerned about the charge that the proposals are illogical and unscientific The most scientific constitutions have not been the most successful in our knowledge And I have no apprehensions of any injurious friction At the commencement of all changes there is certain to be opposition and friction of sorts, but as soon as people become accustomed to the change, these temporary sorenesses vanish It is from the representatives of the rate-payers alone that any friction could come, and they have shown so much good sense and public spirit in all the

greater matters of the past, that I have entire confidence in their bearing in the future And, speaking for myself, I endorse with the heartiest pleasure and satisfaction the decision that the constitution of the Corporation shall remain as it is I look upon it as of the greatest value to the administration of the City that there should be numerous wards and numerous delegates The information and advice about local needs, which these delegates bring, will be of most important service There could be no more excellent illustration than in the assistance they gave last hot weather in calming the fears of the people and establishing the temporary hospitals, which were the best means of reassuring them I welcome, therefore, personally the arrangement which retains a large number of local Counsellers, and the dangers of possible friction I personally regard as enormously outweighed by the certain advantages of their help

"In the main lines of the Bill, therefore, my personal opinions are in complete accord with the decisions of this Council—decisions which have since received the support of such important bodies as the Chamber of Commerce, the British Indian Association, and the two leading Muhammadan Societies

"The Committee will find, however, in many points of detail very valuable and important suggestions in the criticisms that have been presented during the last few months I will not take up the time of the Council at present by entering into any examination of these opinions But there are two matters on which I think I may with propriety now state the opinion of the Government I have already referred to the memorial from the Town Hall Meeting I read it, and the speeches at the meeting itself, with the careful attention which it was my duty to give to them The speeches, if I may say so, were not comparable, in practical knowledge and dialectic skill, to those which were delivered in this Council room by my Hon'ble colleagues, Babu Norendra Nath Sen and Babu Surendranath Banerjee Those speeches I had not the pleasure of hearing, but I have read them with equal attention to those in the Town Hall There are, however, two points made in the memorial which I think are perfectly reasonable and to which the Government will give a ready assent The first is that the duty of sanctioning the bye-laws shall be given to the Corporation instead of to the General Committee This is just one of those legislative functions—determination of the general lines of the administration—which eminently fall within the jurisdiction of the Corporation There will, no doubt, be greater delay in fixing the form and character of these bye laws, but it is well that they should be framed with the most thorough consideration, and the Government willingly agree to this modification

"The second is that the General Committee shall not exceed the budget allotment on any project without the express sanction of the Corporation, unless within reasonable limits by way of re appropriation This again I think is reasonable I have been warned that, at least so long as friction lasts, the Corporation may hamper its executive by assigning inadequate funds for necessary undertakings I decline to believe this is possible I have too much faith, as I have already said, in the commonsense and patriotic feeling of the leaders of the representatives. Should there happen to be a difference of opinion between the Corporation and the General Committee on a question of the kind, I have no doubt that a reference will be made to the Government, as the Bill itself provides, and its impartial decision will close the matter

"The chapter on the registration of deaths was avowedly tentative and will require very careful examination, and there are numerous details on which the Select Committee will be able to make improvements

"With these observations I commend the arduous duty to the Committee The result of it we await with much interest and entire confidence I am persuaded that they will endeavour to complete their conclusions with as little delay as is consistent with a thorough examination of the criticisms and suggestions

offered by the public bodies we have consulted It is obvious that it is of great importance to the city that we should settle this matter as early as possible"

CALCUTTA MUNICIPAL BILL

The Hon'ble MR BOLTON moved that the Hon'ble MR. BAKER be added to the Select Committee on the Calcutta Municipal Bill

The Motion was put and agreed to

The Council adjourned to Saturday, the 17th December, 1898

CALCUTTA,
The 22nd November, 1898.

F G WIGLEY,
Offg Asst. Secy. to the Govt of Bengal,
Legislative Dept

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL, FOR THE YEAR 1897 98

REVENUE DEPARTMENT.—AGRICULTURE

Calcutta, the 21st November 1898

RESOLUTION—No 3475

READ—

(1) Letter No 836A , dated the 3rd September 1898, from the Board of Revenue Lower Provinces, Land Revenue Department, submitting the report of the Department of Land Records and Agriculture, Bengal, for the year 1897-98

(2) The report itself

(3) Read also the Resolution of Government on the report for the year 1896-97.

THE annual report on the working of the Department of Land Records and Agriculture, Bengal, for the year 1897 98, which was due to Government on the 15th August last, was received with the Board's remarks thereon about three weeks after the due date The report is the second of its kind which has been prepared in the form prescribed by the Government of India in the eighth Resolution of the Revenue and Agricultural Department dated the 20th March 1897 on the proceedings of the Agricultural Conferences of 1893 and of 1895 96 The delay as explained by the Director is due to the difficulties experienced by him in getting the report promptly compiled during his frequent absence on tour

Mr W C Macpherson, ICS, was in charge of the Department from the beginning of the year up to the 23rd June 1897, and again from the 5th September to 22nd November 1897, when he reverted to general duty, and was succeeded by Mr P C Lyon, ICS, by whom the present report is submitted Mr C G H Allen, ICS, officiated as Director during the period from 24th June to 4th September 1897, while Mr Macpherson was deputed on special duty in connection with the Orissa settlement operations

2 *Chapter II of the Report —Land Records Establishment* —The number of registrations effected during the year under report under the provisions of the Land Records Maintenance Act, III (B C) of 1895, in the three mutation offices opened in 1896-97, at Bettiah in Champaran and at Hajipur and Mahnar in Muzaffarpur, are shown below —

Thana	Office	Registration direct under section 6	Registration through Registrars under Rule 6	Total	Permanent Tenures		Temporary Tenures		Holdings at fixed rates		Occupancy holdings		Other holdings	
					Transfer	Succession	Transfer	Succession.	Transfer	Succession.	Transfer	Succession	Transfer	Succession
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Bettiah	Bettiah	232	880	1 112	1	Nil	99	6	8	1	928	9	59	1
Hajipur	Hajipur	1 057	1 082	2 139	Nil	Nil	Nil	Nil	373	139	1 180	298	137	23
	Mahnar	1 921	618	2 539	14	12	2	Nil	80	53	1,433	788	88	69
	Total	3 280	2 10	5 790	15	12	101	6	461	193	3 541	1 095	284	93

In the Resolution upon the report for the preceding year it was observed that while the statistics of transfers recorded showed that the registration of changes under the Act was far from perfect, yet that this had been anticipated, and in various ways the Act had worked as satisfactorily as could have been expected It was requested that in future years more attempt might be made to analyse the figures reported, both by way of comparison with the results which might reasonably have been expected, and of examination of the nature of the transfers made, while a special report was called for as to the practical difficulties experienced in the working of the Act with recommendations for their removal It is now stated that the figures do not admit of detailed comparison with those shown in the last year's report, which were for a portion

of the year only The most satisfactory results are exhibited by the office at Mahnar, and the least so by that at Bettiah Financially, the latter office worked at a loss of Rs 1,021, and that at Hajipur of Rs 627, while the Mahnar office made a profit of Rs 753

3 Figures have been furnished by the Director, comparing the number of mutations, which have been actually registered in the three offices since their opening, with the results which might have been anticipated in the light of independent local enquiries and calculations made from time to time by different officers connected with the working of the Act, and in each case the results fall very far short of the estimated realities The whole subject is at present receiving the separate attention of Government, the special report called for from the Director has been received, together with the preliminary opinions held by the Board of Revenue on the subject Certain further enquiries have, however, still to be made, and pending the full consideration of the criticisms advanced against the working of the Act as at present framed, the Lieutenant-Governor refrains from any expression of opinion as to the degree of success which has hitherto attended its operation, or as to the modifications and changes which further experience may suggest

Outside Bihar, the only other area to which the Land Records Maintenance Act has been so far extended is that of the Sujamutha estate, in the district of Midnapore It having been found, however, that the settlement records of the estate, which were prepared in 1892, were not altogether accurate, and therefore unfitted for the purpose of serving as an initial register of mutation, the operation of the Act has, with the approval of the Board of Revenue, been suspended in the estate, pending their revision by the Sub-Manager of the Burdwan Raj estate

4 As requested last year an attempt has been made to analyse in greater detail the figures of mutations recorded elsewhere in those tracts where a system for the maintenance of the records is in force, but it is reported that the figures are still in many instances incomplete, and in several important estates very little improvement has been effected Comparison between the results attained by the different estates is therefore difficult, the most satisfactory results are found in the Government estates of Backergunge, where transfers were registered affecting 7 32 per cent of the total tenancies and 22 10 per cent of the total number of fields, while at the other end of the scale stand the Burdwan Raj Khas Mahals, in which transfers affecting 16 per cent of the total tenancies and 06 of the total number of fields only were recorded, showing clearly, as the Director observes, that the registration of mutations in this case is little better than a farce The Manager in explanation ascribes the smallness of the number of transfers registered to the absence of the custom of the transfer of raiyati holdings in the Burdwan Division This statement is said to be traversed by the Settlement Officer who has been conducting the survey-settlement operations of those mahals, but the grave issue has now been directly raised as to whether the Manager or the Settlement Officer is right, and whether it is expedient to maintain a system that encourages the growth of a doubtful privilege The Lieutenant-Governor is aware that the Board are giving their immediate attention to the matter and awaits their report The figures are little better in the estates of Kujang in Cuttack, Sujamutha in Midnapore, and Dakhin Shahbazpur in Backergunge In the Banki estate in Cuttack only transfers by sales have been recorded Throughout all these areas the registration of mutations is so patently incomplete as to be altogether useless for any purpose whatever, and the Director must set himself to consider by what means he can soon make it really effective As matters stand, it seems to be useless The rules for the maintenance of the records in the Angul Government estate are under revision, and the Director also promises further enquiries as to the alleged difficulties of showing the khasra numbers of fields transferred in the Mynaguri Tahsil in the Western Duars There was a heavy file of undisposed of applications in the Maldwar estate in Dinajpur, on the subject of the inaccuracy of the returns furnished, the Director explains that the exaction of fees for the record of mutations, originally at very high rates, has probably affected the accuracy of the returns, and their reduction was therefore suggested The Board consider that the case

of this estate affords a good illustration of the difficulties attending the attainment of any complete system of mutation either by an automatic method, or by management on behalf of the proprietor They observe —

"The fees, the exaction of which is believed by the Director to have affected the accuracy of the returns are found to have been levied by long-standing custom, and to be the right of the proprietor, and the Board have agreed with the Commissioner that in its fiduciary position, the Court of Wards would not be justified in abolishing these fees, which are part of the income of the estate"

No information has been furnished by the Director concerning the registration of mutations in the Khurda Government estate in Puri

5 *Maintenance of boundary marks* —Detailed information has been furnished, showing that efficient supervision was generally exercised by District Officers over the maintenance of survey boundary marks in their respective districts In the Saran district it is reported that but little was effected for want of an available agency for inspection purposes, while in Cuttack it is stated that nothing was done It is not clear why the matter should present more difficulties in these districts than in any others, and the Board are desired to consider what arrangements are necessary to prevent, as far as possible, a recurrence of such a defect Under section 114 (1) of the Bengal Tenancy (Amendment) Act, III of 1898, expenses that may be incurred in the maintenance of boundary marks are to be included in the total cost of proceedings to be apportioned under that section

6 *Chapter IV —Scientific and National enquiry under Imperial control* — The report by Major D Prain, I M S, on the result of the study made by him during the year 1896-97 of the races of rape and mustard grown in Bengal, was printed during the year under report and published, with his permission, as a bulletin of the Agricultural Department Dr Prain also conducted botanical examinations of various leguminous crops, such as gram, *khesari*, *mung*, &c Dr G Watt, C I E, Reporter on Economic Products to the Government of India, having undertaken to make a botanical examination of *sola* and *piper betel*, varieties of those substances were forwarded to him by the Agricultural Department. His report on the result of his investigations into the causes of the betel-nut plague in Eastern Bengal, referred to in the Resolution on the report of last year, is still under preparation The Lieutenant-Governor desires to acknowledge the value of the services which Dr Prain and Dr Watt have rendered during the past few years to the Agricultural Department

7 *Chemical analyses of soil, water, &c* —Arrangements have been made to test by actual experiments conducted in selected tracts of the Darbhanga, Muzaffarpur, and Champaran districts, the correctness of the opinions expressed by Dr Leather, and quoted in the Resolution for the year 1896-97, that the well water of certain tracts in North Bihar which the raiyats objected to use for the purposes of irrigation, contained no elements injurious to the growth of their crops Enquiries are also being made into the nature of soils affected by *reh* in North Bihar.

8 *Working of the Civil Veterinary Department, Bengal* —A separate Resolution, No 3158, dated the 16th September 1898, has been recorded by this Government on the annual progress report of the Civil Veterinary Department in Bengal, for the year 1897-98

9 *Chapter V —Scientific and local enquiry under Provincial direction* —It has not yet been found possible to commence the special report on the district of Shahabad, similar to those already prepared for a few districts in the Province only by the Assistant Directors in previous years The Lieutenant Governor trusts that this work will be taken in hand during the present year

10 *Experimental Farms* —Agricultural experiments continued to be conducted at the Sibpur, Burdwan, and Dumraon farms, under the supervision of the Department of Agriculture The farm at Sibpur has since been made over to the Education Department for use as a demonstration farm in connection with the agricultural classes which were opened in June last As an experimental farm the results obtained were but of little value owing to the variable composition of the soil The experiments with manures made there during the year, confirmed the result of the experiments of the preceding year,

though in a less marked degree, that saltpetre is a better manuring agent for cabbages than castor cake Similar experiments as well as with new crops and new varieties of existing crops were carried out on a larger scale in the Burdwan and Dumraon farms The results at the Burdwan farm tended to show that for practical purposes there is little to choose between cowdung and a mixture of bone meal and saltpetre as a manure for paddy, and between cowdung and castor cake for potatoes The results at the Dumraon farm showed that ashes of cowdung made the best manure for paddy, and cowdung itself for wheat, although apparently only on irrigated land The experimental cultivation of varieties of paddy, sugarcane, maize, potatoes, and sorghum was tried at Burdwan, and of paddy, wheat, potatoes, cotton, maize, and *bajra* in the Dumraon farm during the year The results obtained showed that the *bansmati* variety of paddy gave the best yield in either farm As regards potatoes, while the Patna variety yielded the largest outturn in the Burdwan farm, the superiority of those from Naini Tal was demonstrated at the Dumraon farm In trials with sugarcane and wheat the *shamshara* variety of the former, and the Muzaffarnagar (white) variety of the latter gave the best results As in previous years, seeds and manures were distributed during the year from both farms to the neighbouring cultivators In the Lieutenant Governor's opinion the supply of good seeds to raiyats at cheap rates is a measure likely to produce very beneficial results

11 *Agricultural experiments in Government, Wards,' and private estates* —The Lieutenant Governor regrets to observe that notwithstanding the orders contained in Government Resolution No 89oT R , dated 9th October 1896, on the subject of the introduction of agricultural improvements in Government and Wards' estates and the hope expressed last year that increased exertions would be made in this direction by the officers connected with their management, the Director still complains of the lack of interest which is met with in dealing with the subject Mr Lyon observes that the amalgamation of the allotments for miscellaneous and agricultural improvements in Government estates frequently leads to expenditure on the former at the expense of the latter, while the maintenance of an English vegetable garden, or the cultivation of the proprietor s private lands is too often found to constitute the Manager's idea of agricultural experiment The Director appears to be making what arrangements he can with the Assistants and Travelling Overseers at his disposal to stimulate an interest in these matters, and the Lieutenant Governor would again request that the Board will impress upon the Managers of estates subordinate to them that attention to this subject constitutes an integral and important portion of their duties

The favourite experiment appears to have been that connected with the cultivation of Naini Tal potatoes, probably owing to the very lucrative nature of the crop when successful Details are given of the trials made with different crops in the various Divisions, and their results The experimental introduction of lac into the Kalimpong khas mahals in Darjeeling appears to have been commenced without due preliminary enquiry, but the experiments in tobacco growing in the Chittagong district have been read with interest, and it is to be hoped that endeavours will be made to remedy the defects pointed out by the appraiser, as the crop, properly prepared, would find a ready market A small agricultural farm has been started at Khurda

An interesting report of the operations of the Agri-Horticultural Society is quoted by the Director in his report, and their co operation and assistance is also acknowledged. Revised rules for the conduct of experimental crop cuttings were circulated during the year, and reports were received collating the results of the experiments of the last three years, from which, however, the data deduced were not altogether consistent or reliable

12 *Silk experiments* —Under the revised scheme for the conduct of silk experiments, described in the Resolution on the report for 1896-97, 12 seed-rearing nurseries were working at the commencement of the year and three new ones were opened during it Since the close of the year, the chief firms interested in the industry have combined and subscribed largely to carry out a scheme on lines similar to those already followed by Government It is stated that it is now proposed to amalgamate the two schemes, and a special report is

promised The Lieutenant Governor welcomes this action on the part of those concerned for the improvement of the methods of sericulture, and has read with pleasure the remarks made by the Director concerning the increased interest taken by the rearers in the demonstration nurseries The total quantity of cocoons raised during the year in the 15 nurseries was 10,914 *kahans* as compared with 7,329 *kahans* in 1896 97, while the quantities sold for seed to cultivators was 2,843 *kahans*, or 8,500 ounces as against 1,056 *kahans*, or 3,200 ounces sold during 1896 97 These figures are very encouraging

An Industrial School was opened during the year at Rampur-Boalia by the District Board of Rajshahi, at which practical and theoretical training is given in sericulture Half the pay of the teacher in charge, who is also a Sericultural Overseer employed under the Agricultural Department, is borne by Government, and there are at present 15 students on the attendance-roll, most of whom are connected with the silk industry of the district

13 *Chapter VI —Agricultural Education* —The final sanction of the Secretary of State for India was obtained during the year under report to the opening of the agricultural classes at Sibpur from the beginning of June 1898 The classes were actually started in July last The annual cost of their maintenance has been estimated at Rs 10,000, for which provision will be made in the Budget estimates of the Education Department The control of the teaching staff and establishment will rest with the Principal of the Sibpur Civil Engineering College, but the nomination to the post of Agricultural Lecturer will be made by the Director of the Department of Land Records and Agriculture, Bengal Teaching is given in two classes, of which the upper is open to the students of the Engineering College who have passed the F E examination and are under 23 years of age, and, subject to the accommodation available, to other candidates nominated by Government, who have either passed the B A examination by the B course, or are otherwise considered to be possessed of sufficient educational attainments Sons and relations of landholders and those desirous of receiving the training for the benefit of their own property, can also be admitted under special conditions The lower class is open to students of the College who have completed their second year in the Apprentice Department, or to teachers sent from training schools with the sanction of the Director of Public Instruction, Bengal Appointments in the Provincial and Executive services have been reserved for passed students of the upper classes and their applications for nominations to compete at the ordinary examinations for the same will also be considered, the posts of Managers, or Sub-Managers of estates, or of tahsildars or land stewards are also available to them The training given in the lower class is designed for kanungoes or candidates for other subordinate posts in the Revenue Service Detailed information as to the aim and object of opening these classes, and the syllabus of study to be followed therein, have been embodied in this Government Resolution No 1141, dated 15th March 1898

14 *Chapter VII —Publication of Agricultural information* —The usual forecasts of *rabi*, *bhadoi*, jute, winter rice, wheat, and oil-seed crops, and reports on cotton and indigo crops were published by the Department Tables of Agricultural Statistics for 1896 97, and a consolidated table showing the average wholesale prices of food-grains, firewood, &c, in the principal marts of Bengal for that year, in addition to a bulletin on the cultivation of mustard, and a monograph on the cotton fabrics of Bengal were also issued

15 *Chapter VIII —Emigration to Burma* —The total number of State Emigrants conveyed during the year to Burma on board the vessels of the British India Steam Navigation Company was 463 as against 241 in 1896 97 and 136 in 1895-96 The total Government subsidy amounted to Rs 756

16 *Agricultural exhibitions* —Agricultural exhibitions were held during the year at the places noted on the margin, a total sum of Rs 1,275 being spent by Government in the distribution of certificates and prizes The Lieutenant Governor would be glad if, in future reports, the Board would briefly

(1) Suri in Birbhum
(2) Madhupur on the East Indian Railway
(3) Kalimpong in Darjeeling
(4) Alipur and Falakata in Jalpaiguri
(5) Bera in Pabna
(6) Barhampur in Shahabad
(7) Sonepur in Saran
(8) Tintanga in Bhagalpur
(9) Sitamarhi in Muzaffarpur

describe the agricultural improvements which these exhibitions were designed to stimulate

17 *Cost of Agricultural experiments* —The total expenditure during the year on agricultural enquiry and improvement (excluding the pay of the superior establishment, and the expenditure on silk experiments, and the cost of the Civil Veterinary Department) amounted to Rs 8,407 as compared with Rs. 10,354 in the preceding year.

18. The Lieutenant-Governor desires to acknowledge the value of the services of Mr W C Macpherson, who has now severed his connection with the Department after administering it with conspicuous success for several years, and to thank Mr. Lyon for the energy and devotion which he has shown in maintaining an efficient supervision over the many branches of work in progress The Director's remarks on the good work done by Mr Nagendra Nath Banerjee and Mr Nitya Gopal Mukerjee are also noted.

ORDER —Ordered, that the Resolution be published in the *Calcutta Gazette*, and a copy of it, together with the Report and the forwarding letter of the Board of Revenue, be submitted to the Government of India, in the Revenue and Agricultural Department, and a copy forwarded also to the Board of Revenue

By order of the Lieutenant-Governor of Bengal,

F A SLACK,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE MANAGEMENT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1897-98

REVENUE DEPARTMENT —MISCELLANEOUS

Calcutta, the 21st November 1898

RESOLUTION—No 3474

READ—

The Report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1897-98

The effects of the famine of 1896 and 1897 are clearly traceable in the administration of the Zoological Garden during the year under report Not only did the number of paying visitors fall to the lowest figure recorded during the last five years, but the expenditure on establishment showed an increase of Rs 1,888, attributable for the most part to the compensation granted to the menial servants on account of the high price of food grains The feeding charges of the animals also rose by Rs 1,821 There was a noticeable falling off in the donations and subscriptions received, which amounted to Rs 566 only, as against Rs 1,460 in the previous year The total receipts of the Garden were Rs. 57,875 which sum includes an opening balance of Rs 18,318 The actual receipts during the year amounted to Rs 39,557 as compared with Rs 40,643 during 1896-97, which in their turn were less by Rs 3,704 than those of the preceding year The number of visitors who paid entrance money is shown below in comparison with the numbers since 1891 92 —

Year	Number of visitors
1891-92	116,382
1892-93	139,173
1893-94	162,449
1894-95	154,532
1895-96	165,152
1896-97	160,008
1897-98	151,640

2 The total expenditure of the Garden rose from Rs 42,211 in 1896 97 to Rs 50,544 during the year under report, but of this Rs 10,779 were spent on the construction of servants' quarters at Begunbari. The establishment charges, as explained, amounted to Rs 14,269 8 3 as against Rs. 12,381-15-11 in 1896 97, the increase being also due to the payment of a personal allowance of Rs 50 per mensem to the Garden Superintendent. The year closed with a balance of Rs 7,331

3 The collection of animals in the Garden received an addition of 105 mammals, 186 birds, and 72 reptiles during the year. Of these, only four mammals were born in the Garden, and the rest were received as gifts, or obtained by purchase or by exchange with foreign zoological gardens The special thanks of the Committee are given to the Maharani of Dumraon for the presentation of a valuable collection of animals, including a well-grown tiger and two leopards, and to the Thakur Sahib of Sohagpur for a fine tiger

4 In commemoration of the Jubilee of Her Majesty the Queen Empress it was resolved to construct a house for the smaller carnivora The sum of Rs 13,725 was subscribed and some progress was made with the building It is also stated that the Library is in want of important zoological works, but these are usually beyond the means of the Committee to purchase.

5 In consequence of the retirement of Dr Cunningham no experiments of importance were conducted in the Laboratory during the year

6 The year under report was marked by the retirement of Mr E V Westmacott, ICS, late President of the Committee of Management of the Garden, and of Sir George King, KCIE, LL D., FRS, who had been a member of the Committee since its foundation in 1875 His Honour notices with pleasure the high appreciation expressed by the Committee of the services rendered by these gentlemen.

7 The Lieutenant Governor expresses his thanks to the President, Secretaries, and Members of the Committee for their efficient management of the Garden

ORDER.—Ordered, that this Resolution be published in the Gazette, and that a copy of it be forwarded to the Honorary Secretary for the information of the Committee

By order of the Lieutenant-Governor of Bengal,

F. A SLACK,

Offg Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT

For the week ending the 21st November 1898

Burdwan.—No rain Weather seasonable Harvesting of *aman* paddy commenced Cultivation of *rabi* crops and potatoes continues. Common rice selling as follows —

	Srs	
Sadar	14 to 17	per rupee
Kalna	13 „ 15	
Katwa	15	
Ránigan;	16½	

Birbhum—No rain Weather seasonable Early rice is being harvested, and *rabi* crops are being sown Price of common rice at Sadar 16¾ seers and at Rampur Hât 16½ seers per rupee Fodder sufficient

Bankura.—No rain Weather fair Sowing of wheat and barley progressing Prospects of *aman* excellent Fodder and water sufficient No cattle disease reported Common rice sells at Bankura 20 seers (new rice) and at Vishnupur 16 seers per rupee

Midnapore—No rain Prospects of standing crops very good Cattle-disease reported from Nayagram Prices of common rice —

	Srs	
Sadar	13 to 15	per rupee
Contai	16	
Tamluk	14	
Ghatal	13 „ 16	

Hooghly—No rain Prospects of *aman* and *rabi* good Cattle-disease prevails in one thana Common rice sells from 11 to 13 seers per rupee

Howrah—No rain Weather seasonable Prospects of *aman* good Fodder and water sufficient Common rice sells at 12 to 13 seers per rupee

24 Parganas—Rainfall nil Weather seasonable Prospects good Ploughing and sowing of *rabi* crops going on Harvesting of *aman* paddy continues No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs. Srs	
Sadar	11 to 12	per rupee
Barasat	17	
Basirhat	15¾	
Diamond Harbour	14	

Nadia.—Rainfall nil. Sowing of *rabi* crops continues Standing crops doing well Harvesting of *aman* has commenced Common rice selling at 12 to 16 seers per rupee Fodder and water sufficient Cattle-disease in thanas Tehatta and Kumarkhali

Jessore—No rain Weather seasonable Havesting of *aman* rice commenced in places Sowing of indigo going on. No cattle-disease reported Fodder and water sufficient Common rice sells as follows —

	Srs.	
Jessore	16 to 20	per rupee
Jhenida	17 „ 18	
Magura	18 „ 22	
Narail	20	
Bangaon	17 „ 18	

Khulna.—Rainfall nil. Weather seasonable. Cultivation of *rabi* crops continues Harvesting of *aman* commenced. Prospects good Fodder and water sufficient Common rice sells as follows —

	Srs.	
Sadar	18 to 22	per rupee
Bagerhat	19	
Satkhira	16 18 (new *aus*)	

Rajshahi—No rain Prospects of crops good Harvesting of *aman* paddy commenced *Rabi* sowings in progress No cattle-disease Fodder and water plentiful Rice sells from 13 to 28 seers per rupee

Dinajpur—Rainfall nil. Weather fine and cool Harvesting of *haimanti* paddy commenced *Rabi* crops thriving No cattle-disease Fodder and water plentiful Rice 16 seers a rupee

Jalpaiguri—Rainfall nil. Weather seasonable *Haimanti* paddy doing well Transplantation of tobacco continues Cultivation of *rabi* crops commenced Fodder and water sufficient Common rice sells from 9 to 18 seers per rupee

Darjeeling—Rainfall at Darjeeling 03 Weather seasonable *Hills*—*Haimanti* paddy, *kalai* and *bara marua* being harvested, *phaphur*, wheat, barley and *tori* flourishing *Terai*—*Haimanti* paddy and jute being harvested, mustard, *kalai*, and potatoes doing well Coarse rice sells as follows —

	Srs.
Hills	9 to 11 } per rupee
Terai .. .	13 to 16 }

Bhutia sells at Darjeeling 19 seers and at Kalimpong 40 seers per rupee

Rangpur—No rain Weather fine and cool Cultivation of *rabi* crops and transplanting of tobacco going on Prospects good. Common rice selling at 13 to 15 seers per rupee Fodder and water sufficient

Bogra—No rain. Harvesting of winter rice has commenced. *Rabi* crops still being sown Prospects good Common rice selling from 18 to 26 seers per rupee. Fodder and water sufficient

Pabna.—Rainfall nil. Weather fine and cool Crop prospects excellent. Price of common rice 14 to 20 seers per rupee

The mean pressure of the seven days	29 883
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29 979
	Hours
The total number of hours of bright sunshine	58 9
The maximum possible number of hours of sunshine	77 0
The mean temperature of the seven days	70 4
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	75 0
The extreme variation of temperature	25 3
The maximum temperature	83 0
	Miles
The highest velocity of the wind in one hour	8
	°
The mean relative humidity	75
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inche
The total fall of rain from 13th to 19th November 1898	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0 04
The total fall from 1st January to 19th November 1898	59 52
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65 14

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

△ dew

† Added Mds 1 1 163 and 4,133
‡ Deducted 1 083 September 1898
} on account of difference between the approximate and audited figures for the week ended 17th

(a) The decrease is chiefly due to larger pilgrim traffic and to the running of extra troop trains and despatch of Commissariat and Ordnance stores to the Frontier in the corresponding period of 189

(b) The increase is chiefly in both upwards and downwards coal traffic amounting to about Rs 80,000 less.
A decrease of Rs 23 000 principally in food grain traffic from stations on the L district and Rs 20 000 in seeds and sundry articles exported from stations on the D district

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M , but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M., and so on until the whole of the remaining lots are disposed of , or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4 Each lot shall contain five chests.

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M , in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday , if it falls on a Saturday, the said notes must be redeemed by 1-30 P M , or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

Deposit.
When the amount b'd is less than Rs 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest
On bids of Rs. 1,600 and upwards but less than Rs 2,000 per chest, Rs. 400 per chest
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1 30 P M , if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any

of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P M , and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book, or his authorized agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:— No 1, certificate of the opium advertised for sale, No 2, report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1897 98, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

H. J. McINTOSH,

Offg Secretary

CALCUTTA, *the 29th November 1898*

GOVERNMENT OF BENGAL

NOTIFICATION

The 5th November 1898

No 963T-R —In exercise of the powers conferred by sections 5 and 5A of the Scheduled Districts Act, XIV of 1874, and with the previous sanction of the Governor General in Council, the Lieutenant Governor of Bengal is pleased to extend the Bengal Tenancy Act, VIII of 1885, to the whole of the Jalpaiguri district, except the Western Duars, with effect from the 1st of January 1899, subject to the following restrictions and modifications, namely —

I —Sub-sections (2) and (3) of section I of the said Act shall be omitted, and

II —The words "in the territories to which this Act extends by its own operations" in sub-section (1) and the whole of sub section (2) of section 2 of the said Act shall be omitted

No 964T-R —In exercise of the powers conferred by the Scheduled Districts Act, XIV of 1874, section 5 and section 5A (inserted by the Repealing and Amending Act, 1891), and with the previous sanction of the Governor General in Council, the Lieutenant-Governor of Bengal is pleased to extend the Bengal Tenancy Act, VIII of 1885, to the portion of the Jalpaiguri district known as the Western Duars, with effect from the 1st January 1899, subject to the following restrictions and modifications, namely —

I —Sub-sections (2) and (3) of section 1 of the said Bengal Tenancy Act shall be omitted

II —The words "in the territories to which this Act extends by its own operation" in sub-section (1), and the whole of sub-section (2) of section 2 of the said Act shall be omitted

III —Nothing in the said Bengal Tenancy Act, other than the provisions of sub section (1) of section 2, as modified by clause II of this Notification shall apply to any lands heretofore or hereafter granted or leased by Government to any person or company under an instrument in writing for the cultivation of tea or for the reclamation of land under the Arable Waste Land Rules.

IV —Where there is anything in the said Bengal Tenancy Act which is inconsistent with any rights or obligations of a *jotedar*, *chukanidar*, *darchukanidar*, *adhiar* or other tenant of agricultural land as defined in settlement proceedings heretofore approved by the Government, or with the terms of a lease heretofore granted by Government to a *jotedar*, *chukanidar*, *darchukanidar*, *adhiar* or other tenant of agricultural land, such rights, obligations or terms shall be enforceable notwithstanding anything contained in the said Act

Chief Secy to the Govt of Bengal

NOTIFICATION.

No. 5010 Ex

Simla, the 17th November 1898

RESOLUTION—By the Government of India, Finance and Commerce Department

Read—

Resolution by the Government of India, Finance and Commerce Department, No 4217 Ex dated the 21st September 1897

Resolution by the Government of India, Finance and Commerce Department, No. 4847 Ex, dated the 5th November 1898

RESOLUTION —Officers of the classes to which Exchange Compensation Allowance is admitted by the Resolution of 5th November 1898 read above, but who have not yet drawn it, may now be admitted, with effect from the 1st April 1897 (*vide* Rule XIII of the rules issued with this Department's Resolution of 31st May 1897, No 2432Ex), with the sanction of the Local Government to which they are subordinate or, in the case of officers of Imperial Departments, of the Head of their Department Cases in which there is doubt as to the title of an officer to the allowance with reference to the Statutory definition of a native of India, or as to the appointment which he holds being a qualifying one, must be referred through the proper channel to the Government of India in the Finance and Commerce Department

2 In the case of officers who have hitherto drawn Exchange Compensation Allowance, but to whom it is by the Resolution of 5th November 1898 declared to be inadmissible, the allowances drawn in respect of salary for the months of September 1897 and subsequent months (*vide* paragraph 2 of the Resolution in this Department of 21st September 1897, No. 4217-Ex), and to be drawn in future, will be adjusted under Rule XIII above referred to, as prescribed in paragraph 12 of the Resolution of 31st May 1897

Rule XIII and the orders of 21st September 1897 are, for convenience of reference, quoted below —

'*Rule XIII*—These rules shall come into force with effect from the 1st of April 1897, provided that officers to whom Exchange Compensation would not be admissible under these rules, but who have been admitted to it under the rules previously in force, will continue to draw it to the extent of the salaries they were drawing on the 1st of April 1897, but any increase in their salary after that date will be taken in reduction and ultimately in extinction of the claim to the allowance."

Orders of 21st September 1897—"His Excellency the Governor General in Council * * * * * directs that the rule (Rule XIII) be brought into force at once in cases of officers who were appointed in India and whose salary is less than Rs 400 a month inasmuch as they as a general rule will not fulfil the conditions required to entitle them to the allowance and also in all other cases in which the Head of the Department or office in which the officer serves considers that there is reasonable doubt whether the officer will be eligible under the new rules No recoveries need be made of amounts passed in respect of any salary for the month of August 1897 or earlier months, but it must be understood that all amounts drawn for subsequent months will be subject to readjustment under Rule XIII, if the officer concerned is finally declared ineligible."

Ordered that this Resolution be circulated to all Local Governments and Administrations, to Departments of the Government of India, to the Private Secretary to His Excellency the Viceroy, to Heads of Departments subordinate to the Financial Department, to the Comptroller and Auditor General; and to all Accountants-General and Comptrollers

Ordered also that the Resolution be published in the *Gazette of India*

H H RISLEY,
Offg Secy to the Govt of India

Lights re-established—Pasig river open to navigation

The British Admiralty has given notice (No 615 of 1898) that Corregidor light on the summit of that island, which was extinguished in April 1898, is now re-exhibited, it is a *group flashing* light, with a period of *twenty seconds*, showing alternately *red* and *white flashes* every *ten seconds*, separated by total eclipses.

The *fixed red* light on the north quay of the mouth of Pasig river has been also re established

The obstructions in Pasig river have been so far removed as to give a practicable channel of 15 feet depth at high water

Approximate position Corregidor light, lat 14° 23′ N., long 120° 33′ E

PACIFIC OCEAN—(1) SANTA CRUZ AND (2) MOTUITI ISLANDS

(*1*) *Shoal discovered*

THE British Admiralty has given notice (No 619 of 1898) that information dated 4th August 1898 has been received from Lieutenant and Commander C W S Leggatt, H M S *Goldfinch*, that when about 25 miles south westward of the Duff or Wilson group he obtained a sounding of 9 fathoms, and another of 11 fathoms shortly afterwards, in approximately lat 10° 14 30″ S , long 166° 54 30″ E A depth of 9 fathoms has been placed in this position on the Admiralty Charts, and named Goldfinch shoal

(*2*) *Motuiti island—Non-existence of*

Also, that Motuiti (or Kennedy) island (supposed to have been discovered by the *Nautilus* in 1801, and unsuccessfully searched for by the *Carola* in 1883) was carefully searched for without success a distance of 60 miles both east and west of its assigned position, a cast of 75 fathoms, no bottom, having been taken on its charted position, and no sign of land being visible from the masthead This island, the existence of which has always been considered doubtful, has in consequence been erased from the Admiralty Charts

Approximate position, lat 8° 38′ S., long, 167° 48′ E

EASTERN ARCHIPELAGO—SUMATRA—LINGA ISLAND

East Domino (Selentang island)—Reefs

THE British Admiralty has given notice (No 631 of 1898) that the following information has been received as to the reefs extending off and in the vicinity of East Domino (Selentang) island —

The reef surrounding the island, which dries at low water, extends from its north-east side to a distance of nearly three-quarters of a mile, on the east side a quarter of a mile, and on the south side one fifth of a mile

At a quarter of a mile S. 48° W. from the south point of the island is a patch with a least depth of one fathom, and 8 to 10 fathoms close to

At 1¼ miles S 6° W from the same point is a shoal with a least depth of 1¾ fathoms

The reef marked (D) on the Chart, and situated about 3½ miles S ¾ E from the island does not exist, and has been erased from the Charts

There is good anchorage in 8 fathoms on the west side of Selentang island

Approximate position, Selentang island, lat 0° 6′ 30″ S , long 104° 57′ 30″ E

NEW ZEALAND, NORTH ISLAND—EAST CAPE

Light on East Cape Island

THE following extract from the *New Zealand Gazette* dated 6th October 1898 is republished —

Notice is hereby given that about the month of August 1899, a light will be exhibited from a light-house now being erected on East Cape Island, near East Cape, in latitude 37° 40′ S, and longitude 178° 36′ E, as measured from the Admiralty chart The light will be 362 feet above the level of the sea at high water, and will be a second order dioptric light, revolving to show a white flash at intervals of every ten seconds

The light will be seen seaward over an arc of 280 degrees of the horizon (or as far round as the land will allow), and in ordinary clear weather it will be visible twenty two nautical miles from the deck of a vessel 15 feet above sea-level

Further particulars, together with the date of lighting, will be given in a future notice

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PRESIDENCY DIVISION FOR THE YEAR 1897-98

GENERAL DEPARTMENT—(MISCELLANEOUS)

Calcutta, the 29th November 1898

RESOLUTION No 3407

READ—

The Annual General Administration Report of the Presidency Division for the year 1897-98

THE report is submitted by Mr Buckland, who took charge of the Division on the retirement of Mr Westmacott in January 1898 In all of the five districts of the Division and in all but three of the fifteen subdivisions it was found necessary during the year to effect changes among the officers in charge

2 *Tours and Inspections* —The tours made by Mr Westmacott, which were not extensive, were mostly in connection with the famine relief operations during 1897 Mr Buckland was able, before the close of the year, to make a short tour through the Division, special attention being paid to the important municipalities about Calcutta, but he had not time to make inspections of the district offices which, therefore, with the exception of the 24 Parganas, remained undone Mr Westmacott also failed to visit any of the subdivisional offices, of which but three only could Mr Buckland manage to inspect With the exception of the 24 Parganas, where the bad health of the Collector, Mr Walsh, sufficiently explained the deficiency, the tours of District Officers appear to have been of adequate length, and the necessary inspections to have been satisfactorily made The same also was the case with the tours made by the Subdivisional Officers It should be seen that the Subdivisional Officer of Kandi, who is reported to keep no horse, and to be unable, in consequence, to move about his subdivision with facility, procures one at once

3 *Weather and crops material condition of the people prices and wages public health* —The average rainfall was much heavier than that of either of the two preceding years, and was sufficient and well distributed in all districts, with the result that the outturns of the different crops showed a marked improvement over those of the preceding two years The yield of the main winter rice harvest was 16 annas in comparison with 7 and 10 annas in the two previous years, while the *bhadoi* crop returned 14 annas, jute 13 and the *rabi* fifteen The reaping of these generally excellent harvests was sufficient to effect a considerable improvement in the material condition of the people, which had deteriorated considerably during the preceding poor years In fact, in the early part of the year, relief was given in several areas In the 24 Parganas the employment offered by the mills, road repairs, and by private employers, enabled the people to tide over the distress, but in Nadia relief operations continued till the reaping of a bumper *aus* crop in September, and the Commissioner observes regarding this latter district that although, owing to the *utbandi* system of land tenure, and their improvident habits, many of the cultivating classes are habitually impoverished, yet they exhibited surprising powers of resistance to the prevailing distress The district of Murshidabad, too, where some scarcity existed, has recovered with great rapidity In Jessore assistance was given from private and public charity, and especially by way of loans at the time of sowing, the good effects of which were reaped in an excellent harvest, while in Khulna, where relief operations were found necessary, the general condition of the people had improved by the close of the year

The course of prices was very similar in all districts, ruling high at the commencement of the year, they rose still higher before the gathering of the new harvests, after which they fell slowly, though at the close of the year they had still not reached the level of normal times In the Division generally the effect of the earthquake of 12th June 1897, by occasioning a subsequent demand for labour, was to impart to wages a slight tendency to rise

The year as a whole was a healthy one, there was a noticeable absence of disease in any widely epidemic form, and deaths from fever and cholera showed a marked decrease The prevalence of scarcity does not appear to have materially affected the general health of the people For the Division as a whole, the recorded death rate was 29 03 per mille, in comparison with an average of 34 5 for the preceding two years

4 *Manufactures Trade and Commerce* —The factories at work in the district of the 24 Parganas numbered 59, or three more than in the previous year, and gave employment to 80,983 operatives in comparison with 67,085 during 1896 97 From the statistics of the value of the outturn as furnished by the mill owners, there was a noticeable increase in the value of gunny bags and cloth manufactured, which amounted to Rs 3,24,0 ,983 as against Rs 2,28 71,07 during the previous year, and it is stated that cheap jute enabled most mills to make fair profits during the latter half of the year The value of the output of cotton twist and yarn continued to rise steadily, the raw material being cheap owing to the abnormally large American crop The existence of the plague in the Bombay Province is said to have driven the China trade more to this side of India, and to have compensated the mills for the loss of the local demand which followed the famine There was also an increase in the value of paper manufactured. The outturn of silk in the 24 Parganas was valued at Rs 1,91,806 as compared with Rs 55,341 during 1896 97, but the outturn in Murshidabad, where the industry is of greater importance, is still gradually declining

The year was a fairly favourable one for indigo, and 6,185 maunds were produced, an increase of about 500 maunds over the outturn of last year, although its value showed a decrease of over two lakhs of rupees as compared with the figures of 1896-97 The statistics of the sugar industry are incomplete, those for Nadia being, as usual, wanting, and the manufacture of this commodity by native methods is reported not to be in a flourishing condition

Taking the total traffic by rail, river, and canal, as registered in the 24 selected articles usually reported on, the total imports of the Division rose from 1,82,72,842 maunds to 2,09 90,975 maunds, while exports declined from 85,12,812 maunds to 77, 27,603 maunds There was a decrease of some three lakhs of maunds in the food grains imported, and of nearly nine lakhs of

maunds in those exported This fluctuation in exports was very marked in the case of gram and pulses, of which 9,30,000 maunds only were exported in comparison with 19,72,000 maunds in the preceding year, on the other hand, the exports of rice and paddy actually rose from 6,61,000 maunds to 10,54,000 maunds Other noticeable variations in comparison with the figures of the previous twelve months, were an increase of over two lakhs of maunds of raw jute imported, and of about five lakhs of maunds in the quantity exported an increase of 27 lakhs of maunds in the import of coal and coke and of over four lakhs of maunds in the quantity of kerosine oil exported, the quantity of unrefined sugar exported was less by over two lakhs of maunds

5 *Civil Justice*—Taking the Division as a whole, the proportions of cases instituted (113,685), disposed of (116, 256), and remaining pending (13 730) at the close of 1897, were almost identical with those of the preceding year The fluctuations in the individual districts were also not large The percentage of contested cases declined from 20 8 to 17·6 per cent The figures given of the duration of cases for the districts of the 24 Parganas and Jessore tend on the whole to show some improvement in the matter of prompter decisions but the Commissioner is of opinion that the results are not altogether favourable, and this is borne out by the fact that while a smaller number of witnesses were examined both in the Courts of Munsifs and all other Civil Courts, the proportion detained over two days (6·4 and 11 2 per cent respectively) are in each case worse than the corresponding figures of the previous year

6 *Criminal Justice Police*—The number of cognisable offences reported increased from 17,363 during 1896 to 22 734 during the year under report, the increase was mostly in burglary and theft cases and is attributed to the prevailing high prices of food grains 14,933 persons were sent up for trial, of whom 63 6 per cent were convicted 780 cases were declared false, in 5 1 per cent only of which were prosecutions instituted and in spite of the remarks made in the Resolution of last year, little use was still made of the useful and salutary provisions of section 560 of the Criminal Procedure Code Enquiry was refused by the police in only 6 per cent of the cases reported, and special care appears to be taken to prevent any abuse of this power 60 cases of murder occurred, in only 8 of which convictions were secured Other unsatisfactory features of the criminal administration were an increase of cases of dacoity from 32 to 49, and of rioting cases from 408 to 542 It is satisfactory to note that in the 24 Parganas, 11 out of 15 cases of dacoity were detected, in 8 of which convictions, covering 38 persons, were secured The most noticeable increase in rioting was in Khulna, and is ascribed to the occurrence of disputes regarding possession of the harvest which was an excellent one

There was an increase of 1,076 in the number of non cognisable cases reported as compared with the preceding year, chiefly in the 24 Parganas and Khulna, where, in the former district, prosecutions for municipal offences were more frequent The Commissioner observes that in the districts other than Nadia and Murshidabad, there is a tendency to make too frequent use of the police for enquiries in these cases, and the Magistrate of the 24 Parganas remarks that processes are often too freely issued, especially in petty land disputes of a civil nature The Lieutenant Governor agrees that both points call for attention

There was an increase in the number of cases tried by the Courts of Session, but the percentage of conviction (69 1) was slightly less than in 1896 There were altogether 400 Honorary Magistrates exercising powers in the division a new Bench was established at Tamluk, and that at Diamond Harbour was abolished after the close of the calendar year It is reported that Honorary Magistrates empowered to sit singly attend with fair regularity, but the attendance of others is, with few exceptions, unsatisfactory In Nadia and Jessore special action was taken to effect an improvement in this respect by warning and removing those who were most irregular The Lieutenant Governor is at present unaware how far this laxity in attendance is due to the Honorary Magistrates not having any fixed Court room 22,972 cases were disposed of by Stipendiary Magistrates and 60,864 witnesses examined, while 15,643 witnesses were examined in 9,343 cases before Honorary Magistrates The Lieutenant Governor regrets

to observe the remarks made by the Commissioner on the increase of the number of witnesses detained over two days, to which special attention has properly been drawn The percentage of such detentions in Stipendiary Courts rose from 4·8 during 1896 to 6 3 and before Honorary Magistrates from 8 3 to 13 2 The results were worst in the case of Stipendiary Magistrates at Diamond Harbour (16 9 and Basirhat (18) in the 24-Parganas, Kushtia (14 3) in Nadia and Jhenida (18 1) in Jessore, while as regards Honorary Magistrates, the following instances were especially unsatisfactory, the more so as the total number of witnesses examined was in several cases very small Diamond Harbour (33 8), Basirhat (17 9), Kushtia (45 7), Ranaghat (25 1), Chuadanga (25), Jangipur (31 1) As was to be expected, the percentage of police cases remanded six times and over rose similarly in all Courts from 4 3 during 1896 to 6 1 The Lieutenant Governor agrees that the figures show serious deterioration in the standard of criminal administration in the Division, which calls for the early attention of the Magistrates concerned

Rupees 1,37,505 were imposed as criminal fines during the year, of which Rs 1,17,319 were realised The results show some improvement, but large balances were still outstanding at the Alipore and Sealdah Police Courts, and at the Sadar Courts in Khulna.

Judged by the standard of the punishments awarded, the conduct of the police improved, punishments of all kinds having been far fewer, though the numbers rewarded remained about the same Bad reports are still given of the standard of ability and honesty among the police of Khulna, who were also the subject of unfavourable comment last year Out of the total number of 16,692 rural police, 4,731 were punished, as compared with 7,850 during 1896, and 752 rewarded The measures taken in Murshidabad to replace the chakran chaukidars by men enlisted under Act VI (B C) of 1870 are still in progress, though the step is reported not to be popular with the holders of the lands themselves Efforts are being made in all districts to improve the status of the force, both by the enlistment of better caste men and the offer of higher and more regular pay the *dafadari* system has been introduced throughout the 24-Parganas, though experience of its working has still to be gained, and the large area of the *dafadari* villages is mentioned as a drawback The circles under dafadars in Murshidabad have been to some extent re-grouped, and it is reported that a fairly satisfactory stamp of men can be obtained for the small monthly pay of Rs 6

7 *Land Revenue and cesses* —The total amount realisable during the year on account of land revenue, amounted to Rs 53,01,604 or an increase of Rs 20,734 over that of the previous year, shared alike by the arrear and current demand, the total collections, amounting to Rs 51,09,732 were therefore in excess of those of the preceding year, although their proportion to the total demand remained the same, namely 96 3 per cent The percentage of total collections on current demand, however, showed some improvement, being 99 6 in comparison with 96 8 per cent during 1896 97 The percentages of current collections to current demand attained in the estates of different classes in each district are compared below with the prescribed standards —

	Permanently-settled estates.	Temporarily settled estates	Government estates.
Standard percentage	99	95	90
24-Parganas	98 73	94 61	86 77
Nadia	97 15	96 16	76 64
Murshidabad	99 67	90 19	51 03
Jessore	99 12	86 86	69 60
Khulna	97 72	76 73	72 44
Calcutta			99 88

The results generally show an improvement except in the case of permanently settled estates in the districts of Nadia and Khulna

The poor collections in temporarily settled and Government estates formed the subject of unfavourable comment last year, although the failure of crops was advanced in explanation As before, Khulna still shows the worst results in the former class, and Murshidabad in the latter The after effects of the famine, the damage done by the earthquake, and the lenient application of

the certificate procedure are mentioned as explaining the deficient collections in the Division generally In Murshidabad it is mentioned that the system of payment of tahsildars by commission, which was introduced from the 1st April 1897, has not worked altogether satisfactorily attention is invited to this point The remissions granted fell from Rs. 33,674 during the preceding year to Rs 6,712, those of grace being much less than in 1896 97

Special attention was called in the Resolution of last year to the matter of improvements in Government estates. More detail has been furnished in the present report, though the information might have been given in a clearer form The available allotments for such expenditure consist of the grant of 7½ per cent on collections for management charges and miscellaneous improvements, 1 per cent for education, 1½ per cent. for communications and 2 per cent on account of sanitary improvements, or 12 per cent on collections in all, with which has been amalgamated the former agricultural Public Works grant It should be clearly stated in future what the allotment under these heads amounted to, the expenditure incurred under each, and if the whole amount was not expended, the explanation of the failure to do so In the districts of the 24 Parganas and Khulna, it appears that a considerable proportion of the above grants was not utilised

The total demand on account of Road and Public Works Cess for the Division increased from Rs 10,20,218 during the preceding year to Rs 10,40,275, the largest increase being in Jessore, where a general revaluation of the district was effected The total collections, however, amounted to 88 11 per cent of the total demand only as against 88 39 per cent. during 1896-97, and no special explanation has been furnished for this decrease

There was, again, an increase in the number of certificates filed during the year (14,767), although the number pending at the close of the year remained approximately the same (4,466) The number of undisposed of cases on 31st March 1898, increased considerably in the 24 Parganas in comparison with the corresponding figures for the previous year, though an improvement was effected in this respect in Murshidabad.

8 *Wards' and Trust Estates*.—Excluding the Chancha Trust Estate in Jessore and a small portion of Miss Courjon's estates in the 24-Parganas, there were four wards' estates and one trust estate under the management of the Court The percentage of total collections of rent and cesses to total demand amounted to 34·2 per cent, and of total collections to current demand 90 9 per cent The important estate of Kasimbazar was released during the year in a thoroughly solvent condition, and with a balance in cash and promissory notes of Rs 2,13,253. The total rent demand had risen during the 17 years of the Court's management from Rs 2,94,564 to Rs 3,54,974, owing to new purchases of landed property and the settlement of pargana Sarail The total investments in landed property amounted to Rs 4,55,525, and a sum of Rs 1,59,434 was spent on improvements of the estate The realisations during the year in the Bhawanipur Estate amounted to 111 2 per cent of the current demand and 56 9 of the total demand, both results show an improvement on the previous year, but the balance outstanding on 31st March 1898, is still large The condition of the tenants who had suffered from successive failures of crops in previous years, improved. In the Syedpur estate 97 2 per cent of the current demand and 62 7 per cent of the total demand was realised The results are worse than in the preceding year, and the outstanding balance is heavy failure to take proper steps in due time is ascribed as the reason for deficient collections, but it appears from the report of the Board of Revenue on Ward's estates that the greater portion of the balance could not be legally realised till after the close of the year The affairs of the Sridharpur estate, which has not been long under the management of the Court, are still in some confusion, and although the unrealised balance was large, the Commissioner regards the collection of 82 8 per cent of the current demand as not altogether unsatisfactory under the circumstances

9 *Excise Stamps Income-Tax*.—There was a net decrease, shared in by all classes of exciseable articles, in the excise revenue during the year of Rs 1,01,668, excluding a purely nominal increase under the head of charas, but largest in the case of country spirits. The falling-off is attributed to the prevailing high prices The state of things in Murshidabad appears to call for special attention,

the revenue from country spirits has been declining year by year, and it is said that the introduction of the distillery system raised the price of liquor to such a height that resort has been had to cheaper drinks, while smuggling has been encouraged The Commissioner doubts the correctness of the Collector's opinion that the distillery system has failed, but the matter has not been discussed in detail and will be brought to the special notice of the Board of Revenue There was a considerable decrease both in the numbers of persons arrested and convicted for offences against the excise laws

An increase in the consumption of salt in the latter half of the year was more than counterbalanced by a decrease during the first six months, and the consumption which had last year fallen off by 26,218 maunds, declined during the year under report by 6,672 maunds, less illicit salt was confiscated, and fewer fines imposed, though the number of cases instituted for offences against the law increased

There was an increase of Rs 1,13,128 in the total stamp revenue for the year, due chiefly to the payment of probate duty as well as to a larger number of loan transactions than usual, and also to the litigation in Khulna caused by the good harvest The number of prosecutions for breaches of the law increased from 99 during the preceding year to 1,033, due almost entirely to the action taken in Calcutta, and if it is true, as stated, that people are growing more and more conversant with the law, the above figures would not appear to show a corresponding decrease in the desire to observe it Further explanation of the circumstances under which so many more cases were filed might usefully have been furnished

The gross demand of Rs 25,71,582, on account of income-tax, showed an increase of 4 per cent on the results of the preceding year, and 95 9 per cent of the final demand was collected.

10 *Communications and Public Works* —An extension of nine months was granted for the construction of the steam tramway from Ranaghat to Krishnagar, the delay in completing which is unfavourably commented on by the Commissioner Three important new drainage sluices were finished in the Schedule D embankments in the 24 Parganas All Government buildings suffered more or less severely from the earthquake of 12th June 1897 The usual repairs to district roads were executed by the different Boards to the extent of their respective finances, but the Commissioner points out that more might still be done in the matter of arboriculture, a remark which is fully approved of by the Lieutenant-Governor, in whose opinion many District Boards could by a systematic treatment of their road side lands in the course of years considerably augment their available income.

11 *Education* —The total number of schools of all descriptions open in the Division was 5,476 or 438 less than in the preceding year, containing 201,177 pupils, or a decrease of 6,435 since 1896 97 The decrease was chiefly in lower primary schools, and is attributed to the higher prices of food-grains. Both the numbers of schools and of pupils receiving secondary education increased Girls' schools decreased by 41, and the pupils attending them by 695 A total expenditure of Rs 10,84,703 was incurred, or Rs. 10,216 more than in the previous year, the increase being mostly met by a larger grant from Provincial revenues It was mentioned last year that special steps had been taken for the encouragement of Muhammadan education, but no improvement has as yet been shown, owing possibly to the year having been unfavourable The number of such pupils declined by 3,355, and they were also less successful at examinations

12 *Dispensaries and hospitals* —Sixty-five dispensaries and hospitals were opened in the Division as compared with four in the previous year, and the number of patients treated increased from 292,062 to 348,792 The management of some of the dispensaries in Nadia is reported to be unsatisfactory, The total income of the dispensaries in the Division increased from Rs 1,06,616 during the previous year to Rs. 1,43,933 The Government grants are shown to have increased by Rs 22,328, which is due to the inclusion of figures for the South Suburban Hospital The income from subscriptions and endowments rose by Rs 5,532

13 *Local Self-Government Institutions*—On the general working of the District and Local Boards, the Commissioner (Mr Buckland) writes as follows —

"There is a consensus of opinion that the District Boards do satisfactory work their local knowledge is valuable and many of them have fair experience of official business But hardly anyone has a good word to say for the Local Boards They have little money at their disposal to spend, and it is not unnatural that the members take so little interest in their unimportant duties They might well be abolished without any detriment to the district administration."

The number of municipalities remained unchanged, and greater regularity of attendance was observed by the Municipal Commissioners Of their administration generally, the Commissioner observes —

"There is . a want of a proper sense of proportion in municipal expenditure Education is regarded as more important than a good water-supply, and sanitation is looked on as an accidental fad A municipality seldom opposes indicated reforms on their merits, on the other hand, it professes to accept them, and if the matter is borne in mind when the budget is prepared, it will go so far as to make provision in it for their execution, but unless continuous pressure is exerted, the matter ends there, and no practical steps are taken to carry out the desired improvements The best results in the matter of municipal administration are found to be attained when the Chairman is a capable official, willing to take responsibility upon himself in the execution of municipal matters

The backwardness in collections is one of the worst features of municipal administration The result is generally bad and to every municipality, the charges made year after year still apply Want of supervision and a general reluctance to resort to coercive measures and consequent laxity in the observance of rules, are the chief causes which retard the progress of collections"

14 *Conduct of Zamindars*—Mention is made in the report of most of the leading zamindars of the Division, of some few unfavourably, but of the majority as fair and considerate landlords Complaint is made of the conduct of the agents of some of the absentee proprietors in the 24 Parganas, Jessore and Khulna The condition of the tenants under the *utbandi* system in Nadia is referred to as unsatisfactory, and in the Magura and Narail subdivisions of Jessore, relations between the landlords and their tenants were strained In the Khulna district, the larger zamindars are reported to be mostly non-resident and apathetic as to the interests of their tenantry, to whom very little assistance was rendered by them during the recent famine, but the Lieutenant-Governor is glad to observe the names of many gentlemen who are mentioned as solicitous for the welfare of their raiyats and ever willing to assist the authorities in the promotion of any works of public utility.

15. The Lieutenant-Governor would express his thanks to Mr Buckland for his careful administration of the Division during the latter portion of the year, and for his interesting report, extracts from which are herewith published for general information

By order of the Lieutenant Governor of Bengal,

F A SLACK,

Offg. Secretary to the Govt of Bengal

Extracts from the Annual General Administration Report of the Presidency Division for year 1897 98

* * * * * * *

III —WEATHER AND CROPS

11 The average rainfall in the Division was much greater than in either of the two preceding years, being 61 4 inches against 46 3 inches in 1896-97 and 42 6 inches in 1895 96 The largest rainfall (83·6 inches) was at Bagerhat, and the smallest at Lalgola in Murshidabad, where it was little more than 39 inches. It was more seasonable and equally distributed, according to agricultural requirements, than in the two preceding years, and the outturn of crops was accordingly more plentiful In the 24 Parganas, the average rainfall was 59 8 inches against 55 7 in 1896 97 The heaviest rainfall was in July and October which did much to help the growth and development of the paddy plants, and the crop yielded an average or 16 anna outturn In Nadia, the rainfall was 58 6 inches, against 42 5 inches in the previous year, and the outturn of *aus* and *aman* crops was sufficient to enable the people to recover to a great extent from the effects of the famine The rainfall recorded in Murshidabad was 51·1 inches, or 11 1 inches more than in the previous year It was heaviest in August, being 14 inches This resulted in a better outturn of almost all the principal food crops during the year In Jessore, 62·8 inches of rain fell during the year, against 46 2 inches in 1896-97. The rainfall was largest in June, July and August, and was generally favourable to all the crops grown in the district In Khulna, six new rain-registering stations were opened during the year The average rainfall in this district was considerably greater than either of the two preceding years, being 75 inches against 47 2 inches in 1896 97 and 53 1 inches in 1895 96, and the outturn of *aus* and *aman* crops was such as to enable relief operations to be closed from October

The average outturn of *aman*, which is the staple food in the Division, was 16 annas, against 0 9 annas in 1896 97 and 9 6 annas in 1895 96 The *bhadoi* or *aus* crop yielded an average outturn of 14 2 annas against 8·8 annas in 1896 97 and 10 annas in 1895-96 The jute crop was 13 4 annas, against 12 6 annas in 1896-97 and 12 9 annas in 1895-96, and the *rabi* crops were 14 6 annas, against 8 2 and 11 2 annas, respectively, in 1896 97 and 1895 96. The other crops grown in the Division are of minor importance. Indigo is grown in Nadia and Murshidabad only The average outturn of this crop was 10 5 annas, against 9 5 annas in 1896-97 and 11 5 annas in 1895-96 The outturn of mulberry, which is grown in Murshidabad only, was not satisfactory, being 11 annas

IV —PUBLIC HEALTH

12 The following table compares the recorded mortality in the districts of this Division during the past three years —

District	Number of deaths from fever			Number of deaths from cholera			Number of deaths from other causes.			Total number of deaths from all causes.			Average of the past two years, 1896 and 1897.
	1895	1896	1897	1895.	1896	1897.	1895	1896.	1897	1895	1896.	1897	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
24-Parganas	30,865	37,919	34,987	6,816	11,045	5,974	9 421	6,220	7,251	55,082	55 383	46,212	55,462
Nadia	46,471	41,808	31,226	5,816	16,726	3 670	8,516	6,930	7 624	60,803	59,455	42,915	61 631
Murshidabad	29 143	30,641	27 809	2,295	4,030	2,972	4,743	5 530	5 875	37 133	40 939	35,806	39 061
Jessore	63 150	59 173	51,253	10 113	13,199	5,967	5,997	4,348	5,792	79,260	76 720	63,012	74 540
Khulna ..	26,153	27 951	27 042	5,026	9,746	5 750	7,096	7 457	7,813	38,275	42,154	40,605	40,339
Total	207 707	196,386	172,317	33,156	41,973	21 483	33,472	31,984	34,356	273,941	269,163	228,055	271 253
Ratio of deaths per mille of population	26 5	24·9	21·9	4·2	5·3	2 7	4	3·9	4·3	34·7	34·2	29 03	34 5

The general health of the Division was better than that of the two preceding years. The total number of deaths was 2,28,058, or 29 03 per mille of population, against 269,163, or 34 2 per mille in 1896, and 273,343, or 36 2 per mille in 1895. The number of deaths from fever was 172,287 from cholera 21,483 and from other causes 34,288, against 196,286, 41,673 and 31 204, respectively, in 1896 The decrease in mortality is chiefly due to the absence of any disease in a widely epidemic form. It is satisfactory to note that the prevalence of scarcity and famine in parts of the districts of Nadia Murshidabad, Jessore and Khulna did not materially affect the general health of the people of those districts

In the 24-Parganas, the total number of deaths was 46,212, against 55,882 of the preceding year, showing a decrease of 9,670, or 17 3 per cent Fever accounted for 34,957 deaths against 37,919 in 1896 As usual, the subdivision of Barasat suffered the most, while the least number of deaths from fever occurred at Diamond Harbour It prevailed most throughout the district during the months of January, March, October, November and December. The decrease in the mortality from cholera is especially remarkable, being 3,974 against 11,043 in 1896 Nowhere in the district did it prevail with any great intensity The subdivision of Basirhat and part of Barasat suffered most Small-pox accounted for 151 deaths against 152 in the previous year, and bowel complaints 1,286 against 1,540. The mortality from other causes was 5,844 against 5,228 in 1896 The number of cases vaccinated was 45,338 of which 45,119 were successful

In spite of the famine, there was a decided improvement in the public health in Nadia The total number of deaths was 42,919, against 50,458 in 1896 The mortality from fever has fallen from 41,802 to 31,525 The subdivision of Kushtia was most affected, while the number of deaths was smallest in the subdivisions of Meherpur and Chuadanga Fever was at its worst in the months of March, April and November. In this district, also, the decrease in the mortality from cholera is remarkable, the number of deaths registered being 3,570, against 10,726 in 1896 Urban areas suffered much more than the rural the number of deaths from cholera was highest in April From small pox there were 87 deaths against 12 in 1896, from bowel-complaints 244 against 150, from injuries 889 against 716, and from other causes 6,604 against 6,052

The total number of deaths in Murshidabad was 35,606, against 40,959 in 1896 The general healthiness of the year is ascribed to the dryness of the season and the absence of cholera in anything like an epidemic form The number of deaths recorded from fever was 27,509 against 30,441 As usual, it prevailed all over the district, and especially in the low lying and swampy portion to the east of the river Bhagirathi. Cholera accounted for 2,222 deaths as compared with 4,959 in the previous year The towns suffered more severely than the villages. The mortality from small-pox was 167, against 302 in 1896, and from other causes, 5,708 against 5,237

The total number of deaths recorded in Jessore was 63,013, against 70,720 in 1896, of which fever contributed 51,203 deaths, against 58,173 in the previous year. As usual, the disease was prevalent throughout the year in all the subdivisions of the district. The subdivision that suffered most was Magura, and that suffered least was Jhenidah. The largest number of deaths occurred in November, December, January and March. The number of deaths from cholera was 5,967, against 8,199 in 1896. This disease prevailed in the months of February, March, April, May, November and December Small pox accounted for 70 deaths, bowel-complaints 113, and other causes 5,610 deaths.

The total number of deaths registered in Khulna was 40,308, against 42,164 in 1896, of which fever contributed 27,043 deaths against 27,951 in 1896, cholera 5,750 deaths against 6,746, and other causes 7,515 against 7,467.

V.—MATERIAL CONDITION OF THE PEOPLE

13. A succession of bad harvests during the last three years rendered the material condition of the people in the Division at the commencement of the

year far from satisfactory The prices of food-grains ruled abnormally high, and it was not till the harvests of *aus* and *aman* were reaped that there was a general amelioration in the condition of the people In the 24 Parganas, the labouring classes tided over the difficulty by finding sufficient employment in the mills, in road works under the District Board, and in the excavation of tanks, etc, under the Board and private individuals The condition of the landless middle classes was as bad as in preceding years, perhaps worse as they were affected by the rise in prices without enjoying any corresponding increase of income, the result was that many of them lived practically from hand to mouth In Nadia, the year opened with depleted grain stocks, and the pinch of scarcity was felt throughout the district, culminating in actual famine in the *kalantar* and the adjacent parts of the Sadar and Meherpur subdivisions. In these tracts relief operations were undertaken and were continued until September, when the reaping of a bumper *aus* crop replenished the exhausted granaries As stated in last year's report, there is no doubt that, owing to the *utbandi* system, and their own improvident habits, a large proportion of the cultivating class are always impoverished and in debt to their *mahajans*, but they have nevertheless surprised many observers by their power of resistance during the famine, and of recuperation on its termination. In Murshidabad, the distress which began at the end of the year 1896-97 in thanas Barua and Bharatpur, and gradually spread over the Sadar and Kandi subdivisions, was over with the reaping of the bumper crops, both autumn and winter, that followed the favourable and seasonal rainfall of the year under report The district, as a whole, has shown a marvellous return to prosperity The industries of the district are, however, decaying, and the people are becoming more and more agricultural The bulk of the population of Jessore are agriculturists, and their welfare and prosperity depend upon the character of the outturn of the crop they grow Owing to the failure of crops in 1895-96 and 1896-97, the people had consumed all the food stocks they had until they were forced to fall back upon the seed grains they had stored for the purpose of sowing When this resource was exhausted, they began selling off their paltry valuables and even their plough cattle Charitable doles were distributed from the District Fund and the Indian Famine Charitable Relief Fund, which saved the people from starvation. When the season for growing the *aus* crop came, they had no seed to sow, and a general clamour was raised for agricultural advances, which were made on a liberal scale The people thus reaped a good *aus* harvest, which was succeeded by a good *aman* crop, and thus somewhat recovered their position The material condition of the people of Khulna was to a great degree more satisfactory than in the preceding year At the beginning of the year, the condition of the people in thanas Kaliganj, Assasuni, Magura and Satkhira in the Satkhira subdivision and thana Paikgacha in the Sadar subdivision was bad, owing to the loss of the *aman* crop of 1896-97, and the consequent scarcity and distress, which prevailed for some months, had to be met by relief operations undertaken by Government Some pressure was also felt in parts of the Bagerhat subdivision, and the people in need were relieved by money supplied by the Indian Famine Charitable Relief Fund As a rule, the inhabitants of this district, who are mostly agricultural, are well-to do and prosperous, but the pernicious system of *ganidari* and other under-tenures, which the zamindars are following, is gradually reducing the actual cultivators to a state of poverty, caused by subinfeudation, both by taking away whatever margin of profit they have and also by driving them into expensive litigation

VI.—EMIGRATION AND IMMIGRATION

14 The number of emigrants registered in the district of the 24-Parganas during the year under report was 3,709, against 4,928 in the year preceding. Of these, 806 were for the Colonies and 2,903 for the labour districts of Assam, Cachar and Sylhet, as against 813 and 4,115, respectively, in the year 1896-97, showing a large decrease, which has not been explained by the Collector It seems to me, however, that the increase in the year 1896-97 was abnormal, due to the distress and the high prices of food-grains that prevailed towards the end of that year. Of the total number of persons who emigrated during

the year, only six belonged to this district, and the rest to other districts A large number of emigrants from other districts passed, as usual through the rest houses at Naihati, in the Barasat subdivision, on their way to the labour districts During the year there were five such rest houses, as in the previous year, all of which were provided with sleeping accommodation and separate cooksheds The river Hooghly supplied the drinking water, and arrangements were made for the removal of the night soil by the local Municipality There were 74 cases of cholera in the rest-houses during the year, of which only one proved fatal. The patients were treated in the cooly cholera hospital at Naihati Formerly this hospital used to be kept open for only six months (January to June) of the year, but in September 1897 Government sanctioned its maintenance throughout the year. and appointed the Civil Hospital Assistant, in connection with emigration works, to have charge of it in addition to his other duties A complaint was received from the Superintendent, Hooghly Imambarah Hospital, that batches of cholera stricken coolies were sent from Naihati for treatment in that hospital, but that, to prevent a recurrence of this irregularity, the agents of all the rest houses were strictly instructed to have all cholera cases treated locally There were three cases of small pox in the rest houses, but none ended fatally

As reported last year, up-country men and *Dhangars* came to the Barasat subdivision last year in large numbers for employment in mills or municipalities, and labourers from Midnapore and Cuttack visited the southern part of the district during the cultivating season, returning to their homes after the harvest As regards the other districts, there was no emigration or immigration properly so called As usual, during harvest time, the labourers left the districts for the Sundarbans and other Eastern Bengal districts for work, but they returned as soon as their work was over The number that left the district of Jessore was larger in the year under report than usual on account of the high prices of food grains that prevailed there during the year As regards immigration up country coolies came to work on the railway, and Kabulis visited the districts with warm clothing and dry fruits for sale It is reported from Khulna that some 20 families have permanently settled themselves in thana Bagerhat, and that some immigration is going on in Morrelganj thana from the district of Backergunge

VII.—PRICES OF FOOD AND LABOUR.

15 In the 24-Parganas, prices ruled very high at the beginning of the year when the price of common rice was 9 to 11 seers a rupee. This was due to the poor outturn of the crops of the preceding two years As the year progressed, prices rose higher still, and on the 20th September 1897, common rice was selling at 6¾ to 8½ seers a rupee These high rates continued more or less until about the end of October, after which, in consequence of the full harvest, prices fell gradually, and at the close of the year common rice was selling at 13 to 13¾ seers a rupee In Nadia there has been a fall, not only in the price of common rice, but also in that of wheat and other grains The average price of common rice, wheat and gram in Murshidabad was considerably higher during the year than in either of the two preceding years This is due to the failure of the winter rice and *rabi* crops of 1896 97 and the crops of 1897-98 having been in the market for a few months of the year only The price of common rice in Jessore ruled unusually high up to September, when a good *bhadoi* crop was harvested, and the price came down to 13 seers a rupee since then it has remained almost stationary, and, although a good *aman* crop was reaped, the price has not fallen It is, however, expected to go down further, if there be a good *aus* crop in the current year In Khulna, the price of common rice was much lower in comparison with that in the corresponding period of the preceding year, but higher than in 1895-96, being 13½ seers a rupee against 10⅛ seers in 1896 97, and 15¼ seers in 1895 96 This was due to the scarcity prevalent last year The price of grain has been gradually rising since 1895-96, probably on account of the scanty and untimely rainfall Salt sold somewhat cheaper at Bagerhat, where it is now imported from the Khulna bonded warehouse, at a lower cost than before

The wages of labour, both superior and common, in the 24 Parganas and Jessore, remained stationary In Nadia, there was a slight increase in the wages of women and boys, chiefly owing to the demand for labour caused by the earthquake of the 12th June 1897 In Murshidabad, the price of all classes of labour, except that of superior blacksmiths, rose considerably during the year as compared with the two preceding years This general increase is also chiefly due to the high prices at which all classes of labourers found employment after the earthquake Wages of labour fell off considerably at Satkhira, in Khulna At Bagerhat and the Sadar, they remained about the same as in previous years During the prevalence of the distress, the wages of labour were at famine rates at Satkhira, and have not been able to re adjust themselves since

VIII—MANUFACTURES AND MINES

16 The chief articles of manufacture in this Division are cotton twist and yarn, gunny bags and cloth, paper, ice, shellac and lac dye, indigo, silk, sugar and molasses Of these, cotton twist and yarn, gunny-bags and cloth, paper, ice, shellac and lac-dye were manufactured only in the district of the 24 Parganas, in which there were 59 factories at work In 40 factories work was carried on by shifts and sets, and in 18 by midday stoppages, while one had no fixed system of working, as noticed in last year's report The Indian Glass Works at Sodepur were registered in August last, but, as the Company went into liquidation in December, the works have been closed and the factory removed from the list The Calcutta Flour Mills at Narikeldanga has also remained closed since the beginning of the year The total number of operatives employed in the 59 working factories during the year under report was 80,983 against 67,085 in the previous year The increase in the number of operatives was due to the addition of four new mills during the year There was no material change in the rates of wages paid to the operatives employed in factories during the year under report

As in the preceding year, there were only two paper mills in this Division, one at Titaghur and the other at Kankinara.

The articles manufactured in these mills were Nos 1 and 2 white printing, badami, superior badami, cream-laid, cream wove, yellow-wove, azure-laid, white cartridge, brown cartridge, superior full sized paper, assorted coloured printing and blotting papers The raw materials used were grass, jute, rags, hemp rope, hemp, gunny and waste papers There was a slight increase in the outturn of the oil mills and the flour mill at Moheshganj in the district of Nadia

17 Indigo is largely manufactured in the districts of Nadia, Murshidabad and Jessore The following table shows the state of this industry during the year under report, as compared with the two preceding years —

Indigo

District	Number of factories.			Produce.			Value			Remarks
	1895-96	1896-97	1897-98.	1895-96.	1896-97	1897-98.	1895-96	1896-97	1897-98.	
1	2	3	4	5	6	7	8	9	10	11
				Mds.	Mds.	Mds.	Rs	Rs.	Rs.

Owing to the timely rainfall the year was favourable for the indigo crop

Silk.

The silk industry is chiefly carried on in the districts of the 24 Parganas and Murshidabad The table below compares the state of this industry during the last three years —

District	Number of factories.			Produce			Value			Remarks
	1895-96	1896-97	1897 98	1895-96.	1896-97	1897 98	1895-96	1896-97	1897 98

Sugar is still manufactured from sugarcane and date juice by primitive native process in the subdivisions of Basirhat and Barasat, in the district of the 24 Parganas, but, as the demand for machine made sugar has steadily increased, sugar manufacture by native methods is not in a flourishing condition In Nadia sugarcane is largely cultivated in the Kushtia and in part of the Chuadanga subdivisions In the former subdivision the sugarcane crushing mill factory worked throughout the year Information regarding this mill has been refused by the Manager of the factory, but it is known that the system followed is to distribute the machines to local agents, who let them out on hire at a rupee or so a day The principal centres of the date sugar industry in this district are Santipur, Chakdaha, Kishenganj, Dowlutganj, Alamdanga and Mohesganj, but it is stated that no statistics are available There are three refined sugar manufactories under European management in the district of Jessore The brass foundry at Mohesganj in the district of Nadia, manufactured iron screws and other requisite for indigo factories Brass and bell metal utensils are manufactured in the 24-Parganas, Nadia, Murshidabad and Jessore districts These articles are generally sold in the local markets, as well as sent to Calcutta and other places Cotton cloth also is manufactured in several places in the Division, but the demand, it is stated, is gradually falling off as the manufacturers are unable to compete against European imports Blankets are manufactured in several places in the district of Murshidabad Locks and keys in imitation of Chubb's locks and of really good quality are made at Natagarh in the Barasat subdivision of the 24 Parganas and at Jangipur in Murshidabad The other and minor manufactures of this Division are tobacco, mats, cutlery, boats, cart wheels, ivory works, shell bracelets, pottery, ploughs and other ordinary wood work. There are no mines in any of the districts of this Division

IX —TRADE AND COMMERCE

18 In compiling the statistic of trade in this Division, the instructions contained in the Government Circular No 103, dated the 22nd July 1897, have been strictly observed In this Division the traffic is not only carried by rail, but also by the Nadia rivers and the Calcutta canals The District Officers have submitted separate statements, showing the import and export traffic of their districts carried by the different means mentioned above These statements are submitted as appendices to this report, as also two other statements, showing the export and import traffic of the several districts of this Division with Calcutta, carried by rail, road, river and canal, as directed in the circular quoted An amalgamated statement, exclusive of the local traffic, has been compiled in this office, showing the "up" and "down" traffic of this Division from the above appendices and is given below —

IMPORTS

ARTICLES	FROM UP COUNTRY				FROM DOWN COUNTRY				Total of columns 6 and 10	(Corresponding figures for 1896-97)
	Rail	Nadia Rivers	Canal	Total	Rail	Nadia Rivers	Canal	Total

19 There was a decrease in the import of rice, paddy, gunny bags, linseed, tobacco (unmanufactured), indigo, cotton piece-goods, European, and cotton twist, European, while there was an increase in the import of all the other articles As regards exports, there was an increase under the heads of rice, paddy, jute (raw), gunny bags, mustard-seed, tea (Indian), cotton (raw), silk (raw), tobacco (manufactured and unmanufactured), cotton piece goods, Indian, and kerosine oil, while there was a decrease under all the other heads No explanations have been given of these fluctuations

The Collector of the 24 Parganas states that the jute trade is profitable to the dealers as well as to the cultivators of his district, and that its cultivation is extensive, that the produce of the Diamond Harbour and Basirhat subdivisions is exported to Calcutta, and that of the Barasat subdivision is partly consumed in the local mills Gunny bags are largely manufactured in the mills in the district and in the suburbs of Calcutta The number of gunny bags exported to Calcutta from this district during the year was 63,97,269 against 64,86,869 of the year preceding, and those imported from Calcutta were 203,217 against 245,080 of the previous year In this district molasses produced from sugarcane are partly consumed locally and partly exported The manufacture and sale of sugar and molasses form an important trade of this district Tobacco is also cultivated more or less throughout this district, but the greater part of the outturn is consumed locally The Collector of the 24 Parganas states that, besides the staples mentioned in the statements prescribed by Government, there are other articles, some of them important, in which traffic is carried on between his district and Calcutta along the undermentioned main routes, viz, (1) Kamardanga, (2) Behala, (3) Kowrapookur khal, (4) Kowrapookur road, (5) Gonah, (6) Bonhugli, (7) Moti Jheel, (8) Jingerpole, (9) Matiabrooz ghat, (10) Matiabrooz and (11) Nimak mehal Of these the principal articles are (1) lime and limestone, (2) fresh fruits other than cocoanuts and betel nuts, (3) iron, (4) fire wood, (5) bricks and tiles, (6) hides, and (7) spirits The following table shows the exports and imports of these articles as registered along the above mentioned eleven main routes during the past two years —

Names of articles		Import from Calcutta		Export from Calcutta	
		1896	1897	1896	1897
1		2	3	4	5
		Mds	Mds	Mds	Mds
1	Lime and limestone	1,74,725	1,55,246	10,292	50,147
2	Fresh fruits other than cocoanuts and betel-nuts	1,60,147	1,77,175	6,53,412	6,85,511
3	Iron	50,118	36,934	21,843	21,855
4	Firewood	86,763	84,343	1,10,430	1,11,541
		No	No	No	No
5	Bricks and tiles	1,181,828	1,781,407	5,379,150	11,243,425
6	Hides	6,243	1,972	48,537	90,201
		Rs	Rs	Rs	Rs
7	Spirits	57,279	28,096	44,008	56,871

20 In Nadia the quantities of rice and paddy imported far exceeded the quantities exported On the other hand, there was a large excess of exports over imports under the heads of "Gram and Pulses," "Other food grains," "Linseed," "Jute," "Sugar, unrefined" and "Indigo" It is stated that the large imports of rice and paddy were due to the famine In this district Rs 33,99,272 worth of European piece goods were imported against Rs 36,77,438 worth in the year preceding and 9,463 maunds of 'Cotton twist, European" against 22,129 maunds The decrease under both the heads

is attributed to the famine The exports of indigo from this district fell to 4,118 maunds from 5,853 maunds in the preceding year It is stated that the production of this valuable commodity is steadily declining in the district

The Collector of Murshidabad states that the river traffic of his district was confined, as a rule, to a few months of the year during the rainy season. The figures given by him do not include the large exports of rice and *rabi* crops which are annually carried on by carts, and the exports this year from the Rarh to other districts were far above the average, owing to the good harvest of the year under report In this district the increase in the export of paddy, rice and jute is said to be due to the good harvest of the year, while the decrease in the export of wheat, gram and linseed during the year is attributed to the bad harvest of 1896 97

The Collector of Jessore states that the bulk of the trade in his district is carried on in country boats, that the figures of import and export furnished by the Subdivisional Officers of Narail, Magura and Jhenida are founded upon no reliable basis, there being no registration of traffic in those places, and that they have, therefore, not been reproduced in his report In this district the channel Muchikhali connecting the Modhumati and Navaganga is silted up for more than six months of the year to the great injury of trade It is recommended that it may be opened by Government in the interests of the people and a toll imposed on those benefited the project is under consideration

The Collector of Khulna states that a good deal of import and export traffic of his district is carried on by river with Backergunge and other eastern districts, but no statistics are procurable for want of registering stations It is also stated that fish, betelnuts, and molasses are quite as important articles of export traffic of his district as the 24 staples prescribed by Government

* * * * * * *

XVII—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION

47 The number of estates of each class borne on the revenue roll of the several districts during the years 1896 97 and 1897 98 is shown below —

Year	Class I—Permanently settled estates	Class II—Temporarily-settled estates	Class III—Estates held direct by Government	Total
1	2	3	4	5
1896-97	9,369	733	256	10,358
1897-98	9,394	731	252	10,377
Difference	+25	—2	—4	+19

There was a change in the total number of estates in all the districts. In Nadia the number increased by nine, in Murshidabad by one, in Jessore by eight, and in Khulna by seven, while in the 24-Parganas there was a decrease of six estates, the net result in the Division being an increase of nineteen estates Transfers from one class to another took place in every district in consequence of the sale of permanently settled estates for arrears of revenue and their purchase by Government for want of bidders, as also on account of sales of petty Government estates to private individuals with revenue fixed in perpetuity The increase in Nadia and Jessore is chiefly due to the formation of new estates by partition of a parent estate in each district In the case of Nadia it is also due to the transfer of two estates from the district of Jessore The increase of one estate in Murshidabad is due to the fact that

while two estates were transferred to the district from Burdwan, one was transferred from it to Birbhum The increase in Khulna is caused by the transfer of seven estates from the 24 Parganas This caused a corresponding decrease in the last named district, where the removal of one estate from the tauzi roll and formation of two new estates, one by partition and one by settlement of a Sundarban grant, contributed to the net decrease of six estates The following table shows the demand, collections, remissions, and balances of land revenue during the past two years 1896 97 and 1897 98 —

Year	Arrear demand	Current demand	Total demand	Arrear collection	Current collection	Total collections	Remissions	Balance	Percentage of collection on demand (col 7 on col 4)
1	2	3	4	5	6	7	8	9	10
	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	
1896 97	1 58 866	51 22 004	52 80 870	1 25 025	49 61 296	50 86 321	23 674	1 70 875	96 3
1897 98	1 71 825	51,29 779	53 01 604	1 42 203	49 67 529	51 09,732	6 712	1 85 160	96 3

Although the percentage of collections on demand was the same in the two years, viz, 96 3, there was an increase in the demands, collections and balances of the year under review The remissions, however, fell from Rs 23,674 to Rs 6,712 The percentage of collections in each class is exhibited in the following statement —

Class of Estate	1897						1898					
	Arrear demand	Arrear collection	Percentage of collection (col 5 on col 4)	Current demand	Current collection	Percentage of collection (col 6 on col 3)	Arrear demand	Arrear collection	Percentage of collection (col 9 on col 8)	Current demand	Current collection	Percentage of collection (col 12 on col 11)
1	2	3	4	5	6	7	8	9	10	11	12	13
	Rs.	R		Rs	Rs		Rs	Rs		R	Rs.	
I —Permanently settled estates	53 146	5 14	99 18	44 41 327	44 04 680	99 21	58 098	57 395	98 15	44 42 414	43 83 50	98 67
II —Temporarily settled estates	15 78	93 (36	61 67	3 28 026	2 7 021	8 51	48 551	44 050	90 7	3 11 430	2 8 [illegible]	86 67
III —Estates held direct by Government	79 842	40 67	57 74	3 55 651	2 78 089	78 44	65 1 6	60 758	71 38	3 55 935	[illegible]	81 43
Total	1 [illegible]	1 0	78 60	1 004	49 61 [illegible]	94 8	1 71 82	1 4 203	82 76	51 [illegible] 7 9	49 67	8 90

Except in the case of class I estates where there was a slight fall, the percentage of collections of arrear demand improved in the other two classes (II and III), though it was below the prescribed standard of cent per cent The results in Jessore and Khulna, where the percentage was above 90, may be accepted as fair In the 24 Parganas it improved greatly, being 79 27 against 67 8 of the previous year The collections were not satisfactory in Nadia or in Murshidabad The current collections fell off slightly in permanently settled estates, but improved in the case of estates temporarily settled or under direct management The percentage of total collections (i e, both arrear and current, is as follows —

Calcutta	99 8
24 Parganas	9[illegible] 6
Nadia	96 6
Murshidabad	97 6
Jessore	98 8
Khulna	92 9
Total	96 3

48 The statement below shows the collections in estates under direct management in each district of the Division —

District	Number of estates	Current demand	Arrear demand	Total demand	Current collection	Arrear collection	Total collection	Percentage of current collection on current demand	Percentage of arrear collection on arrear demand	Percentage of total collection on total demand	Percentage of current collection on current demand in 1896-97
1		3	4	5	6	7	8	9	10	11	12
		Rs	Rs	Rs	Rs	Rs	Rs				
Calcutta	1	18 01	10	18 511	18 480	0	18 482	9988	0 00	9985	9996
24 Parganas	94	9 70 353	54 168	10 24 737	9 64 240	39 497	10 03 737	9937	72 9	9804	9809
Nadia	3	20 783	7 13	21 913	18 760	2 834	21 594	9027	39 2	98 5	9 0 6
Murshidabad	72	20 81	1 3 8	43 67	1 3 001	31 7	1 3 1	51 03	6 10	7 1	15 84
Jessore	84	4 800	1 1 1	5 911	4 341	1 91	4 640	9 0 80	7 9	7 16	9 0 29
Khulna	30	10 205	8 0 5	9 2 3	11 740	0 901	1 1 1	7 44	55 74	6 8	6 89
Total	73	3 85 835	8 170	4 41 111	2 90 98	60 9	3 44	8 43	1 3	81 1	78 44
Total for 1896-97	56	1 75 651	0 44	4 26 098	2 78 980	40 675	3 19 664	78 44		9 00	

The number of estates under direct management was 252, against 206 in the preceding year There was no change in Calcutta, the 24 Parganas, Jessore, or in Khulna In Nadia the number increased from 29 to 32, and in Murshidabad it decreased from 79 to 72 The increase in Nadia is due to the purchase of a permanently settled estate on behalf of Government and to the transfer of two temporarily settled estates to this class The decrease in Murshidabad is ascribed to the fact that, while three estates were brought in for Government at a sale for arrears of revenue, and another estate was made khas, its farming lease having been cancelled, ten Government estates were sold with the revenue fixed in perpetuity and one Government estate was transferred to Bubhum The result of the year, so far as the divisional totals are concerned, was a decided improvement over that of the preceding year, there being an appreciable increase under all the heads except in the number of estates In every district except Nadia there was a decrease in the demand The increase in Nadia is due chiefly to better prices realised from thatching grass mahals in some Government estates in the Meherpur subdivision The decrease in Calcutta is due to the redemption of land tax In the 24 Parganas it is owing to the temporary abolition of the daily fees realized from the sellers of vegetable and fish in the Government estate Orphanganj market This abolition of fees was necessitated by the opening of a rival market by the Bhukoilas Raj estate, which has been made free with a view to attracting vendors from the Government market The decrease in Murshidabad was the result of the sale of 11 Government estates and their transfer to class I The fluctuations in Jessore and Khulna are too insignificant to call for notice The percentage of current collections on current demand in Calcutta was, as in the previous year, nearly up to the prescribed standard, viz, 99 88 Compared with the preceding year, it improved in all the other districts, Murshidabad showing the poorest results, the percentage being 51 03 The arrear collections improved decidedly in all the districts except Calcutta, where there was a falling off In no district, however, was the prescribed standard of cent per cent attained, the state of bad collections being attributed chiefly to failure of crops in the preceding years' famine, earthquake, and to lenient working of the Certificate Act

49 The remissions granted during the year are classified below —

	1896-97	1897-98
	Rs	Rs
Nominal remissions	1,967	3,984
Remissions of grace	19,186	2,495
Ditto of right	2,521	233
Total	23,674	6,712

Compared with the preceding year, there was a great decrease in the remissions, due to decrease in the 24 Parganas and Murshidabad The nominal

remissions represent the rent of certain vacant godowns in the Orphanganj market, the rent of unoccupied lands in some Government estates, and the fictitious demand shown in the accounts of a Government estate in Nadia The remissions of grace were granted to tenants owing to their poverty on account of failure of crops in preceding years The remissions of right were granted on account of redemption of Government revenue and diluvion and abatement of rent of land taken up for a boarding house attached to the Calcutta Madrassa Except in Murshidabad there has been no material change during the year either in the agency or in the mode of management of estates under direct management In Murshidabad the system of paying tahsildars by commission has been in force since the 1st of April 1897 The system is reported to have made the staff weak in consequence of the abolition of the *halsanahs*, who were mainly employed on collection work

50 The statement below shows the expenditure incurred for the management of khas mahals and for miscellaneous and other improvements —

Division	District	Amount expended from—				Remarks
		7½ per cent		2 per cent for sanitary improvements	Total	
		Management proper	Miscellaneous improvements including agricultural improvements and experiments			
1	2	3	4	5	6	7
		Rs	Rs	Rs	Rs	
Presidency	24 Parganas	13,090	4,014	1,823	18,927	
	Nadia	1,256	97	72	1,425	
	Murshidabad	1,284	516	916	2,716	
	Jessore			1,609	1,609	
	Khulna	737	2,836		3,573	
	Total	16,367	7,463	4,420	28,250	

The sum of Rs 68,103 was allotted for the management of, and miscellaneous and sanitary improvements in, the Government estates in the district of the 24 Parganas, of which the amount of Rs 43,224 was spent during the year This sum includes the allotment of Rs 47,025 made for the Orphanganj market during the year The amount sanctioned for miscellaneous sanitary and agricultural improvements amounted to Rs 36,391, of which Rs 13,142 were actually disbursed during the year The balance of Rs 23,249 could not be spent during the year, as some works of improvement in the Orphanganj market could not be completed within that period The expenditure on works of miscellaneous improvement amounted to Rs 10,619 Of this, Rs 6,603 were spent in the Orphanganj market on the repairs of godowns, sheds, and drains, etc The balance was expended in repairing some village roads and tahsil cutcherries in Government estates The total amount spent on works of sanitary improvement was Rs 1,823 Of this, the amount spent in excavating and re excavating tanks in Government estates where there was scarcity of water was Rs 1,658 The balance of Rs 165 was spent in levelling the site of a tank which was filled up sometime ago A sum of Rs 2,003 was spent in repairing embankments and sluices in some Government estates to protect them from the ingress of salt water

In Nadia a sum of Rs 252 was sanctioned for miscellaneous and sanitary improvements, of which Rs 169 only were spent as follows —

	Rs
(1) Repairs to the cutcherry houses at Bilmedia and Tentulbaria in the Meherpur subdivision	97
2) Deepening a well at Gobindpur in the Chuadanga subdivision	72
Total	169

In Murshidabad, the grant of Rs 1,422 8, made for miscellaneous and sanitary improvements, was spent during the year thus —

	Rs	A	P
Repairing roads and bridges	20	0	0
Repairing and constructing cutcherry-houses	459	11	0
Clearing and re-excavating tanks and wells	915	12	0
Miscellaneous	27	1	0
Total	1,122	8	0

The allotment made for sanitary improvements in Government estates in Jessore was Rs 1,630, of which the amount actually spent for excavation and re-excavation of tanks at Magura and Chur Panchuria was Rs 1,609 The balance (Rs 21) lapsed to Government In Khulna, a sum of Rs 9,808 was sanctioned during the year for miscellaneous agricultural and sanitary improvements in Government estates Of this, the amount of Rs 2,835 12 3 was expended in the district Of the balance, Rs 1,685 were transferred to Jessore and Rs 1,241 to the 24 Parganas, the amount lapsing to Government being Rs 1 046 3 9 Of the amount of Rs 2,835 12-3 spent in the district, Rs 1,252 were expended on works of miscellaneous improvements, and Rs 1,583 on works of agricultural improvements No new staple was introduced during the year under report, and no new agricultural implements were brought into use or improvements made in agricultural machinery In the 24 Parganas the amount spent in the maintenance of 78 schools in Government estates was Rs 3,043 In Nadia, seven schools were maintained by Government in the khas mahals at a cost of Rs 388 In Murshidabad five primary schools with 163 pupils and 1 girls' school with 19 pupils were maintained in the Government estates at a cost of Rs 245 and Rs 48 respectively In Jessore no grant towards education in khas mahals is given by Government The estates are not large enough to justify it, being as a rule scattered plots within villages in which there are already schools or patshalas supported by the District Board In Khulna there were 28 schools in the Government estates, against 25 in the previous year The number of boys on the roll on the 31st March 1898 was 798, against 729 at the close of the previous year Except in certain estates in the 24 Parganas, the condition of the raiyats in the khas mahals of this Division was generally bad during the first half of the year, owing to failure of crops in preceding years, but they materially improved during the latter half of the year with the harvesting of the *aman* crop The accounts and registers of the several Government estates in this Division were duly inspected by the inspecting officers No material irregularities or discrepancies were brought to notice No complaints were received against any of the tahsildars or their servants Out of 1,292 estates or shares of estates with land revenue amounting to Rs 8,62,400 which became liable to sale, only 97, or 7 5 per cent, were actually sold, against 8 2 per cent, of the preceding year and 10 4 per cent of the year 1895 96 The sale law was worked with leniency in all the districts of the Division, and defaulting proprietors were allowed every facility for paying their arrears No mercy was, however, shown to habitual defaulters, and the estate or shares owned by such men which fell into arrears were sold on the dates fixed for their sale

51 The following statement shows the settlements effected during the year 1897 98 —

Division	District	Original settlements		Resettlements				Summary settlements				Estimated Revenue	
		Number	Net revenue.	Number	Net revenue	Increase	Decrease	Number	Net revenue	Increase	Decrease	Number	Estimated revenue

There were concluded during the year 18 original settlements, 21 resettlements and 20 summary settlements, making in all 59 The net increase of revenue obtained by resettlements and summary settlements was Rs 14,737, against Rs 9,558 in the previous year The increase is chiefly due to the resettlements in the Sundarbans having resulted in an increase of revenue of Rs 12,9 7, against Rs 8,488 in the previous year Of the 18 original settlements, 3 were in Nadia, 1 in Jessore, and the rest in the Sundarbans, the revenue obtained by these settlements amounting to Rs 10,94 The relations between landlords and tenants were generally satisfactory, although there were complaints in almost all the districts of the Division of the oppression of tenants by certain rent receivers, and this in some cases resulted in riots

52 The following table shows the amount of landlords' fees received and paid during the year under the Tenancy Act —

District	Balance of 1896-97	Amount re ceived in 1897-98	Total	Amount deposited in the Treasury	Amount paid out and refunded.	Amount remitted to other districts.	Otherwise disposed of	Totals of columns 6 & 8	Balance	Remarks
1	2	3	4	5	6	7	8	9	10	11
	Rs	Rs	Rs	Rs	Rs	Rs		Rs	Rs

Khulna		1 963	1 963	1 963	[illegible]		-	6	1 911	
Total	85	8 651	8 736	8 25	367	3		370	8 366	

Rupees 9-14 received during the year were not credited into the treasury owing to some defect in the notice till after the close of the year

The reluctance of landlords to accept these fees still continues Out of a total sum of Rs 8,651 received during the year, only the insignificant amount of Rs 367 was actually accepted by the landlords The balance in each case is small, and, as in each case of withdrawal a petition to the Collector is necessary, landlords or their agents, it is said, do not care to take the necessary trouble to withdraw the amounts deposited in the treasury to their credit This may be true to some extent, but I think the true explanation of the large balances that are annually left undrawn by landlords is the old reason that they do not want to take the fees, as their taking them might amount to a recognition of the transfer of tenants' rights for which they are levied The orders of Government regarding the sale of petty Government estates, the management of which is difficult or impracticable, were carried out during the year as far as feasible Although on the recommendation of my predecessor the terms originally fixed by Government for the sale of those estates were considerably relaxed, the results everywhere have been more or less disappointing, and several estates still remain unsold It is said that the people are not willing to purchase Government estates in which records of-rights have been made, as they leave no margin for enhancement of the raiyats' rents, and give an

insufficient return for the purchase money, which can be more profitably invested otherwise However desirable it may be to get rid of these estates, it would, I think, be unwise to sell them without preparing records of rights

53 *Road and Public Works Cesses*—The subjoined table shows the collections of road and Public Works cesses during the year —

District	Demands			Collections				Balances			Deduct remission	Net arrear	Percentage of net balance on gross demand

There has been an increase in the demand of cesses in all the districts, except the 24-Parganas and Nadia, which show a decrease The increase is largest in Jessore, being due to the general revaluation of the district In Murshidabad and Khulna, the increase is due to revaluation and re-assessment of certain estates and tenures The decrease in the 24 Parganas has not been explained, and that in Nadia is nominal The collections, both arrear and current, fell off in the 24 Parganas and Nadia, while they improved in Jessore In Murshidabad the collections of current demand improved, while those of the arrears decreased, and in Khulna the collections of arrears improved, while those of the current demand diminished The total collections, however, both current and arrear, are worse than in the preceding year, being 88 11 per cent of the total demand against 88 30 General revaluation is in progress in the 24 Parganas, and has been completed in Jessore Partial revaluations were in progress in Murshidabad and Khulna

* * * * * * *

XXIII—RAILWAYS AND OTHER PUBLIC WORKS

75 *Railways*—In the 24 Parganas there were 97½ miles of the Eastern Bengal State Railway, and 32 miles of the Bengal Central Railway, open for traffic during the year The District Board's proposal to construct a steam tramway from Barasat to Basirhat was not sanctioned by the Government of Bengal on the ground that a concession had been already granted by the Government of India to Messrs Barry and Company for a period of 12 months to survey and estimate for a light feeder railway from Chandipur station, on the Bengal Central Railway, to Taki, *vid* Basirhat The project is now under their

consideration As regards the construction of the steam tramway from Ranaghat to Krishnagar, Government have granted a further extension of nine months' time, *i e*, up to the 16th of March 1899, for the completion and equipment of the tramway It is to be hoped that these works will soon be completed the delays, both in the correspondence and in the execution of the project, are the subject of much unfavourable comment, which I do not care to repeat The Azimganj Nalhati Branch of the East Indian Railway is the only line that runs through Murshidabad A survey is now being made for the construction of a railway between Deai Shibnagar in this district and Chuadanga, in Nadia No new railways were constructed in Jessore or Khulna A survey for a line from Kissenganj to Magura, *viâ* Kotechandpur, was completed during the year nothing further has been heard of the project

76 *Embankments, drainage, sluices, etc* —In the 24 Parganas, Rs 18,914 were spent in maintaining 216¾ miles of schedule D embankments, against Rs 23,825 in the previous year There are 68 irrigation and drainage sluices, of which 48 are maintained by Government, 4 by the Calcutta Corporation, and 16 at the cost of the zamindars concerned Two retired lines of embankments, 2,240 feet and 1,590 feet in length, were constructed at Sreenagar and Rainagar at a cost of Rs 4,482 The construction of three drainage sluices at Satpukur, Kulpi and Bindal was completed during the year at a cost of Rs 60,826, Rs 32,917 and Rs. 15,425 respectively Fourteen cuts were allowed in embankments for drainage and nine for irrigation Besides these, five cuts were made surreptitiously In Murshidabad, the Bhagirathi embankment was maintained in proper order, and, when the river rose during the rains, protective spurs were constructed with a view to preserving its channel The retired line of embankment at Bhagwangola, referred to in the last year's report, is still under construction In Jessore, the excavation of the Bhawanipur khal has been completed Embankments were constructed in the Satkhira subdivision of the district of Khulna at a cost of Rs 32,240 by private individuals for the protection of their lands from the inundation of salt water

77 *Buildings* —No buildings of any importance were constructed during the year in Nadia or Murshidabad In the latter district all the Government buildings suffered more or less severely by the earthquake of the 12th June 1897, but the damage then caused is in course of repair In Jessore, a new residence has been built for the Subdivisional Officer of Magura, the old residence being converted to a double Munsif The District Board of Khulna constructed the dispensary buildings at Kaliganj and Tala at a cost of Rs 945 and Rs 1,686 respectively, and the District Board of the 24 Parganas the dispensary building at Budge-Budge at a cost of Rs 1,478

78 *Sanitation, water supply and miscellaneous public improvements* —The District Board of the 24 Parganas expended Rs 6,693, against Rs 7,901 in the preceding year, on water supply Of this sum, Rs 6,653 were spent in the excavation or re excavation of tanks at Ramnagar, Barasat, Bashdebpur, Amukti, Raghudebpur, Sasan and Muragacha, and Rs 40 in sinking a well at Kulsoom The sum of Rs 2,750 was spent in making sanitary arrangements for the Sungor and Harwa *melas* Also Rs 4,820 were provided by the District Board of Nadia for water supply, but, owing to the employment of the Board's staff on famine relief during the season for digging wells, Rs 181 only were actually spent on a well of six feet diameter The construction of a large number of wells has, however, been taken in hand during the current year An expenditure of Rs 5,698 was incurred in Murshidabad in improving the water supply and of Rs 606 in maintaining and improving drainage channels In Jessore, Rs 2,991 were spent in sinking or repairing 148 wells The District Board of Khulna spent Rs 5,793 in excavating or re excavating five tanks and several wells Forty tanks were excavated in the Satkhira subdivision at a cost of Rs 34,167 as relief works during the late famine

XXIV —COMMUNICATIONS

79 *Roads* —Provincial roads to the length of 80½ miles were maintained by the District Board of the 24 Parganas, at a cost of Rs 64,114 The average expenditure per mile was Rs 751, against Rs 692 in the previous year The condition of these roads is said to be satisfactory The maintenance of 150 miles

of district roads, metalled and bridged, cost the Board Rs 53,156, or Rs 304 per mile, against Rs 375 in the previous year These roads are generally in fair order A sum of Rs 9 477 was spent in maintaining 260½ miles of district unmetalled and bridged roads, and 47 miles of unmetalled roads with temporary bridges, showing an average expenditure of Rs 37 per mile against Rs 34 in the previous year There were also 997½ miles of village roads maintained at a cost of Rs 14,592 The unmetalled and village roads are said to be in passable order The District Board spent Rs 5,267 on original works against Rs 8,658 in 1896 97 In Nadia, the Board's expenditure on original works was Rs 11,089 against Rs 13,481 in the previous year The expenditure incurred in the maintenance of the different classes of district roads was Rs 43,752 against Rs 50,829, and of village roads Rs 4,695 against Rs 685, in the previous year Owing to the funds at the disposal of the Board being limited, the expenditure was not sufficient to maintain the existing lines of communication in a proper state of efficiency, and a representation, based on the history of the roads in the district, has been made to Government asking for help from Provincial revenues There were altogether 1,695½ miles of roads in the district of Murshidabad The expenditure incurred in the maintenance of 24 miles of metalled and bridged roads was Rs. 9 560, that on 169½ miles of unmetalled and bridged roads was Rs 8,685, on 350 miles of unmetalled roads, with temporary bridges, Rs 15,849, and on 398 miles of village roads Rs 4,655 A sum of Rs 2,605 was spent on original works In Jessore, 41 miles of Provincial roads were maintained at a cost of Rs 18,011, exclusive of establishment charges, which amounted to Rs 2,750 The sum of Rs 29,208 was spent in the maintenance and repairs of 109 miles of district metalled and bridged roads, Rs. 1,234 on 316 miles of unmetalled but bridged roads, Rs 828 on 57 miles of unmetalled roads with temporary bridges, and Rs 5,161 on 260 miles of village roads An expenditure of Rs 5,793 was incurred in metalling roads and of Rs 4,200 in the construction of culverts The district of Khulna is intersected by numerous rivers and khals, and communication is principally carried on by water The administration of the district could be more effectively conducted if the District Officer had a good steam launch at his disposal a representation was made to Government but negatived There were 409½ miles of district roads and 563 miles of village roads in the year under report The district roads were repaired at a cost of Rs 26,441, and the village roads of Rs 9,152 The sum of Rs 2,227 was spent in bridging, and Rs 3,184 in constructing roads There are tow paths in the district under the management of the Public Works Department Their condition is reported to be unsatisfactory I have brought the matter to the notice of the Superintending Engineer, South-Western Circle

80 *Arboriculture* —In the 24 Parganas, 135 new mahogany trees were planted along the different roads during the year, and the existing trees were maintained at a cost of Rs 838, against Rs 909 in the previous year There were about 16,034 trees along Provincial and district roads The District Board of Nadia spent Rs 501 on arboriculture against Rs 590 in 1896 97 In Murshidabad, Rs 140 and in Khulna Rs 275 were spent in planting trees on roadsides, 864 trees were planted along the Provincial and district roads in Jessore, at a cost of Rs 639, including the maintenance charge of existing trees I do not think that enough is done in this respect, and I shall lose no opportunity of pressing arboriculture upon the attention of the Chairmen of the District Boards

81 *Communication by water* —In the 24 Parganas, the Circular Canals (10 miles in length) and Tolly's Nala, including Kawrapukur khal (37 miles), were maintained at a cost of Rs. 39,748, against Rs 34,193 in 1896 97, while the gross revenue from tolls on these two canals was Rs 4,08,017, against Rs 4,25,145 in the preceding year The work of canalizing the Bhangore khal was completed during the year 2,497 steamers passed through the Sundarbans channel against 1,336 in the previous year, yielding a gross revenue of Rs 12,485 in tolls, against Rs 6,680 in 1896-97 In Murshidabad, a ferry steamer, belonging to Messrs Hoare, Miller and Company, plied twice daily for a few months between Azimganj and Berhampore. A steamer of the East

Indian Railway Company plied for some months thrice a week between Azimganj and Dhubian, and another steamer of Messrs Hoare, Miller and Company plied between Calcutta and Jangipur during a part of the year The steamer service from Barisal to Khulna continues, while that between Kapilmani and Jhinkergacha was closed at the latter part of the year Another steamer from Calcutta to Narainganj passes by Morrellganj by the outer route in the Sunderbans.

* * * * * * *

XXX—LOCAL SELF-GOVERNMENT INSTITUTIONS

98 The year under report was the twelfth in which the Bengal Local Self Government Act, III of 1885, has been in operation in this Division There was no change in the constitution of the 5 District Boards, 19 Local Boards or the 22 Union Committees. The number of meetings held by each District and Local Board and the average attendance of members at each meeting are shown below :—

District Boards

District	Number of meetings held.		Average attendance at each meeting	
	1896 97.	1897-98	1896 97.	1897-98
1	2	3	4	5
24-Parganas	16	15	13	16 8

Khulna .	Khulna	9	11	6	5 7
	Bagerhat .	8	8	8 2	6 0
	Satkhira .	6	4	6 4	7 7

The number of meetings held by the District Boards of the 24-Parganas, Murshidabad and Khulna fell off during the year The District Board of Murshidabad held only nine meetings. This is not satisfactory The Board should hold at least one meeting each month The average attendance of members at each meeting improved in all the districts except Nadia and Murshidabad, where it diminished. The Local Boards in the districts of Nadia, Murshidabad and Khulna and the Bangaon and Jhenida Local Boards in the district of Jessore, held less than 12 meetings, the number of meetings held by the Local Boards of Satkhira and Berhampore, viz , 4 and 5 respectively, being specially unsatisfactory The average attendance of members was lower in the Local Boards of Diamond Harbour, Barasat, Krishnagar, Meherpur, Kushtia, Berhampore, Jessore, Jhenida, Narail, Khulna and Bagerhat, in the year under report than in the preceding year.

99 The following statement shows the ordinary income of each District Board, including grants for Provincial works, and the expenditure incurred on Civil works, sanitation and water supply, medical relief and education for the past two years —

District	Year	Ordinary income including grant for Provincial works if any	Expenditure on—					
			Civil works, including Public Works establishment	Sanitation and water supply	Medical relief	Primary education	Education other than primary	Total education
1	2	3	4	5	6	7	8	9
		Rs	Rs	Rs	Rs	Rs	Rs	Rs
24 Parganas	1896-97	2,54 815	1,71,363	12,751	1 832	95 421	13 675	49 076
	1897 98	2 49 546	1 72,184	10 114	1 811	82, 168	12 917	45 305
Nadia	1896 97	1 22,915	61,997	3 116	1 774	19 217	11,881	31 098
	1897 98	1,1u,270	70,474	1,211	1 987	19 272	12 966	32 238
Murshidabad	1896-97	96 178	53,346	4,345	1 160	15,876	5,297	21 173
	1897 98	90 109	53,098	6 118	1,510	15,540	4 915	20,145
Jessore	1896 97	1 99,90o	1,18,023	8 880	5,465	23,298	12,285	35 583
	1897 98	2,00 133	1,43 456	5 828	5,413	19 629	7 118	26 747
Khulna	1896 97	1,04,637	52 069	2,469	2 573	19 190	8 776	27 966
	1897 98	1,12 022	55 003	6,482	4 194	16 764	12,068	28,832

The expenditure on civil works increased in all the districts except Murshidabad, where it was slightly reduced, that on sanitation and water supply fell off in the 24-Parganas and Nadia, while the other districts show a satisfactory increase. The expenditure incurred on medical relief increased in Nadia, Murshidabad and Khulna The districts of the 24 Parganas, Jessore and Khulna show considerable reduction in the expenditure on primary education This is due to want of funds and to no road-cess money having been allowed to be diverted to meet the expenses of education

100 The following is a summary of the views of the District Officers on the working of the District and Local Boards and Union Committees —

24-Parganas —The District Board worked well The members generally took an intelligent interest in the matters that come before them There was some improvement in the working of the Local Boards. Their administration of district unmetalled and village roads and cattle pounds was satisfactory The Union Committees worked fairly well *Nadia* —The members of the District Board took great interest in their duties The powers of the Local Boards are very limited, and the part they play in the scheme of Local Self-Government is a very minor one This is due, in the opinion of Mr Gait to the way in which Subdivisional Officers, whose influence and constant touring in the subdivision might be of great advantage, have been dissociated with the Local Boards The funds at the disposal of the Union Committees have been well spent *Murshidabad* —The District Board is a useful body, and the members have worked well The Local Boards are

useless and unpopular incumbrances, and deserve to be abolished, and their duties absorbed by the District Board, or partly delegated to village unions, when further trial has proved the usefulness of these bodies *Jessore* —The members of the District and Local Boards took an interest in their work The Union Committees generally did the work as well as they could with the limited funds at their disposal. *Khulna* —The District Board worked harmoniously The Local Boards have not improved to any extent The members did not take sufficient interest in their work The Union Committees have worked well. * * * * * *

Municipalities.

101. The total number of municipalities in the Division during the year was the same as in the previous year, viz , 40 The elective system was in force in all the municipalities, except in Garden Reach, Titagarh, Garulia, Chakdaha Khulna and Debhatta, where the Commissioners are appointed by Government The privilege of electing a Chairman is enjoyed by all, except Garden Reach, Baruipur, Santipur, Baranagore, Chakdaha, Kandi and Mohoshpur It is only in the Garden Reach Municipality and in Chakdaha that Government exercise complete control in the appointment of both Commissioners and Chairmen The general elections in certain wards of the Santipur Municipality, in the district of Nadia, which were postponed in consequence of an injunction issued by the Civil Court, as noticed in the previous report, were held during the year There were altogether eight bye elections held during the year, of which one failed in the Kumarkhali Municipality, and the vacancy was filled up by the appointment of a Commissioner under section 16 of the Municipal Act The table below shows the total income, including balance, and expenditure of the municipalities in different districts, as compared with the preceding year —

District	Income		Expenditure		Remarks
	1896 97	1897 98	1896 97	1897-98

Increase »	.	9,860			
Decrease		.		5,5 5	

Thus, taking the Division as a whole, there was an increase in the amount of receipts and a decrease in the amount of expenditure The increase in the receipts is mainly due to better collections in the districts of the 24-Parganas and

Nadia, and the decrease in expenditure to less work having been done towards town improvement with the Government grant in Khulna The statement below shows the number of meetings held in each municipality during the past two years and the average percentage of attendance of Municipal Commissioners at each of them —

Name of Municipality.	Number of meetings held in—		Average percentage of attendance at each meeting.		Remarks

102 In 25 out of the 40 municipalities, the average percentage of attendance was over 50 This is an improvement over the figures of the two preceding years, in which only 21 and 13 municipalities respectively showed such percentage The percentage was specially high in the municipalities of Garulia, where it was 73·1, and Baranagore where it was 71·4. The most unfavourable result in this respect was shown by the Kushtia and Ranaghat Municipalities,

where the percentage was 17 8 and 28 06 respectively In missioner barely attended on an average one meeting in five public works were executed in some of the advanced mu district of the 24 Parganas. In Cossipore-Chitpur 18 platfor around the newly-erected standposts, 125 feet of pipes were lai erected Three thousand two hundred and forty-five feet side and *nikasi* drains were constructed at a cost of Rs 4,984 for of water in various parts of the town and a new road, 30 feet wid long, with footpaths was constructed In Maniktala 2,023 f drains were constructed at a cost of Rs 2,038 In Baranagore th trenching ground was raised by excavating two tanks at a cost o),431 In Garulia 1,100 feet of pucka drains were constructed, and the municipal office building was erected at a cost of Rs 5,424 In Garden Reach, besides the repairs of the principal roads at a cost of Rs 3,323, a pucka surface drain was constructed and a larger amount was spent on street lighting

103 On the administration of municipalities Mr Gait makes the following remarks

"In many ways the present system of municipal administration is excellent, and much of the work is better done than it would be if left entirely in the hands of an overworked executive But the system has some grave defects, the chief of which is the elected Commissioners' fear of incurring unpopularity, which might result in their being unseated at the next election, coupled with an amiable desire to please and a tendency to move along the line of least resistance"

The desire on the part of the Municipal Commissioners naturally prevents the Municipal Commissioners from acting with the firmness which is so essential to good administration The taxes are left uncollected, and remissions are freely granted when the arrears accumulate, thus causing a want of funds at the end of the year, and consequent postponements of desirable improvements

* * * * * * *

FAIRS

109 The most important fairs held in the 24-Parganas are—(1) the Ganga Sagor *melas*, (2) Pir Gora Chand's *mela*, and (3) Ghazi Saheb's *mela* The Sagor *mela* lasted from the 12th to the 14th January, the number of persons who attended it being 40,000 Sanitary and conservancy arrangements were made by the District Board A hospital was provided There were only one case of cholera (which ended fatally), and 27 cases of diarrhœa and fever, which were all cured Pir Gora Chand's *mela* was held from 21st February to 3rd March at Harowa, in the Basirhat subdivision, and Ghazi Saheb's *mela* in June at Bansra, in the Sadar subdivision The number of persons attending them aggregated 77,000 and 20,000 respectively Sanitary arrangements were made partly by the District Board and partly by the owners of the lands The principal fairs held in Nadia were the *Ras Jatra* at Santipur, the *Dol Jatra* at Ghosepara, and the *Pat mela* at Kulia The fair at Santipur was attended by 120,000 persons, against 2[illegible],000 in the previous year The increase is due to there being a special *yoga* on the day of the full moon which rendered the *Ras Purnima* day specially auspicious for bathing in the sacred river The other two fairs were attended by 30,000 and 20,000 persons respectively Sanitary and conservancy arrangements were made either by the local municipalities or by the owners of lands in which the fairs were held There was no outbreak of cholera or other epidemic disease at any of the *melas* The principal fairs in Murshidabad are the *Tulsi Behar méla* and the Kapileshwar *mela*, each lasting for nearly a month No disease in an epidemic form is reported to have broken out in any of these *melas* No fair of any importance was held in Jessore or Khulna.

N

XXXVII —GENERAL REMARKS

118. The year under report was, in many respects, of an unusual character The acute distress that prevailed in the latter part of the previous year in the several districts of this Division continued with greater intensity in the beginning of the year under report till the harvesting of the *bhadoi* crop, which proved to be a bumper one People and cattle also suffered from scarcity of water occasioned by the drought of the previous year The rich and well-to do classes, who remained comparatively unaffected from these causes, did not escape the visitation of Providence On the 12th June 1897 the districts of this Division, among others, were visited by an earthquake of unprecedented intensity and duration, causing serious damage to many buildings, and thus entailing heavy pecuniary losses to the rich But before the year was out, with a good rainfall and a generally bountiful harvest, the people almost recovered their losses, and thus regained their previous standard of prosperity Some permanent good has, however, been achieved during the calamities above mentioned In the year under report, considerable addition was made to the water supply of the several districts To dig tank, sink wells, etc , and to provide work for the needy, the people availed themselves freely of the favourable terms under which Government granted loans during the famine, and excavated works in large numbers

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE RAJSHAHI DIVISION FOR THE YEAR 1897 98

GENERAL DEPARTMENT—MISCELLANEOUS

Dated Calcutta, the 29th November 1898

RESOLUTION—No 9452

READ—

The Annual General Administration Report of the Rajshahi Division for the year 1897 98

Mr Nolan was in charge of the Division throughout the year, the present report being, however, submitted by Mr O'Donnell Complaint is again made of the dislocation to the district administration caused by the frequent transfers of officers There were changes in all districts, though in Jalpaiguri, Darjeeling and Bogra one officer remained in charge for the greater portion of the year Four subdivisions out of ten were not affected by transfers, the Rangpur district being particularly fortunate The remarks made by the Officiating Commissioner have been read with interest, but the matter is no new one, and the disadvantages appertaining to it have long been recognised and minimised as far as present conditions permit

2 *Tours and Inspections*—Mr Nolan left a detailed note of his tour, which appears to have been well planned and of great utility, including every district except Pabna, his visit to which was unavoidably postponed The tours of District Officers generally coincided with the programme approved by the Commissioner and were well carried through Among Subdivisional Officers, Mr Herron at Kurseong alone failed to spend a sufficient time in camp Mr Nolan instances two cases in which the Subdivisional Officers were unable to move about their district on horseback—the one from want of a horse, the other from inability to ride, and generally doubts whether the tours of native officers in charge of subdivisions have yielded much tangible fruit Mr O'Donnell, in fact, doubts the necessity for extended tours of senior and experienced native officers who have little to learn regarding their own country Considering the great differences existing between the various districts in the Province, this view cannot be maintained, moreover, such tours are not merely designed to teach the Subdivisional Officer the "realities of village life," but to enable him to see for himself the local needs of his particular jurisdiction, and to bring him into closer contact with the people who are placed in his charge The orders as to the duration of tours, as contained in Government Resolution No 749, dated 18th February 1896, already allow the exercise of discretion in the circumstances of different cases, but whether the Subdivisional Officer be previously acquainted with the rural economy of the country or not, the value of the personal inspection by him of the requirements of the particular tract for the efficient administration of which he is responsible has always been recognised and cannot be disregarded.

The necessary inspections appear to have been made, with the exception of those of the Deputy Commissioner's office at Darjeeling, of the treasuries of Darjeeling and Bogra, and of the sub treasuries of Alipur and Serajganj on the second occasion The omissions have not been explained

3 *Weather and Crops Prices Material condition of the people Public health*—In comparison with the average of the previous ten years, a small deficiency occurred in all districts, save Rungpur, in the year's rainfall, which is, however, described as good, and had the advantage of being well distributed In Rangpur, where the excess over the normal amounted to 4 80 inches, parts of the country were flooded during September and October, and as it is reported that the beds of the rivers have been raised by the earthquake of 12th June 1897, there will continue to be danger of floods in the Gaibanda and Kurigram subdivisions until the channels have again been scoured out to their former depths

With the exception of silk and indigo, the reported yield of all crops was better than in the preceding year, the outturn of the autumn and winter rice being given as 13 9 and 15 4 annas, respectively, for the Division Although

thus short of the 16 annas, which, according to the accepted notation, represents merely an average crop, there appears no reason for supposing that they were below the normal, the popular interpretation of 16 annas as a bumper crop being always a disturbing factor in these returns The Officiating Commissioner appears to doubt the utility of the notation of percentages which will in future be used, but experience has yet to be gained of its working It has always been recognised and admitted that the statistics of areas under the different crops and of the outturns of the different harvests are only approximately accurate, and it is impossible that they should be otherwise in the absence of any efficient or reliable village agency such as exists in other Provinces for the compilation of statistics, but the experience of the recent famine has clearly shown that it was possible to frame upon the basis of them, estimates of the extent of the crop failure and of the requirements of different districts for the supply of the deficiency in food-stocks, the results being on the whole singularly accurate

The year is described as "one of fair comfort, crops being much more abundant, prices much easier, and health appreciably better than in the preceding twelve months" Owing to the failure of crops during 1896 97 there was some distress during the first few months of the year, but the people have now almost completely recovered after the good harvests of the year under report As elsewhere, one of the results of the earthquake was to raise the wages of labour, especially of carpenters and blacksmiths Except in Pabna, the year under report was generally more healthy than its predecessor The damage done to the wells by the earthquake noticeably in Bogra, fortunately occurred in the rainy season, when the evil effects were minimised, and no serious epidemic appears to have ensued in consequence. 5,026 more people than in the preceding year were vaccinated but the variations were marked only in Pabna, where there was a considerable increase which has not been explained, and in Dinajpur, where there was a corresponding decrease which is attributed to the fact that operations were carried on over a less extensive area

4 *Manufactures Mines and Commerce* —The balance of trade in the Division generally is maintained by the importation of manufactured articles, and the export of rice, jute and agricultural products The manufacture of indigo is now of little importance, and the yield of silk (excluding the Serai Factory, for which figures were not furnished) amounted to 135,831 lbs only in comparison with 137,074 lbs. during the preceding year The jute hand presses in Jalpaiguri and Serajganj turned out 314,566 bales between them, but the collapse of the Serajganj Jute Mills in the earthquake seriously interfered with the manufacture of gunnies The number of tea gardens in Jalpaiguri continues to increase, though in Darjeeling it has been stationary for the last three years, and the area under cultivation, both with mature and immature plants, is increasing in both districts The gross yield amounted to 35,820,572 lbs. in comparison with 34,17 3,794 lbs in the previous year, but the average yield per acre from mature plants fell off from 403 lbs during 1896 to 375 lbs, owing to insufficient rainfall at the commencement of the monsoon The Officiating Commissioner does not give a very favourable account of the state of the industry, the large increase in output has brought down prices to a level which leaves but a small margin for profit, and the opening up of China may enable that country once more to re assert its former rivalry The yield of cinchona amounted to 673,698 lbs. only as against 717,222 lbs in 1896 97 The output from the Daling Colliery increased from, 96 tons during the year preceding, to 1,396 tons

The trade of the Division is almost entirely with Calcutta, the export of food grains to the metropolis by road, river and rail showed a remarkable decrease from 451,249 maunds during 1896 97 to 97,667 maunds, that of rice and paddy having fallen from 309,228 maunds to 27,036 maunds The result is attributed to scarcity in the rice producing districts, but the harvests of the year were good, and in that preceding, when they were unfavourable, although there was also a decrease, it was not nearly so marked Owing to the large crop the export of raw jute increased from 76,00,000 maunds to 86,00,000 maunds, but the destruction of the Serajganj Mills, already referred to, caused a decline of 2,400,000 in the number of gunny bags exported The decline of some eight lakhs of rupees in the value of cotton piece-goods imported and of about

one and a-half lakhs of maunds in the import of salt, is attributed to the after-effects of the bad harvests of the previous year

In the trade with the frontier States of Nepal, Tibet, Sikkim and Bhutan there was a considerable increase in the quantity of food grains imported into British territory and a decrease in the value of European cotton piece-goods exported from it, the export of those of Indian manufacture, on the other hand, increased

5 *Civil Justice* —The number of ordinary and Small Cause Court suits in the Division again show an increase, viz, from 62,502 during 1896 to 62,855 during the year under report The number of suits disposed of by Munsiffs (59,981) was also slightly more, showing a proportion of 1 to every 1o3 persons of the population, which was approximately the same as that in the previous year Mr Nolan observes that the districts, as classified according to their respective degrees of litigiousness, correspond closely to the classification he would have adopted according to the prosperity of their raiyats Dinajpur heads the list and Rajshahi brings up the rear There was a falling off in the promptitude with which witnesses were examined alike in the Courts of District Judges, Subordinate and Small Cause Court Judges and Munsifs, the ratio detained over two days being respectively 5 5, 19 9 and 9 1 per cent, as against 2 1, 14 6 and 8 03 per cent in the preceding year On the other hand, more witnesses were examined except in the Courts of District Judges

6 *Crime Criminal Administration and Police* —There are various unsatisfactory features about the criminal statistics for the year; the number of cognisable cases not only increased from 15,477 to 18,277, but while under miscellaneous and special offences there was an actual decrease, the excess was confined to the more serious heads, offences against the public tranquillity rose from 327 to 599, or nearly double the number of the previous year, serious offences against the person from 634 to 1,047, and against property from 4,739 to 5,165 Non cognisable crime, on the other hand, decreased by 1,242 cases The prevailing scarcity and high prices are alleged in explanation of these fluctuations, but Mr O'Donnell expresses the opinion that crime as a means of livelihood is on the increase, and instances the large number of dacoities during the first six months of 1897 and 1898, which were 62 and 45, respectively The decrease during the current year would tend to show that the abnormal circumstances of the early part of the year 1897 were a factor in the question, and a general opinion as to the growth of criminality could more suitably be deduced from a comparison of ordinary years, but the Lieutenant Governor agrees that the matter is one calling for attention on the part of the District Magistrates

7,574 cases were disposed of in Stipendiary Courts and 1,367 by Honorary Magistrates, the corresponding figures for the previous year being 7,366 and 1,884

There was an increase of 3,740 in the number of witnesses examined by Stipendiary Magistrates, and the percentage of those detained over two days fell from 5 2 during 1896 to 4 4, which is so far satisfactory The results were worst in Jalpaiguri (8 3) and Rangpur (9 3), in fact, the proportion in each of the three mufassal subdivisions of the latter district was over 12 per cent, notwithstanding the fact that the undue detention of witnesses at Gaibanda and Nilphamari has formed the subject of unfavourable comment for the past two years. Special attention is invited to the matter On the other hand, although the number of witnesses who deposed before Honorary Magistrates was less by 1,109 than in the preceding year, yet the percentage detained over two days rose from 8 7 to 9 2 The results were particularly unsatisfactory at Jalpaiguri (16 1), Nilphamari (24 4) and Pabna (14 1) Out of the small number of 70 witnesses examined, the Rangpur Sadar Bench detained 28 5 per cent. over two days, and the Lieutenant Governor agrees with the Commissioner that the fact that over 70 per cent of the persons on trial before them were acquitted or discharged is probably to some extent due to sheer weariness on the part of the complainants of the law's delays The proportion of decisions of Stipendiary Courts upheld on appeal improved, but fell off in the case of Honorary Magistrates For the satisfactory improvement in this respect at Bogra credit is given by the Officiating Commissioner to the late Mr. Batabyal. The proportion of police cases remanded six times

and over fell from 5 8 to 5 2 per cent , on the other hand, the percentage in Jalpaiguri rose from 2 9 to 9 1 About twice the number of prosecutions for bad livelihood were instituted in comparison with the previous year, the result doubtless of the increase in organised crime already referred to but the fact that nearly 25 per cent ended in acquittal would appear to indicate that more care might have been exercised in the selection of persons proceeded against The results of the trials of Sessions cases showed a percentage of 62 6 cases ending in conviction in comparison with 67 9 during 1896 Of the fines realisable during the year under report, 75 8 per cent were collected, the district of Rajshahi showing a large outstanding balance (Rs 5,2 9) at the close of the year The proportion of attendances of Honorary Magistrates to the number of times they were requested to was 72 per cent in comparison with 78 per cent in the previous year The statistics bear out the usual experience that while those sitting singly can be induced to attend with fair regularity, it is most difficult to form a Bench on the days appointed The Officiating Commissioner moreover, observes that the figures are misleading in so far as they include attendances of Honorary Magistrates even when by reason of the absence or unpunctuality of their colleagues no quorum was formed

Considerable progress was made in the extension of the daffadari system and the formation of chaukidari unions Mr Nolan observes that the system of ordering extra parades as a punishment for chaukidars in lieu of fining has answered well In the Lieutenant-Governor's opinion District and Subdivisional Officers cannot more usefully spend part of their time when on tour than in examining locally the details of village chaukidari assessment lists and remedying those cases where the well to-do benefit at the cost of the poor, instances of which, there is much reason to fear, are far from uncommon

7 *Land Revenue and Cesses* —The year opened with a large arrear demand of Rs 2,09,969, and the current demand of Rs 52,13,789 was Rs 18 41 in excess of that of the previous year, due chiefly to the resettlement of Terai jotes in Darjeeling The collections amounted to Rs 52,48,932, or 107 per cent of the current demand, and the remissions to Rs 5,639, leaving a balance outstanding on 31st March 1897 of Rs 1,71,309 The usual comparison of the percentage of the current collections to the current demand in the different classes of estates, with the accepted standards, is made below —

District	Permanently settled estates Per cent.	Temporarily settled estates Per cent.	Government estates under direct management Per cent
Standard	99	95	90
Rajshahi	99 47	99 48	91 21
Dinajpur	99 63		100
Jalpaiguri	100	100	62 96
Darjeeling	52 6	100	98 97
Rangpur	99 85	96 30	100
Bogra	99 48		84 67
Pabna	99 81	92 96	64 28
Divisional average	99 64	98 96	72 79

The results are on the whole satisfactory The short collections in permanently settled estates in Darjeeling are only nominally so The short collections in estates under direct management in Jalpaiguri, Bogra and Pabna are attributed generally to the scarcity in the early part of the year and to the fact that there were the arrears of the two preceding unfruitful years, but the total collections, however, did not equal the current demand in the two last districts Only 26 estates were sold out of 576 liable to sale for arrears of land revenue. The settlement operations in the Darjeeling Terai and the Jaipur Government estate in Bogra were concluded during the year

Out of a total grant of Rs 32,363 for miscellaneous and sanitary improvements, Rs 24,939 was spent in all, but the failure to utilise the balance has not been explained, an omission which should not recur in future years Of this, 26 per cent was expended on the construction of tanks and wells and 10 per cent on drainage and irrigation works In addition a sum of Rs 14,890 contributed by the Darjeeling Improvement Fund, was expended on various

works of improvement The grants for educational purposes and for the improvement of communications appear to have been made good use of

There was a distinct improvement in the administration of the Arrear Collection Department, 78 9 per cent of the total number of certificates to be dealt with being disposed of in comparison with 67 8 per cent in the previous year Progress was also made in clearing off the pending partition cases

8 *Wards' and Attached Estates.*—The Sankarpur Ward's estate in Dinajpur was released during the year after having been for twenty four years under the management of the Court, during which time the results were for the most part satisfactory The bulk of the estate was surveyed and settled and a total increase of Rs 26,734 obtained in the rent-roll by amicable agreement and by the reclamation and resettlement of waste and abandoned lands Excluding this estate, the total demand due from others under the management of the Court amounted to Rs. 3,80,714, of which Rs 1,93,014 was collected and Rs 15,932 remitted The percentage of total collections on total demand was 50 7 and on current demand 102 8 per cent In spite of the instructions given last year that reports should be submitted of the conduct of managers who persistently disobey the orders of Government as to the removal from the accounts of sums shown as outstanding but in reality hopelessly irrecoverable, it is still stated that sufficient action was not taken in this direction It is requested that no further time may be lost in giving effect to the frequently expressed wishes of Government on this subject

9 *Excise Stamps Income-tax* —There was a falling off of Rs 66,769 in the income derived from excise, which is attributable to the prevalent high prices and scarcity The season also was not a good one for the cultivation of ganja in the Naugaon subdivision of the Rajshahi district

There was a small increase of Rs 22,492 in the total stamp revenue collected The prosecutions instituted for infringements of the Act decreased noticeably, from 72 during 1896 97 to 33.

The demand on account of income-tax was assessed at Rs 3,32,201, or slightly in excess of that of the preceding year, and Rs 3,28 708 in all were collected The Commissioner remarks that the exercise of more vigilance in Rangpur might discover more assessees

10 *Railways and Public Works* —The surveys for three railway lines were completed during the year from Nator to Boalia in Rajshahi from Rampur Boalia *viâ* Godagari towards Malda, and from Godagari to Sultanpur The construction of the line from Cooch Behar to Jainte was commenced, and progress was made both with the land acquisition and earthwork on the line from Sultanpur to Kaliganj

Great damage was done to public buildings, especially in Rangpur and Bogra, by the earthquake The loss is estimated at four lakhs of rupees 242 tanks and wells were excavated by private individuals at a cost of Rs 1,31,655 and 113 by District Boards at a cost of Rs 20,631 The sum of Rs 70,682 was expended by District Boards on original works, mostly on bridges and improvements of existing roads, and of Rs 1,84,434 on repairs The Commissioner observes that the funds at the disposal of District Boards which are barely sufficient to maintain the existing roads, seldom permit of the construction of new lines of communication A small expenditure was incurred on arboriculture, a matter to which more attention should be given, as under systematic treatment it would in the course of years considerably increase the income of District Boards

11 *Education* —The Commissioner complains of the difficulty experienced in giving an account of the state of education in the Division in the absence of the report of the Inspector of Schools, and the matter will be brought to the notice of the Director of Public Instruction The information available is consequently somewhat meagre The number of schools of all kinds declined from 3,042 to 3,886, and of pupils in them from 117,650 to 115,508, the decrease being most marked in the case of primary schools The scarcity in the early part of the year and the disturbance of normal conditions after the earthquake appear to furnish sufficient explanation The percentage of boys of school going age at school declined consequently from 19 07 to 17 9 per cent , the proportion being highest in Bogra (21 4) and lowest in Rangpur

(15 6) There are technical schools at Rangpur and Pabna The total expenditure on education amounted to Rs 6,33,976, of which Rs 86,645 were contributed from Provincial revenues and Rs 1,53,604 by District Boards

12 *Hospitals and Dispensaries* —The number of dispensaries and hospitals open increased from 65 to 72, but their total income declined from Rs 1,23,533 to Rs 1,17,012, the total of private subscriptions and donations being less by Rs 17,168 than in the preceding year The number of patients treated both indoors and out increased considerably and amounted to 316,537 against 289,157 during 1896 97 It does not appear that efforts have been made to increase the number of these very useful institutions Persons locally interested might be induced to guarantee the means needed for erecting the requisite buildings and procuring the yearly supply of medicines, the District Board supplying the instruments and the necessary staff

13 *Local Self Government Institutions* —The matter of the working of the Local Self Government institutions is not dealt with by the Commissioner in detail pending the submission of the usual special report on the subject The Lieutenant-Governor is glad to observe that it is stated that the party—feeling in the Dinajpur Municipality is dying out, and that the Commissioners are applying themselves vigorously to the sanitation of the town The District Engineer of Jalpaiguri resigned, with forfeiture of pension, during the year though the investigation into the charges against him was rendered unsatisfactory by the formation of party cliques during the consideration of the evidence adduced

14 *Conduct of zamindars* —The landlords of the Division generally are mentioned as having administered their properties in a satisfactory manner, but the non-resident landholders of Pabna are reported to leave their affairs too much in the hands of their subordinates, and to have done little to assist their raiyats during the recent scarcity

15 The Lieutenant Governor thanks Mr Nolan for his able and successful administration of the Division and Mr O'Donnell for his interesting report

By order of the Lieutenant-Governor of Bengal,

F A SLACK,

Offg Secretary to the Govt. of Bengal

Extracts from the Annual General Administration Report of the Rajshahi Division for the year 1897-98

* * * * * * *

III.—WEATHER AND CROPS

10 (a) Weather. The following statement shows the rainfall as compared with the average of the last decade —

District	Average of last ten years.	Actual of 1897-98	Excess	Deficiency
1	2	3	4	5
Rajshahi	56 13	51 98		4 15
Dinajpur	66 56	61 04		5 52
Jalpaiguri	135 06	134 27		0 79
Darjeeling	123 75	117 00		6 75
Rangpur	81 71	86 51	4 80	
Bogra	62 54	55 05		7 49
Pabna	57 13	54 81		2 32
	83·27	82 86		0 41

The rainfall of the year was deficient in comparison with the average of the last ten years in all the districts except Rangpur, where an excess of 4 80 inches was recorded. The deficiency is noticeable in Bogra, being 7 49 inches. Still I would describe the rainfall as good, without being excessive or short of agricultural requirements. It had the added advantage of being well distributed. There were good showers everywhere in April, and all the chief crops of the year germinated well. The rains of September and August were ample to provide moisture till the harvesting of the winter rice. In Rangpur, however, the Collector writes —

"Excessive rainfall in the months of September and October caused floods in the Kurigram and Gaibanda subdivisions and to a lesser extent in Nilphamari. The beds of the rivers and low lands generally having been raised by the earthquake of 12th June, the flood water could not pass off in the usual way, and overflowed the banks and inundated the country. I am afraid the Gaibanda and Kurigram subdivisions, more especially the former, will be liable to floods every rain until the rivers have time to cut out channels of the old depth or to raise the surrounding country by depositing silt—either of which processes will necessarily take time. The floods did some damage to the winter rice crop in parts of Gaibanda, and also affected the outturn of sugarcane."

11. (b) Crops. The following statement shows the outturn of the principal crops as estimated in annas in the returns prepared for the Agricultural Department —

District	Autumn rice		Winter rice.		Jute		Tobacco.		Indigo.		Sugarcane.		Silk		Tea		Maize	
1	2		3		4		5		6		7		8		9		10

* Revised figures

From these figures it follows that the year was a fruitful one, all the principal crops showing a much increased outturn compared with the preceding year There is said to have been a slightly smaller outturn of indigo and silk, but no cause for decrease has been reported The outturn of both autumn and winter rice, though far better than that of 1896 97, fell below an average crop, if 16 annas is interpreted to mean an ordinary good crop, but as a matter of fact the departmental interpretation is never followed by subordinate officers or by the peasantry, to whom 16 annas means, and always will mean, a bumper or ideal crop The Agricultural Department is knocking its head against a stone wall in trying to give a fictitious meaning to an idiom of the vernacular which is centuries old This high authority on agricultural matters has, in my opinion, recently gone off at another tangent in introducing percentages— 100 to represent an average crop. I will refer to this subject under "Statistical Enquiries" The confusion that results from arbitrary definitions is shown in the following remarks of Mr. Clark, the Collector of Rangpur —

"The winter rice crop is reported as a 15 anna one for the whole district, but I must say that, if the average crop of the district is better than the crop I saw this year, the cultivators must be an exceedingly prosperous lot I have certainly never seen a better average crop, and only occasionally a better crop on small areas of newly-cleared jungle land in Assam"

The autumn crop of Indian corn in Darjeeling was excellent, whilst in Bogra and Dinajpur bumper crops of sugarcane were obtained

IV —PUBLIC HEALTH

12 The rate of recorded mortality in the different districts was as follows —

District	Deaths per thousand	
	1896	1897
1	2	3
Rajshahi	40 24	36 2
Dinajpur	37 71	34 79
Jalpaiguri	39 89	34 03
Darjeeling	51 43	42 16
Rangpur	37 80	38 12
Bogra	30 36	29 72
Pabna	36 35	40 05
Total	37 74	36 2

These figures are admittedly inaccurate, but they form a relative guide Thus it may be safely said that the past year was a more healthy one in Rajshahi, Dinajpur, Jalpaiguri, and especially in Darjeeling than the preceding one, whilst in Pabna it was less healthy. At the census of 1891 it was ascertained by actuarial treatment of the returns that the average death-rate of Northern Bengal was 42 2, so that in both years under consideration it is probable that many deaths, chiefly those of infants, escaped registration by the rural police Still in the past ten years there has been a great improvement in these statistics

Mr Nolan has left the following observations on the subject —

"It will be observed that the death-rate was considerably lower than in the previous year, and that the improvement was very marked in Rajshahi, the district in which the

conditions most nearly approximated to those of famine The District Magistrate attributes it to the heavier rainfall and the higher flood of the Ganges. He adds —

'The most unhealthy part of the district is a tract comprising the thanas of Boalia, Puthia Nator, Barraigram, and Singra, in which there is a large number of swamps and some dead rivers The general complaint is that the channels which at one time connected the *bils* and the inland rivers with the Ganges have been obstructed, so that in a year of heavy rainfall the rain water does not find its way out and makes the soil water logged An old silted up channel running northwards from the Ganges at a point some seven miles to the east of the sadar station was re excavated as a test-relief work in the early part of the year with the result that a large tract of low lying country was inundated with water conveyed through this channel as soon as the Ganges reached a high flood level The effect on the health of the population of the tract supplied with water through this channel was beneficial The decrease in mortality was marked in the Darjeeling hills, but the health was even worse than usual in the Terai The slight rise in Rangpur was due to an epidemic of cholera, which carried off 7,200 persons'

"It was most severe along the course of the great rivers—the Brahmaputra, Tista and Dharla, a fact which the Magistrate properly quotes as adverse to the theory that it was caused by the filling up of wells by the earthquake. The Civil Medical Officer of Bogra observes that in his opinion most of the cases reported as cholera were really dysentery or diarrhœa Mr Batabyal considers that cholera is spread by the washing of jute in stagnant pools, and it certainly recurs at the season when this is done, that is at the close of the rains He observes —

'In the alluvial tracts the earthquake spoilt almost all the drinking-water wells, but the bad effect was not very much felt, as the calamity occurred in the rainy season and the tracts in question were inundated The health of the people therefore did not suffer from scarcity of water, although the wells were spoilt There was a serious outbreak of cholera during the latter part of the year, and it was most marked in thana Sharsakandi, which accounts for nearly half the deaths from this disease in the whole district throughout the year Medical aid was sent to the suffering people in this thana *gratis* at the cost of the District Board Probably the Civil Medical Officer is right in thinking that a good many of these cases were not really cholera, but an aggravated form of diarrhœa brought on by the use of new rice at the end of a season of scarcity'

"In Pabna alone was there an increase in the number of deaths from the usual cause, which is fever It is attributed to the small rainfall of 1896, which left a deficiency in the first months of 1897"

ACCIDENTAL AND SUDDEN DEATHS

13 The figures showing total number of accidental and sudden deaths in 1897 were as follows —

District	Men	Women	Children	Total	Total for 1896	Remarks
1	2	3	4	5	6	7
Rajshahi	237	317	499	1,053	755	
Dinajpur	205	212	370	787	830	
Jalpaiguri ...	101	49	91	241	215	
Darjeeling	51	20	18	89	67	
Rangpur	217	209	362	788*	660	* Includes persons killed in the earthquake of 12th June 1897
Bogra ..	116	162	251	529	419	
Pabna	139	183	339	661	527	
Total	1,066	1,152	1,930	4,148	3,473	

No district officer has recorded any comments on the variations in these figures, though in Rajshahi at least there was much reason for remark

(*b*) Vaccine operations in the district

14 The following table shows the statistics regarding vaccination in 1897-98 and in the previous year in the several districts, *exclusive* of operations in municipalities —

District	Number of thanas in which the operations were carried on		Number of villages in which the operations were carried on		Number of persons vaccinated.		Successful		Unsuccessful		Unknown	
	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-97	1897-98
1	2	3	4	5	6	7	8	9	10	11	12	13
Rajshahi	15	14	2 243	2 155	48,908	48 740	46 966	47 596	2·7	1 144		
Dinajpur	16	16	4 102	2 760	54 962	45 493	52 184	43 710	2 175	2 843	246	141
Jalpaiguri	8	8	(a)	(a)	19 901	18 632	18 753	18,108	738	664		
Darjeeling	4	4	No villages		19 581	20 402	19 342	20 181	102	96	132	175
Rangpur	16	16	1 709	1 709	47 4.5	47 430	47 017	47,080	488	274		12
Bogra	9	8	1 109	985	19 893	18 940	19 211	18 192	182	118		
Pabna	8	8	1 ..36	1 050	30 180	30 857	29 664	37 827	802	2,080		
Total	74	74	10 518	9,177	2,38 962	2 38 990	229 362	231 673	4 222	6 960	378	348

(*a*) The Civil Medical Officer has not furnished the figures.

These figures show a considerable increase in the number of persons vaccinated in the rural tracts of the districts of Rajshahi, Darjeeling, and Pabna, with some falling off in the remaining four districts The increase is large only in Pabna, and the decrease is marked only in Dinajpur, where it is attributed to the fact that "during the year under report only one half of the district was taken up" for vaccine operations, while the decrease in Bogra is due to the transfer of thana Nawabganj to the Rajshahi district Out of 238,990 persons vaccinated in the Division, the operations proved successful in 231,673 cases, *i e*, in 96 9 per cent, against 97 6 per cent in the preceding year

The percentage of failure, (3 1) seems larger than it should be, and it would seem to suggest that the lymph employed is not always in good condition Probably, in a climate like this, the fact is not to be wondered at

(*c*) Vaccine operations in municipalities

15 The following table shows the statistics regarding vaccination in municipalities in 1897-98 and the previous year —

District	Name of Municipality	Number of persons vaccinated		Successful.		Unsuccessful		Unknown	
		1896-97	1897-98	1896-97	1897-98	1896-97	1897-98	1896-9	1897-98
1	2	3	4	5	6	7	8	9	10
Rajshahi	Rampur Boalia ..	1 067	1 118	840	926	206	192	12

Bogra	Bogra	198	222	166	202	27	20		
	Sherpur ..	161	159	146	145	15	5		
Pabna	Pabna	924	727	698	470	226	251		
	Sirajganj ..	780	657	496	475	284	182	..	
	Total ..	7,989	6 506	6 258	5,486	1,090	1 070	100	10

There has been a considerable decrease in the number of vaccinations in towns as a whole, but an increase in the municipalities of Rampur Boalia,

Natoi, Jalpaiguri, Darjeeling, and Bogra The increase in Jalpaiguri is attributed to the fact that the operation was carried on throughout the year without interruption, while in Bogra it is due to the vaccination of a number of adult up country coolies, working on the Brahmaputra Sultanpur Branch Railway Out of 6,566 persons vaccinated, the operation was successful in 5,486 cases, *i e*, in 82 6 per cent The contrast between the result of the operations in the rural parts of the districts and in the towns is very striking It suggests the high percentage in rural areas is unreliable, and possibly to be attributed to incorrect reporting The Collector of Rangpur observes that "I do not myself believe that this figure can be accepted as absolutely reliable Either the testing is not to be depended upon, or many of the unsuccessful cases are not brought into account Probably both of these causes are really at work" If the town percentage is to be accepted as true for both urban and rural tracts, it would mean that one out of every five cases is a failure, which would be a fact requiring serious consideration If it also means that 18 per cent of the population were unprotected, the only matter of astonishment is that small pox is not epidemic as well as endemic

V —MATERIAL CONDITION OF THE PEOPLE

16 The following remarks of the Collector of Rajshahi apply to the whole Division, except the tea areas in the Duars, the Terai, and the Darjeeling hills —

'The bulk of the population of this district consists of agriculturists, and their material condition depends entirely upon the outturn of their crops Owing to failure during 1896-97 much distress prevailed among the people up to the end of August 1897 Prices ruled very high, and relief works had to be opened at different places No trace of distress, however, remained in December, when a fair outturn of the winter rice was obtained, and the agricultural population has now almost completely recovered from the effects of the late scarcity The condition of the middle class, with small fixed income, was very bad Their income remained stationary, while the cost of living greatly increased"

The Collector of Rangpur adds a little colour to the picture —"The soil," he writes, "is fertile and easily worked, and though the rent paid by the actual cultivators is in many cases somewhat high (always so where the zamindar jotedar chukanidar raiyat system prevails), there is in ordinary years an abundant margin for the food of himself and his family, for clothes—an item on which his expenditure is not excessive, for a few ornaments for his women folk, and, most expensive luxury of all, for a case in the civil or criminal court For some reason or other the bone of contention, at any rate in the criminal courts, is usually a woman—his own wife or his neighbour's or some recently bereaved widow, whose husband has left her with a little property The morals, indeed, of the lower classes leave much to be desired Opium ganja and country liquor are not very largely used, much less so than they used to be, as I find the quantity of opium sold in 1871 72 was close upon 166 maunds, or about three times the quantity sold now The umbrella is of course universal, kerosine oil is used by the poorest, and corrugated iron is extensively employed throughout the district for roofing purposes Comparing the prices which prevailed some 25 years back with those now ruling there has been a very marked increase in most of the ordinary articles of food Thus common rice sold in December 1872 in Rangpur at 25 seers to the rupee, this year, at the same time, it was selling at 11 seers Probably this rise is largely due to the increased facilities for exportation The increased amount of ready money thus brought into the district probably fully compensates the cultivator for any increased price that he may have to pay for the few articles he has to buy There is no large class of poor gentry, nor is the landless labourer common amongst the indigenous population"

The past year may be said to be one of fair comfort, crops being much more abundant, prices much easier, and health appreciably better than in the preceding twelve months

VI—EMIGRATION AND IMMIGRATION

Emigration

17 There is very little to report under this head Six hundred and seventy two men were recruited in Darjeeling for military service under Government, of whom 439 went as muleteers on the Tirah expedition and 233 to the Burmah Rifles and Frontier Police Two hundred coolies were also supplied to the Lushai survey party in Silchar for transport work Their enlistment does not really, constitute emigration from this Division, as they were for the most part immigrants from Nepal There is said to have been some movement in quest of labour amongst new Santhal and Dhangar settlers in the Naugaon subdivision of Rajshahi They seem to have found their new homes less profitable than they expected, and have "trekked" again

Immigration

18 The tea gardens of Darjeeling and the Western Duars receive their coolies from two chief sources - Nepal and Chota Nagpur Their number is steadily increasing with the extension of cultivation in the older gardens and the opening out of new gardens The cooly population, however, is always fluctuating, and has its period of ebb and flow At the commencement of the tea season large numbers come in, and many return to their homes when the busy season is over Those from Chota Nagpur often settle permanently in the Duars and take to agriculture

The influx of up country labourers in the cold season from Jaunpur, Saran, and Ghazipur still continues, and, in fact, goes on increasing They find employment as harvesters, thatchers, palki bearers, road coolies, and so forth The number of Santhals migrating to Dinajpur and Rangpur is appreciable The Collector of the latter district observes —

"There are some Santhal colonies in the south of the district and one or two Garo villages near Ulipur in the south east corner They appear to be increasing slowly in size, but the latter settlers at all events are losing much of their individuality, and will probably in a few years be scarcely distinguishable from the indigenous Rajbangsis In one village which I visited I could only find one set of the ponderous earrings, which are so characteristic of the Garo women, and even this had been discarded, and none of the younger girls had their ears pierced at all"

VII—PRICES OF FOOD AND LABOUR.

(a) Prices of food
(b) Do of labour

19 The price of rice, which is the staple food of the Division, fell from 9 seers, the average rate per rupee at the close of the last year, to 12½ seers, that of wheat also declined, but that of gram showed a slight increase The prices however, of rice and wheat were not so low as in 1895-96. There was a rise in wages in some places In Rajshahi all forms of labour commanded a higher remuneration, except that of common blacksmiths, while in Dinajpur and Rangpur the increase appeared in the wages only of masons and carpenters, whose labour was in much demand to repair the damage done to buildings by the earthquake In Pabna also there was a slight increase in the earnings of carpenters In the other districts wages remained stationary

* * * * *

IX—TRADE AND COMMERCE

24 The trade of the Rajshahi Division is almost entirely with Calcutta and the statistics of the traffic between it and the metropolis cover nearly all the mercantile transactions of the seven districts which form the Division There is a small trade with Tibet, which will be separately noticed, and petty local transactions with neighbouring districts, but they do not form an appreciable portion of the total trading operations of the Division

25 The following statement shows the export trade of the Division with Calcutta by various routes —

Statement No III—Showing the trade between Calcutta and the districts of the Rajshahi Division carried by rail, road, river (country-boat and steamer) during the year 1897-98 as compared with the preceding year

Exports from the Rajshahi Division to Calcutta

26 Jute, raw and manufactured, is the staple product of the Division There was an increase of about 10 lakhs of maunds in the export of jute, raw during the year under report, due chiefly to the large crop of this fibre The short rice harvest in all the districts, which are jute producing also forced the people to part with their stocks of jute in order to buy grain The decrease in gunny-bags to 6,392,409 from 8,830,641 in the preceding year was due to the destruction of the Sirajganj Jute Mills in the earthquake of June 1897 Only 37,667 maunds of food grains were exported, against 4,51,242 maunds in the previous year, and this great decrease was entirely caused by the scarcity prevailing in most of the rice producing districts The increase in the quantity of tobacco exported was nominal and needs no comment.

27 The subjoined table shows the import trade of the Division from Calcutta under the principal heads of commodities during the year under report as compared with 1896-97 —

Statement No IV—Showing the trade between Calcutta and the districts of the Rajshahi Division carried by rail, road, river (country boat and steamer) during the year 1897-98, as compared with the preceding year

The value of European cotton piece goods imported fell from 108 lakhs to 99 lakhs of rupees, in consequence of the bad harvest of the previous year and the impoverished condition of a large section of the population The import of salt likewise decreased by about 2 lakhs of maunds The increase in the import of kerosine oil shows the steady extension of its use

28 The following statement No V shows the rail borne up and down traffic of the Division —

The most noticeable facts are an increase in rice imported from 6,10,361 maunds in 1896-97 to 7,66,908 maunds in the year under review. Refined sugar increased from 52,115 maunds to 75,125, whilst unrefined sugar decreased from 1,60,136 to 1,43,245 maunds. The import of salt also fell from 9,02,701 to 6,70,605 maunds and of coal from 2,53,273 to 2,04,727 maunds. Excluding jute and rice, noticed above, the most important change in export was a decrease in tea from 4,37,419 to 3,79,952 maunds, in spite of a large increase in the area under tea cultivation in the Jalpaiguri Duars.

29. The following statement shows the principal articles of commerce between British territory and the States of Nipal, Tibet, Sikkim, and Bhutan during 1897-98 —

There was a considerable increase in the quantity of food grains imported into the Division from the Frontier States during the year of report and a less noticeable increase in the import of Indian cotton piece goods, wool, raw and manufactured, ghee, and most other articles of commerce. As to the export trade, there was a decrease in European piece goods, but an increase in Indian cotton piece goods, while the export of wool, manufactured, fell unusually low.

* * * * *

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

(a) Railways and railway feeder roads.

79. The survey operations commenced last year for a branch railway from Nator to Boalia in Rajshahi have been completed during the year under report. This line would form a link in the most important cross country railway in Bengal, viz., that from Hazaribagh to Sirajganj *vid* Giridhi, Dumka, Nalhati, Azimganj, and Nator. Two other lines were surveyed—one from Rampur Boalia *viâ* Godagari towards Malda, and the other from Godagari to Sultanpur crossing the Barind.

A sum of Rs. 383 was spent in surveying the projected tramway line from Raiganj to Lahiri in the Dinajpur district. The construction of the narrow gauge railway from Cooch Behar to Jainti, 31½ miles *viâ* Alipur in the district of Jalpaiguri, was commenced in the latter part of the year. The

Cooch Behar State Railway will terminate on the west bank of the river Kaljani, and the remaining portion of the line will be the property of Government The whole of the land required for the branch line from Sultanpur to Kaliganj *vid* Bogra was demarcated, and the first 35 miles acquired The earthwork of about 40 miles and the bridging of the first fifteen miles were also completed during the year A telegraph line from Bogra to Sultanpur was erected along the embankment

The railways of this Division suffered very severely during the earthquake, and Mr Clark, the Collector of Rangpur, expresses the general opinion of the public when he says that, "considering the damage done, the Railway authorities worked wonders in restoring communication as soon as they did"

Railway feeders

The State grant for the construction of feeder roads in Dinajpur and Pabna was withdrawn in consequence of the stress of other financial demands, and nothing was therefore done in this connection during the year

Other public works

Imperial and provincial buildings were maintained under the supervision of the District Boards till October 1897, when their charge was resumed by the Public Works Department The earthquake of the 12th June 1897 did very great damage to the public buildings in this Division, specially to those at Rangpur and Bogra, many of which were entirely wrecked, the damage done being estimated at four lakhs of rupees The progress made in their reconstruction and repair has been slow, and Government has recently increased the engineering staff

(b) Steamer service

80 The steamers that ply between Goalundo and Patna, touching at Damukdia, Rampur Boalia, and Godagari, are reported, as they were last year, to have worked unsatisfactorily The India General Steam Navigation Company maintained the steam ferry service between Pabna and Kushtia The District Board is contemplating the stoppage of the subsidy of Rs 5,000 paid annually to the Company, as this important communication should be self-supporting and yield a profit to good management

(c) Tanks wells roads &c constructed, &c by private individuals and by the District Boards

81 The total number of tanks and wells, roads and bridges, and other works of public utility constructed and repaired during the year 1897 by private individuals at their own cost, together with their cost, are shown in the following table —

Districts	Number of tanks and wells.	Cost	Number of roads and bridges	Cost	Hospital, school, and other public utility	Cost
1	2	3	4	5	6	7
		Rs		Rs		Rs
Rajshahi	173	92,913				
Dinajpur	17	5,665				
Jalpaiguri			4	4,118	3	450
Darjeeling						
Rangpur	11	2,865				
Bogra	19	12	1	200		
Pabna	22	30,200	1	2,000		
Total, 1897	242	1,31,655	6	6,318	3	450
Total, 1896	131	82,599	7	6,790	8	7,800

There has thus been a great increase in the number of tanks excavated by private persons. Hindus justly regard this piece of public work as a pious act of charity, and the continuance of this opinion is to be devoutly wished for

The following table shows the number of tanks and wells sunk, excavated or repaired by the several District Boards, and the amount expended on this account during the year —

District	Number of tanks excavated or re excavated	Cost	Number of wells sunk or repaired	Cost	Total cost	Remarks
1	2	3	4	5	6	7
		Rs		Rs	Rs	
Rajshahi	1	100	8	2,303	2,403	
Dinajpur			18	1,708	1,708	
Jalpaiguri		...	4	480	480	
Darjeeling						
Rangpur			57	1,528	1,528	
Bogra			7	500	500	
Pabna	4	10,433	11	3,579	14,012	
Total	5	10,533	108	10,098	20,631	

The great majority of Boards wisely, as I believe, confine their efforts to the construction of wells The results obtained in Pabna, where this practice has been departed from, are not commensurate with the cost Moreover, as appears in the last paragraph, it is safe to leave the excavation of tanks to private charity From the sanitary point of view a well is a much safer source of water supply if it is properly built, with a high parapet and a wide platform to prevent soiled water percolating back into the well On the other hand, it is difficult to prevent a tank from being used as a bathing place, not only by men but by animals Moreover, a tank is fed principally by surface flood water, which is generally extremely impure and often loaded with sewage In wards' estates I always refuse sanction to new tanks, whilst every effort to extend well making is encouraged

* * * * * * *

FAIRS

99 The Nokmurd fair held on the borders of Dinajpur and Purnea during the month of April is the most important in the Division The following statistics regarding it were collected by police agency I fear they are not very accurate

I —LIVE STOCK.

Description of animals sold	Number sold		Total prices realised		Average price per head		Remarks
	1896	1897	1896	1897	1896	1897

Miscellaneous, including fancy articles, blankets, durries, &c	350	60,000	40 500	
Earthenware	60	2,000	1,600	

Three rather large fairs are annually held in Jalpaiguri The fair at Alipore lasted from 10th to 26th January The estimated value of articles reported to have been sold was Rs 5,000, against Rs 3,500 in the preceding year both figures being probably much below the fact A grant of Rs 200 was made by Government to meet expenditure connected with this fair, chiefly on conservancy This gathering helps to promote trade between Bengal and Bhutan The Falakata fair commenced on the 26th January 1898, just after the breaking of the Alipore fair and lasted for more than a fortnight, the Government grant being Rs 300 The fair at Jalpesh, which is the largest and the oldest in the district, was held on the 19th February 1898 and lasted till the 8th March 1898

The annual agricultural show at Kalimpong, in the district of Darjeeling, was held on the 24th and 25th November 1897 and was well attended, the total number of visitors, including Europeans, being estimated at 5,000 Rupees 500 were contributed by the Darjeeling Improvement Fund, Rs 500 by the Agricultural Department, and Rs 165 by the Veterinary Department of Government to meet expenses, and a considerable amount was also raised by local subscriptions Veterinary Captain Raymond, who visited the fair, found the number and quality of Bhutia ponies above those of the preceding year Mules were also distinctly better, cattle from Nepal, both bulls and cows, are reported to have been very good

* * * * * * *

XXXVII —GENERAL REMARKS

167 The great earthquake of the 12th June is the most memorable event of the year, and it will be a very long time before all traces of it disappear or the people of the country forget it It will very probably form in fact, from which occurrences will be dated in future years Nearly every masonry building in the Division was seriously injured, and a large number, including several public offices, were reduced to ruins in a few minutes

Amidst the distress, which prevailed during the year, the Diamond Jubilee of Her Most Gracious Majesty the Queen-Empress of India was celebrated throughout the country with great loyalty

Frontier relation with Nepal and Bhutan continued to be friendly, whilst nothing of importance arose in connection with the Sikkim State

In regard to the Provident Fund Companies, described at some length in last year's report, the Collector of Rangpur writes —

"The funds which were so conspicuous last year are now practically defunct, some having collapsed quietly and others having been wound up by the District Judge under the Companies Act"

The Collector of Pabna also records the following remarks —

'I have had some experience of these Loan Companies or Benevolent Societies in another district, and am strongly of opinion that Government would be doing a kindness to the *raiyat* if it stepped between him and them The *raiyat* will believe anything when he sees a prospect of obtaining a loan of money, whilst the company promoters have usually the best intentions in the world, but unfortunately are without subscribed capital, and failure is bound to come sooner or later'

RESOLUTION ON THE ADMINISTRATION REPORT OF THE STATIONERY DEPARTMENT FOR 1897 98

FINANCIAL DEPARTMENT—MISCELLANEOUS

Calcutta, the 28th November 1898

RESOLUTION—No 6095Mis.

READ—

Letter No 690B, dated the 30th August 1898, from the Board of Revenue, submitting the Report on the Administration of the Stationery Department for the year 1897 98

THE following statement compares the value of the stocks, receipts, and issues of the Stationery Office for the past two years —

	1896-97 Rs	1897-98 Rs
Value of stores at the beginning of the year	7,70,778	7,21,058
Gain (+) or loss (—) by revaluing the opening balance at the issue rates of the year	+50,327	—25,337
Corrected value of stores at the beginning of the year	8,21,105	6,95,721
Value of stores received during the year	23,74,970	29,26,351
Total	31,96,075	36,22,072
Value of stores issued during the year	24,75,017	29,41,253
Value of stores in stock at the close of the year	7,21,058	6,80,819
Gain (+) by valuing the stores in stock at the close of the year 1897 98 at the issue rates of the year		+36,435
Corrected value of stores at the close of the year		7,17,254

2 In accordance with the orders of the Government of India, a price-list is prepared every year in the Stationery Office, based on the average of the prices of the previous nine months, and the issues of the year are valued according to this list The receipts, however, are originally valued with reference to the invoice and actual prices paid for the articles, plus a percentage for charges, and the value of the stock balance at the end of the year as hitherto shown merely represented the difference between the value of the receipts and issues thus calculated, added to or subtracted from, the value of the stock balance at the beginning of the year This of course was merely a paper value In order, therefore, that the accounts of each year might be closed once for all, the Superintendent of Stationery was directed in future to calculate the closing balance of each year at the issue rates of that year When this closing balance is carried forward to be the opening balance of the following year, it is recalculated according to the rates of that year In this way the transactions of each year are complete in themselves, and the closing balance will correctly represent the value of the stores in stock at the end of the year Effect has been given to these orders in the present report

3 The value of stores received and issued during the year rose by Rs 5,51,381 and Rs 4,66,236, respectively, as compared with the preceding year, but the value of the stores in stock at the close of the year decreased by Rs 3,804 The increase in the value of the receipts was due to an advance of Rs 1,67,469 in the value of imported stores, of Rs 2,90,372 in the value of country made paper, of Rs 39,752 in the value of country made miscellaneous articles, and of Rs 17,300 in the value of English stores purchased locally

The rise in the value of imported stores was mainly due to the receipt from England of 100 tons of various kinds of paper for comparison with similar paper locally manufactured and of certain stores due on indents of the previous year, while that in the value of paper locally purchased is attributed to the introduction into the North Western Provinces and Oudh of water marked paper for use with adhesive Court-fee stamps, to the supply of different kinds of paper to the Government Press at Allahabad on account of the previous year's indent, which at the request of the indenting officer was deferred till March 1897, to an increase in the demand of the Postal Press at Aligarh and of the Presses under the Government of India, and the Governments of Bengal, Punjab, Burma, and Central Provinces, and to the increased requirements of regimental officers on field service during the Frontier disturbances Larger purchases of cream wove envelopes from the Bally Paper Mills, of leather envelopes for regimental officers on field service, and of water colours, writing and binding materials and miscellaneous articles enhanced the value of country made miscellaneous articles The advance in the value of English stores purchased locally is ascribed to the Superintendents of Government Printing, India and Bengal, having increased their demands for tub sized foolscap paper and hand made medium and bank post papers, to the purchase of cream laid foolscap and note papers of special kinds required for certain high officers, to the more extensive purchases of cyclostyles, type writers and their accessories, travelling and screw-top inkstands and automatic pencils for staff and regimental officers on field service, and of padlocks, the demand for which increased considerably

4 The value of stores issued to Local Governments, including Vernacular Departments, rose by Rs 1,76,006, and all the Provinces, except Upper Burma shared in the increase The largest increase, amounting to Rs 62,032, took place in Bengal The value of stationery used by officers and departments of the Government of India rose by Rs 2,07,014 The fluctuations will, as usual, be explained in the reports on the consumption of stationery which the Superintendent submits to the several Local Governments and to the Government of India The issues to the Postal and Telegraph Departments show an increase of Rs 28,843

5 The stock of country made articles in store at the close of the year has been further reduced, and now represents less than one month's consumption This is satisfactory, as it is bad economy to keep any considerable stock of articles which can be procured as required

6 The quantity of water-marked paper issued for use with adhesive Court fee stamps rose by 19,300 reams, and its value by Rs 62,725 The increase is mainly attributable to the fact that the Government of the North Western Provinces and Oudh, which purchased this kind of paper for the first time during the year under review, were supplied with 16,294 reams There was also an increase in the amount supplied to Bengal, Assam, the Punjab and the Native States of Orissa, and a decrease in the amount supplied to the Central Provinces and the Hyderabad Assigned Districts

7 The income and expenditure of the Stationery Department amounted to Rs 4,993 and Rs 1,09,877 against Rs 5,014 and Rs 1,03,601 respectively in the previous year The decrease in the receipts was mainly due to the realisation of a smaller amount than in the year before, on account of the 10 per cent commission on the sale of stationery supplied on payment while the advance in expenditure is chiefly attributable to an increase under the head "Packing cases" and in other expenses incidental to the despatch of a large number of cases of water marked paper to the North Western Provinces and Oudh, and of numerous cases and parcels of stationery to the North Western Frontier for the Tirah Expedition Contingent charges other than these showed a slight decrease

8 The total value of the different articles of stationery issued, exclusive of deficiencies in stock taking and miscellaneous adjustments, rose by Rs 4,64,679 This advance is attributed to the increased demands of the various Government Presses and to the very large requirements of the Military Department on account of the Frontier war The principal increases occurred under Writing paper (Rs 1,19,094), Printing paper (Rs 1,45,995), Coloured paper (Rs 22,562)

Water marked paper (Rs 62,817), Carbonic, Papyrographic, and other kinds of paper (Rs 32,710), Leathers (Rs 33,124), and Other articles (Rs 20 442) The most marked decrease was under the head "Tracing cloth," which shows a falling off of Rs 12,364, while there were considerable decreases under the heads "Drawing paper," "Blank books," "Drawing materials" and "Parchment" The supply of paper to the various Government Presses shows an increase of Rs 2,26,641, and all the Presses, with the exception of the Assam Press shared in the advance The consumption of the Government of India Presses was the largest, the increase amounting to 20,799 reams valued at Rs 1,09,774 In Bengal there was an increase amounting to 8,197 reams valued at Rs 55,476 An explanation of this increase will be submitted by the Superintendent in his report on the consumption of stationery and printed forms in Bengal for the year, but no explanation with regard to the fluctuation in the demands of other Presses can be given as they are not under the Superintendent's control

9 The substitution of country made for European paper and of country-made miscellaneous articles for articles of European manufacture effected a net gain of Rs 30,696 and Rs 7,538 respectively The use, however, of country made paper of the particular descriptions known as white printing, blotting, white cartridge, coloured, badami cartridge, cream wove, and azure laid, resulted in a loss of Rs 1,22,816 The Superintendent has submitted an alternative statement showing that if all charges, incidental to the receipt of paper from England, including landing charges, godown rent, storage charges, loss of interest, and railway freight, were taken into account, there would be no loss from the use of country made white printing paper, while the total loss from the other kinds of country made paper enumerated above would be reduced to Rs 40,532 In paragraph 9 of the Resolution on the Report for 1896 97 the loss from the substitution of country made white printing white cartridge, and coloured mottled grey papers for similar paper of European manufacture was noted, and it was requested that before entering into contracts with the local mills for the supply of papers of those descriptions during 1898 99, the Standing Committee, appointed to consider the questions that from time to time arise in connection with the substitution of country made for English stationery and the settling of contracts for Indian made stationery, should decide whether, in the event of mill owners refusing to reduce their rates sufficiently to ensure Government against loss papers of these descriptions should not be obtained from England It was found impossible, however, to obtain samples for comparison before entering into contracts for 1898 99, and the matter was held in abeyance till the result of the current year's tender was known It is estimated that a loss of Rs 66,530 will accrue from the use during 1898 99 of the seven kinds of paper above enumerated under which there was a loss during the past year, but the Secretary of State has lately been indented on for ten tons of each of these kinds of paper, and the Lieutenant Governor desires that, on the arrival of these samples, the matter may be referred for the consideration of the Standing Committee and their report submitted to Government

10 The system of supplying newspapers and periodicals through the Stationery Office worked satisfactorily during the year The number of newspapers and books and maps supplied fell off by 234 and 2,484 respectively, but that of exercise books and periodicals rose by 4,427 and 27 The total payment on account of newspapers, &c, amounted to Rs 84,420 against Rs 1,20 324 in the preceding year The decrease of Rs 35,904 is said to be mainly due to smaller demands and to the favourable rate of exchange obtained when sending remittances for the purchase of foreign periodicals and books

11 The receipts and issues of standard and special forms, exclusive of the survey and settlement forms, printed and supplied direct by the Superintendent of Government Printing, show an increase of 16,665,312 and 6,171,806, respectively, as compared with 1896-97 The advance in receipts is attributed to the receipt of printed copies of certain newly-introduced forms, to larger demands of local officers, and to certain forms which were due in 1896 97 and others which were not due till 1898 99 having been supplied during the year of report The first two of these causes led in turn to an increase of issues

The details of the work in the Form Branch will be reviewed when the report on the consumption of stationery by the various officers under the Government of Bengal is received.

12 The receipts of the Form Branch amounted to Rs 37,763 and the charges to Rs 47,637 against Rs. 36,757 and Rs 48,578, respectively, in 1896-97 The increase in receipts was due to a larger demand for forms by the Local Funds in Bengal and Assam, while the decrease in charges was due to no extra establishment having been employed, and to a reduction in freight charges by the India General and British India Steam Navigation Companies.

13 The Lieutenant Governor notices with satisfaction the reforms which have been introduced during the year in the working of the Department and trusts that they will be successful in preventing delay in the issue of indents, and in restricting stocks to the lowest possible working level

14 The thanks of the Lieutenant-Governor are again due to Mr Beames, the Superintendent of Stationery, for his efficient administration of the Department during the year

ORDER.—Ordered that a copy of the Resolution be forwarded to the Board of Revenue, for information, and that their special attention be invited to paragraph 9 of the Resolution
